#### DEPARTMENT OF NATURAL RESOURCES Organizational Plan

The goal of the Department of Natural Resources is to provide a unified organizational structure for the management of Missouri's natural resources

The Director, appointed by the Governor and confirmed by the Senate, is the chief executive officer and appointing authority of the Department of Natural Resources. The Director is empowered to allocate and reallocate duties and functions to create an organization which promotes the economical and efficient administration of the agency's duties.

Councils and Commissions assigned to the Department of Natural Resources by Type II transfers retain their policy-making authorities. Those assigned are the Air Conservation Commission, the Clean Water Commission, the Missouri Mining Commission, the Soil and Water Districts Commission and the State Oil and Gas Council. The Department of Natural Resources is comprised of the Office of Director, Administrative Support, and programmatic divisions. These programmatic divisions are Environmental Quality, Energy, State Parks, and Missouri Geological Survey.

OFFICE OF THE DIRECTOR

The Office of the Director is the central management unit within the Department of Natural Resources. It is responsible for implementing statewide environmental and natural resource policies resulting in environmentally-sound and energy-efficient decisions that protect our air, land, and water while fostering economic development; managing the organizational units within the Department; and promoting efficient administration and operations.

ADMINISTRATIVE SUPPORT

The Division of Administrative Support includes the functions of budget development, financial resource allocations, audit, accounting, human resources, procurement, grants, general services, and employee payroll.

ENVIRONMENTAL QUALITY
The Division of Environmental Quality oversees the state's environmental management for water pollution and drinking water, air pollution control, hazardous waste management, and solid waste management. The division also includes environmental services and regional office functions and activities. The Division of Environmental Quality helps Missouri citizens thrive by managing natural resources to promote a healthy environment and economy by promoting environmental responsibility and resource stewardship and enhancing services to the regulated public.

Financial Assistance Center is dedicated to helping Missouri communities plan, finance and build water infrastructure projects that improve the lives of Missourians. The Department operates several grant and low-interest loan programs that provide state and federal funds for the construction of adequate wastewater, stormwater, and drinking water treatment facilities. These funds are primarily provided to public entities, but some funds are available to qualifying private entities. The construction of the public drinking water and wastewater treatment facilities is expensive, and many Missouri communities need financial assistance to meet these costs.

Water Protection Program promotes clean and safe water for all Missourians including drinking water, surface water, and groundwater for recreational, agricultural, residential, commercial, and industrial uses. To accomplish this goal, the program provides financial and technical assistance, issues permits, conducts compliance assistance, and classifies water bodies to protect their uses. Encompassed in the program is the Nonpoint Source (NPS) Management Program which provides federal Clean Water Act Section 319 implementation grants to accomplish significant results in the control and mitigation of NPS pollution.

Water quality studies provide funding to help protect the integrity of public water systems and the quality of groundwater, streams, and lakes. The Department administers projects, subgrants, and contracts to protect water quality. Routine testing of public water systems is conducted for possible contamination, thereby ensuring that the drinking water supplied by public water systems is safe and protecting the health of Missouri's citizens. The Department gathers information through studies to assist communities in assessing the technical, managerial, and financial capability of public water systems and determine the most appropriate course of action for a small public water system to protect and maintain the quality of the source of its water and to ensure citizens are consistently provided with clean water that is safe to drink.

The Concentrated Animal Feeding Operation Indemnity Fund provides monies to close certain lagoon structures placed under state control due to bankruptcy, failure to pay property taxes, or abandonment.

Air Pollution Control Program strives to maintain and improve the quality of Missouri's air to protect public health, general welfare, and the environment. The program operates according to the Missouri Air Conservation Law and the Clean Air Act.

The program issues construction and operating permits to help ensure facilities are built in compliance with the laws and rules designed to protect public health. The program, working with the Department's regional offices, identifies facilities that are not in compliance and works with them to reach compliance.

By collecting air monitoring and emission inventory information, the program provides benchmark data for the state's air-quality planning efforts. Air monitoring data can be measured against that benchmark to provide an indicator of whether air pollution control in Missouri is successful. In the St. Louis area, the Department and the Missouri State Highway Patrol oversee the joint vehicle emissions and safety inspection programs.

The program also provides financial assistance to entities through grants or contracts to carry out activities aimed at reducing air pollution.

Waste Management Program operates two federally-authorized Resource Conservation and Recovery Act (RCRA) regulatory programs, one pursuant to 40 CFR Part 258, Subtitle D that permits, enforces, and oversees sanitary landfills, and one pursuant to 40 CFR §272.1300 authorizing Missouri to administer and enforce a hazardous waste management program in lieu of the Federal RCRA Subtitle C program.

Under RCRA Subtitle D and state laws and regulations, the program issues permits, enforces, and oversees sanitary, demolition, special waste, and utility waste landfills; solid waste

processing facilities, such as transfer stations; infectious waste processing and transfer facilities; and material recovery facilities; as set forth in the Solid Waste Management Law. Program staff conduct civil investigations of illegal dumping and investigate possible migration of methane gas from solid waste disposal areas and seepage of leachate and methane gas into groundwater. The program plans and oversees scrap tire dump cleanup activities; awards scrap tire material resurfacing and market development grants; reviews scrap tire hauler, processor, and site permits; and provides technical assistance for beneficial use determinations. The program, working with a statewide network of partners, strives to protect the environment and public health by minimizing solid waste generated by Missouri citizens, businesses, and institutions through effective and efficient materials management through Department oversight of the 20 Solid Waste Management Districts and the district grant program.

Under RCRA Subtitle C and state laws and regulations, the program issues permits, enforces, and oversees the management of hazardous waste production and oversight of hazardous waste generation, transportation, storage, disposal, and corrective action. The program also conducts Polychlorinated biphenyls (PCB) compliance monitoring, complaint investigations, and inspections in accordance with the federal Toxic Substance Control Act.

The Solid Waste Management Program Specific Distribution (PSD) provides approximately \$10 million annually to the solid waste management districts for administration and funding of community-based reduce, reuse, and recycle grants. This grant program builds solid waste management infrastructure to better use materials that otherwise would have been disposed of in landfills or illegally dumped. Through projects funded by the district grant program, opportunities are provided to communities throughout Missouri to create and/or retain "green jobs" in the recycling sector of the Missouri economy. These grants encourage waste reduction, reuse, recycling, energy recovery, and efficient processing of Missouri's solid wastes. Local governments, small and large businesses, schools, sheltered workshops, and individuals seek and receive grants to support activities to remove materials from the waste stream and return the materials for beneficial reuse or energy recovery. The program also supports the removal of illegally dumped scrap tires from the environment by providing funds for tire dump cleanup activities, as well as funding scrap tire material surfacing grants.

Financial Assurance Instruments (FAIs) are collateral provided to the state by hazardous and solid waste facilities, such as Treatment, Storage, and Disposal Facilities (TSDFs), corrective action sites, landfills, certain solid waste processing facilities, and scrap tire site owners/operators. The FAIs guarantee implementation of corrective action, closure, and/or post-closure activities should the owner/operator fail to do so or is no longer capable of doing so. Sufficient financial assurance is needed to ensure corrective action, closure, and/or post closure activities for solid waste and hazardous waste facilities are conducted when needed to protect public health and the environment. In part, this involves activities required to ensure closed solid waste landfills have adequate funding and controls in place to ensure environmental protection for at least 30 years after the landfill closes. Such activities include: maintenance or replacement of the landfill cover, which costs several thousands of dollars per acre; an adequate soil/vegetative cap to prevent water infiltration; methane gas monitoring to protect public safety; monitoring for potential groundwater and surface water impacts; crosion control; and grounds keeping (i.e., mowing and removal of trees).

Pollution Prevention, the program promotes safe operations and handling of waste by registering

3

hazardous wastes, maintaining waste generation reporting and by providing compliance assistance to registered facilities.

<u>Environmental Remediation Program</u> protects human health and the environment by remediating hazardous substances and petroleum waste leaked, dumped, or deposited onto Missouri lands.

Statewide site remediation is provided by the following Staff Sections: Underground Petroleum Storage Tanks, Superfund (Comprehensive Environmental Response, Compensation, and Liability Act), Brownfields Voluntary Cleanup, Federal Facilities Section and Environmental Restoration. The cleanup of contaminated sites promotes property re-use, regulates the management, closure, and risk-based cleanup of petroleum storage tank sites, and ensures long-term stewardship of sites where contamination remains. The Environmental Remediation Program's major functions are:

<u>Pollution Prevention</u> – Prevents environmental damages and impact to public health; promotes safe operations of more than 3,000 underground storage tank sites; and provides training and equipment to first responders along radioactive material transportation routes.

Remediation – The program addresses environmental contamination through investigation, remediation of contaminated sites, and restoration of land to productive use; implements laws that require responsible parties to be accountable for contamination; facilitates environmental remediation when parties seek to voluntarily clean up contaminated sites; and provides oversight of parties conducting remediation.

<u>Stewardship</u> – The program implements long-term stewardship measures, performs operation and maintenance activities, conducts inspections, and maintains a registry and on-line mapper, providing information to the public on appropriate and productive reuse of properties.

<u>Environmental Restoration</u> – The program assesses, restores, or rehabilitates injured natural resources.

The program also provides financial assistance to entities through grants or contracts to carry out activities that promotes a healthy environment and economy.

Environmental Services (ESP) provides field support and monitoring functions throughout Missouri. The Environmental Emergency Response Section maintains a 24-hour per day support and response capability for hazardous substance releases, radiological incidents, homeland security events, and natural disasters. Local fire departments, haz-mat teams, law enforcement, and first responders rely upon these services. Many of these incidents require an on-scene response to assess the situation, provide technical assistance to on-site responders, and ensure that the hazardous substance release was properly cleaned up. ESP includes the state's environmental laboratory, which is certified by the U. S. Environmental Protection Agency (EPA). The program performs chemical analysis of public drinking water supplies, and also collects and analyzes air, water, and soil samples. In cases where a responsible party cannot be located or fails to take timely action, ESP may hire a contractor to address threats to public health or the environment.

The Regional Offices and Central Field Operations are located throughout the state of Missouri and work in partnership with the DEQ environmental programs to protect the state's air, land, and water resources, which are important for Missouri citizen's quality of life and the economy. The program provides consistent, efficient delivery of services closer to where Missourians live and work. This is accomplished through timely compliance assistance, inspection, on-site visits to permitted facilities, wastewater and air burn permit issuance, and investigating reported environmental concerns. Regional offices are located throughout the state to provide more local access to those the Department serves.

ENERGY
The Division of Energy advances the efficient use of diverse energy resources through financial and technical assistance and education. It supports business and community development and the use of diverse in-state resources and energy efficiency through interaction with utility companies, Public Service Commission staff, the Department of Natural Resources' environmental programs, and the Department of Economic Development's business expansion and attraction operations. The Division operates as the designated State Energy Office, directing the use of federal State Energy Program funds to support state-led energy initiatives.

<u>STATE PARKS</u>
Missouri state parks and historic sites are administered by the Division of State Parks pursuant to Chapter 253, RSMo. The Division's primary responsibilities are the administration of the Missouri state park system, and coordination of statewide programs in the areas of outdoor recreation and trails. The Missouri state park system contains 92 state parks and historic sites plus the trails of Roger Pryor Pioneer Backcountry. The mission of the Division is to preserve and interpret the state's most outstanding natural landscapes and cultural landmarks, and to provide outstanding recreational opportunities compatible with those resources

The Division of State Parks also administers programs in the areas of outdoor recreation and trail grants. Federal Land and Water Conservation Fund grants are available to cities, counties and school districts to be used for outdoor recreation facilities, and land acquisition designed for the general public. Grants also are available to trail organizations and local governments for trail construction and maintenance through the National Recreation Trail Fund.

Director's Office: Staff within the Director's Office coordinate information to the public and provide guidance on issues of policy, risk management, information technology, human resources, and real estate transactions.

Business Services Program: The Business Services Program is responsible for procurement, budget, attendance, concession management and revenue collection, and provides financial and administrative services for the division.

Cultural Resource Management Program: The Cultural Resource Management Program researches, protects and interprets the cultural resources of the state park system and develops content for exhibits and other educational material to help the public to understand and appreciate the history of Missouri.

Grants, Recreation and Interpretation Program: The Grants, Recreation and Interpretation

Program provides resources, training and coordination for facility staff concerning interpretation, recreational programing and working with underserved stakeholders. The program also coordinates special events and trail management. The program also is responsible for grant management.

Natural Resource Management Program: The Natural Resource Management Program researches, protects and interprets the natural resources of the state park system and develops content for exhibits and other educational material to help the public understand and appreciate the natural resources of Missouri.

State Park Ranger Program: The State Park Ranger Program provides law enforcement and safety services for facilities and visitors.

Planning and Development Program: The Planning and Development Program prepares and coordinates all facility planning, design and development, as well as capital improvements and major repair projects.

Visitor Services Program: The Visitor Services Program is responsible for marketing activities and support for field operations through operational planning, customer service, policies and signage.

Regional Offices: Three regional offices assist in the operation and coordination of the state parks and historic sites and provide more local access to those the Department serves.

SHPO: The Department Director is the State Historic Preservation Officer, and the State Historic Preservation Office (SHPO) is also managed within the Division. SHPO works with citizens and groups throughout the state to identify, evaluate, and protect Missouri's diverse range of historic, architectural, and archaeological resources through its Section 106 review, federal and state tax credit review, National Register nomination evaluation, federal and state grant administration supporting historic preservation, and consultation and other responsibilities associated with the Missouri's Unmarked Human Burials Sites Act.

#### MISSOURI GEOLOGICAL SURVEY

The Missouri Geological Survey (MGS) includes the Geological Survey Program, Land Reclamation Program, Dam and Reservoir Safety Program, Water Resources Center, and Soil and Water Conservation Program.

The Geological Survey Program investigates the state's geology and provides geologic and hydrologic information to assist with decisions relating to economic development, site remediation, contaminant migration, subsurface investigations, and geologic hazards. The program also determines the character and availability of the state's energy and mineral resources. Staff implement the Water Well Drillers Act by establishing standards for domestic water wells, monitoring wells, and geothermal ground source heat pump wells. The Oil and Gas Remedial Fund is also administered to plug abandoned oil and gas wells with the potential to impact surface and groundwater resources which may pose a threat to human health. The fund also handles emergency situations, such as a leaking gas well.

The Land Reclamation Program regulates surface mining of coal and industrial minerals, regulates and administers reclamation of coal mine and industrial mine lands on which bonds were forfeited, regulates and administers reclamation of coal mine lands abandoned prior to 1977, and regulates the metallic-mineral waste disposal areas of mining operations.

The Abandoned Mine Land unit oversees the reclamation of abandoned mine sites in Missouri including sites abandoned prior to the Surface Mining Control and Reclamation Act of 1977. For coal sites abandoned prior to 1977, the program uses federal funds to directly contract for the reclamation activities at these sites.

The Mined Land Reclamation Fund provides pass-through appropriation authority for reclamation of sites where bonds have been forfeited on permit-revoked mine sites. Reclamation involves work to restore mined lands to productive uses such as agricultural, wildlife habitat, water impoundment, or development. The program may collect reclamation bonds and directly contract for the reclamation activities, or the program may allow the surety bond-holder to perform the reclamation in place of the original permit holder.

The Dam and Reservoir Safety Program administers the provisions of the Missouri Dam and Reservoir Safety Law. The Missouri Department of Natural Resources regulates nonfederal, nonagricultural dams 35 feet and higher through inspections, registration, and issuance of construction permits. Dams are a critical part of the state's infrastructure, providing many benefits including water supply, flood protection, hydropower, irrigation, and recreation. There are approximately 700 regulated dams. The program works with citizens, dam owners, engineers, and emergency managers to ensure dams in Missouri are constructed, maintained, and operated in a safe manner.

The Water Resources Center provides information for Missouri's comprehensive water needs by examining both surface and groundwater use and availability. Staff investigate water supply issues; maintain and update Missouri's Public Water Supply database for groundwater wells; collect, analyze, and distribute groundwater-level data from a statewide network of observation wells; evaluate public water supply wells; and provide casing and total depth specifications. Water Resources Center staff provide guidance and technical expertise for planning and development of regional water supply projects throughout Missouri. Staff defend the State's vital water resources interests, including those related to navigation, flood control, and other uses of the Missouri and Mississippi rivers before numerous interstate and interagency river basin associations. The Water Resources Center administers the Multipurpose Water Resources Program Fund through the provision of grants or other financial assistance and allows for the state to participate with a sponsor in the development, construction, or renovation of a water resource project providing a long-term solution to water supply needs.

The Soil and Water Conservation Program (SWCP) provides guidance and support to the Soil and Water Districts Commission and the 114 local Soil and Water Conservation Districts (SWCDs) throughout the state. SWCP administers the Cost-Share, Conservation Monitoring and District Grant programs, as well as various research and planning projects. Staff administers the conservation programs through the SWCDs for the control and reduction of soil erosion on agricultural land, and protection of water resources. Through these activities, nearly \$56 million is available for the installation of soil and water conservation practices on agricultural land, and to support the operation of each district.

#### ENVIRONMENTAL IMPROVEMENT AND ENERGY RESOURCES AUTHORITY

The Environmental Improvement and Energy Resources Authority (EIERA), under Chapter 260, RSMo, is an independent, self-supporting, quasi-governmental agency assigned to the Missouri Department of Natural Resources.

EIERA provides financing, research, and technical assistance for environmental and energy related projects. The authority:

- Issues municipal bonds to capitalize the State Revolving Fund (SRF) programs which provide low-interest financing for water and wastewater infrastructure.
- Provides financial assistance through the Market Development Program to small businesses that divert waste from landfills to create products with recycled materials.
- Issues municipal bonds on behalf of private and investor-owned utilities to finance pollution-prevention infrastructure projects.
- Provides low-cost financing and technical assistance to communities and businesses to assist with the cleanup of contaminated properties.
- Provides paying agent services to investor-owned utilities that fund low-income weatherization services.
- Provides paying agent services and technical and administrative assistance for environmental restoration efforts.

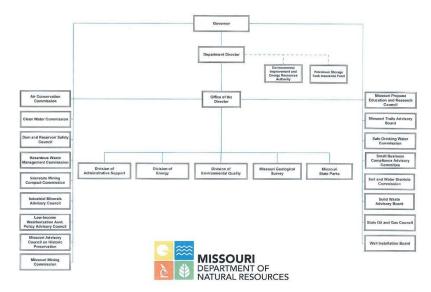

PETROLEUM STORAGE TANK INSURANCE FUND

Missourians who store/sell petroleum are required to have a financial responsibility mechanism to pay for costs of cleanup and third party damages if the tank or piping leaks. Private insurance to pay for costs of relating and third party damages in the tain of pining lears. Fivate insular is unavailable or prohibitively expensive for many small businesses that own tanks. The Petroleum Storage Tank Insurance Fund (PSTIF) provides an economical way for tank owners/operators to comply with this requirement. In addition, thousands of tanks sites in the state were contaminated with petroleum before environmental laws were enacted and are not economically viable due to environmental liability. The PSTIF also pays for cleanup of these sites, subject to statutory criteria, which stimulates redevelopment of these properties. The PSTIF is funded by a fee on all petroleum coming into the state and nominal fees paid by insured tank owners, and is managed by an 11-member board of Trustees.

#### State Board of Education

Under the Missouri Constitution (Article IX), the State Board of Education (board) has general authority for the "supervision of instruction in the public schools." This responsibility includes the oversight of educational programs and services that serve Missourians from preschool through the adult levels.

The board is composed of eight lay citizens, appointed by the governor and confirmed by the Senate to serve eight-year terms. The terms are staggered so that one term expires each year. No more than four members may belong to the same political party. No more than one member of the board may live in the same county or congressional district. Members of the board may not act individually. The board can only act when a state board meeting is held, and the board can only speak through its official records (§ 161.082, RSMo). Effective August 28, 2018, the governor shall appoint an active classroom teacher to the board (§ 161.026, RSMo). The teacher representative shall not have the right to vote on any matter before the board or be counted in establishing a quorum.

The board appoints the commissioner of education to serve as its chief executive officer and as the commissioner of the Department of Elementary and Secondary Education (DESE).

The primary role of the board is to provide leadership and advocacy for the improvement of Missouri's public education system. The board also establishes policies and regulations needed to carry out state and federal laws related to public education. The board's major duties include:

- Setting performance indicators that determine accreditation for local school
  districts through the Missouri School Improvement Program (MSIP). The current
  indicators define basic requirements regarding performance on assessments, both
  in aggregate as well as subgroups; high school graduation and/or dropout;
  advanced coursework; postsecondary and career preparedness; and other areas of
  student achievement;
- Establishing academic performance standards for public schools;

.

- Setting education and certification requirements for all professional personnel (teachers, administrators, librarians, counselors, etc.) in Missouri schools;
- · Approving public and private educator preparation programs in the state;
- Establishing regulations and administrative requirements for the distribution of state and federal funds to school districts and other agencies;
- Monitoring school districts' compliance with state and federal laws and regulations.
  This includes the administration of federally supported programs in the areas of
  special education, career-technical education, and child nutrition (the school lunch
  and breakfast programs);
- Providing guidance to school districts, when appropriate, on state and federal issues:
- Administering the State Board Operated School Systems—Missouri School for the Blind (St. Louis), Missouri School for the Deaf (Fulton), and Missouri Schools for the Severely Disabled; and
- · Administering adult learning and rehabilitation services for adult citizens.

#### Department of Elementary and Secondary Education

Article IX of the Missouri Constitution reads, in part: "A general diffusion of knowledge and intelligence being essential to the preservation of the rights and liberties of the people, the General Assembly shall establish and maintain free public schools for the gratuitous instruction of all persons in this state within ages not in excess of twenty-one years as prescribed by law."

To help carry out this mandate, the legislature first established a state office of education, with an elected state superintendent, in 1839. The office went through several transformations until the current constitution, adopted in 1945, established the board in its present form and created a department of education, headed by an appointed commissioner.

DESE was reorganized and established in its present form by the Omnibus State Reorganization  $\mathop{\rm Act}\nolimits$  of 1974.

DESE is primarily a service agency that works with educators, legislators, government agencies, community leaders, and citizens to maintain a strong public education system. Through its statewide school improvement initiatives and its regulatory functions, DESE strives to ensure all citizens have access to high-quality public education.

2

DESE is the administrative arm of the board. In addition to the commissioner of education, DESE's organization reflects functions under two divisions—Financial and Administrative Services and Learning Services.

#### Office of the Commissioner of Education

The commissioner of education directs DESE and fulfills other duties as prescribed by law (§ 161.122, RSMo). These duties include: supervising DESE; directing the process by which school districts are accredited; suggesting ways to upgrade curriculum and instruction in public schools; working with state and local officials to ensure efficient management of public schools; advising local school officials, teachers, and patrons about education-related issues; and seeking "in every way to elevate the standards and efficiency of the instruction given in the public schools of the state." The commissioner is appointed by and serves at the pleasure of the board.

#### Division of Financial and Administrative Services

This division is responsible for distributing federal and state funds to local school districts and other agencies that provide education-related services. The division assists local school officials with budgeting, audits, and the reporting of financial statistics, both state and federal. The division also provides assistance with school administrative and governance issues. Other personnel in this division administer the federally funded school lunch and breakfast programs. This division also manages DESE's internal business operations, such as accounting and procurement, budget, and human resources.

#### **Division of Learning Services**

This division is composed of offices that manage rehabilitation services, college and career readiness, data system management, educator quality, quality schools, special education, and childhood.

Office of Adult Learning and Rehabilitation Services
This office administers statewide services for vocational rehabilitation, disability determinations, independent living, and veterans' education training.

Vocational Rehabilitation assists eligible individuals with disabilities in achieving competitive, integrated employment. Statewide offices provide training and employment services, such as guidance and counseling, job placement, vocational training, and supported employment.

Centers for Independent Living (CILs) are located throughout the state providing services to individuals with disabilities that increase their independence and ability to participate in their communities. CILs offer services that include advocacy, information and referral, independent living skills, peer support, and transition.

The Disability Determination Services program determines medical eligibility for Missourians, across the state, who have filed for disability benefits with the Social Security Administration.

3

#### Office of College and Career Readiness

The Office of College and Career Readiness provides technical assistance to local school personnel in the adoption and implementation of the state's performance standards and curriculum development/adoption of all content areas—math, science, social studies, English/language arts, health/physical education, fine arts, and the career-technical content areas

This office is also responsible for the development and oversight of the Missouri Assessment Program (MAP), consisting of the annual, grade-level assessments for grades 3–8 and the high school end-of-course assessments, as well as the administration of the National Assessment of Educational Progress (NAEP) and the ACT® for all  $11^{\rm th}$  grade students. In addition, the office provides guidance and leadership in adult education and literacy (AEL), including high school equivalency and school counseling.

This office has fostered partnerships among schools, postsecondary institutions, and regional business and industry through the career pathways system. The career pathways system provides work-based learning experiences for teachers as well as students. These partnerships and networks permit educators to share best practices across the state and align meaningful pathways for students to become college and career ready.

Assistance is provided to local education agencies (LEAs) (including Career-Technical Education (CTE) shared-time centers) and community organizations in the application, approval, monitoring, and assisting process related to their federal funds in the CTE (Perkins) and AEL (Workforce Innovation and Opportunity Act (WIOA)) programming areas

#### Office of Literacy

Passed during the 2022 legislative session, SB 681 and 662 established the Office of Literacy. This office is responsible for planning, developing, and coordinating all aspects of literacy across the state, in addition to leading and implementing duties as prescribed in (Sections 161.241, 167.268, 167.645, 186.080 RSMo). These duties include providing educators evidence-based professional development and online tools aligned to effective reading strategies and instruction, collaborating with the literacy advisory council to establish a comprehensive system of services for reading instruction, establishing and updating a statewide literacy plan, publishing statewide reading outcome data, overseeing the Evidence-based Reading Instruction Program Fund, and identifying reading assessments and curricula aligned to evidence-based literacy.

#### Office of Data System Management

This office is responsible for the development and implementation of the Missouri Comprehensive Data System (MCDS), which includes the student-level record system, the Missouri Student Information System (MOSIS) and Core Data, a web-based data collection system of education-related statistics. This office collects and generates data to meet federal reporting requirements and compliance, as well as provide data utilized in research and analysis that impacts policy decision-making. Reports are created to help inform the public, including parents, about how well each public school in Missouri performs.

#### Office of Educator Quality

This office is responsible for approving public and private educator preparation programs. This office issues certificates (licenses) to all professional personnel who work in Missouri's schools, as well as assists with the review of certificate holders who are charged with misconduct

This office is responsible for the implementation of teacher, principal, and administrator standards; the implementation of Missouri's Educator Evaluation System; the training and support of teachers and principals; the implementation of the Missouri Leadership Development System; and the coordination of the Teacher Recruitment and Retention Grants

#### Office of Quality Schools

A primary function of this office is to manage the Missouri School Improvement Program (MSIP), the accreditation/accountability system for public school districts. This office administers a wide range of state and federally funded programs that assist local schools (Title I, Title III, and other ESEA federal programs), charter and other innovative schools, as well as developing and implementing a statewide system of support for schools, communities, and families. Schools are provided assistance on federally and state-developed improvement initiatives that are coordinated with other state and regional services.

This office is responsible for various programs including the Missouri Course Access and Virtual School Program (MOCAP) and Gifted Education. The Office of Quality Schools and the board oversee the administration and quality assurance activities for MOCAP. For Gifted Education, the office provides support and compliance monitoring for LEAs with gifted programs or with interest in starting a gifted program.

This office also provides support for LEAs serving homeless children and youth, neglected and delinquent students as well as foster care students.

#### Office of Special Education

The office works with local school districts in developing and improving special education services for students (ages 5–21) with disabilities. Guidance and training on best practices in supporting students with disabilities is provided through a comprehensive statewide system of supports.

Financial and technical support for all approved sheltered workshops in the state is provided through this office. Sheltered workshops provide employment for adults with disabilities.

The office oversees the operation of three school systems administered by the State Board of Education. These are the Missouri School for the Blind, the Missouri School for the Deaf, and the Missouri Schools for the Severely Disabled. In addition to providing direct services to eligible students with disabilities, these school systems, through their outreach

.

programs and consulting services, assist local school personnel and families throughout the state in meeting the needs of children with disabilities.

#### Office of Childhood

The Office of Childhood is responsible for overseeing the department's efforts to expand and improve high-quality early learning opportunities for children birth to age five, as well as, providing afterschool programs for school-age children. Programs administered through this office include early intervention, early childhood special education, home visiting, child care subsidy, and afterschool.

The office is responsible for policies and procedures related to quality incentives, such as the early learning standards and the quality assurance report pilot that supports educators in using best practices for young children and families. The office also provides various professional development opportunities to promote safe and quality early care and education environments through the Child Care and Development Fund (CCDF) program.

The office is responsible for conducting state inspections and investigating complaints at licensed family child care homes, group child care homes, and child care centers. Staff in the office also conduct health and safety inspections at licensed-exempt child care facilities (e.g., religious based programs, nursing schools).

An important initiative for this office is the Preschool Development Grant Birth to Five, a three-year grant aimed at coordinating a more effective, high-quality early learning system that better prepares Missouri children for success. The department is the lead agency for the grant and works closely with other state agencies and organizations, including Children's Trust Fund, the Department of Health and Senior Services, the Department of Social Services, the Department of Mental Health, and the Missouri Head Start State Collaboration Office.

Kenneth Zellers, Commissioner Office of Administration State Capitol Building, Room 125 Jefferson City, MO 65101

Dear Commissioner Zellers:

In accordance with the Reorganization Act of 1974, DHSS respectfully submits the attached update to the Department of Health and Senior Services departmental plan. Revisions to the plan include the following:

- The Section of Medical Marijuana Regulation in the Division of Regulation and Licensure has transitioned into the newly formed Division of Cannabis Regulation effective 11-9-2022. With the adoption of Missouri Amendment 3, Marijuana Legalization initiative (2022), the department's increased scope of cannabis responsibilities necessitates the creation of a division-level agency.
- In an effort to streamline processes and create efficiencies while promoting autonomy for multiple lanes of
  effort, the Division of Community and Public Health was re-organized by eliminating Section level
  organizational units. Bureau, office and units now directly report to division management which has
  resulted in an increase in timeliness and productivity.
- The Bureau of Special Health Care Needs was transferred from the Division of Community and Public Health to the Division of Senior and Disability Services. This is not reflected on the enclosed organizational chart because it resides within the existing Section for Home and Community Based Services. The shift of this bureau will ensure integrated coordination of care for this vulnerable population.
- Executive Order 17-01, dated January 6, 2017, rescinded Executive Order 86-06 which established the Governor's Advisory Council on Physical Fitness and Health within the Department of Health and Senior Services. This has been removed from the organizational chart included.

The updated department plan, organizational chart and executive salary schedule are enclosed for your approval.

Sincerely.

#### STATE OF MISSOURI DEPARTMENT OF PUBLIC SAFETY OFFICE OF THE DIRECTOR

December 8, 2022

Commissioner Ken Zellers Office of Administration Capitol, Room 125 Jefferson City, MO 65101

Dear Commissioner Zellers:

In accordance with Section 1.6(2) of the State Omnibus Reorganization Act of 1974, I respectfully submit for your approval the attached revised organizational plan for the Department of Public Safety, along with the revised organizational chart and the salary schedule for the administrators of the department and its divisions.

The plan has been updated to reflect the following changes:

- 1. In May of 2022, the House of Representatives and Senate passed HJR 116 which stated upon voter approval, this Constitutional amendment would establish a "Missouri Department of the National Guard." During the November 8, 2022 general election, Missouri voters passed Amendment 5 allowing the Missouri National Guard to establish its own department. Our narrative and the boards and commissions list have been updated to reflect the transfer of the National Guard from DPS. As the adjutant general appoints the Military Council, it will be included in this transfer.

# Report of the Missouri Citizens' Commission on Compensation for Elected Officials

November 30, 2020

#### A. INTRODUCTION

In order to ensure that the power to control the rate of compensation of Missouri's elected officials is retained and exercised by the tax paying citizens of Missouri, the Missouri Constitution calls for the creation of a commission known as the "Missouri Citizens' Commission on Compensation for Elected Officials" (the "Commission"). The Commission is comprised of Missouri residents selected both at random by the Secretary of State and by the Governor (by and with the advice and consent of the Senate) and meets biannually to hold public hearings throughout the state and to review and make recommendations regarding annual compensation of all elected state officials, members of the General Assembly, and non-municipal judges. Commission members are not compensated for their service (other than reimbursement for actual and reasonable travel expenses to attend Commission meetings).

The Commission members have been honored to serve the citizens of Missouri by fulfilling our responsibilities under the Missouri Constitution, and have performed due diligence to this end, reviewing and analyzing past commission reports, available comparative salary data and other economic data, and holding public hearings to provide citizens of Missouri an opportunity to provide testimony for review and incorporation into this final report. The Commission believes that the elected officials of our state in the executive, judicial, and legislative branches should now be given due compensation for their commitment to public service, and worked diligently to strike a balance between adequate compensation and budgetary restraints. By a vote of 16 to two with two absences, the report was approved. The Commission respectfully submits these recommendations regarding the fair and equitable compensation of our state's public servants with deference to budget constraints, economic conditions, and the ability of the state to sufficiently fund vital services.

#### B. OFFICIAL SCHEDULE OF COMPENSATION

### 1) FOR MEMBERS OF THE GENERAL ASSEMBLY

This schedule specifically authorizes a compensation approach for each member of the General Assembly.

The compensation payable to all members of the State of Missouri General Assembly for the fiscal years beginning July 1, 2021 and July 1, 2022 shall be increased by two and one half percent each year for the next two years. This equates to a five percent total increase over the two-year period for senator and representative positions. The percentage increase is slightly lower for leadership as the Commission recommends increasing compensation by the same dollar amount for all members in order to maintain the leadership differentials outlined in Sec. 21.140, RSMo. The following chart shows the specific dollar amounts each General Assembly member position shall be paid in each year.

General Assembly Members	FY 2022	FY 2023
Senators	\$36,813	\$37,711
Senate President Pro Tem	\$39,375	\$40,336
Senate Majority Floor Leader	\$38,350	\$39,286
Senate Minority Floor Leader	\$38,350	\$39,286
Representatives	\$36,813	\$37,711
Speaker of the House	\$39,375	\$40,336
Speaker Pro Tem of the House	\$38,350	\$39,286
House Majority Floor Leader	\$38,350	\$39,286
House Minority Floor Leader	\$38,350	\$39,286

Beginning in FY 2024, if no subsequent Commission Report has become effective by July 1, 2024, members of the General Assembly shall receive the same percentage increase as was received by Circuit Judges in their most recent yearly increase.

The total additional cost to the state of Missouri for the recommended salary adjustments to all General Assembly members is \$177,215 in FY 2022 and an additional \$177,215 in FY 2023.

To the extent members of the General Assembly are entitled to receive a per diem, they shall receive the per diem provided for in  $\S21.145$  RSMo.

To the extent members of the General Assembly are entitled to receive any mileage reimbursement, they shall receive the same reimbursement as State of Missouri employees.

#### 2) FOR STATEWIDE ELECTED OFFICIALS

This schedule specifically authorizes a two year compensation approach for all statewide elected officials.

The compensation payable to the Governor of the State of Missouri for the fiscal years beginning July 1, 2022 and July 1, 2023 shall be increased by two and one half percent each year for the next two years. This equates to a five percent total increase over the two-year period. This brings the salary equivalent to \$137,166 for FY 2022 and \$140,596 for FY 2023.

The compensation payable to the Lieutenant Governor of the State of Missouri for the fiscal years beginning July 1, 2022 and July 1, 2023 shall be increased by two and one half percent each year for the next two years. This equates to a five percent total increase over the two-year period. This brings the salary equivalent to \$88,646 for FY 2022 and \$90,862 for FY 2023.

The compensation payable to the Attorney General of the State of Missouri for the fiscal years beginning July 1, 2022 and July 1, 2023 shall be increased by two and one half percent each year for the next two years. This equates to a five percent total increase over the two-year period. This brings the salary equivalent to \$119,348 for FY 2022 and \$122,332 for FY 2023.

The compensation payable to the State of Missouri Treasurer, the Missouri Secretary of State, and the State of Missouri Auditor for the fiscal years beginning July 1, 2022 and July 1, 2023 shall be increased by two and one half percent each year for the next two years. This equates to a five percent total increase over the two-year period. This brings the salary equivalent to \$110,439 for FY 2022 and \$113,200 for FY 2023.

The total additional cost to the state of Missouri for the recommended salary adjustments to all statewide elected officials is \$36,813 in FY 2022 and an additional \$37,733 in FY 2023.

To the extent statewide elected officials are entitled to receive any mileage reimbursement, they shall receive the same reimbursement as State of Missouri employees.

#### 3) FOR JUDGES

The salary for judges shall continue to be calculated under the formula in effect on December 1, 2020. Any change in the salary under the formula shall be effective on July 1 and calculated on the basis of the federal judicial salaries in effect on the previous January 1.

To the extent judges are entitled to receive any mileage reimbursement, they shall receive the same reimbursement as State of Missouri employees.

#### C. ADDITIONAL RECOMMENDATIONS

The members of the Commission noted that there was very little time for analysis of salary information from the public and private sectors, and correspondingly, limited time for public notice of the Commission's meetings. The Commission makes the following recommendations:

- Several more months for the Commission to hold meetings before the report's due date;
- More advance notice and more overall publication of the public meetings. Specifically, the Office of Administration should utilize the State's social media accounts, including Facebook, Twitter, and Snapchat to publicize the meetings several weeks in advance.
- Additional on-the-record public meetings should be held in locations sufficient to provide all citizens
  of the state an opportunity to fully participate.

#### D. CONCLUSION

The members of the Commission had the opportunity to review the 2016 report of the previous commission and quickly understood the daunting task at hand. Without regard to the political affiliations of any current legislative or executive office holder, the Commission respectfully examined the extensive management responsibilities for state operations relative to these full time positions compared to other major private and public leadership positions. The commission determined that these positions are substantially underpaid for such major responsibilities.

Additionally, the Commission determined that although the legislator position may appear to be a parttime role in a citizens' legislature, the time required for the person elected to one of these positions is most often a full-time responsibility. The position entails more than just a January to mid-May, Monday through Thursday schedule. Constituents expect and need their legislators available for comments, concerns, and assistance year-round.

The Commission accepted the comparative salary information, the constitutional duties for the elected positions, and other relevant data requested and provided in its consideration of appropriate compensation. We noted that the statewide elected officials and legislators have foregone raises for the past thirteen years. This information provided the basis for the analysis of the salary gaps existing between Missouri public servants and other states' public servants and private entities. The Commission believes compensation provides opportunities for a broad demographic of individuals in early, mid, senior or retired career situations for service in these elected positions. Therefore, we feel it is important to begin a process of compensating these individuals as appropriate for their services. This is the first step toward resolving such inequities.

Future commissions would also benefit from formal testimony or communication from each of the state's constitutional officers, from a representative of the state's judiciary, and from the leadership from both houses of the General Assembly. Information from these officers will provide the Commission with a deeper understanding of their view of these issues. Although their testimony would in no way bind the deliberations of the Commission, their perspectives would serve to better inform the Commission.

This Commission met six times, including four public hearings, one discussion meeting and a working session and final report approval meeting. The meeting information is referenced in Section E of this report, which also includes a list of the Commission members.

We hope that this report is given appropriate consideration to achieve a fair and equitable compensation for our Missouri leaders, with the expectation that it will encourage and allow even more Missouri citizens to consider a public servant role.

## 2018 — SCR 36. Relating to Shingles Awareness and Prevention Month in Missouri.

Whereas, herpes zoster (shingles) is a disease caused by the same virus (zoster) that causes chickenpox; therefore, any individual who has contracted chickenpox is at risk for shingles, corresponding to approximately ninety-eight percent of U.S. adults; and

Whereas, nearly one in three people in the United States will contract shingles in their lifetime, corresponding to an estimated one million people annually; and

Whereas, the risk of shingles increases with age, with nearly half of those affected being over sixty years old and half of people living until eighty-five years old developing shingles; and

Whereas, shingles is a viral infection that causes a painful rash that can be severe, along with other symptoms, including long-term nerve pain, fever, headache, chills, upset stomach, muscle weakness, skin infection, scarring, and a decrease or loss of vision or hearing; and

Whereas, as many as twenty percent of adults who have contracted shingles will develop postherpetic neuralgia, a debilitating complication of shingles that causes severe pain and that may interfere with sleep and recreational activities and be associated with clinical depression; and

Whereas, vaccines have reduced the burden of widespread and often fatal diseases, enabling individuals to lead longer and healthier lives while reducing health care costs; and

Whereas, much attention has been paid to the importance of childhood vaccinations, but there is a general lack of awareness of adult-recommended vaccines and a misperception that immunizations are unnecessary for healthy adults; and

Whereas, the United States Centers for Disease Control and Prevention (CDC) and the Advisory Committee on Immunization Practices (ACIP) recommend that healthy adults fifty years and older be vaccinated against shingles to prevent shingles and shingles-related complications; and

#### Concurrent Resolutions Having Force and Effect of Law

Whereas, despite the recommendations of CDC officials and other experts that all healthy adults be vaccinated against shingles, as of 2015 only thirty percent of eligible adults had received the shingles vaccine; and

Whereas, the annual economic burden of shingles in American adults is estimated to be between \$782 million and \$5 billion; and

Whereas, the Institute of Medicine has stated that one of the six causes of excess costs in the U.S. health care system is missed prevention opportunities; and

Whereas, millions of American adults go without routine and recommended vaccinations because medical systems are not designed to ensure that adults receive regular preventive health care; and

Whereas, as the month of August is observed as National Immunization Awareness Month, residents of Missouri should be encouraged to speak with their health care provider to ensure that they have been properly vaccinated against shingles according to current CDC and ACIP recommendations:

Now, Therefore, Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, Second Regular Session, the House of Representatives concurring therein, hereby designate August as "Shingles Awareness and Prevention Month" in Missouri to increase public awareness of the importance of adults receiving vaccines against shingles and to promote outreach and education efforts concerning adult vaccinations; and

Be It Further Resolved that the Department of Health and Senior Services shall take appropriate action to promote Shingles Awareness and Prevention Month, including urging health care practitioners to discuss vaccines for shingles with adult patients and adopting appropriate programs and initiatives to raise public awareness of the importance of adult vaccinations; and

Be It Further Resolved that the Department of Health and Senior Services shall create and disseminate educational resources on shingles and shingles vaccinations to educate the residents of Missouri on vaccine-preventable diseases, including shingles; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to send a properly inscribed copy of this resolution to the Governor for his approval or rejection pursuant to the Missouri Constitution.

135.230. Tax credits and exemptions, maximum period granted calculation formula — employee requirements, waived or reduced, when motor carrier, tax credits, conditions — expansion of boundaries of enterprise zone — petition for additional period, qualifications. — 1. The exemption or credit established and allowed by section 135.220 and the credits allowed and established by subdivisions (1), (2), (3) and (4) of subsection 1 of section 135.225 shall be granted with respect to any new business facility located within an enterprise zone for a vested period not to exceed ten years following the date upon which the new business facility commences operation within the enterprise zone and such exemption shall be calculated, for each succeeding year of eligibility, in accordance with the formulas applied in the initial year in which the new business facility is certified as such, subject, however, to the limitation that all such credits allowed in sections 135.225 and 135.235 and the exemption allowed in section 135.220 shall be removed not later than fifteen years after the enterprise zone is designated as such. No credits shall be allowed pursuant to subdivision (1), (2), (3) or (4) of subsection 1 of section 135.225 or section 135.235 and no exemption shall be allowed pursuant to section 135.220 unless the number of new business facility employees engaged or maintained in employment at the new business facility for the taxable year for which the credit is claimed equals or exceeds two or the new business facility is a revenue-producing enterprise as defined in paragraph (d) of subdivision (6) of section 135.200. In order to qualify for either the exemption pursuant to section 135.220 or the credit pursuant to subdivision (4) of subsection 1 of section 135.225, or both, it shall be required that at least thirty percent of new business facility employees, as determined by subsection 4 of section 135.110, meet the criteria established in section 135.240 or are residents of an enterprise zone or some combination thereof, except taxpayers who establish a new business facility by operating a revenue-producing enterprise as defined in paragraph (d) of subdivision (6) of section 135.200 or any taxpayer that is an insurance company that established a new business facility satisfying the requirements of subdivision (8) of section 135.100 located within an enterprise zone after June 30, 1993, and before December 31, 1994, and that employs in

excess of three hundred fifty new business facility employees at such facility each tax period for which the credits allowable pursuant to subdivisions (1) to (4) of subsection 1 of section 135.225 are claimed shall not be required to meet such requirement. A new business facility described as SIC 3751 shall be required to employ fifteen percent of such employees instead of the required thirty percent. For the purpose of satisfying the thirty-percent requirement, residents must have lived in the enterprise zone for a period of at least one full calendar month and must have been employed at the new business facility for at least one full calendar month, and persons qualifying because they meet the requirements of section 135.240 must have satisfied such requirement at the time they were employed by the new business facility and must have been employed at the new business facility for at least one full calendar month. The director may temporarily reduce or waive this requirement for any business in an enterprise zone with ten or less full-time employees, and for businesses with eleven to twenty full-time employees this requirement may be temporarily reduced. No reduction or waiver may be granted for more than one tax period and shall not be renewable. The exemptions allowed in sections 135.215 and 135.220 and the credits allowed in sections 135.225 and 135.235 and the refund established and authorized in section 135.245 shall not be allowed to any "public utility", as such term is defined in section 386.020. For the purposes of achieving the fifteen-percent employment requirement set forth in this subsection, a new business facility described as NAICS 336991 may count employees who were residents of the enterprise zone at the time they were employed by the new business facility and for at least ninety days thereafter, regardless of whether such employees continue to reside in the enterprise zone, so long as the employees remain employed by the new business facility and residents of the state of Missouri.

- 2. Notwithstanding the provisions of subsection 1 of this section, motor carriers, barge lines or railroads engaged in transporting property for hire or any interexchange telecommunications company that establish a new business facility shall be eligible to qualify for the exemptions allowed in sections 135.215 and 135.220, and the credits allowed in sections 135.225 and 135.235 and the refund established and authorized in section 135.245, except that trucks, truck-trailers, truck semitrailers, rail or barge vehicles or other rolling stock for hire, track, switches, bridges, barges, tunnels, rail yards and spurs shall not constitute new business facility investment nor shall truck drivers or rail or barge vehicle operators constitute new business facility employees.
- 3. Notwithstanding any other provision of sections 135.200 to 135.256 to the contrary, motor carriers establishing a new business facility on or after January 1, 1993, but before January 1, 1995, may qualify for the tax credits available pursuant to sections 135.225 and 135.235 and the exemption provided in section 135.220, even if such new business facility has not satisfied the employee criteria, provided that such taxpayer employs an average of at least two hundred persons at such facility, exclusive of truck drivers and provided that such taxpayer maintains an average investment of at least ten million dollars at such facility, exclusive of rolling stock, during the tax period for which such credits and exemption are being claimed.
- 4. Any governing authority having jurisdiction of an area that has been designated an enterprise zone may petition the department to expand the

boundaries of such existing enterprise zone. The director may approve such expansion if the director finds that:

- (1) The area to be expanded meets the requirements prescribed in section 135.207 or 135.210, whichever is applicable;
  - (2) The area to be expanded is contiguous to the existing enterprise zone; and
  - (3) The number of expansions do not exceed three after August 28, 1994.
- 5. Notwithstanding the fifteen-year limitation as prescribed in subsection 1 of this section, any governing authority having jurisdiction of an area that has been designated as an enterprise zone by the director, except one designated pursuant to this subsection, may file a petition, as prescribed by the director, for redesignation of such area for an additional period not to exceed seven years following the fifteenth anniversary of the enterprise zone's initial designation date; provided:
- (1) The petition is filed with the director within three years prior to the date the tax credits authorized in sections 135.225 and 135.235 and the exemption allowed in section 135.220 are required to be removed pursuant to subsection 1 of this section:
- (2) The governing authority identifies and conforms the boundaries of the area to be designated a new enterprise zone to the political boundaries established by the latest decennial census, unless otherwise approved by the director;
- (3) The area satisfies the requirements prescribed in subdivisions (3) and (4) of section 135.205 according to the United States Census Bureau's American Community Survey, based on the most recent of five-year period estimate data in which the final year of the estimate ends in either zero or five or other appropriate source as approved by the director;
- (4) The governing authority satisfies the requirements prescribed in sections 135.210, 135.215 and 135.255;
- (5) The director finds that the area is unlikely to support reasonable tax assessment or to experience reasonable economic growth without such designation; and
- (6) The director's recommendation that the area be designated as an enterprise zone is approved by the joint committee on economic development policy and planning, as otherwise required in subsection 3\* of section 135.210.
- 6. Any taxpayer having established a new business facility in an enterprise zone except one designated pursuant to subsection 5 of this section, who did not earn the tax credits authorized in sections 135.225 and 135.235 and the exemption allowed in section 135.220 for the full ten-year period because of the fifteen-year limitation as prescribed in subsection 1 of this section, shall be granted such benefits for ten tax years, less the number of tax years the benefits were claimed or could have been claimed prior to the expiration of the original fifteen-year period, except that such tax benefits shall not be earned for more than seven tax periods during the ensuing seven-year period, provided the taxpayer continues to operate the new business facility in an area that is designated an enterprise zone pursuant to subsection 5 of this section. Any taxpayer who establishes a new business facility subsequent to the commencement of the ensuing seven-year period, as authorized in subsection 5 of this section, may qualify for the tax credits authorized in sections 135.225 and 135.235, and the exemptions authorized in sections 135.215 and 135.220, pursuant to the same terms and conditions as

prescribed in sections 135.100 to 135.256. The designation of any enterprise zone pursuant to subsection 5 of this section shall not be subject to the fifty enterprise zone limitation imposed in subsection 3\*\* of section 135.210.

The overpayment of the income tax for the first year shall not be refunded to the taxpayer until the third taxable year of operation by the new business facility and the overpayment of the income tax for the second year shall not be refunded to the taxpayer until the fourth taxable year of operation by the new business facility.

- 2. The portion of tax credit which is considered an overpayment of the income tax by any taxpayer who establishes a new business facility in an enterprise zone designated pursuant to subsection 5 of section 135.230 shall be limited to twenty-five percent or twenty-five thousand dollars, whichever is less, in the first year of the ensuing seven-year period. Such overpayment of tax shall not be refunded to the taxpayer until the third taxable year of operation by the new business facility.
- 3. Such refunds to the taxpayer shall be made as otherwise provided by law. In the case of a small corporation described in section 143.471 or a partnership, all

refunds allowed by this section shall be apportioned in proportion to the share of ownership of the business on the last day of the taxpayer's tax period for which such tax credits are being claimed, to the following:

- (1) The shareholders of the corporation described in section 143.471; or
- (2) The partners in a partnership.

- \*137.073. Definitions revision of prior levy, when, procedure calculation of state aid for public schools, taxing authority's duties. 1. As used in this section, the following terms mean:
- (1) "General reassessment", changes in value, entered in the assessor's books, of a substantial portion of the parcels of real property within a county resulting wholly or partly from reappraisal of value or other actions of the assessor or county equalization body or ordered by the state tax commission or any court;
- (2) "Tax rate", "rate", or "rate of levy", singular or plural, includes the tax rate for each purpose of taxation of property a taxing authority is authorized to levy without a vote and any tax rate authorized by election, including bond interest and sinking fund;
- (3) "Tax rate ceiling", a tax rate as revised by the taxing authority to comply with the provisions of this section or when a court has determined the tax rate; except that, other provisions of law to the contrary notwithstanding, a school district may levy the operating levy for school purposes required for the current year pursuant to subsection 2 of section 163.021, less all adjustments required pursuant to Article X, Section 22 of the Missouri Constitution, if such tax rate does not exceed the highest tax rate in effect subsequent to the 1980 tax year. This is the maximum tax rate that may be levied, unless a higher tax rate ceiling is approved by voters of the political subdivision as provided in this section;
- (4) "Tax revenue", when referring to the previous year, means the actual receipts from ad valorem levies on all classes of property, including state-assessed property, in the immediately preceding fiscal year of the political subdivision, plus an allowance for taxes billed but not collected in the fiscal year and plus an additional allowance for the revenue which would have been collected from property

which was annexed by such political subdivision but which was not previously used in determining tax revenue pursuant to this section. The term "tax revenue" shall not include any receipts from ad valorem levies on any property of a railroad corporation or a public utility, as these terms are defined in section 386.020, which were assessed by the assessor of a county or city in the previous year but are assessed by the state tax commission in the current year. All school districts and those counties levying sales taxes pursuant to chapter 67 shall include in the calculation of tax revenue an amount equivalent to that by which they reduced property tax levies as a result of sales tax pursuant to section 67.505 and section 164.013 or as excess home dock city or county fees as provided in subsection 4 of section 313.820 in the immediately preceding fiscal year but not including any amount calculated to adjust for prior years. For purposes of political subdivisions which were authorized to levy a tax in the prior year but which did not levy such tax or levied a reduced rate, the term "tax revenue", as used in relation to the revision of tax levies mandated by law, shall mean the revenues equal to the amount that would have been available if the voluntary rate reduction had not been made.

2. Whenever changes in assessed valuation are entered in the assessor's books for any personal property, in the aggregate, or for any subclass of real property as such subclasses are established in Section 4(b) of Article X of the Missouri Constitution and defined in section 137.016, the county clerk in all counties and the assessor of St. Louis City shall notify each political subdivision wholly or partially within the county or St. Louis City of the change in valuation of each subclass of real property, individually, and personal property, in the aggregate, exclusive of new construction and improvements. All political subdivisions shall immediately revise the applicable rates of levy for each purpose for each subclass of real property, individually, and personal property, in the aggregate, for which taxes are levied to the extent necessary to produce from all taxable property, exclusive of new construction and improvements, substantially the same amount of tax revenue as was produced in the previous year for each subclass of real property, individually, and personal property, in the aggregate, except that the rate shall not exceed the greater of the most recent voter-approved rate or the most recent voter-approved rate as adjusted under subdivision (2) of subsection 5 of this section. Any political subdivision that has received approval from voters for a tax increase after August 27, 2008, may levy a rate to collect substantially the same amount of tax revenue as the amount of revenue that would have been derived by applying the voter-approved increased tax rate ceiling to the total assessed valuation of the political subdivision as most recently certified by the city or county clerk on or before the date of the election in which such increase is approved, increased by the percentage increase in the consumer price index, as provided by law, except that the rate shall not exceed the greater of the most recent voter-approved rate or the most recent voter-approved rate as adjusted under subdivision (2) of subsection 5 of this section. Such tax revenue shall not include any receipts from ad valorem levies on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property. Where the taxing authority is a school district for the purposes of revising the applicable rates of levy for each subclass of real property, the tax

revenues from state-assessed railroad and utility property shall be apportioned and attributed to each subclass of real property based on the percentage of the total assessed valuation of the county that each subclass of real property represents in the current taxable year. As provided in Section 22 of Article X of the constitution, a political subdivision may also revise each levy to allow for inflationary assessment growth occurring within the political subdivision. The inflationary growth factor for any such subclass of real property or personal property shall be limited to the actual assessment growth in such subclass or class, exclusive of new construction and improvements, and exclusive of the assessed value on any real property which was assessed by the assessor of a county or city in the current year in a different subclass of real property, but not to exceed the consumer price index or five percent, whichever is lower. Should the tax revenue of a political subdivision from the various tax rates determined in this subsection be different than the tax revenue that would have been determined from a single tax rate as calculated pursuant to the method of calculation in this subsection prior to January 1, 2003, then the political subdivision shall revise the tax rates of those subclasses of real property, individually, and/or personal property, in the aggregate, in which there is a tax rate reduction, pursuant to the provisions of this subsection. Such revision shall yield an amount equal to such difference and shall be apportioned among such subclasses of real property, individually, and/or personal property, in the aggregate, based on the relative assessed valuation of the class or subclasses of property experiencing a tax rate reduction. Such revision in the tax rates of each class or subclass shall be made by computing the percentage of current year adjusted assessed valuation of each class or subclass with a tax rate reduction to the total current year adjusted assessed valuation of the class or subclasses with a tax rate reduction, multiplying the resulting percentages by the revenue difference between the single rate calculation and the calculations pursuant to this subsection and dividing by the respective adjusted current year assessed valuation of each class or subclass to determine the adjustment to the rate to be levied upon each class or subclass of property. The adjustment computed herein shall be multiplied by one hundred, rounded to four decimals in the manner provided in this subsection, and added to the initial rate computed for each class or subclass of property. For school districts that levy separate tax rates on each subclass of real property and personal property in the aggregate, if voters approved a ballot before January 1, 2011, that presented separate stated tax rates to be applied to the different subclasses of real property and personal property in the aggregate, or increases the separate rates that may be levied on the different subclasses of real property and personal property in the aggregate by different amounts, the tax rate that shall be used for the single tax rate calculation shall be a blended rate, calculated in the manner provided under subdivision (1) of subsection 6 of this section. Notwithstanding any provision of this subsection to the contrary, no revision to the rate of levy for personal property shall cause such levy to increase over the levy for personal property from the prior year.

3. (1) Where the taxing authority is a school district, it shall be required to revise the rates of levy to the extent necessary to produce from all taxable property, including state-assessed railroad and utility property, which shall be separately estimated in addition to other data required in complying with section 164.011,

substantially the amount of tax revenue permitted in this section. In the year following tax rate reduction, the tax rate ceiling may be adjusted to offset such district's reduction in the apportionment of state school moneys due to its reduced tax rate. However, in the event any school district, in calculating a tax rate ceiling pursuant to this section, requiring the estimating of effects of state-assessed railroad and utility valuation or loss of state aid, discovers that the estimates used result in receipt of excess revenues, which would have required a lower rate if the actual information had been known, the school district shall reduce the tax rate ceiling in the following year to compensate for the excess receipts, and the recalculated rate shall become the tax rate ceiling for purposes of this section.

- (2) For any political subdivision which experiences a reduction in the amount of assessed valuation relating to a prior year, due to decisions of the state tax commission or a court pursuant to sections 138.430 to 138.433, or due to clerical errors or corrections in the calculation or recordation of any assessed valuation:
- (a) Such political subdivision may revise the tax rate ceiling for each purpose it levies taxes to compensate for the reduction in assessed value occurring after the political subdivision calculated the tax rate ceiling for the particular subclass of real property or for personal property, in the aggregate, in a prior year. Such revision by the political subdivision shall be made at the time of the next calculation of the tax rate for the particular subclass of real property or for personal property, in the aggregate, after the reduction in assessed valuation has been determined and shall be calculated in a manner that results in the revised tax rate ceiling being the same as it would have been had the corrected or finalized assessment been available at the time of the prior calculation;
- (b) In addition, for up to three years following the determination of the reduction in assessed valuation as a result of circumstances defined in this subdivision, such political subdivision may levy a tax rate for each purpose it levies taxes above the revised tax rate ceiling provided in paragraph (a) of this subdivision to recoup any revenues it was entitled to receive had the corrected or finalized assessment been available at the time of the prior calculation.
- 4. (1) In order to implement the provisions of this section and Section 22 of Article X of the Constitution of Missouri, the term improvements shall apply to both real and personal property. In order to determine the value of new construction and improvements, each county assessor shall maintain a record of real property valuations in such a manner as to identify each year the increase in valuation for each political subdivision in the county as a result of new construction and improvements. The value of new construction and improvements shall include the additional assessed value of all improvements or additions to real property which were begun after and were not part of the prior year's assessment, except that the additional assessed value of all improvements or additions to real property which had been totally or partially exempt from ad valorem taxes pursuant to sections 99.800 to 99.865, sections 135.200 to 135.255, and section 353.110 shall be included in the value of new construction and improvements when the property becomes totally or partially subject to assessment and payment of all ad valorem taxes. The aggregate increase in valuation of personal property for the current year over that of the previous year is the equivalent of the new construction and improvements factor for personal property. Notwithstanding any

opt-out implemented pursuant to subsection 14\*\* of section 137.115, the assessor shall certify the amount of new construction and improvements and the amount of assessed value on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property separately for each of the three subclasses of real property for each political subdivision to the county clerk in order that political subdivisions shall have this information for the purpose of calculating tax rates pursuant to this section and Section 22, Article X, Constitution of Missouri. In addition, the state tax commission shall certify each year to each county clerk the increase in the general price level as measured by the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency. The state tax commission shall certify the increase in such index on the latest twelve-month basis available on February first of each year over the immediately preceding prior twelve-month period in order that political subdivisions shall have this information available in setting their tax rates according to law and Section 22 of Article X of the Constitution of Missouri. For purposes of implementing the provisions of this section and Section 22 of Article X of the Missouri Constitution, the term "property" means all taxable property, including state-assessed property.

- (2) Each political subdivision required to revise rates of levy pursuant to this section or Section 22 of Article X of the Constitution of Missouri shall calculate each tax rate it is authorized to levy and, in establishing each tax rate, shall consider each provision for tax rate revision provided in this section and Section 22 of Article X of the Constitution of Missouri, separately and without regard to annual tax rate reductions provided in section 67.505 and section 164.013. Each political subdivision shall set each tax rate it is authorized to levy using the calculation that produces the lowest tax rate ceiling. It is further the intent of the general assembly, pursuant to the authority of Section 10(c) of Article X of the Constitution of Missouri, that the provisions of such section be applicable to tax rate revisions mandated pursuant to Section 22 of Article X of the Constitution of Missouri as to reestablishing tax rates as revised in subsequent years, enforcement provisions, and other provisions not in conflict with Section 22 of Article X of the Constitution of Missouri. Annual tax rate reductions provided in section 67.505 and section 164.013 shall be applied to the tax rate as established pursuant to this section and Section 22 of Article X of the Constitution of Missouri, unless otherwise provided by law.
- 5. (1) In all political subdivisions, the tax rate ceiling established pursuant to this section shall not be increased unless approved by a vote of the people. Approval of the higher tax rate shall be by at least a majority of votes cast. When a proposed higher tax rate requires approval by more than a simple majority pursuant to any provision of law or the constitution, the tax rate increase must receive approval by at least the majority required.
- (2) When voters approve an increase in the tax rate, the amount of the increase shall be added to the tax rate ceiling as calculated pursuant to this section to the extent the total rate does not exceed any maximum rate prescribed by law. If a ballot question presents a stated tax rate for approval rather than describing the amount of

increase in the question, the stated tax rate approved shall be adjusted as provided in this section and, so adjusted, shall be the current tax rate ceiling. The increased tax rate ceiling as approved shall be adjusted such that when applied to the current total assessed valuation of the political subdivision, excluding new construction and improvements since the date of the election approving such increase, the revenue derived from the adjusted tax rate ceiling is equal to the sum of: the amount of revenue which would have been derived by applying the voter-approved increased tax rate ceiling to total assessed valuation of the political subdivision, as most recently certified by the city or county clerk on or before the date of the election in which such increase is approved, increased by the percentage increase in the consumer price index, as provided by law. Such adjusted tax rate ceiling may be applied to the total assessed valuation of the political subdivision at the setting of the next tax rate. If a ballot question presents a phased-in tax rate increase, upon voter approval, each tax rate increase shall be adjusted in the manner prescribed in this section to yield the sum of: the amount of revenue that would be derived by applying such voterapproved increased rate to the total assessed valuation, as most recently certified by the city or county clerk on or before the date of the election in which such increase was approved, increased by the percentage increase in the consumer price index, as provided by law, from the date of the election to the time of such increase and, so adjusted, shall be the current tax rate ceiling.

- (3) The governing body of any political subdivision may levy a tax rate lower than its tax rate ceiling and may, in a nonreassessment year, increase that lowered tax rate to a level not exceeding the tax rate ceiling without voter approval in the manner provided under subdivision (4) of this subsection. Nothing in this section shall be construed as prohibiting a political subdivision from voluntarily levying a tax rate lower than that which is required under the provisions of this section or from seeking voter approval of a reduction to such political subdivision's tax rate ceiling.
- (4) In a year of general reassessment, a governing body whose tax rate is lower than its tax rate ceiling shall revise its tax rate pursuant to the provisions of subsection 4 of this section as if its tax rate was at the tax rate ceiling. In a year following general reassessment, if such governing body intends to increase its tax rate, the governing body shall conduct a public hearing, and in a public meeting it shall adopt an ordinance, resolution, or policy statement justifying its action prior to setting and certifying its tax rate. The provisions of this subdivision shall not apply to any political subdivision which levies a tax rate lower than its tax rate ceiling solely due to a reduction required by law resulting from sales tax collections. The provisions of this subdivision shall not apply to any political subdivision which has received voter approval for an increase to its tax rate ceiling subsequent to setting its most recent tax rate.
- 6. (1) For the purposes of calculating state aid for public schools pursuant to section 163.031, each taxing authority which is a school district shall determine its proposed tax rate as a blended rate of the classes or subclasses of property. Such blended rate shall be calculated by first determining the total tax revenue of the property within the jurisdiction of the taxing authority, which amount shall be equal to the sum of the products of multiplying the assessed valuation of each class and subclass of property by the corresponding tax rate for such class or

subclass, then dividing the total tax revenue by the total assessed valuation of the same jurisdiction, and then multiplying the resulting quotient by a factor of one hundred. Where the taxing authority is a school district, such blended rate shall also be used by such school district for calculating revenue from state-assessed railroad and utility property as defined in chapter 151 and for apportioning the tax rate by purpose.

(2) Each taxing authority proposing to levy a tax rate in any year shall notify the clerk of the county commission in the county or counties where the tax rate applies of its tax rate ceiling and its proposed tax rate. Each taxing authority shall express its proposed tax rate in a fraction equal to the nearest one-tenth of a cent, unless its proposed tax rate is in excess of one dollar, then one/one-hundredth of a cent. If a taxing authority shall round to one/one-hundredth of a cent, it shall round up a fraction greater than or equal to five/one-thousandth of one cent to the next higher one/one-hundredth of a cent; if a taxing authority shall round to onetenth of a cent, it shall round up a fraction greater than or equal to five/onehundredths of a cent to the next higher one-tenth of a cent. Any taxing authority levying a property tax rate shall provide data, in such form as shall be prescribed by the state auditor by rule, substantiating such tax rate complies with Missouri law. All forms for the calculation of rates pursuant to this section shall be promulgated as a rule and shall not be incorporated by reference. The state auditor shall promulgate rules for any and all forms for the calculation of rates pursuant to this section which do not currently exist in rule form or that have been incorporated by reference. In addition, each taxing authority proposing to levy a tax rate for debt service shall provide data, in such form as shall be prescribed by the state auditor by rule, substantiating the tax rate for debt service complies with Missouri law. A tax rate proposed for annual debt service requirements will be prima facie valid if, after making the payment for which the tax was levied, bonds remain outstanding and the debt fund reserves do not exceed the following year's payments. The county clerk shall keep on file and available for public inspection all such information for a period of three years. The clerk shall, within three days of receipt, forward a copy of the notice of a taxing authority's tax rate ceiling and proposed tax rate and any substantiating data to the state auditor. The state auditor shall, within fifteen days of the date of receipt, examine such information and return to the county clerk his or her findings as to compliance of the tax rate ceiling with this section and as to compliance of any proposed tax rate for debt service with Missouri law. If the state auditor believes that a taxing authority's proposed tax rate does not comply with Missouri law, then the state auditor's findings shall include a recalculated tax rate, and the state auditor may request a taxing authority to submit documentation supporting such taxing authority's proposed tax rate. The county clerk shall immediately forward a copy of the auditor's findings to the taxing authority and shall file a copy of the findings with the information received from the taxing authority. The taxing authority shall have fifteen days from the date of receipt from the county clerk of the state auditor's findings and any request for supporting documentation to accept or reject in writing the rate change certified by the state auditor and to submit all requested information to the state auditor. A copy of the taxing authority's acceptance or rejection and any information submitted to the state auditor shall also be mailed to

the county clerk. If a taxing authority rejects a rate change certified by the state auditor and the state auditor does not receive supporting information which justifies the taxing authority's original or any subsequent proposed tax rate, then the state auditor shall refer the perceived violations of such taxing authority to the attorney general's office and the attorney general is authorized to obtain injunctive relief to prevent the taxing authority from levying a violative tax rate.

- (3) In the event that the taxing authority incorrectly completes the forms created and promulgated under subdivision (2) of this subsection, or makes a clerical error, the taxing authority may submit amended forms with an explanation for the needed changes. If such amended forms are filed under regulations prescribed by the state auditor, the state auditor shall take into consideration such amended forms for the purposes of this subsection.
- 7. No tax rate shall be extended on the tax rolls by the county clerk unless the political subdivision has complied with the foregoing provisions of this section.
- 8. Whenever a taxpayer has cause to believe that a taxing authority has not complied with the provisions of this section, the taxpayer may make a formal complaint with the prosecuting attorney of the county. Where the prosecuting attorney fails to bring an action within ten days of the filing of the complaint, the taxpayer may bring a civil action pursuant to this section and institute an action as representative of a class of all taxpayers within a taxing authority if the class is so numerous that joinder of all members is impracticable, if there are questions of law or fact common to the class, if the claims or defenses of the representative parties are typical of the claims or defenses of the class, and if the representative parties will fairly and adequately protect the interests of the class. In any class action maintained pursuant to this section, the court may direct to the members of the class a notice to be published at least once each week for four consecutive weeks in a newspaper of general circulation published in the county where the civil action is commenced and in other counties within the jurisdiction of a taxing authority. The notice shall advise each member that the court will exclude him or her from the class if he or she so requests by a specified date, that the judgment, whether favorable or not, will include all members who do not request exclusion, and that any member who does not request exclusion may, if he or she desires, enter an appearance. In any class action brought pursuant to this section, the court, in addition to the relief requested, shall assess against the taxing authority found to be in violation of this section the reasonable costs of bringing the action, including reasonable attorney's fees, provided no attorney's fees shall be awarded any attorney or association of attorneys who receive public funds from any source for their services. Any action brought pursuant to this section shall be set for hearing as soon as practicable after the cause is at issue.
- 9. If in any action, including a class action, the court issues an order requiring a taxing authority to revise the tax rates as provided in this section or enjoins a taxing authority from the collection of a tax because of its failure to revise the rate of levy as provided in this section, any taxpayer paying his or her taxes when an improper rate is applied has erroneously paid his or her taxes in part, whether or not the taxes are paid under protest as provided in section 139.031 or otherwise contested. The part of the taxes paid erroneously is the difference in the amount produced by the original levy and the amount produced by the revised levy. The

township or county collector of taxes or the collector of taxes in any city shall refund the amount of the tax erroneously paid. The taxing authority refusing to revise the rate of levy as provided in this section shall make available to the collector all funds necessary to make refunds pursuant to this subsection. No taxpayer shall receive any interest on any money erroneously paid by him or her pursuant to this subsection. Effective in the 1994 tax year, nothing in this section shall be construed to require a taxing authority to refund any tax erroneously paid prior to or during the third tax year preceding the current tax year.

10. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void.

In addition, the sales shall not be rendered nonexempt nor shall any material supplier or contractor be obligated to pay, collect or remit sales tax with respect to such purchases made by or on behalf of an exempt entity due to such purchases being billed to or paid for by a contractor or the exempt entity contracting with any entity to render any services in relation to such purchases, including but not limited to selection of materials, ordering, pickup, delivery, approval on delivery, taking of delivery, transportation, storage, assumption of risk of loss to materials or providing warranties on materials as specified by contract, use of materials or other purchases for construction of the building or other facility, providing labor, management services, administrative services, design or technical services or advice to the exempt entity, whether or not the contractor or other entity exercises dominion or control in any other manner over the materials in conjunction with services or labor provided to the exempt entity.

- 2. When any exempt entity contracts for the purpose of constructing, repairing or remodeling facilities, and purchases of tangible personal property and materials to be incorporated into or consumed in the construction of the project are to be made on a tax-exempt basis, such entity shall furnish to the contractor an exemption certificate authorizing such purchases for the construction, repair or remodeling project. Such suppliers shall execute to the purchasing contractor invoices bearing the name of the exempt entity and the project identification number. Nothing in this section shall be deemed to exempt the purchase of any construction machinery, equipment or tools used in constructing, repairing or remodeling facilities for the exempt entity. - 5. No contractor or material supplier shall, upon audit, be required to pay tax on tangible personal property and materials incorporated into or consumed in the construction of the project due to the failure of the exempt entity to revise the certificate expiration date as necessary to complete any work required by the contract. If it is determined that tax is owed on such property and materials due to the failure of the exempt entity to revise such certificate expiration date, the exempt entity shall be liable for the tax owed.
- 6. If an entity issues exemption certificates for the purchase of tangible personal property and materials which are incorporated into or consumed in the construction of its project and such entity is found not to have had the authority granted by this section to issue such exemption certificates, then such entity shall be liable for the tax owed on such personal property and materials. In addition, if an entity which does have the authority granted by this section to issue exemption certificates issues such certificates for the purchase of tangible personal property and materials which are incorporated into or consumed in the construction of a project, or part of a project, which is found not to be related to such entity's exempt functions and activities, then such entity shall be liable for the tax owed on such personal property and materials.

- **173.030. Additional responsibilities.** The coordinating board, in addition, shall have responsibility, within the provisions of the constitution and the statutes of the state of Missouri, for:
- (1) Requesting the governing boards of all state-supported institutions of higher education, and of major private institutions to submit to the coordinating board any proposed policy changes which would create additional institutions of higher education, additional residence centers, or major additions in degree and certificate programs, and make pertinent recommendations relating thereto;
- (2) Recommending to the governing board of any institution of higher education in the state the development, consolidation, or elimination of programs, degree offerings, physical facilities or policy changes where that action is deemed by the coordinating board as in the best interests of the institutions themselves and/or the general requirements of the state. Recommendations shall be submitted to governing boards by twelve months preceding the term in which the action may take effect;
- (3) Recommending to the governing boards of state-supported institutions of higher education, including public community colleges receiving state support, formulas to be employed in specifying plans for general operations, for development and expansion, and for requests for appropriations from the general

assembly. Such recommendations will be submitted to the governing boards by April first of each year preceding a regular session of the general assembly of the state of Missouri;

- (4) Promulgating rules to include selected off-campus instruction in public college and university appropriation recommendations where prior need has been established in areas designated by the coordinating board for higher education. Funding for such off-campus instruction shall be included in the appropriation recommendations, shall be determined by the general assembly and shall continue, within the amounts appropriated therefor, unless the general assembly disapproves the action by concurrent resolution;
- (5) Coordinating reciprocal agreements between or among Missouri state institutions of higher education at the request of one or more of the institutions party to the agreement, and between or among Missouri state institutions of higher education and publicly supported higher education institutions located outside the state of Missouri at the request of any Missouri institution party to the agreement;
- (6) Entering into agreements for interstate reciprocity regarding the delivery of postsecondary distance education, administering such agreements, and approving or disapproving applications to participate in such agreements from a postsecondary institution that has its principal campus in the state of Missouri:
- (a) The coordinating board shall establish standards for institutional approval. Those standards shall include, but are not limited to the:
- a. Definition of physical presence for non-Missouri institutions serving Missouri residents consistent with other states' definitions of physical presence; and
- b. Establishment of consumer protection policies for distance education addressing recruitment and marketing activities; disclosure of tuition, fees, and other charges; disclosure of admission processes and procedures; and student complaints;
- (b) The coordinating board shall establish policies for the review and resolution of student complaints arising from distance education programs offered under the agreement;
- (c) The coordinating board may charge fees to any institution that applies to participate in an interstate postsecondary distance education reciprocity agreement authorized pursuant to this section. Such fees shall not exceed the coordinating board for higher education's cost of reviewing and evaluating the applications; and
- (d) The coordinating board shall promulgate rules to implement the provisions of this subdivision. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2014, shall be invalid and void;
  - (7) Administering the nurse training incentive fund;
- (8) Conducting, in consultation with each public four-year institution's governing board and the governing board of technical colleges and community

colleges, a review every five years of the mission statements of the institutions comprising Missouri's system of public higher education. This review shall be based upon the needs of the citizens of the state as well as the requirements of business, industry, the professions and government. The purpose of this review shall be to ensure that Missouri's system of higher education is responsive to the state's needs and is focused, balanced, cost-effective, and characterized by programs of high quality as demonstrated by student performance and program outcomes. As a component of this review, each institution shall prepare, in a manner prescribed by the coordinating board, a mission implementation plan for the coordinating board's consideration and approval. If the coordinating board determines that an institution has qualified for a mission change or additional targeted resources pursuant to review conducted under this subdivision and subdivision (9) of this subsection, the coordinating board shall submit a report to the general assembly that outlines the proposed mission change or targeted state resources. No change of mission for an institution under this subdivision establishing a statewide mission shall become effective until the general assembly approves the proposed mission change by concurrent resolution, except for the institution defined pursuant to subdivision (1) of section 174.010, and has been approved by the coordinating board and the institutions for which the coordinating board has recommended a statewide mission prior to August 28, 1995. The effective date of any mission change under this subdivision shall be the first day of July immediately following the approval of the concurrent resolution by the general assembly as required under this subdivision, and shall be August 28, 1995, for any institution for which the coordinating board has recommended a statewide mission which has not yet been implemented on such date. Nothing in this subdivision shall preclude an institution from initiating a request to the coordinating board for a revision of its mission; and

- (9) Reviewing applications from institutions seeking a statewide mission. Such institutions shall provide evidence to the coordinating board that they have the capacity to discharge successfully such a mission. Such evidence shall consist of the following:
- (a) That the institution enrolls a representative cross-section of Missouri students. Examples of evidence for meeting this requirement which the institution may present include, but are not limited to, the following: enrolling at least forty percent of its Missouri resident, first-time degree-seeking freshmen from outside its historic statutory service region; enrolling its Missouri undergraduate students from at least eighty percent of all Missouri counties; or enrolling one or more groups of special population students such as minorities, economically disadvantaged, or physically disadvantaged from outside its historic statutory service region at rates exceeding state averages of such populations enrolled in the higher educational institutions of this state;
- (b) That the institution offers one or more programs of unusual strength which respond to a specific statewide need. Examples of evidence of meeting this requirement which the institution may present include, but are not limited to, the following: receipt of national, discipline-specific accreditation when available; receipt of independent certification for meeting national or state standards or requirements when discipline-specific accreditation is not available; for

occupationally specific programs, placement rates significantly higher than average; for programs for which state or national licensure is required or for which state or national licensure or registration is available on a voluntary basis, licensure or registration rates for graduates seeking such recognition significantly higher than average; or quality of program faculty as measured by the percentage holding terminal degrees, the percentage writing publications in professional journals or other appropriate media, and the percentage securing competitively awarded research grants which are higher than average;

- (c) That the institution has a clearly articulated admission standard consistent with the provisions of subdivision (6)\* of subsection 2 of section 173.005 or section 174.130:
- (d) That the institution is characterized by a focused academic environment which identifies specific but limited areas of academic emphasis at the undergraduate, and if appropriate, at the graduate and professional school levels, including the identification of programs to be continued, reduced, terminated or targeted for excellence. The institution shall, consistent with its focused academic environment, also have the demonstrable capacity to provide significant public service or research support that address statewide needs for constituencies beyond its historic statutory service region; and
- (e) That the institution has adopted and maintains a program of continuous quality improvement, or the equivalent of such a program, and reports annually appropriate and verifiable measures of institutional accountability related to such program. Such measures shall include, but not be limited to, indicators of student achievement and institutional mission attainment such as percentage of students meeting institutional admission standards; success of remediation programs, if offered; student retention rate; student graduation rate; objective measures of student, alumni, and employer satisfaction; objective measures of student learning in general education and the major, including written and oral communication skills and critical thinking skills; percentage of students attending graduate or professional schools; student placement, licensure and professional registration rates when appropriate to a program's objectives; objective measures of successful attainment of statewide goals as may be expressed from time to time by the coordinating board or by the general assembly; and objective measures of faculty teaching effectiveness. In the development and evaluation of these institutional accountability reports, the coordinating board and institutions are expected to use multiple measures of success, including nationally developed and verified as well as locally developed and independently verified assessment instruments; however, preference shall be given to nationally developed instruments when they are available and if they are appropriate. Institutions which serve or seek to serve a statewide mission shall be judged to have met the prerequisites for such a mission when they demonstrate to the coordinating board that they have met the criteria described in this subdivision. As a component of this process, each institution shall prepare, in a manner prescribed by the coordinating board, a mission implementation plan for the coordinating board's consideration and approval.

- (4) The eligible project operates in compliance with applicable environmental laws and regulations, including permitting and registration requirements, of this state as well as the federal and local requirements;

For the purpose of this section, "taxpayer" means an individual proprietorship, partnership or corporation described in section 143.441 or 143.471 who operates an eligible project. The director shall determine the number of years the taxpayer may claim the state tax credits and the state income exemption based on the projected net state economic benefits attributed to the eligible project;
- (7) For the purpose of meeting the new job requirement prescribed in subdivisions (1), (2) and (3) of this subsection, it shall be required that at least ten new jobs be created and maintained during the taxpayer's tax period for which the credits are earned, in the case of an eligible project that does not replace a similar facility in Missouri. "New job" means a person who was not previously employed by the taxpayer or related taxpayer within the twelve-month period immediately preceding the time the person was employed by that taxpayer to work at, or in connection with, the eligible project on a full-time basis. "Retained job" means a person who was previously employed by the taxpayer or related taxpayer, at a facility similar to the eligible project that closed elsewhere in Missouri prior to the end of the taxpayer's tax period in which the tax credits are earned, within the tax period immediately preceding the time the person was employed by the taxpayer to work at, or in connection with, the eligible project on a full-time basis. "Full-time basis" means the employee works an average of at least thirty-five hours per week during the taxpayer's tax period for which the tax credits are earned;
- (9) In the case where an eligible project replaces a similar facility that closed elsewhere in Missouri prior to the end of the taxpayer's tax period in which the tax credits are earned, the owner and operator of the eligible project shall provide the director with a written statement explaining the reason for discontinuing operations at the closed facility. The statement shall include a comparison of the activities performed at the closed facility prior to the date the facility ceased operating, to the activities performed at the eligible project, and a detailed account describing the need and rationale for relocating to the eligible project. If the director finds the relocation to the eligible project significantly impaired the economic stability of the area in which the closed facility was located, and that such move was detrimental to the overall economic development efforts of the state, the director may deny the taxpayer's request to claim tax benefits;
- (10) Notwithstanding any provision of law to the contrary, for the purpose of this section, the number of new jobs created and maintained, the number of existing jobs retained, and the value of new qualified investment used at the eligible project during any tax year shall be determined by dividing by twelve, in the case of jobs, the sum of the number of individuals employed at the eligible project, or in the case of new qualified investment, the value of new qualified investment used at the eligible project, on the last business day of each full calendar month of the tax year. If the eligible project is in operation for less than the entire tax year, the number of new jobs created and maintained, the number of existing jobs retained, and the value of new qualified investment created at the eligible project during any tax year shall be determined by dividing the sum of the number of individuals employed at the eligible project, or in the case of new qualified investment, the value of new qualified investment used at the eligible project, on the last business day of each full calendar month during the portion of the tax year during which the eligible project was in operation, by the number of full calendar months during such period;
- (11) For the purpose of this section, "new qualified investment" means new business facility investment as defined and as determined in subdivision (8)\* of section 135.100 which is used at and in connection with the eligible project. New qualified investment shall not include small tools, supplies and inventory. "Small tools" means tools that are portable and can be hand held.
- 2. The determination of the director of economic development pursuant to subsection 1 of this section shall not affect requirements for the prospective

purchaser to obtain the approval of the granting of real property tax abatement by the municipal or county government where the eligible project is located.

- 3. (1) The director of the department of economic development, with the approval of the director of the department of natural resources, may, in addition to the tax credits allowed in subsection 1 of this section, grant a remediation tax credit to the applicant for up to one hundred percent of the costs of materials, supplies, equipment, labor, professional engineering, consulting and architectural fees, permitting fees and expenses, demolition, asbestos abatement, and direct utility charges for performing the voluntary remediation activities for the preexisting hazardous substance contamination and releases, including, but not limited to, the costs of performing operation and maintenance of the remediation equipment at the property beyond the year in which the systems and equipment are built and installed at the eligible project and the costs of performing the voluntary remediation activities over a period not in excess of four tax years following the taxpayer's tax year in which the system and equipment were first put into use at the eligible project, provided the remediation activities are the subject of a plan submitted to, and approved by, the director of natural resources pursuant to sections 260.565 to 260.575. The tax credit may also include up to one hundred percent of the costs of demolition that are not directly part of the remediation activities, provided that the demolition is on the property where the voluntary remediation activities are occurring, the demolition is necessary to accomplish the planned use of the facility where the remediation activities are occurring, and the demolition is part of a redevelopment plan approved by the municipal or county government and the department of economic development. The demolition may occur on an adjacent property if the project is located in a municipality which has a population less than twenty thousand and the above conditions are otherwise met. The adjacent property shall independently qualify as abandoned or underutilized. The amount of the credit available for demolition not associated with remediation cannot exceed the total amount of credits approved for remediation including demolition required for remediation.
- (2) The amount of remediation tax credits issued shall be limited to the least amount necessary to cause the project to occur, as determined by the director of the department of economic development.
- (3) The director may, with the approval of the director of natural resources, extend the tax credits allowed for performing voluntary remediation maintenance activities, in increments of three-year periods, not to exceed five consecutive three-year periods. The tax credits allowed in this subsection shall be used to offset the tax imposed by chapter 143, excluding withholding tax imposed by sections 143.191 to 143.265, or the tax otherwise imposed by chapter 147, or the tax otherwise imposed by chapter 148. The remediation tax credit may be taken in the same tax year in which the tax credits are received or may be taken over a period not to exceed twenty years.
- (4) The project facility shall be projected to create at least ten new jobs or at least twenty-five retained jobs, or a combination thereof, as determined by the department of economic development, to be eligible for tax credits pursuant to this section.
- (5) No more than seventy-five percent of earned remediation tax credits may be issued when the remediation costs were paid, and the remaining percentage may be issued when the department of natural resources issues a letter of

completion letter or covenant not to sue following completion of the voluntary remediation activities. It shall not include any costs associated with ongoing operational environmental compliance of the facility or remediation costs arising out of spills, leaks, or other releases arising out of the ongoing business operations of the facility. In the event the department of natural resources issues a letter of completion for a portion of a property, an impacted media such as soil or groundwater, or for a site or a portion of a site improvement, a prorated amount of the remaining percentage may be released based on the percentage of the total site receiving a letter of completion.

- 4. In the exercise of the sound discretion of the director of the department of economic development or the director's designee, the tax credits and exemptions described in this section may be terminated, suspended or revoked if the eligible project fails to continue to meet the conditions set forth in this section. In making such a determination, the director shall consider the severity of the condition violation, actions taken to correct the violation, the frequency of any condition violations and whether the actions exhibit a pattern of conduct by the eligible facility owner and operator. The director shall also consider changes in general economic conditions and the recommendation of the director of the department of natural resources, or his or her designee, concerning the severity, scope, nature, frequency and extent of any violations of the environmental compliance conditions. The taxpayer or person claiming the tax credits or exemptions may appeal the decision regarding termination, suspension or revocation of any tax credit or exemption in accordance with the procedures outlined in subsections 4 and 5 of section 135.250. The director of the department of economic development shall notify the directors of the departments of natural resources and revenue of the termination, suspension or revocation of any tax credits as determined in this section or pursuant to the provisions of section 447.716.
- 5. Notwithstanding any provision of law to the contrary, no taxpayer shall earn the tax credits, exemptions or refund otherwise allowed in subdivisions (2), (3) and (4) of subsection 1 of this section and the tax credits otherwise allowed in section 135.110, or the tax credits, exemptions and refund otherwise allowed in sections 135.215, 135.220, 135.225 and 135.245, respectively, for the same facility for the same tax period.
- 6. The total amount of the tax credits allowed in subsection 1 of this section may not exceed the greater of:
  - (1) That portion of the taxpayer's income attributed to the eligible project; or
- (2) One hundred percent of the total business' income tax if the eligible facility does not replace a similar facility that closed elsewhere in Missouri prior to the end of the taxpayer's tax period in which the tax credits are earned, and further provided the taxpayer does not operate any other facilities besides the eligible project in Missouri; fifty percent of the total business' income tax if the eligible facility replaces a similar facility that closed elsewhere in Missouri prior to the end of the taxpayer's tax period in which the credits are earned, and further provided the taxpayer does not operate any other facilities besides the eligible project in Missouri; or twenty-five percent of the total business income if the taxpayer operates, in addition to the eligible facility, any other facilities in Missouri. In no case shall a taxpayer operating more than one eligible project in Missouri be

allowed to offset more than twenty-five percent of the taxpayer's business income in any tax period. That portion of the taxpayer's income attributed to the eligible project as referenced in subdivision (1) of this subsection, for which the credits allowed in sections 135.110 and 135.225 and subsection 3 of this section may apply, shall be determined in the same manner as prescribed in subdivision (5)\* of section 135.100. That portion of the taxpayer's franchise tax attributed to the eligible project for which the remediation tax credit may offset, shall be determined in the same manner as prescribed in paragraph (a) of subdivision (5)\* of section 135.100.

- 7. Taxpayers claiming the state tax benefits allowed in subdivisions (2) and (3) of subsection 1 of this section shall be required to file all applicable tax credit applications, forms and schedules prescribed by the director during the taxpayer's tax period immediately after the tax period in which the eligible project was first put into use. Otherwise, the taxpayer's right to claim such state tax benefits shall be forfeited. Unused business facility and enterprise zone tax credits shall not be carried forward but shall be initially claimed for the tax period during which the eligible project was first capable of being used, and during any applicable subsequent tax periods.
- 8. Taxpayers claiming the remediation tax credit allowed in subsection 3 of this section shall be required to file all applicable tax credit applications, forms and schedules prescribed by the director during the taxpayer's tax period immediately after the tax period in which the eligible project was first put into use, or during the taxpayer's tax period immediately after the tax period in which the voluntary remediation activities were performed.

The recipient of remediation tax credits, for the purpose of this subsection referred to as assignor, may assign, sell or transfer, in whole or in part, the remediation tax credit allowed in subsection 3 of this section to any other person, for the purpose of this subsection referred to as assignee. To perfect the transfer, the assignor shall provide written notice to the director of the assignor's intent to transfer the tax credits to the assignee, the date the transfer is effective, the assignee's name, address and the assignee's tax period and the amount of tax credits to be transferred. The number of tax periods during which the assignee may subsequently claim the tax credits shall not exceed twenty tax periods, less the number of tax periods the assignor previously claimed the credits before the transfer occurred.
- 10. In the case where an operator and assignor of an eligible project has been certified to claim state tax benefits allowed in subdivisions (2) and (3) of subsection 1 of this section, and sells or otherwise transfers title of the eligible project to another taxpayer or assignee who continues the same or substantially similar operations at the eligible project, the director shall allow the assignee to claim the credits for a period of time to be determined by the director; except that, the total number of tax periods the tax credits may be earned by the assignor and the assignee shall not exceed ten. To perfect the transfer, the assignor shall provide written notice to the director of the assignor's intent to transfer the tax credits to the assignee, the date the transfer is effective, the assignee's name, address, and the assignee's tax period, and the amount of tax credits to be transferred.

- 11. For the purpose of the state tax benefits described in this section, in the case of a corporation described in section 143.471 or partnership, in computing Missouri's tax liability, such state benefits shall be allowed to the following:
  - (1) The shareholders of the corporation described in section 143.471;
  - (2) The partners of the partnership.

The credit provided in this subsection shall be apportioned to the entities described in subdivisions (1) and (2) of this subsection in proportion to their share of ownership on the last day of the taxpayer's tax period.

12. Notwithstanding any provision of law to the contrary, in any county of the first classification that has a charter form of government and that has a population of over nine hundred thousand inhabitants, all demolition costs incurred during the redevelopment of any former automobile manufacturing plant shall be allowable costs eligible for tax credits under sections 447.700 to 447.718 so long as the redevelopment of such former automobile manufacturing plant shall be projected to create at least two hundred fifty new jobs or at least three hundred retained jobs, or a combination thereof, as determined by the department of economic development. The amount of allowable costs eligible for tax credits shall be limited to the least amount necessary to cause the project to occur, as determined by the director of the department of economic development, provided that no tax credit shall be issued under this subsection until July 1, 2017. For purposes of this subsection, "former automobile manufacturing plant" means a redevelopment area that qualifies as an eligible project under section 447.700, that consists of at least one hundred acres, and that was used primarily for the manufacture of automobiles but, after 2007, ceased such manufacturing.

# **644.145.** Affordability finding required, when — definitions — procedures to be adopted — appeal of determination — annual report, contents. — 1. When issuing permits under this chapter that incorporate a new requirement for discharges from publicly owned combined or separate sanitary or storm sewer systems or water or sewer treatment works, or when enforcing provisions of this chapter or the Federal Water Pollution Control Act, 33 U.S.C. Section 1251, et seq., pertaining to any portion of a publicly owned combined or separate sanitary or storm sewer system or water or sewer treatment works, the department of natural resources shall make a finding of affordability on the costs to be incurred and the impact of any rate changes on ratepayers upon which to base such permits and decisions, to the extent allowable under this chapter and the Federal Water Pollution Control Act.

- 2. (1) The department of natural resources shall not be required under this section to make a finding of affordability when:
  - (a) Issuing collection system extension permits;

- (b) Issuing National Pollution Discharge Elimination System operating permit renewals which include no new environmental requirements; or
- (c) The permit applicant certifies that the applicable requirements are affordable to implement or otherwise waives the requirement for an affordability finding; however, at no time shall the department require that any applicant certify, as a condition to approving any permit, administrative or civil action, that a requirement, condition, or penalty is affordable.
- (2) The exceptions provided under paragraph (c) of subdivision (1) of this subsection do not apply when the community being served has less than three thousand three hundred residents.
- 3. When used in this chapter and in standards, rules and regulations promulgated pursuant to this chapter, the following words and phrases mean:
- (1) "Affordability", with respect to payment of a utility bill, a measure of whether an individual customer or household with an income equal to or lower than the median household income for their community can pay the bill without undue hardship or unreasonable sacrifice in the essential lifestyle or spending patterns of the individual or household, taking into consideration the criteria described in subsection 4 of this section;
- (2) **"Financial capability"**, the financial capability of a community to make investments necessary to make water quality-related improvements;
- (3) "Finding of affordability", a department statement as to whether an individual or a household receiving as income an amount equal to or lower than the median household income for the applicant community would be required to make unreasonable sacrifices in the individual's or the household's essential lifestyle or spending patterns or undergo hardships in order to make the projected monthly payments for sewer services. The department shall make a statement that the proposed changes meet the definition of affordable, or fail to meet the definition of affordable, or are implemented as a federal mandate regardless of affordability.
- 4. The department of natural resources shall adopt procedures by which it will make affordability findings that evaluate the affordability of permit requirements and enforcement actions described in subsection 1 of this section, and may begin implementing such procedures prior to promulgating implementing regulations. The commission shall have the authority to promulgate rules to implement this section pursuant to chapters 536 and 644, and shall promulgate such rules as soon as practicable. Affordability findings shall be based upon reasonably verifiable data and shall include an assessment of affordability with respect to persons or entities affected. The department shall offer the permittee an opportunity to review a draft affordability finding, and the permittee may suggest changes and provide additional supporting information, subject to subsection 6 of this section. The finding shall be based upon the following criteria:
- (1) A community's financial capability and ability to raise or secure necessary funding;
- (2) Affordability of pollution control options for the individuals or households at or below the median household income level of the community;
- (3) An evaluation of the overall costs and environmental benefits of the control technologies;

- (4) Inclusion of ongoing costs of operating and maintaining the existing wastewater collection and treatment system, including payments on outstanding debts for wastewater collection and treatment systems when calculating projected rates:
- (5) An inclusion of ways to reduce economic impacts on distressed populations in the community, including but not limited to low- and fixed-income populations. This requirement includes but is not limited to:
- (a) Allowing adequate time in implementation schedules to mitigate potential adverse impacts on distressed populations resulting from the costs of the improvements and taking into consideration local community economic considerations; and
- (b) Allowing for reasonable accommodations for regulated entities when inflexible standards and fines would impose a disproportionate financial hardship in light of the environmental benefits to be gained;
- (6) An assessment of other community investments and operating costs relating to environmental improvements and public health protection;
- (7) An assessment of factors set forth in the United States Environmental Protection Agency's guidance, including but not limited to the "Combined Sewer Overflow Guidance for Financial Capability Assessment and Schedule Development" that may ease the cost burdens of implementing wet weather control plans, including but not limited to small system considerations, the attainability of water quality standards, and the development of wet weather standards; and
- (8) An assessment of any other relevant local community economic condition.
- 5. Prescriptive formulas and measures used in determining financial capability, affordability, and thresholds for expenditure, such as median household income, should not be considered to be the only indicator of a community's ability to implement control technology and shall be viewed in the context of other economic conditions rather than as a threshold to be achieved.
- 6. Reasonable time spent preparing draft affordability findings, allowing permittees to review draft affordability findings or draft permits, or revising draft affordability findings, shall be allowed in addition to the department's deadlines for making permitting decisions pursuant to section 644.051.
- 7. If the department of natural resources fails to make a finding of affordability where required by this section, then the resulting permit or decision shall be null, void and unenforceable.
- 8. The department of natural resources' findings under this section may be appealed to the commission pursuant to subsection 9\* of section 644.051.
- 9. The department shall file an annual report by the beginning of the fiscal year with the governor, the speaker of the house of representatives, the president pro tempore of the senate, and the chairs of the committees in both houses having primary jurisdiction over natural resource issues showing at least the following information on the findings of affordability completed in the previous calendar year:
- (1) The total number of findings of affordability issued by the department, those categorized as affordable, those categorized as not meeting the definition of affordable, and those implemented as a federal mandate regardless of affordability;

- (2) The average increase in sewer rates both in dollars and percentage for all findings found to be affordable;
- (3) The average increase in sewer rates as a percentage of median house income in the communities for those findings determined to be affordable and a separate calculation of average increases in sewer rates for those found not to meet the definition of affordable;
- (4) A list of all the permit holders receiving findings, and for each permittee the following data taken from the finding of affordability shall be listed:
  - (a) Current and projected monthly residential sewer rates in dollars;
- (b) Projected monthly residential sewer rates as a percentage of median household income;
  - (c) Percentage of households at or below the state poverty rate.

# LEGISLATIVE AMENDMENTS TO SUPREME COURT RULES AS TRULY AGREED TO AND FINALLY PASSED BY SENATE BILL NO. 224, 2019

## RULE 25.03. MISDEMEANORS OR FELONIES DISCLOSURE BY STATE TO DEFENDANT WITHOUT COURT ORDER

- (a) Disclosure upon filing of felony complaint. Except as otherwise provided in these Rules, the state shall, upon written request of defendant's counsel, disclose to defendant's counsel the following material and information in the possession of the prosecutor: any arrest reports, incident reports, investigative reports, written or recorded statements, documents, photographs, video, electronic communications and electronic data that relate to the offense for which defendant is charged.
- (b) Disclosure after indictment or filing of information. Except as otherwise provided in these Rules, the state shall, upon written request of defendant's counsel, disclose to defendant's counsel the following material and information within its possession or control designated in the request:
- (1) Any arrest reports, incident reports, investigative reports, written or recorded statements, documents, photographs, video, electronic communications and electronic data that relate to the offense for which defendant is charged; provided that, personal identifying information of persons named in such materials may be redacted at the discretion of the prosecutor;
- (2) The names and last known addresses of persons whom the state intends to call as witnesses at any hearing or at the trial, together with their written or recorded statements, and existing memoranda, reporting or summarizing part or all of their oral statements;
- (3) Any written or recorded statements and the substance of any oral statements made by defendant, a co-defendant or a co-actor, a list of all witnesses to the making of the statements and a list of all witnesses to the acknowledgment of the statements including the last known addresses of the witnesses;
- (4) Those portions of any existing transcript of grand jury proceedings that relate to the offense with which defendant is charged, containing testimony of defendant and testimony of persons whom the state intends to call as witnesses at a hearing or trial;
- (5) Any existing transcript of the preliminary hearing and of any prior trial held in defendant's case if the state has the transcript in its possession;
- (6) Any reports or statements of experts made in connection with the particular case, including results of physical or mental examinations and of scientific tests, experiments, or comparisons;
- (7) Any books, papers, documents, photographs, video, electronic communications, electronic data, or objects that the state intends to introduce into

evidence at the hearing or trial or that were obtained from or belong to defendant; provided that, personal identifying information of any person named in such materials, other than those obtained from the defendant, may be redacted at the discretion of the prosecutor;

- (8) Any record of prior criminal convictions of persons the state intends to call as witnesses at a hearing or the trial; and
- (9) Any photographic or electronic surveillance (including wiretapping) of defendant or of conversations to which defendant was a party or of defendant's premises, relating to the offense charged. This disclosure shall be in the form of a written statement by counsel for the state briefly setting out the facts pertaining to the time, place, and persons making the photographic or electronic surveillance.
- (c) The request provided for by this Rule shall be made by filing the request in the court where the case is pending and serving a copy of the request upon counsel for the state.
- (d) The state may redact from any document it provides to defendant's counsel any personal identifying information of witnesses or other persons named in any document but must do so in a manner that makes it clear that the information has been redacted.
- (e) The state may elect to provide a separate copy of a redacted document to defendant's counsel to be delivered to defendant and designated as "Defendant's Copy." If the state provides a redacted document designated as "Defendant's Copy," in addition to the information permitted to be redacted pursuant to Rule 25.03(d), the state may also redact from "Defendant's Copy" of the document the following information: date of birth, home address, work address, and personal phone number and work phone number of a victim or witness. However, the redaction must be done in a manner that makes it clear the information has been redacted from the document. Defendant's counsel shall be provided a separate document designated as "Lawyer Copy Only – Not for Defendant" that includes the information that has been reducted from the document pursuant to Rule 25.03(e). If defendant's counsel is provided with a redacted document by the state designated as "Defendant's Copy," only that copy shall be provided to defendant. Defendant's counsel shall not provide to defendant the unredacted document or any information redacted from the document pursuant to this Rule without court approval. For any document designated "Defendant's Copy" or "Lawyer Copy Only - Not for Defendant," every page of the respective document shall be so designated.
- (f) Defendant is not entitled to the information redacted from a document as provided in Rule 25.03(d) or (e) unless the court determines after a showing of good cause that the disclosure of the information is necessary for the defense of the case.
- (g) The state shall, without written request, disclose to defendant any material or information that tends to negate the guilt of defendant for the charged offense, mitigate the degree of the offense charged, reduce the punishment of the offense charged, and any additional material or information that would be required to be disclosed to comply with Brady v. Maryland, 373 U.S. 83 (1963), Giglio v. United States, 405 U.S. 150 (1972) and their progeny.
- (h) If material or information would be discoverable under subsections (b) and (g) of this Rule if in the possession or control of the state, but is in possession

or control of other governmental personnel, the state shall use diligence and make good faith efforts to make the material or information available to defendant. If the state's efforts are unsuccessful and the material or information or other governmental personnel are subject to the jurisdiction of the court, the court, upon request, shall issue subpoenas or orders to cause the material or information to be made available to the state for disclosure to the defense.

#### RULE 56.01. GENERAL PROVISIONS GOVERNING DISCOVERY

- (a) Discovery Methods. Parties may obtain discovery by one or more of the following methods: depositions upon oral examination or written questions; written interrogatories; production of documents, electronically stored information, or things or permission to enter upon land or other property, for inspection and other purposes; physical and mental examinations; and requests for admission.
- (b) Scope of Discovery. Unless otherwise limited by order of the court in accordance with these rules, the scope of discovery is as follows:
- (1) In General. Parties may obtain discovery regarding any matter, not privileged, that is relevant to the subject matter involved in the pending action, whether it relates to the claim or defense of the party seeking discovery or to the claim or defense of any other party, including the existence, description, nature, custody, condition and location of any books, documents or other tangible things and the identity and location of persons having knowledge of any discoverable matter, provided the discovery is proportional to the needs of the case considering the totality of the circumstances, including but not limited to, the importance of the issues at stake in the action, the amount in controversy, the parties' relative access to relevant information, the parties' resources, the importance of the discovery in resolving the issues, and whether the burden or expenses of the proposed discovery outweighs its likely benefit.

Information within the scope of discovery need not be admissible in evidence to be discoverable if the information sought appears reasonably calculated to lead to the discovery of admissible evidence.

The party seeking discovery shall bear the burden of establishing relevance.

- (2) Limitations. Upon the motion of any party or on its own, the court must limit the frequency or extent of discovery if it determines that:
- (A) The discovery sought is cumulative or duplicative, or can be obtained from some other source that is more convenient, less burdensome, or less expensive;
- (B) The party seeking discovery has had ample opportunity to obtain the information by discovery in the action; or
- (C) The proposed discovery is outside the scope permitted by this Rule 56.01(b)(1).
- (3) Specific Limitations on Electronically Stored Information. A party need not provide discovery of electronically stored information from sources that the party

identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the party from whom discovery is sought must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 56.01(b)(2). The court may specify conditions for the discovery.

- (4) Insurance Agreements. A party may obtain discovery of the existence and contents, including production of the policy and declaration page, of any insurance agreement under which any person carrying on an insurance business may be liable to satisfy part or all of a judgment that may be entered in the action or to indemnify or reimburse for payments made to satisfy the judgment. Information concerning the insurance agreement is not by reason of disclosure admissible in evidence at trial. For purposes of this Rule 56.01(b)(4), an application for insurance shall not be treated as part of an insurance agreement.
- (5) Trial Preparation: Materials. Subject to the provisions of Rule 56.01(b)(6), a party may obtain discovery of documents and tangible things otherwise discoverable under Rule 56.01(b)(1) and prepared in anticipation of litigation or for trial by or for another party or by or for that other party's representative, including an attorney, consultant, surety, indemnitor, insurer, or agent, only upon a showing that the party seeking discovery has substantial need of the materials in the preparation of the case and that the adverse party is unable without undue hardship to obtain the substantial equivalent of the materials by other means. In ordering discovery of such materials when the required showing has been made, the court shall protect against disclosure of the mental impressions, conclusions, opinions, or legal theories of an attorney or other representative of a party concerning the litigation.

A party may obtain without the required showing a statement concerning the action or its subject matter previously made by that party. For purposes of this paragraph, a statement previously made is: (a) a written statement signed or otherwise adopted or approved by the person making it, or (b) a stenographic, mechanical, electrical, audio, video, motion picture or other recording, or a transcription thereof, of the party or of a statement made by the party and contemporaneously recorded.

- (6) Trial Preparation: Experts. Discovery of facts known and opinions held by experts, otherwise discoverable under the provisions of Rule 56.01(b)(1) and acquired or developed in anticipation of litigation or for trial, may be obtained only as follows:
- (A) A party may through interrogatories require any other party to identify each person whom the other party expects to call as an expert witness at trial by providing such expert's name, address, occupation, place of employment and qualifications to give an opinion, or if such information is available on the expert's curriculum vitae, such curriculum vitae may be attached to the interrogatory answers as a full response to such interrogatory, and to state the general nature of the subject matter on which the expert is expected to testify, and the expert's hourly deposition fee.
- (B) A party may discover by deposition the facts and opinions to which the expert is expected to testify. Unless manifest injustice would result, the court shall

require that the party seeking discovery from an expert pay the expert a reasonable hourly fee for the time such expert is deposed.

- (7) Trial Preparations: Non-retained Experts. A party, through interrogatories, may require any other party to identify each non-retained expert witness, including a party, whom the other party expects to call at trial who may provide expert witness opinion testimony by providing the expert's name, address, and field of expertise. For the purpose of this Rule 56.01(b)(7), an expert witness is a witness qualified as an expert by knowledge, experience, training, or education giving testimony relative to scientific, technical or other specialized knowledge that will assist the trier of fact to understand the evidence. Discovery of the facts known and opinions held by such an expert shall be discoverable in the same manner as for lay witnesses.
- (8) Approved Interrogatories and Request for Production. A circuit court by local court rule may promulgate "approved" interrogatories and requests for production for use in specified types of litigation. Each such approved interrogatory and request for production submitted to a party shall be denominated as having been approved by reference to the local court rule and paragraph number containing the interrogatory or request for production.
  - (9) Claiming Privilege or Protecting Trial Preparation Materials.
  - (A) Information produced.
- (i) If information produced in discovery is subject to a claim of privilege or of protection as trial preparation material, the party making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information to the court under seal for a determination of the claim. The producing party must preserve the information until the claim is resolved.
- (ii) An attorney who receives information that contains privileged communications involving an adverse or third party and who has reasonable cause to believe that the information was wrongfully obtained shall not read the information or, if he or she has begun to do so, shall stop reading it. The attorney shall promptly notify the attorney whose communications are contained in the information to return the information to the other lawyer and, if in electronic form, delete it and take reasonable measures to assure that the information is inaccessible. An attorney who has been notified about information containing privileged communications has the obligation to preserve the information.
- (B) The production of privileged or work-product protected documents, electronically stored information or other information, whether inadvertent or otherwise, is not a waiver of the privilege or protection from discovery in the proceeding.
- (c) Protective Orders. Upon motion by a party or by the person from whom discovery is sought, and for good cause shown, the court may make any order which justice requires to protect a party or person from annoyance,

embarrassment, oppression, or undue burden or expense, including one or more of the following:

- (1) that the discovery not be had;
- (2) that the discovery may be had only on specified terms and conditions, including a designation of the time or place or the allocation of expenses;
- (3) that the discovery may be had only by a method of discovery other than that selected by the party seeking discovery;
- (4) that certain matters not be inquired into, or that the scope of the discovery be limited to certain matters;
- (5) that discovery be conducted with no one present except persons designated by the court;
  - (6) that a deposition after being sealed be opened only by order of the court;
- (7) that a trade secret or other confidential research, development, or commercial information not be disclosed or be disclosed only in a designated way;
- (8) that the parties simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the court.

If a motion for a protective order is denied in whole or in part, the court may, on such terms and conditions as are just, order that any party or person provide or permit discovery. The provisions of Rule 61.01 apply to the award of expenses incurred in relation to the motion.

- (d) Sequence and Timing of Discovery. Unless the parties stipulate or the court upon motion, for the convenience of parties and witnesses and in the interests of justice, orders otherwise, methods of discovery may be used in any sequence and the fact that a party is conducting discovery, whether by deposition or otherwise, shall not operate to delay any other party's discovery.
- (e) Supplementation of Responses. A party is under a duty seasonably to amend a prior response to an interrogatory, request for production, or request for admission if the party learns that the response is in some material respect incomplete or incorrect and if the additional or corrective information has not otherwise been made known to the other parties during the discovery process or in writing.
- (f) Stipulations Regarding Discovery Procedure. Unless the court orders otherwise, the parties may by written stipulation (1) provide that depositions may be taken before any person at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions, and (2) modify the procedures provided by these Rules for other methods of discovery. Any stipulation under subdivision (2) shall be filed.

#### RULE 57.01. INTERROGATORIES TO PARTIES

(a) Scope. Unless otherwise stipulated or ordered by the court, any party may serve upon any other party no more than 25 written interrogatories, including all discrete subparts. Interrogatories may relate to any matter that can be inquired into under Rule 56.01. An interrogatory otherwise proper is not necessarily

objectionable merely because an answer to the interrogatory involves an opinion or contention that relates to fact or the application of law to fact, but the court may order that such an interrogatory need not be answered until after designated discovery has been completed or until a pretrial conference or other later time.

- (b) Issuance.
- (1) Form. Interrogatories shall be in consecutively numbered paragraphs. The title shall identify the party to whom they are directed and state the number of the set of interrogatories directed to that party.
- (2) When Interrogatories May be Served. Without leave of court, interrogatories may be served on:
  - (A) A plaintiff after commencement of the action, and
- (B) Any other party with or after the party was served with process, entered an appearance, or filed a pleading.
- (3) Service. Copies of the interrogatories shall be served on all parties not in default. The party issuing the interrogatories shall also provide each answering party an electronic copy, in a commonly used medium such as a diskette, CD-ROM or as an e-mail attachment, in a format that can be read by most commonly used word processing programs, such as Word for Windows or WordPerfect 5.x or higher. In addition to the information normally in a certificate of service, the certificate of service shall also state:
  - (A) The name of each party who is to respond to the interrogatories;
  - (B) The number of the set of interrogatories,
- (C) The format of the electronic copy and the medium used to transmit the electronic copy to the responding party.

At the time of service, a certificate of service, but not the interrogatories, shall be filed with the court as provided in Rule 57.01(d).

- (c) Response. The interrogatories shall be answered by each party to whom they are directed. If they are directed to a public or private corporation, limited liability company, partnership, association or governmental agency, they shall be answered by an officer or agent. The party answering the interrogatories shall furnish such information as is available to the party.
- (1) When the Response is Due. Responses shall be served within 30 days after the service of the interrogatories. A defendant, however, shall not be required to respond to interrogatories before the expiration of 45 days after the earlier of:
  - (A) The date the defendant enters an appearance, or
  - (B) The date the defendant is served with process.

The court may allow a shorter or longer time.

- (2) Form. The title of the response shall identify the responding party and the number of the set of interrogatories. The response to the interrogatories shall quote each interrogatory, including its original paragraph number, and immediately thereunder state the answer or all reasons for not completely answering the interrogatory, including privileges, the work product doctrine and objections.
- (3) Objections and Privileges. If information is withheld because of an objection, then each reason for the objection shall be stated. If a privilege or the work product doctrine is asserted as a reason for withholding information, then

without revealing the protected information, the objecting party shall state information that will permit others to assess the applicability of the privilege or work product doctrine.

- (4) Option to Produce Business Records. If the answer to an interrogatory may be derived or ascertained from:
- (A) The business records of the party upon whom the interrogatory has been served, or
  - (B) An examination, audit or inspection of such business records, or
- (C) A compilation, abstract or summary based thereon, and the burden of deriving or ascertaining the answer is substantially the same for the party serving the interrogatory as for the party served, it is a sufficient answer to such interrogatory to specify the records from which the answer may be derived or ascertained and to afford to the party serving the interrogatory reasonable opportunity to examine, audit or inspect such records and to make copies, compilations, abstracts or summaries.
- (5) Signing. Answers shall be signed under oath by the person making them. Objections shall be signed by the attorney making them or by the self-represented party.
- (6) Service. The party to whom the interrogatories were directed shall serve a signed original of the answers and objections, if any, on the party that issued the interrogatories and a copy on all parties not in default. The certificate of service shall state the name of the party who issued the interrogatories and the number of the set of interrogatories.

At the time of service, a certificate of service, but not the response, shall be filed with the court as provided in Rule 57.01(d).

(d) Filing. Interrogatories and answers under this Rule 57.01 shall not be filed with the court except upon court order or contemporaneously with a motion placing the interrogatories in issue. However, both when the interrogatories and answers are served, the party serving them shall file with the court a certificate of service.

The certificate shall show the caption of the case, the name of the party served, the date and manner of service, the designation of the document, e.g., first interrogatories or answers to second interrogatories, and the signature of the serving party or attorney. The answers bearing the original signature of the party answering the interrogatories shall be served on the party submitting the interrogatories, who shall be the custodian thereof until the entire case is finally disposed.

Copies of interrogatory answers may be used in all court proceedings to the same extent the original answers may be used.

- (e) Enforcement. The party submitting the interrogatory may move for an order under Rule 61.01(b) with respect to any objection to or other failure to answer an interrogatory.
- (f) Use at Trial. Interrogatory answers may be used to the extent permitted by the rules of evidence.

#### RULE 57.03. DEPOSITIONS UPON ORAL EXAMINATION

- (a) When Depositions May Be Taken.
- (1) After commencement of the action, any party may take the testimony of any person, including a party, by deposition upon oral examination without leave of court, except as specified in paragraph (2) of this subdivision. The attendance of witnesses may be compelled by subpoena as provided in Rule 57.09.
  - (2) Leave of court, granted with or without notice, must be obtained only if:
  - (A) the parties have not stipulated to the deposition and:
- (i) the deposition would result in more than 10 depositions being taken under this rule or Rule 57.04 by the plaintiffs, or by the defendants, or by the third-party defendants:
  - (ii) the deponent has already been deposed in the case; or
- (iii) the plaintiff seeks to take a deposition prior to the expiration of 30 days after service of the summons and petition upon any defendant, except that leave is not required if a defendant has served a notice of taking deposition or otherwise sought discovery; or
  - (B) the deponent is confined in prison.
- (b) Notice of Examination: General Requirements; Special Notice; Production of Documents and Things; Deposition of Organization.
- (1) A party desiring to take the deposition of any person upon oral examination shall give not less than seven days notice in writing to every other party to the action and to a non-party deponent.

The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known. If the name is not known, a general description sufficient to identify the person or the particular class or group to which the person belongs shall be stated.

If a subpoena duces tecum is to be served on the person to be examined, the designation of the materials to be produced as set forth in the subpoena shall be attached to or included in the notice.

A party may attend a deposition by telephone.

- (2) The court may for cause shown enlarge or shorten the time for taking the deposition.
- (3) The notice to a party deponent may be accompanied by a request made in compliance with Rule 58.01 for the production of documents and tangible things at the taking of the deposition. The procedure of Rule 58.01 shall apply to the request.
- (4) A party may in the notice and in a subpoena name as the deponent a public or private corporation or a partnership or association or governmental agency and describe with reasonable particularity the matters on which examination is requested. In that event, the organization so named shall designate one or more officers, directors, or managing agents, or other persons who consent to testify on its behalf and may set forth, for each person designated, the matters on which the person will testify. A subpoena shall advise a nonparty organization of its duty to make such a designation. The persons so designated shall testify as to matters

known or reasonably available to the organization. This Rule 57.03(b)(4) does not preclude taking a deposition by any other procedure authorized in these rules.

- (5) (A) Duration. Unless otherwise stipulated or ordered by the court, a deposition shall be limited to 1 day of 7 hours. The court may allow additional time consistent with Rule 56.01 if needed to fairly examine the deponent or if the deponent, another person, or any other circumstance impedes or delays the examination.
- (B) Sanction. The court may impose an appropriate sanction, including the reasonable expenses and attorney's fees incurred by any party, on a person who impedes, delays, or frustrates the fair examination of the deponent.
- (c) Non-stenographic Recording Video Tape. Depositions may be recorded by the use of video tape or similar methods. The recording of the deposition by video tape shall be in addition to a usual recording and transcription method unless the parties otherwise agree.
- (1) If the deposition is to be recorded by video tape, every notice or subpoena for the taking of the deposition shall state that it is to be video taped and shall state the name, address and employer of the recording technician. If a party upon whom notice for the taking of a deposition has been served desires to have the testimony additionally recorded by other than stenographic means, that party shall serve notice on the opposing party and the witness that the proceedings are to be video taped. Such notice must be served not less than three days prior to the date designated in the original notice for the taking of the depositions and shall state the name, address and employer of the recording technician.
- (2) Where the deposition has been recorded only by video tape and if the witness and parties do not waive signature, a written transcription of the audio shall be prepared to be submitted to the witness for signature as provided in Rule 57.03(f).
- (3) The witness being deposed shall be sworn as a witness on camera by an authorized person.
- (4) More than one camera may be used, either in sequence or simultaneously.
- (5) The attorney for the party requesting the video taping of the deposition shall take custody of and be responsible for the safeguarding of the video tape and shall, upon request, permit the viewing thereof by the opposing party and if requested, shall provide a copy of the video tape at the cost of the requesting party.
- (6) Unless otherwise stipulated to by the parties, the expense of video taping is to be borne by the party utilizing it and shall not be taxed as costs.
- (d) Record of Examination; Oath; Objections. The officer before whom the deposition is to be taken shall put the witness on oath or affirmation and shall personally, or by someone acting under the officer's direction and in the officer's presence, record the testimony of the witness. The testimony shall be taken stenographically or recorded by any other means ordered in accordance with Rule 57.03(c). If requested by one of the parties, the testimony shall be transcribed.

All objections made at the time of the examination to the qualifications of the officer taking the deposition, to the manner of taking it, to the evidence presented,

to the conduct of any party, or any other objection to the proceedings shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties may serve written questions in a sealed envelope on the party taking the deposition, and that party shall transmit them to the officer before whom the deposition is to be taken, who shall propound them to the witness, and the questions and answers thereto shall be recorded.

- (e) Motion to Terminate or Limit Examination. At any time during the taking of the deposition, on motion of a party or of the deponent and upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the court in which the action is pending or a court having general jurisdiction in the place where the deposition is being taken may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition as provided in Rule 56.01(c). If the order made terminates the examination, it shall be resumed thereafter only upon the order of the court in which the action is pending. Upon demand of the objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order. The provisions of Rule 61.01(g) apply to the award of expenses incurred in relation to the motion.
- (f) Submission to Witness; Changes; Signing. When the testimony is fully transcribed, the officer shall make the deposition available to the witness for examination, reading and signing, unless such examination, reading, and signing are waived by the witness or by the parties. Any changes in form or substance that the witness desires to make shall be entered upon an errata sheet provided to the witness with a statement of the reasons given for making such changes. The answers or responses as originally given, together with the changes made and reasons given therefor, shall be considered as a part of the deposition. The deposition shall then be signed by the witness before a notary public unless the witness is ill, cannot be found, is dead, or refuses to sign. If the deposition is not signed by the time of trial, it may be used as if signed, unless, on a motion to suppress, the court holds that the reasons given for the refusal to sign requires rejection of the deposition in whole or in part.
  - (g) Certification, Delivery, and Filing; Exhibits; Copies.
- (1) Certification and Delivery. The officer shall certify on the deposition that the witness was duly sworn by the officer and that the deposition is a true record of the testimony given by the witness. Upon payment of reasonable charges therefor, the officer shall deliver the deposition to the party who requested that the testimony be transcribed.
  - (2) Filing.
- (a) By the Officer. Upon delivery of a deposition, the officer shall file with the court a certificate showing the caption of the case, the name of the deponent, the date the deposition was taken, the name and address of the person having custody of the original deposition, and whether the charges have been paid. The officer shall not file a copy of the deposition with the court except upon court order.

- (b) By a Party. A party shall not file a deposition with the court except upon specific court order or contemporaneously with a motion placing the deposition or a part thereof in issue. The court may enact local court rules requiring a party who intends to use a deposition at a hearing or trial to file that deposition with the court on or prior to the date of the hearing or trial.
- (c) Return of Deposition. At the conclusion of the hearing or trial the deposition that has been filed or delivered to the court shall be returned to the party that filed or delivered the deposition.
- (d) Retention of Deposition. The original deposition shall be maintained until the case is finally disposed.
- (3) Exhibits. Documents and things produced for inspection during the examination of the witness shall, upon the request of a party, be marked for identification and annexed to and returned with the deposition and may be inspected and copied by any party, except that (A) the person producing the materials may substitute copies to be marked for identification if the person affords to all parties fair opportunity to verify the copies by comparison with the originals and (B) if the person producing the materials requests their return, the officer shall mark them, give each party an opportunity to inspect and copy them, and return them to the person producing them, and the materials may then be used in the same manner as if annexed to and returned with the deposition. Any party may move for an order that the original be annexed to and returned with the deposition to the court pending final disposition of the civil action.
- (4) Copies. Upon request and payment of reasonable charges therefor, the officer shall furnish a copy of the deposition to any party or to the deponent.
  - (h) Failure to Attend or to Serve Subpoena; Expenses.
- (1) If the party giving the notice of the taking of a deposition fails to attend and proceed therewith and another party attends in person or by attorney pursuant to the notice, the court may order the party giving notice to pay to such other party the reasonable expenses incurred by that other party and that other party's attorney in attending, including reasonable attorney's fees.
- (2) If a witness fails to appear for a deposition and the party giving the notice of the taking of the deposition has not complied with these rules to compel the attendance of the witness, the court may order the party giving the notice to pay to any party attending in person or by attorney the reasonable expenses incurred by that other party and that other party's attorney in attending, including reasonable attorney's fees.

#### RULE 57.04. DEPOSITIONS UPON WRITTEN QUESTIONS

- (a) Serving Questions; Notice.
- (1) After commencement of the action, any party may take the testimony of any person, including a party, by deposition upon written questions, without leave of court, except as specified in paragraph (2) of this subdivision. The attendance of witnesses may be compelled by the use of subpoena as provided in Rule 57.09.

- (2) Leave of court, granted with or without notice, must be obtained only if:
- (A) the parties have not stipulated to the deposition and:
- (i) the deposition would result in more than 10 depositions being taken under this rule or Rule 57.03 by the plaintiffs, or by the defendants, or by the third-party defendants;
  - (ii) the deponent has already been deposed in the case; or
- (iii) the plaintiff seeks to take a deposition prior to the expiration of 30 days after service of the summons and petition upon any defendant, except that leave is not required if a defendant has served a notice of taking deposition or otherwise sought discovery; or
  - (B) the deponent is confined in prison.
- (3) A party desiring to take a deposition upon written questions shall serve them upon every other party with a notice stating: (A) the name and address of the person who is to answer them, if known, and if the name is not known, a general description sufficient to identify the person or the particular class or group to which the person belongs and (B) the name or descriptive title and address of the officer before whom the deposition is to be taken. A deposition upon written questions may be taken of a public or private corporation or a partnership or association or governmental agency in accordance with the provisions of Rule 57.03(b)(4).
- (4) Within thirty days after the notice and written questions are served, a party may serve cross questions upon all other parties. Within ten days after being served with cross questions, a party may serve redirect questions upon all other parties. Within ten days after being served with redirect questions, a party may serve recross questions upon all other parties. The court may for cause shown enlarge or shorten the time.
- (b) Officer to Take Responses and Prepare Record. A copy of the notice and copies of all questions served shall be delivered by the party taking the deposition to the officer designated in the notice, who shall proceed promptly, in the manner provided by Rule 57.03(d), (f), and (g), to take the testimony of the witness in response to the questions and to prepare, certify, and deliver the deposition, attaching thereto the copy of the notice and the questions.
- (c) Notice of Delivery. When the deposition is delivered, the party taking it promptly shall give notice thereof to all other parties.

## RULE 58.01. PRODUCTION OF DOCUMENTS AND THINGS AND ENTRY UPON LAND FOR INSPECTION AND OTHER PURPOSES

- (a) Scope. Any party may serve on any other party a request to:
- (1) Produce and permit the requesting party or its representative to inspect, copy, test or sample the following items in the responding party's possession, custody, or control:

- (A) Any designated documents or electronically stored information including writings, drawings, graphs, charts, photographs, sound recordings, images, electronic records, and other data or compilations from which information can be obtained either directly or indirectly or, if necessary, after translation by the responding party into a reasonably usable form; or
  - (B) Any designated tangible things; or
- (2) Permit entry upon designated land or other property in the possession or control of the party upon whom the request is served for the purpose of inspection and measuring, surveying, and photographing, testing, or sampling the property or any designated object or operation thereon, within the scope of Rule 56.01(b).

This Rule 58.01 does not preclude an independent action against a person not a party for production of documents and things and permission to enter upon land.

- (b) Issuance.
- (1) Form. In consecutively numbered paragraphs the request shall:
- (A) Set forth with reasonable particularity each item or category of items to be inspected;
- (B) Specify a reasonable time, place and manner of making the inspection and performing the related acts; and
- (C) May specify that electronically stored information be produced in native format.

The title shall identify the party to whom the requests are directed and state the number of the set of requests directed to that party.

- (2) When Requests May be Served. Without leave of court, requests may be served on:
  - (A) A plaintiff after commencement of the action; and
- (B) Any other party with or after the party was served with process, entered an appearance, or filed a pleading.
- (3) Service. Copies of the requests shall be served on all parties not in default. The party issuing the requests shall also provide each responding party an electronic copy in a commonly used medium, such as a diskette, CD-ROM or as an e-mail attachment, in a format that can be read by most commonly used word processing programs, such as Word for Windows or WordPerfect 5.x or higher. In addition to the information normally in a certificate of service, the certificate of service shall also state the:
  - (A) Name of each party who is to respond to the requests;
  - (B) Number of the set of requests;
- (C) Format of the electronic copy and the medium used to transmit the electronic copy to the responding party.

At the time of service, a certificate of service, but not the requests, shall be filed with the court as provided in Rule 58.01(d).

- (c) Response. The requests shall be answered by each party to whom they are directed.
- (1) When Response is Due. Responses shall be served within 30 days after the service of the request. A defendant, however, shall not be required to respond to the request before the expiration of 45 days after the earlier of:

- (A) The date the defendant enters an appearance; or
- (B) The date the defendant is served with process.

The court may allow a shorter or longer time.

- (2) Form. The title of the response shall identify the responding party and the number of the set of the requests. The response shall quote each request, including its original paragraph number, and immediately thereunder state that the requested items will be produced or the inspection and related activities will be permitted as requested, unless the request is objected to, in which event each reason for objection shall be stated in detail.
- (3) Objections and Privileges. If information is withheld because of an objection, then each reason for the objection shall be stated. An objection to part of a request must specify the part and permit inspection of the rest. If a privilege or the work product doctrine is asserted as a reason for the objection, then without revealing the protected information, the objecting party shall state information that will permit others to assess the applicability of the privilege or work product doctrine.
- (4) Method of Production. A party who produces documents for inspection shall produce them as they are kept in the usual course of business or shall organize and label them to correspond with the categories in the request.
- (5) Signing. The response shall be signed by the attorney or by the party if the party is not represented by an attorney.
- (6) Service. The party to whom the requests were directed shall serve a signed original of the response and objections, if any, on the party that issued the requests and a copy upon all parties not in default. The certificate of service shall state the name of the party who issued the requests and the number of the set of requests. At the time of service, a certificate of service, but not the response, shall be filed with the court as provided in Rule 58.01(d).
- (d) Filing. The request and responses thereto shall not be filed with the court except upon court order or contemporaneously with a motion placing the request in issue. However, both when the request and responses are served, the party serving them shall file with the court a certificate of service. The certificate shall show the caption of the case, the name of the party served, the date and manner of service, and the signature of the serving party or attorney. Each party filing a certificate shall maintain a copy of the document that is the subject of the certificate until the case is finally disposed.
- (e) Enforcement. The party submitting the request may move for an order under Rule 61.01(d) with respect to any objection or other failure to respond to the request or any part thereof or any failure to permit inspection as requested.

#### RULE 59.01. REQUEST FOR AND EFFECT OF ADMISSIONS

(a) Scope. After commencement of an action, a party may serve upon any other party no more than 25 written requests for the admission without leave of court or stipulation of the parties, for purposes of the pending action only, of the

truth of any matters within the scope of Rule 56.01(b) set forth in the request that relate to statements or opinions of fact or of the application of law to fact, including the genuineness of any documents described in the request. However, the limitation on the number of requests for admission specified by this Rule 59.01 shall not apply to requests for admission regarding the genuineness of documents.

A failure to timely respond to requests for admissions in compliance with this Rule 59.01 shall result in each matter being admitted.

The request for admissions shall have included at the beginning of said request the following language in all capital letters, boldface type, and a character size that is as large as the largest character size of any other material in the request:

"A FAILURE TO TIMELY RESPOND TO REQUESTS FOR ADMISSIONS IN COMPLIANCE WITH RULE 59.01 SHALL RESULT IN EACH MATTER BEING ADMITTED BY YOU AND NOT SUBJECT TO FURTHER DISPUTE."

(b) Effect of Admission. Any matter admitted under this Rule 59.01 is conclusively established unless the court on motion permits withdrawal or amendment of the admission.

Subject to the provisions of Rule 62.01 governing amendment of a pre-trial order, the court may permit withdrawal or amendment when the presentation of the merits of the action will be subserved thereby and the party who obtained the admission fails to satisfy the court that withdrawal or amendment will prejudice the party in maintaining the action or defense on the merits.

Any admission made by a party under this Rule 59.01 is for the purpose of the pending action only and is not an admission by the party for any other purpose nor may it be used against the party in any other proceeding.

- (c) Issuance.
- (1) Form. In consecutively numbered paragraphs, the request shall set forth each matter for which an admission is requested. Copies of documents about which admissions are requested shall be served with the request unless copies have already been furnished. The title shall identify the party to whom the request for admissions are directed and state the number of the set of requests directed to that party.
- (2) When Requests May be Served. Without leave of court, requests may be served on:
  - (A) A plaintiff after commencement of the action,
- (B) A defendant or respondent upon the expiration of 30 days after the first event of the defendant entering an appearance or being served with process, and
- (C) Any other party with or after the party was served with process, entered an appearance, or filed a pleading.
- (3) Service. Copies of the requests shall be served on all parties not in default. The party issuing the requests shall also provide each responding party an electronic copy in a commonly used medium, such as a diskette, CD-ROM or as an e-mail attachment, in a format that can be read by most commonly used word processing programs, such as Word for Windows or WordPerfect 5.x or higher. In

addition to the information normally in a certificate of service, the certificate of service shall also state the:

- (A) Name of each party who is to respond to the requests;
- (B) Number of the set of requests,
- (C) Format of the electronic copy and the medium used to transmit the electronic copy to the responding party.

At the time of service, a certificate of service, but not the requests, shall be filed with the court as provided in Rule 59.01(d).

- (d) Response. The requests shall be answered by each party to whom they are directed.
- (1) When Response is Due. Responses shall be served within 30 days after the service of the requests for admissions. A defendant or respondent, however, shall not be required to respond to requests for admissions before the expiration of 60 days after the earlier of the defendant:
  - (A) Entering an appearance, or
  - (B) Being served with process.

The court may allow a shorter or longer time.

- (2) Form. The title of the response shall identify the responding party and the number of the set of the requests for admissions. The response shall quote each request, including its original paragraph number, and immediately thereunder specifically:
  - (A) Admit the matter; or
  - (B) Deny the matter; or
  - (C) Object to the matter and state each reason for the objection; or
- (D) Set forth in detail the reasons why the responding party cannot truthfully admit or deny the matter.

A denial shall fairly meet the substance of the requested admission.

When good faith requires that a party qualify an answer or deny only a part of the matter of which an admission is requested, the party shall specify so much of it as true and qualify or deny the remainder.

A responding party may give lack of information or knowledge as a reason for failure to admit or deny if such party states that the party has made reasonable inquiry and the information known or readily obtainable by the party is insufficient to enable the party to admit or deny.

A party who considers that a matter of which an admission has been requested presents a genuine issue for trial may not, on that ground alone, object to the request; such party may deny the matter, subject to the provisions of Rule 61.01(c), or set forth reasons why the party cannot admit or deny it.

- (3) Objections and Privileges. If an objection is asserted, then each reason for the objection shall be stated. If a failure to admit or deny a request is based on a privilege or the work product doctrine, then without revealing the protected information, the objecting party shall state information that will permit others to assess the applicability of the privilege or work product doctrine.
- (4) Signing. The response shall be signed by the party or the party's attorney.

(5) Service. The party to whom the requests were directed shall serve a signed original of the response and objections, if any, on the party that issued the requests and a copy upon all parties not in default. The certificate of service shall state the name of the party who issued the requests and the number of the set of requests.

At the time of service, a certificate of service, but not the response, shall be filed with the court as provided in Rule 59.01(d).

- (e) Filing Request and Responses. The request and response thereto shall not be filed with the court except upon court order or contemporaneously with a motion placing the request in issue. However, both when the request and the response are served the party serving them shall file with the court a certificate of service. Each party filing a certificate shall maintain a copy of the document that is the subject of the certificate until the case is finally disposed.
- (f) Enforcement. The party who has requested the admissions may move to have determined the sufficiency of the answers or objections. Unless the court determines that an objection is proper, it shall order that an answer be served. If the court determines that an answer does not comply with the requirements of this Rule 59.01, it may order either that:
  - (1) The matter is admitted, or
  - (2) An amended answer be served.

The provisions of Rule 61.01(c) apply to the award of expenses incurred in relation to the motion.

#### RULE 61.01. FAILURE TO MAKE DISCOVERY: SANCTIONS

(a) Failure to Act - Evasive or Incomplete Answers. Any failure to act described in this Rule 61 may not be excused on the ground that the discovery sought is objectionable unless the party failing to act has served timely objections to the discovery request or has applied for a protective order as provided by Rule 56.01(c).

For the purpose of this Rule 61, an evasive or incomplete answer is to be treated as a failure to answer.

- (b) Failure to Answer Interrogatories. If a party fails to answer interrogatories or serve objections thereto within the time provided by law, or if objections are served thereto that are thereafter overruled and the interrogatories are not timely answered, the court may, upon motion and reasonable notice to other parties, take such action in regard to the failure as are just and among others the following:
- (1) Enter an order striking pleadings or parts thereof or dismissing the action or proceeding or any part thereof or render a judgment by default against the disobedient party;
- (2) Upon the showing of reasonable excuse, grant the party failing to answer the interrogatories additional time to serve answers, but such order shall provide that if the party fails to answer the interrogatories within the additional time

allowed, the pleadings of such party shall be stricken or the action shall dismissed or a default judgment shall be rendered against the disobedient party.

- (c) Failure to Answer Request for Admissions. If a party, after being served with a request to admit the genuineness of any relevant documents or the truth of any relevant and material matters of fact, fails to serve answers or objections thereto, as required by Rule 59.01, the genuineness of any relevant documents or the truth of any relevant and material matters of fact contained in the request for admissions shall be taken as admitted. If a party fails to admit the genuineness of any document or the truth of any matter as requested under Rule 59.01, and if the party requesting the admissions thereafter proves the genuineness of the document or the truth of the matter, the party requesting the admissions may apply to the court for an order requiring the other party to pay the reasonable expenses incurred in making that proof, including reasonable attorney fees. The court shall make the order unless it finds that:
  - (1) The request was held objectionable pursuant to Rule 59.01;
  - (2) The admission sought was of no substantial importance;
- (3) The party failing to admit had reasonable grounds to believe that such party might prevail on the matter; or
  - (4) There was other good reason for the failure to admit.
- (d) Failure to Produce Documents and Things or to Permit Inspection. If a party fails to respond that inspection will be permitted as requested, fails to permit inspection, or fails to produce documents and tangible things as requested under Rule 58.01, or timely serves objections thereto that are thereafter overruled and the documents and things are not timely produced or inspection thereafter is not timely permitted, the court may, upon motion and reasonable notice to other parties, take such action in regard to the failure as are just and among others the following:
- (1) Enter an order refusing to allow the disobedient party to support or oppose designated claims or defenses or prohibiting the disobedient party from introducing designated matters in evidence;
- (2) Enter an order striking pleadings or parts thereof or staying further proceedings until the order is obeyed or dismissing the action or proceeding or any part thereof or render a judgment by default against the disobedient party;
  - (3) Enter an order treating as a contempt of court the failure to obey; or
- (4) Enter an order requiring the party failing to obey the order or the attorney advising the party or both to pay the reasonable expenses, including attorney fees, caused by the failure unless the court finds that the failure was substantially justified or that other circumstances make an award of expenses unjust.
- (e) Failure to Appear for Physical Examination. If a party fails to obey an order directing a physical or mental or blood examination under Rule 60.01, the court may, upon motion and reasonable notice to the other parties and all persons affected thereby, make such orders in regard to the failure as are just, and among others, it may take any action authorized under Rules 61.01(d)(1), (2), and (4). Where a party has failed to comply with an order requiring the production of another for examination, the court may enter such orders as are authorized by this Rule 61.01, unless the party failing to comply shows an inability to produce such person for examination.

- (f) Failure to Attend Own Deposition. If a party or an officer, director or managing agent of a party or a person designated under Rules 57.03(b)(4) and 57.04(a), to testify on behalf of a party, fails to appear before the officer who is to take his deposition, after being served with notice, the court may, upon motion and reasonable notice to the other parties and all persons affected thereby, make such orders in regard to the failure as are just and among others, it may take any action authorized under paragraphs (1), (2), (3) and (4) of subdivision (d) of this Rule.
- (g) Failure to Answer Questions on Deposition. If a witness fails or refuses to testify in response to questions propounded on deposition, the proponent of the question may move for an order compelling an answer. The proponent of the question may complete or adjourn the deposition examination before applying for an order. In ruling upon the motion, the court may make such protective order as it would have been empowered to make on a motion pursuant to Rule 56.01(c).

If the motion is granted, the court, after opportunity for hearing, shall require the party or deponent whose conduct necessitated the motion or the party or attorney advising such conduct or both of them to pay to the moving party the reasonable expenses incurred in obtaining the order, including attorney's fees, unless the court finds that the opposition to the motion was substantially justified or that other circumstances make an award of expenses unjust.

If the motion is denied, the court, after opportunity for hearing, shall require the moving party or the attorney advising the motion or both of them to pay to the party or deponent who opposed the motion the reasonable expenses incurred in opposing the motion, including attorney's fees, unless the court finds that the making of the motion was substantially justified or that other circumstances make an award of expenses unjust.

If the motion is granted in part and denied in part, the court may apportion the reasonable expenses incurred in relation to the motion among the parties and persons in a just manner.

If the motion is granted and if the persons ordered to respond fail to comply with the court's order, the court, upon motion and reasonable notice to the other parties and all persons affected thereby, may make such orders in regard to the failure as are just, and among others, it may take any action authorized under Rule 61.01(d).

(h) Objections to Approved Discovery. If objections to Rule 56.01(b)(8) approved interrogatories or requests for production are overruled, the court may assess against such objecting party, attorney, or attorney's law firm, or all of them, the attorney's fees reasonably incurred in having such objection overruled. If such fees are not paid within sixty days, the court may enter such other appropriate orders against the disobedient party, including an order striking pleadings, dismissing the action, or entering a judgment by default.

#### **EXPLANATORY NOTES**

- (1) This section was contained in SB 718 and SB 951 in 2018. SB 718 contained an emergency clause for sections 9.192, 195.070, 195.265, 334.036, 374.426, and 630.875, and was signed by the Governor and became effective on 7-06-18. SB 951 did not contain an emergency clause; it became effective on 8-28-18. The printed version of this section contains the language of SB 718 merged with SB 951.
- (2) Merged (two bills).
- (3) Merged (three bills).
- (4) Merged (four bills).
- (5) Merged (five bills).
- (6) Section 67.3000 was amended by both HB 1388 and SB 773 in 2018. The language in subsection 8 dealing with support contracts differed with the year "2024" appearing in original rolls of SB 773, and "2025" appearing in original rolls of HB 1388.
- (7) Section 67.3005 was amended by both HB 1388 and SB 773 in 2018. The language in subdivision (1) of subsection 5 dealing with the sunset date provision contained the year "2018" in the original rolls of SB 773, and "2019" appearing in the original rolls of HB 1388.
- (8) This section previously contained 2 versions. In 2010, SB 844 amended this section. In 2012, SB 844 was declared unconstitutional (see Legends Bank v. State, 361 S.W.3d 383 (Mo. banc)), creating the multiple versions. In 2018, SB 975 & 1024 Revision repealed the SB 844 version of each of the following sections appearing in this table: 105.456, 105.473, 105.485, 105.957, 105.959, 105.961, 105.963, 105.966, 130.011, 130.021, 130.026, 130.041, 130.044, 130.046, 130.057, and 130.071.
- (9) This section was amended by SB 708 in 2018, with a delayed effective date of 7-01-19 for these sections: 105.1073, 303.020, 303.030, 303.120, 303.190, and 303.240.
- (10) This section was repealed by both SB 592 and SB 975 & 1024 Revision in 2018. SB 592 contained a delayed effective date of 11-07-18 for the repeal of the following sections: 115.001, 115.002, and 115.009. SB 975 & 1024 Revision contained no effective date provision. The repeal of these sections became effective 11-07-18 because the Revision bill falls pursuant to section 3.065.
- (11) This section was contained in both SB 592 and SB 975 & 1024 Revision in 2018. SB 592 contained a delayed effective date of 11-07-18 for the following sections: 115.003, 115.005, 115.007, 115.023, 115.049, 115.155, 115.177, 115.227, 115.243, 115.247, 115.287, 115.421, 115.429, 115.453, 115.507, 115.515, 115.629, 115.631, and 115.641. SB 975 & 1024 Revision contained no effective date provision. These sections became effective 11-07-18 because the Revision bill falls pursuant to section 3.065.

(Numbers in parentheses in the "Status" column refer to Explanatory Notes at the end of this listing.)

#### **EXPLANATORY NOTES (CONT.)**

- (13) Section 143.011 was contained in both SB 884 and HB 2540 in 2018. HB 2540 contained a delayed effective date of 1-01-19 for this section. SB 884 contained no effective date provision. The SB 884 version became effective 8-28-18 until 1-01-19, and the HB 2540 version merged with the SB 884 version became effective 1-01-19.
- (14) Section 143.811 was contained in both HB 1858 and SB 975 & 1024 Revision in 2018. The HB 1858 version contained a delayed effective date of 7-01-19 for this section. SB 975 & 1024 Revision contained no effective date provision. The SB 975 & 1024 Revision version became effective 8-28-18 until 7-01-19, and the HB 1858 version merged with the SB 975 & 1024 Revision version becomes effective 7-01-19.
- (15) Section 144.030 was contained in both SB 768 and SB 975 & 1024 Revision in 2018. Subsection .2(45) of this section was omitted in SB 975 & 1024 Revision. The HB 1858 version that included subsection .2(45), merged with all other additional changes in the SB 975 & 1024 Revision version, became the effective version of this section because the omission of .2(45) in S.B. 975 & 1024 Revision is not given effect pursuant to section 3.065.
- (16) Section 160.545 was contained in HB 1744 and SB 807 & 577 in 2018. HB 1744 contained an emergency clause for this section, and was signed by the Governor and became effective on 6-01-18. SB 807 & 577 did not contain an emergency clause; it became effective on 8-28-18. The printed version of this section contains the language of HB 1744 merged with SB 807 & 577.
- (17) Section 161.026 has two versions because of a possible conflict. This section was contained in both SB 743 and HB 1606 in 2018. Subsection 8 of this section contains an expiration date of 8-28-25 in SB 743, and an expiration date of 8-28-26 in HB 1606.
- (18) Section 166.435 was a section with multiple versions. In 2015, SB 366 amended the 2008 SB 863 version of this section to include a contingent effective date, creating the multiple versions. In 2018, both HB 1744 and SB 882 amended the SB 366 version to repeal the contingent effective date, and both HB 1744 and SB 882 repealed the SB 863 version of this section.
- (19) Section 167.121 was contained in both HB 1606 and SB 603, et al., in 2018. The HB 1606 version contained a delayed effective date of 7-01-19 for this section. SB 603, et al., contained no effective date provision. The SB 603, et al., version became effective 8-28-18 until 7-01-19, and the HB 1606 version merged with the SB 603, et al., version becomes effective 7-01-19.
- (20) Section 167.910 has two versions because of a possible conflict. This section was contained in both HB 1606 and HB 1415 in 2018. The changes to this section in each bill were myriad, creating differences throughout that could not be merged intelligibly under section 3.065.
- (21) Section 171.029 was repealed by both HB 1606 and SB 743 in 2018. Both HB 1606 and SB 743 contained a delayed effective date of 7-01-19 for the repeal of the section.
- (22) Section 178.930 was contained in three bills in 2018, HB 1415, SB 743, and SB 975 & 1024 Revision. Both HB 1415 and SB 743 repealed the section. SB 975 & 1024 Revision amended the section, but in accordance with subsection 2 of section 3.065, the amendments in S.B. 975 & 1024 Revision are not given effect and this section is repealed by H.B. 1415 and S.B. 743. HB 1415 contained an emergency clause, and the repeal of the section became effective 7-01-18. SB 743 became effective 8-28-18.
- (23) Section 178.931 was contained in both HB 1415 and SB 743 in 2018. HB 1415 contained an emergency clause, and the enactment of the section became effective 7-01-18. SB 743 became effective 8-28-18.
- (24) Section 190.147 was contained in both HB 1355 and SB 870 in 2018. Subsection 1 of this section contains the language from both bills; however, the order of the language in SB 870 differs from HB 1355.
- (25) SB 843 transferred section 196.1129 to section 191.756 in 2018.
- (26) Sections 195.070 and 195.265 were contained in three bills in 2018, SB 718, SB 826, and SB 951. Both SB 718 and SB 826 contained an emergency clause for sections 195.070 and 195.265, and were signed by the Governor and became effective on 7-06-18. SB 951 did not contain an emergency clause; it became effective on 8-28-18. The printed version of this section contains the merged language from all three bills.

(Numbers in parentheses in the "Status" column refer to Explanatory Notes at the end of this listing.)

#### **EXPLANATORY NOTES (CONT.)**

- (27) This section was contained in both SB 793 and SB 800. Both bills contained a contingency in section 211.438, as well as an effective date of 1-01-21 in section 211.439. Both the contingency and the delayed effective date applied to the following sections: 211.021, 211.031, 211.032, 211.033, 211.041, 211.061, 211.071, 211.073, 211.081, 211.091, 211.101, 211.161, 211.181, 211.321, 211.421, 211.425, 211.431, and 221.044.
- (28) Section 260.242 was contained in three bills in 2018, SB 659, SB 782, and SB 917; however, the order of the language in subsections 3 to 10 of this section in SB 659 and SB 782 differs from SB 917.
- (29) Section 313.040 was amended by HB 1484 in 2018, but contained a contingent effective date. Therefore, 2 versions of this section are printed. The language in the 2014 SB 491 version of this section is the effective language until the contingency in the 2018 HB 1484 version occurs.
- (30) Section 329.032 was contained in both HB 1500 and HB1719 in 2018. The words appearing between the asterisks in the section do not appear in HB 1500.
- (31) This section was contained in both HB 1719 and SB 660 in 2018. Both bills contained a contingent effective date in section 337.170 for the following sections: 337.100, 337.105, 337.110, 337.115, 337.120, 337.125, 337.130, 337.135, 337.140, 337.145, 337.150, 337.155, 337.160, and 337.165.
- (32) Section 337.712 was amended in 2018 by SB 975 & 1024 Revision. The section number "337.712" appears in HB 1719, 2018. However, the text that appears in HB 1719 is not the text in the official Revised Statutes of Missouri, but is the text for section 337.662 as it appears in RSMo. The official text of section 337.712 was only amended by SB 975 & 1024 Revision and not by HB 1719; therefore, section 3.060 is applicable instead of section 3.065.
- (33) Section 589.400 was contained in SB 655 and SB 793 in 2018. The changes to this section were vastly different in each bill. Since the different changes could be reconciled, section 3.065 gave the Revisor the authority to merge these bills.
- (34) SB 975 & 1024 Revision transferred section 640.150 to 620.035 in 2018.
- (35) Sections designated in bills as generic sections ("Section 1", "Section B", etc.) may be classified as RSMo sections by the Revisor of Statutes. Consult the Disposition of Sections table for a definitive listing.
