APPENDIX C — DEPARTMENTAL PLANS

Office of Administration

The Office of Administration is the state's service and administrative control agency. Created by the General Assembly on Jan. 15, 1973, it combines and coordinates the central management functions of state government. Its responsibilities were clarified and amended by the *Omnibus State Reorganization Act of 1974*.

The chief administrative officer is the Commissioner of Administration, who is appointed by the Governor with the advice and consent of the Senate. The commissioner appoints the Deputy Commissioner/General Counsel and the directors of the divisions who report directly to her. The divisions are: Accounting; Budget and Planning; Facilities Management, Design and Construction; General Services; Information Technology Services; Personnel; and Purchasing.

The Office of Equal Opportunity (OEO) is a program within the Office of Administration. The OEO assists and monitors state agencies in promoting and ensuring equal opportunity within state government through employment, provision of services, and operation of facilities. The director of the OEO reports to the Commissioner of Administration.

Division of Accounting

The Division of Accounting provides central accounting and central payroll system services for state government, producing checks and electronic payments for state vendors and state employees. The Division publishes annual financial reports, administers bond sales for the Board of Fund Commissioners, Board of Public Buildings and Board of Unemployment Fund Financing and administers the Social Security coverage for all employees of the state and its political subdivisions.

Division of Budget and Planning

The Division of Budget and Planning (B&P) analyzes budget policy issues and provides information to the Commissioner of Administration, the Governor's office, the General Assembly, Missouri's congressional delegation and state, local and federal agencies. The division prepares the budget instructions, reviews agency budget requests, prepares the annual executive budget, analyzes economic and demographic conditions, forecasts state revenues and conducts technical policy and program analyses. To assist in state government management, the division controls appropriation allotments, manages the automated state budget system, prepares legislative fiscal notes, reviews legislation, tracks agency performance measures, analyzes and develops policy options and reviews federal issues and their impact on Missouri. The division coordinates preparations for and assistance during, elected-official transitions. The division compiles population estimates and projections, provides technical assistance during decennial reapportionment and is Missouri's liaison to the U.S. Bureau of the Census.

Division of Facilities Management, Design and Construction

The Division of Facilities Management, Design and Construction (FMDC) provides asset management services to assist state entities in meeting their facility needs for the benefit of the public. The mission is to provide a superior workplace environment for state occupants and their visitors and protect the State's investments in property assets. The goal of FMDC is to provide agencies with the information and resources that will support their development of high-performance workplaces — workplaces that will meet agency business needs and can be readily adapted to changing work place practices and strategies.

Division of General Services

The Division of General Services provides essential support services to state departments and to the Office of Administration. State Printing provides comprehensive reproduction services including design, printing, finishing, and quick copy services. Central Mail Services advises agencies on efficient mailing practices and provides comprehensive mailing services to most state agencies operating within the Jefferson City area. Risk Management administers the Legal Expense Fund and the workers' compensation program for state employees, purchases

APPENDIX C — DEPARTMENTAL PLANS

insurance as required, and advises state agencies on risk management issues. Vehicle Maintenance operates a centralized maintenance facility to provide mechanical repairs and body shop services for state vehicles based in the Mid-Missouri area. Fleet Management establishes statewide policies governing state vehicle operations and management; coordinates a centralized fleet information system; operates a consolidated car pool serving agencies in the Jefferson City area; and serves as a resource for fleet management issues. Surplus Property transfers and disposes of state surplus property and distribution of excess federal property to eligible entities. State Recycling coordinates statewide recycling efforts and serves as a resource for recycling issues. General Services also manages the Missouri State Employees Charitable Campaign.

Information Technology Services Division

The mission of the Information Technology Services Division (ITSD) is to provide technology and communication services and solutions to the state's departments and agencies in effort to efficiently and effectively serve the citizens of Missouri. Under the leadership of the chief information officer, the ITSD offers centralized staff and resources in a single unified entity, and supports 14 executive branch departments. The organizational model allows for enterprise standards and guidance in the common areas of security, networking, data management, server administration, end user support, technical architecture and application management, while maintaining a department-focused perspective on service delivery. In collaboration with other state agencies, ITSD aims to deliver reliable and accessible IT systems and services in an environment striving for optimization, collaboration, productivity and cost savings.

Division of Personnel

The Division of Personnel is responsible for administering the State's Merit System, overseeing the Uniform Classification and Pay System (UCP), maintaining employee service reports, developing and administering a management development training program, and overseeing a variety of employee recognition programs, including a statewide employee suggestion system as established in the State Personnel Law (Chapter 36, RSMo). Division staff provide consultation on a variety of human resources topics.

The Missouri Merit System is based on the principles of merit and fitness for employment, as well as objective and consistent human resource management policies and procedures. The system also grants employees the ability to appeal disciplinary actions. Approximately 32,100 state employees in six state departments and sections of three other departments comprise the Missouri Merit System.

The Uniform Classification and Pay (UCP) system is designed to promote equity in pay among state employees in most executive branch agencies and to allow coordinated compensation policies. The UCP system covers approximately 35,750 employees of merit system agencies and employees from several other departments. The Division of Personnel is also responsible for the oversight of the statewide performance appraisal system.

Division of Purchasing

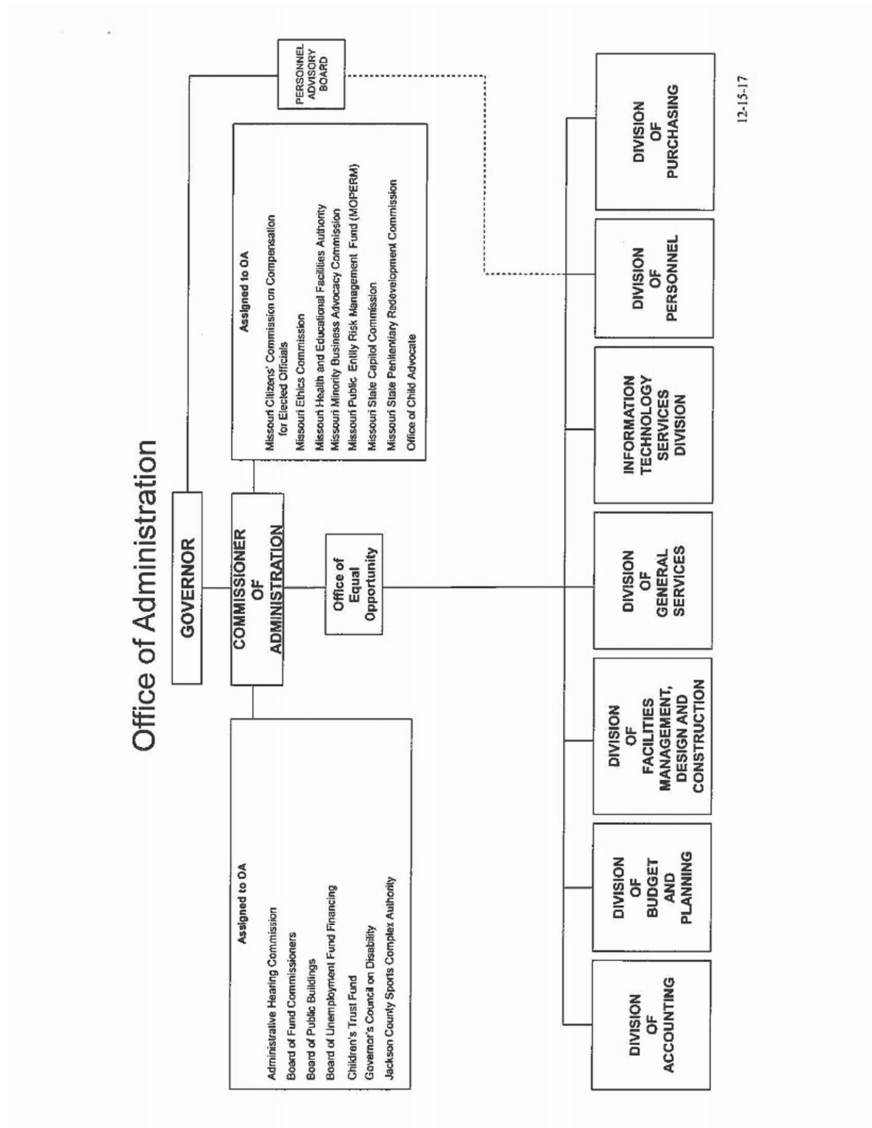

The Division of Purchasing (Purchasing) is responsible for the procurement of all state-required supplies, materials, equipment and professional or general services, except for those agencies exempted by law. Purchasing executes procurement functions in accordance with applicable statutes by maximizing competition in the procurement process, conducting evaluations and negotiations as appropriate, and awarding contracts to the "lowest and best" vendors. Additionally, Purchasing is responsible for cooperative contracts, emergency procurement authorizations, single feasible source contracts, special delegations of authority, as well as other procurement authorizations as permitted by law.

APPENDIX C — DEPARTMENTAL PLANS

MISSOURI DEPARTMENT OF AGRICULTURE

DEPARTMENTAL PLAN
NOVEMBER 2017

MISSION

The mission of the Missouri Department of Agriculture is to serve, promote and protect the agricultural producers, processors and consumers of Missouri's food, fuel and fiber products.

INTERNAL ORGANIZATION

The Missouri Department of Agriculture represents the diverse interests of the state's vast agricultural industry. The department has the dual responsibility of protecting the state's producers, processors, distributors and consumers of food, fuel and fiber, while marketing Missouri's food and agricultural products at home and abroad. The Department was originally established by Senate Bill 42, passed in 1933. Its current constitutional authority is Article IV, Section 35, and its statutory authority is RSMo. Chapter 261.

OFFICE OF THE DIRECTOR

The Missouri Department of Agriculture is managed by a Director who is appointed by the Governor and confirmed by the Senate. The Director determines department policy, oversees the department's five divisions and serves as a liaison to the Governor, state legislators, the agricultural community and the public.

The Director is a standing member of the State Milk Board, the Missouri State Fair Commission, the Missouri Soil and Water Districts Commission, the Missouri Development Finance Board, the Missouri Petroleum Storage Tank Insurance Fund and the Missouri Agricultural and Small Business Development Authority.

The Deputy Director is responsible for coordination of activities of the division directors and manages the day-to-day operations of the Department. The Deputy Director acts on behalf of the Director in his/her absence.

Housed within the Office of the Director are the department's administrative and support functions: fiscal, grants management, human resources, strategic initiatives and communications, budget, general counsel, legislative and policy and planning.

The Director's Office is also responsible for surveillance of foreign ownership of Missouri's agricultural farmland (RSMo. Chapter 442) and for administering the provisions of RSMo. Chapter 350, relating to corporate farm registration.

AGRICULTURE BUSINESS DEVELOPMENT DIVISION

The Agriculture Business Development Division creates opportunities for success for

Page 1 of 10

APPENDIX C — DEPARTMENTAL PLANS

Missouri's farmers and agribusinesses. Division staff help facilitate growth in Missouri's agriculture-based businesses by providing business counseling, information and training on a sector-by-sector basis.

Areas of specialization include capitalization, business planning, marketing, industry development, product and brand development and organizational structures. The division also helps facilitate growth in Missouri's agriculture-based industries by working with key players such as universities, associations, private sector partners and federal and state agencies.

The division's staff also works with Missouri youth, encouraging them to pursue agricultural degrees and careers through the Missouri AgriBusiness Academy, the Missouri Livestock Grading and Judging Contest, Building Our American Communities grants and working with state FFA Chapters and 4-H Clubs.

AgriMissouri

AgriMissouri is a branded program designed to grow the production of and demand for agricultural products grown and made in Missouri. The program works with farmers, agribusinesses and retail outlets statewide to increase consumer recognition of Missouri's agricultural products in the marketplace.

Farmers' Markets/Specialty Crops

Consumers demand high quality and fresh products at more than 270 farmers' markets as well as traditional retail outlets. To increase awareness for Missouri markets, this program works one-on-one with farmers' markets to ensure safe and abundant fresh products. Farmers marketing fresh products require knowledge of food safety, manufacturing, distribution and general market and business regulations. This program assists both markets and growers in efforts to increase the production, consumption and sales of specialty crops.

International and Business Development Programs

The International and Business Development Programs focuses on both domestic and international marketing. Department specialists work with specific industry representatives or groups to establish marketing opportunities and promote Missouri commodities here and abroad. Through providing one-on-one assistance to producers interested in marketing, production and processing their commodities in new ways, the marketing personnel enhance farm profitability in Missouri through innovations in technology and marketing and promotions of value-added agriculture. With an international office in Taiwan, international marketing specialists are able to work worldwide to promote and sell Missouri agriculture products.

Market News

Market News provides an unbiased, reliable, accurate and timely source for livestock and grain market news to remain competitive and assist them in making wise and profitable marketing decisions. It also guides producers in production planning and provides a more even playing field in the marketplace. Market News staff report prices from 25 livestock auctions and 28 grain markets in Missouri. Daily market figures are published online and through the Weekly Market Summary.

APPENDIX C — DEPARTMENTAL PLANS

ANIMAL HEALTH DIVISION

The Division of Animal Health, under the direction of the state veterinarian, promotes and protects Missouri's diverse and dynamic livestock industry. The assistance and oversight provided by the division's programs ensure greater market access for Missouri's livestock and companion animal industries.

Animal agriculture accounts for about half of Missouri's annual agriculture cash receipts. The division administers laws and programs designed to control and eradicate livestock disease and to maintain and enhance the integrity of the state's animal industries.

The state's progress in national disease control and eradication is due to the cooperative efforts of livestock producers, markets, practicing veterinarians, other agencies and animal health staff. Through these cooperative efforts, Missouri has achieved bovine Tuberculosis and Brucellosis Free status, swine Pseudorabies stage V status and avian Pullorum-Typhoid Clean status. In addition, the division operates two state-of-the-art diagnostic laboratories in Jefferson City and Springfield.

AgriSecurity

The Animal Health Division works to safeguard the livestock industry and the public against the threat of bioterrorist attacks. In addition, the division increases awareness and understanding of environmental issues affecting production agriculture, and presents marketing and food safety programs to small poultry producers to supplement existing USDA inspections.

Animal Care Facilities

Missouri is one of very few states which regulate companion animals. The Animal Care Facilities Act Program (ACFA) became law on August 28, 1992 to ensure dogs and cats, specifically those under the care of breeders, dealers, animal shelters, rescue operations and municipal pounds, receive adequate health care, shelter and proper socialization. The ACFA law, designed to benefit both the animals and the pet industry, requires any animal shelter, pound or dog pound, boarding kennel, commercial kennel, contract kennel, pet shop, exhibition facility, dealer or commercial breeder to be licensed and inspected annually.

Branding Cattle

Branding is one of the oldest and best ways to permanently identify livestock. It serves as an excellent safeguard against livestock theft, loss or dispute. Legislation passed in 1971 made the Missouri Department of Agriculture responsible for registering livestock brands. Brands must be recorded as required by Missouri's Marks and Brands of Animals Law to prove ownership and be considered legal evidence in a court of law.

Disease Control

The health of Missouri's livestock is enviable among states. Our stringent animal health regulations and rigorous disease testing help keep Missouri free from costly and threatening livestock diseases. The Animal Health Division, under the direction of the state veterinarian, is responsible for controlling, eradicating and testing for livestock disease in Missouri. This is accomplished through testing, vaccinations and regulatory programs involving cattle, swine, horses, poultry, exotic animals, sheep, goats and small animals as provided under the Diseased

APPENDIX C — DEPARTMENTAL PLANS

Animal Law.

Dr. Merrill Townley Large Animal Veterinary Student Loan Program

The Dr. Merrill Townley Large Animal Veterinary Student Loan Program was established to assist students currently enrolled or students that have been accepted into the University of Missouri's College of Veterinary Medicine with their financial burden. Applicants are selected by an appointed advisory committee on an annual basis.

Food Safety

Ensuring the safety of Missouri's agricultural products, from grains to milk to fresh produce to meat, is a top priority. Each of the department's five divisions works to ensure that consumers continue to enjoy a safe, wholesale and affordable food supply, as a healthy food system begins on the farm and ends with healthy communities. The Animal Health Division focuses on the safety of our food, working to raise awareness and strengthen food safety efforts among producers, processors and consumers.

Large Carnivore Program

The Large Carnivore Program oversees the responsible ownership and care of large carnivores in Missouri. Through this program, the department regulates private ownership of species including bears that are not native to Missouri, tigers, lions, jaguars, leopards, snow leopards, clouded leopards and cheetahs and any hybrids of those, and ensures that owners meet state standards regarding housing, veterinary care, safety, identification and recordkeeping for those animals.

Livestock Markets and Dealers

Missouri has a livestock inventory of millions of cattle, hogs and pigs, sheep and equine. To help livestock producers obtain the maximum return on their investment, Missouri is fortunate to have a number of livestock market/sales throughout the state. To operate a livestock market/sale in the state, the operator must have a license issued by the Division of Animal Health. Missouri Livestock Dealer Registration is required for those who buy, sell or exchange livestock.

Missouri Meat and Poultry Inspection Program

The Missouri Meat and Poultry Inspection Program is dedicated to ensuring that the commercial supply of meat and poultry products within the state are safe, wholesome, accurately labeled and secure, as required by the State/Federal meat and poultry inspection laws. In cooperation with USDA-FSIS, the Missouri Meat and Poultry Inspection Program (MMPIP) offers equal inspection authority and service within the state of Missouri. As a result, any meat processed under MMPIP inspection and sold within the state of Missouri is offered the same privileges and exemptions as USDA inspected meat products.

GRAIN INSPECTION AND WAREHOUSING DIVISION

The Grain Inspection and Warehousing Division is comprised of programs that administer the Missouri Grain Warehouse Law, the Missouri Grain Dealer Law and the United States Grain Standards Act. These laws promote and protect commerce in the interest of grain producers,

APPENDIX C — DEPARTMENTAL PLANS

merchandisers, warehousemen, processors and consumers. They also promote a uniform official inspection system for the orderly marketing of grain. This division also administers the Commodity Services Program.

Commodity Services Program

The Commodity Services Program provides commodity councils with an organized procedure for collection and distribution of commodity checkoff funds for nine Missouri commodities (Beef, Corn, Soybeans, Rice, Sheep & Wool, Wine, Aquaculture, Peaches and Apples). The program is also responsible for conducting seven annual merchandising council elections and administers the Missouri Hay Directory, an online hay listing service.

Grain Inspection Services Program

The Grain Inspection Services Program is designated to officially inspect, grade and weigh all grains that have standards established under the United States Grain Standards. The program provides four primary services:

- 1) Official sampling to take a representative sample of grain from a particular lot;
- 2) Official inspection is used to determine and certify the type, class, quality or condition of grain;
- 3) Weighing certification to supervise the loading, unloading and weighing containers of grain; and
- 4) Chemical analysis to determine the protein or oil content of grain and to determine the existence of mycotoxins in grain.

Services are provided at inspection offices in Marshall, New Madrid and St. Joseph.

Grain Regulatory Services Program

The Grain Regulatory Services Program protects the public interest by auditing grain warehouses and grain dealers to determine grain obligations and financial solvency. The program enforces Missouri's Grain Warehouse and Grain Dealer laws so producers are aware that they are storing or merchandising their grain with licensed, bonded, reputable and financially stable grain businesses. The program annually licenses approximately 200 warehouses and 400 grain dealers and conducts more than 900 audits and investigations. The Missouri agricultural mediation service assists agricultural producers, their creditors and other persons directly affected by the action of the U.S. Department of Agriculture (USDA), with resolving disputes, thereby reducing participants' costs associated with administrative appeals and expensive, lengthy litigations. Mediation services are available to all participants of USDA programs including non-USDA situations that would have an adverse financial effect on the participant.

PLANT INDUSTRIES DIVISION

The Plant Industries Division is comprised of four Bureaus, which together administer state and federal laws. These laws facilitate agricultural production and marketing and provide consumer and environmental protection for Missouri citizens by regulating animal feeds and seeds, providing necessary certifications for interstate and international shipment of agriculture and forest products, ensuring plant pest protection for crops and forests, establishing grades and

APPENDIX C — DEPARTMENTAL PLANS

standards for fresh fruits and vegetables and regulating the use of pesticides.

Bureau of Feed, Seed & Treated Timber

The Bureau of Feed, Seed & Treated Timber administers the Missouri Commercial Feed Law, Missouri Seed Law and Missouri Treated Timber Law. The feed law regulates the manufacturing, distribution and labeling of commercial feed products to ensure that livestock producers and pet owners receive a guaranteed feed product. The Bureau, in partnership with the U.S. Food and Drug Administration, provides inspection reports and regulation involved with preventing Bovine Spongiform Encephalopathy (BSE), provides labeling assistance and investigates complaints related to animal feed.

The Bureau regulates seed products through inspecting, sampling, testing and labeling. Products are reviewed to ensure the product meets the labeled guarantees. The Bureau cooperates with the U.S. Department of Agriculture's (USDA) seed regulatory and testing branch in regulating the interstate movement of seed.

The Treated Timber Bureau is responsible for licensure of all treated timber producers conducting business within Missouri. The program is also responsible for the regulations governing the quality and distribution of treated wood products.

Bureau of Pesticide Control

The Bureau of Pesticide Control administers laws for registration, distribution and use of pesticides. All pesticides sold are regulated by the Missouri Pesticide Registration Act. Bureau personnel inspect pesticides for proper labeling and registration. The use of all pesticides are regulated by the Missouri Pesticide Use Act. The Missouri Pesticide Use Act allows the Bureau to inspect pesticide use, investigate pesticide misuse, and certify commercial, noncommercial and private applicators and public operators. The act also provides for licensing pesticide dealers and pesticide technicians.

Bureau of Plant Pest Control

The Bureau of Plant Pest Control administers the Missouri Plant Law, which mandates controlling harmful insect pests and diseases of plants through nursery and greenhouse inspections and certifications, quarantines and surveys. The law also facilitates interstate and international shipments of Missouri plants and plant products.

As a service to Missouri beekeepers, the Bureau works under the Missouri Apiculture Law to inspect and certify honey bee colonies. These procedures are required by some receiving states for interstate shipment of honey bees.

The program administers the statutes involving the control and/or eradication of noxious weeds as well as the appointment of Johnson Grass Control board members in their respective counties.

Bureau of Produce Safety

The Bureau of Produce Safety will administer the FDA Produce Safety Rule by working with FDA to assist growers in being in ready before the compliance dates go into effect. The Bureau will

APPENDIX C — DEPARTMENTAL PLANS

develop and maintain an inventory of growers that are subject to the rule, provide grower training on the safe production of fruits and vegetables, and conduct On-Farm Readiness Reviews for growers to have their practices reviewed and receive guidance to help them reach full compliance before regulatory inspections begin.

The Fresh Fruit and Vegetable Inspection Program ensures buyers and sellers of this highly perishable product that commodities are graded and packed to conform to established USDA standards. Shipping point inspections at the point of origin determine the quality and grade of Missouri grown produce. Terminal market inspections confirm quality and grade of produce received by Missouri wholesale purchases for distribution to retail outlets. Both types of inspections are provided upon request and at the expense of growers, shippers, or wholesale purchasers. The program is a State/USDA Agricultural Marketing Service cooperative effort.

Laboratory Support

Laboratories are maintained for analytical support to the seed, treated timber and commercial feed programs as well as other programs in the division.

WEIGHTS, MEASURES & CONSUMER PROTECTION DIVISION

The Weights, Measures & Consumer Protection Division maintains surveillance of commercial weighing and measuring devices. The division promotes uniformity in laws, regulations and standards to achieve equity between buyers and sellers. Sales of products and services impacted by Weights and Measures laws represent over 50 percent of U.S. gross national product totaling over \$4.5 trillion.

The division's programs are operated in accordance with the National Institute of Standards and Technology. The division also is a member of the National Conference on Weights and Measures, ASTM International and the National Fire Protection Association.

Device and Commodity Inspection Program

As required by Missouri statutes, device and commodity field personnel inspect large and small scales, grain hopper scales, taxicab meters, odometers, timing devices, fabric measuring devices, milk for quantity determination, country of origin labeling price verification, prepackaged merchandise and method of sale of commodities. The program enforces the Missouri Egg Law and the Missouri Unfair Milk Sales Practices Law.

Petroleum/Propane/Anhydrous Ammonia Program

The program combines a variety of services. Under the program, petroleum dispensers, petroleum terminal meters and metered fuel delivery trucks are tested for accuracy. Service station pumps including compressed natural gas, liquid natural gas and electrical recharge meters, are also inspected for accuracy and safety. Storage and handling of anhydrous ammonia are monitored for safety.

Metrology/Grain Moisture Meter Program

The metrology program conducts tests, calibrates and certifies field standards for state agencies and private institutions. The state metrologist is the official keeper of Missouri's

APPENDIX C — DEPARTMENTAL PLANS

primary standards of mass, volume and length. Grain moisture measuring devices are inspected for accuracy.

Fuel Quality Program

Fuel samples are collected by field personnel and submitted for testing. The petroleum laboratory analyzes motor oil, aviation gasoline, jet fuel, fuel ethanol, biodiesel, gasoline, kerosene, heating oils, diesel fuel and other motor fuels to make certain they meet state quality and safety standards.

Land Survey Program

The Land Survey Program provides information and resources for the accurate location, restoration and preservation of all United State Public Land Survey Corners in Missouri. The program is responsible for the maintenance and preservation of the geodetic reference system in Missouri. The program also maintains a records storage and retrieval system for land survey records and geodetic survey data.

BOARDS AND COMMISSIONS

Missouri State Fair Commission

Established in 1899, the Missouri State Fair is one of the oldest fairs in the nation. The fairgrounds, which cover 396 acres in Sedalia (Pettis County), are open year round, providing facilities for horse and livestock shows, art and craft festivals, camping, rallies and other events. During the annual fair held each August, visitors enjoy educational and recreational activities, a carnival midway and musical entertainment.

The Missouri State Fair continues to be the state's largest agricultural and tourism event with exhibits showcasing livestock, row crops, horticulture and floriculture. The State Fair plays an important role in shaping Missouri agriculture, contributing to the state's economy and educating the public about the importance and necessity of agriculture. It features agribusiness exhibits and displays of Missouri-produced commodities.

The State Fair Commission, whose members are appointed by the Governor, oversees the State Fair's operations.

Missouri Wine & Grape Board

The Missouri Wine and Grape Board is responsible for researching, developing and promoting Missouri grapes, juices and wine. The Board is funded by a tax on all wine sold in Missouri.

Missouri wineries continue to refine their grape growing and winemaking skills to offer distinctive, quality wines. The Wine and Grape Board sponsors research and advisory programs at the Grape and Wine Institute.

Missouri wineries produce wine with over a billion dollars in economic impact. Many of the state's wineries consistently take top honors in prestigious domestic and international competitions.

APPENDIX C — DEPARTMENTAL PLANS

The Board is administered by an eleven member commission which is appointed by the Governor and confirmed by the Senate.

State Milk Board

The State Milk Board administers milk inspection relation to Grade A milk and milk supplies to assure uniformity of procedures and interpretation of milk inspection regulations. The Grade A or fluid milk activities of the state are supported by revenue from inspection fees.

The manufacturing grade dairy program enforces sanitation and quality standards for manufactured dairy products and provides market testing of all milk at the first point of sale. Milk procurers, manufacturing plants, field superintendents, testers, graders, samplers, bulk milk truck operators and market testing laboratories are licensed by the State Milk Board.

Missouri Agricultural and Small Business Development Authority

The Missouri Agricultural and Small Business Development Authority (MASBDA) promotes the development of agriculture and small business and reduces, controls and prevents environmental damage in Missouri. Dear Commissioner Steelman,

In accordance with Section 1.6 (2) of the State Omnibus Reorganization Act of 1974, I respectfully submit for your approval the attached revised departmental plan for the Department of Corrections.

Since the last departmental plan was submitted in 2015, the Department of Corrections has implemented the following organizational changes:

- The Office of Professional Standards (OPS) was established in the Office of the Director beginning on July 1, 2017. It is charged with examining department operations as it relates to employee conduct and professionalism. The OPS received human relations staff from the former Human Services Section of the Division of Human Services and retained personnel from the former Office of the Inspector General. The Office of Professional Standards consists of three units: the Civil Rights Unit, the Employee Conduct Unit, and the Prison Rape Elimination Act (PREA) Investigation Unit.
- The Office of the Inspector General in the Office of the Director was disbanded in July 2017. Part of its staff became the Office of Professional Standards and the other part of its staff was reallocated to the Division of Adult Institutions as the Security Intelligence Unit.
- Beginning on September 1, 2017, the facility which formerly housed the St. Louis Community Release Center was redesigned to operate as a 350-bed community reentry and behavior modification center and was renamed the Transition Center of St. Louis. This change was implemented in order to provide reentry services to offenders who are transitioning from prison to parole supervision or behavior

modification services for those already in the community that have experienced some barriers to success and are in need of additional focus on cognitive thinking and other programming.

- The Religious/Spiritual Programming Section was reallocated from the Division of Human Services to the Division of Adult Institutions.
- The Research, Planning, and Process Improvement Section was created in the Office of the Director by reallocating the Research Unit and the Grants Administration Unit from the Office of the Director, and the Strategic Planning Section from Division of Human Services.
- The Human Resources Section in the Division of Human Services reallocated positions to the Office of Professional Standards and received the Personnel Unit from the Division of Probation and Parole to become the Office of Personnel.

I am submitting the Department's organizational chart depicting the changes along with the salary schedule for the administrators of the Department. Please advise if you have any questions regarding any of this information.

Sincerely,

APPENDIX C — DEPARTMENTAL PLANS

Departmental Overview

The Department of Corrections is an agency dedicated to public safety through the successful management and supervision of offenders in prison and on probation or parole. The department's responsibility is to administer the sentence set by the court in ways that promote public safety at the lowest cost. Offenders assigned to the department are managed by ensuring they are supervised at the appropriate custody or supervision level. A cadre of over eleven thousand trained correctional professionals committed to the vision, mission, and values of the department assess each offender's criminal history, evaluate community and institutional conduct and enforce court orders and department rules. This mixture of on-going assessment, classification, referral to supervision strategies and assignment to basic habilitation interventions are several of the key methods used to promote sober, responsible, productive and law-abiding behavior. When offenders are held accountable for their actions, the public's safety is enhanced.

In all, the department is responsible for the care, custody and supervision of approximately 90,400 adult offenders in Missouri. There are currently more than 32,900 adult felons confined in Missouri's 21 correctional facilities. The department also supervises approximately 57,500 probationers and parolees in 55 district offices, nine field satellite offices, one community transition center and six community supervision centers across the state.

Organizational Plan

The Department of Corrections is comprised of the Office of the Director and four divisions: the Division of Human Services, the Division of Adult Institutions, the Division of Offender Rehabilitative Services, and the Division of Probation and Parole.

Office of the Director

The Office of the Director coordinates the internal activities of all the divisions as well as with all external stakeholders such as the press, the public and elected officials. The Office of the Director consists of the Director, Deputy Director, Public Information, Constituent Services, Legal Services, the Office of Professional Standards, Victim Services, Reentry/Women Offender Program, the Budget Section and Research, Planning, and Process Improvement Section. The Office of Professional Standards reports directly to the department's director. It is charged with examining department operations as it relates to employee conduct and professionalism. The Director is appointed by the Governor with the advice and consent of the Senate.

APPENDIX C — DEPARTMENTAL PLANS

Division of Human Services

The Division of Administration became the Division of Human Services through a change in legislation in 1995. The section provides health education and wellness opportunities to employees. The Fiscal Management Unit ensures that the department's financial obligations are processed and paid in a timely and equitable manner, maintains an inventory tracking system, performs audits of contracts, and oversees the procurement of goods and services and the development of service contracts. The Offender Finance Section operates the inmate banking program. The General Services Section provides support services to the department through the commodity warehouse operation and the oversight of all major construction and maintenance projects, building leases, fleet management of all department vehicles, and coordination of food service operations for all adult institutions including the operation of two cook-chill food preparation facilities. All newly committed offenders undergo a full classification analysis at one of the division's reception and diagnostic centers to determine appropriate custody level and basic treatment needs. In addition, offender reclassification occurs throughout each offender's period of incarceration to ensure that offenders are housed at an appropriate custody level institution. The division also works to prepare offenders for successful reintegration back to the community through effective case management and providing reentry programming to improve offender cognitive and life skills. The division establishes work release programs for eligible offenders and provides opportunity for offender visitation with family and friends at each correctional facility. Offenders also receive religious and spiritual programming, hospice and daily living assistance, and palliative care in additions to a vast cadre of educational and vocational opportunities.

APPENDIX C — DEPARTMENTAL PLANS

ORGANIZATIONAL INFORMATION: DEPARTMENT DUTIES

The Coordinating Board for Higher Education (CBHE) and its administrative arm, the Missouri Department of Higher Education (MDHE), have a varied portfolio of duties. The following provides a high-level summary of those duties.

Planning is one of the MDHE's core functions. The department is responsible for developing and overseeing implementation of a coordinated plan for higher education for the state and its subregions (§ 173.020(4)), identifying the state's higher education and workforce needs (§ 173.020(2)), and delineating each institution's areas of competence (§ 173.005.2(9)). The department reviews each public college's and university's mission periodically (§ 173.030(7)) and has authority to approve applications from institutions seeking to establish a statewide mission (§ 173.030(6)). The department collects data to use in its decision-making processes and makes those data available in the Statistical Summary of Missouri Higher Education published on the MDHE website.

Academic program approval and review are closely linked to the department's planning function. The department reviews new degree program proposals offered by public colleges and universities (§ 173.005.2(1)) and has authority to make recommendations to institutions' governing boards regarding the development, consolidation, or elimination of programs, degree offerings, and facilities (§ 173.030(2)).

The department is also tasked with fostering **institutional relationships** that serve the state's higher education needs. Specific responsibilities in this area include encouraging the development of cooperative agreements for the offering of graduate degrees, as well as developing arrangements for more effective and economical specialization among institutions, and for more effective coordination and mutual support among institutions in the use of facilities, faculty, and other resources (§ 173.020(3)).

The department coordinates public colleges' and universities' core operating and capital projects **budget requests** by establishing guidelines for public universities' requests (§ 173.005.2(3)), approving a community college funding model (§ 183.191.1), and submitting a unified budget request for community colleges (§ 183.191.1). Requests for

operating appropriations are made based on the performance funding model the department adopted in 2008 (§ 173.1006.1).

The department also develops budget requests for and oversees the state's **student financial aid** programs, the largest of which are Access Missouri (§ 173.1103.1); the Higher Education Academic Scholarship Program, commonly referred to as "Bright Flight" (§ 173.250.3); and the A+ Scholarship Program (assigned to the department by Executive Order 10-16).

Also in the affordability category, the department administers the Higher Education Student Funding Act, commonly referred to as SB 389, which provides that a public university that increases tuition and some fees more than the rate of inflation will be subject to a fine of 5% of the institution's state appropriation (§ 173.1003.5). The law also includes a provision that allow institutions ask the commissioner of higher education for a waiver of all or part of the fine (§ 173.1003.5).

Proprietary school certification is another of the department's important responsibilities. The department licenses and oversees *for-profit* proprietary schools like the University of Phoenix and some *not-for-profit* proprietary schools like Victory Trade School, a religiously affiliated institution in Springfield with a mission of preparing homeless individuals for work in the culinary arts (§§ 173.604.1 & 173.616.1).

Finally, the department offers resources that help students **plan for and complete** postsecondary programs. The MDHE's Journey to College programs support high school students as they apply for college admission and financial aid, and celebrate students' choices about attending college and participating in military service.

The department has a long history of working with colleges and universities to develop guidelines that promote **transfer**

APPENDIX C — DEPARTMENTAL PLANS

between institutions; a statewide library of core courses that transfer from one institution to another; and a policy fostering "reverse transfer," which allows a student who transfers from a community college before earning enough credits to receive an associate degree to be awarded an associate degree when he or she earns the remaining needed credits at the university to which they have transferred (§ 173.005.2(8)).

Senate Bill 997, a higher education omnibus bill that became law on August 28, 2016, gives the department significant additional responsibilities, many of which strengthen the department's role in promoting transfer. The department is tasked with working with an advisory committee – the majority of which must be faculty members – to develop a core curriculum that is guaranteed to transfer to another institution and a common course numbering equivalency matrix (§ 178.780.2(10)). These provisions essentially make mandatory practices that have been voluntary in the past. The new law also requires the department to evaluate and maintain data on each institution's transfer practices (§ 178.788.1) and to resolve disputes about transfer (§ 178.788.2).

Senate Bill 997 requires the department to develop programs designed to promote on-time completion, including "15 to Finish" (§ 173.2510) and guided pathways (§ 173.2515); to establish a pilot program for "concurrent enrollment," which allows community college students to enroll in a public university, take select university classes, and use the university's facilities (§ 173.2520); and to create a website that provides information about academic programs available at each institution, financial aid, and transfer of course credit (§ 173.035).

In addition, the new law establishes a dual credit scholarship for high school students who meet certain academic

standards and demonstrate financial need. The MDHE has indicated that it will cost approximately \$4.5 million to launch the scholarship program. That information is included in the department's high-priority budget recommendation, which accompanies the department's actual budget request and is intended to provide information about important funding needs that do not fit within the parameters of the Office of Administration's budget instructions.

The department has served as the state-designated student loan guaranty agency in the Federal Family Education Loan Program (FFELP) since 1979, making it possible for generations of students, regardless of personal resources, to receive loans because of protection against defaults.

As a FFELP guaranty agency, the MDHE receives servicing fees from the U.S. Department of Education (USDE) and retains a portion of defaulted student loan collections. These revenues are used to fund loan administration functions and other financial aid-related activities. In addition, the MDHE purchases defaulted student loans from lending institutions and is reimbursed for loan purchases by USDE (20 U.S.C. §1072a).

As Missouri's guaranty agency, the MDHE helps students and families pay for a college education by:

- Providing information on postsecondary opportunities and financial aid directly to students and families (20 U.S.C. § 1072b);
- Creating financial literacy materials and programs for students, families, and schools to help them better manage finances (§ 165.275); and
- Helping borrowers resolve problems repaying their loans and restore their credit if they default (20 U.S.C. § 1072b).

Dear Commissioner Steelman:

In accordance with Section 1.6(2) of the Omnibus State Reorganization Act of 1974, the Department of Labor and Industrial Relations submits its department plan, including executive pay plan and organizational chart. The plan accurately reflects the composition of the Department at this time.

The only requested change to the Department's organizational structure is an internal transfer of the Missouri Workers' Safety Program (MWSP) from the Division of Workers' Compensation (DWC) to the Division of Labor Standards (DLS). The DLS has two established safety and health programs, which partner with the federal OSHA and MSHA programs. The majority of the duties performed through the MWSP is a duplicate effort of the two safety programs in DLS. The merger of the unit will develop a consistent safety message to all Missouri businesses, streamline state resources in three safety sections, and allow the program to better cover program needs with public entities. The managers of the three safety programs: On-Site Safety and Health, Mine & Cave Safety and Health, and the MWSP will report directly to the Director of the Division of Labor Standards. The MWSP will continue to be funded by the Workers' Compensation Fund (Chapter 287).

If you have any questions, please contact me or Tammy Cavender, Deputy Director, at 751-3977.

Sincerely,

ANNA S. HUI
Acting Director

APPENDIX C — DEPARTMENTAL PLANS

DEPARTMENT OF LABOR AND INDUSTRIAL RELATIONS

ORGANIZATIONAL PLAN

The Department of Labor and Industrial Relations (department) was created by Article IX section 49 of the Missouri Constitution. Operating under the authority of Chapter 286 RSMo, and others, the department promotes economic security, fosters safe and healthy workplaces and enforces labor and anti-discriminatory laws.

The Department is comprised of the Labor and Industrial Relations Commission and five divisions: (1) The Division of Employment Security; (2) The Division of Workers' Compensation; (3) The State Board of Mediation; (4) The Division of Labor Standards; and (5) The Missouri Human Rights Commission.

DEPARTMENT MANAGEMENT

The Labor and Industrial Relations Commission (commission) shall be in charge of the Missouri Department of Labor and Industrial Relations as provided by Section 49, Article IV of the Missouri Constitution. The commission consists of three members appointed by the governor with the advice and consent of the Senate.

The department director is nominated by the commission, appointed by the governor, and confirmed by the Senate. The director is the chief administrative officer of the department. The director appoints the central management staff and some division directors, oversees the departmental agencies and advises the governor and General Assembly on matters relating to labor and industrial relations issues.

The deputy director supervises the departmental agencies and is responsible for the supervision of the administration within the department. The deputy director assists in legislative and budget efforts and performs functions as delegated by the department director.

The office of general counsel prepares legal opinions; advises the director and other management staff; litigates all employment security tax and benefit cases including appeals; assists in the collection of delinquent unemployment contributions; represents the department in matters before the Administrative Hearing Commission, the Equal Opportunity Commission and the Missouri Commission on Human Rights; represents the Missouri Commission on Human Rights in housing discrimination cases; and reviews contracts and leases.

APPENDIX C — DEPARTMENTAL PLANS

The director of administration is responsible for the department's administrative support and operational functions including financial management, human resources, supply, procurement, research and analysis and administrative services.

LABOR AND INDUSTRIAL RELATIONS COMMISSION

The Labor and Industrial Relations Commission (commission) is composed of three commissioners and operates under the authority of Chapter 286, RSMo. Each commissioner is appointed to a staggered six year term by the governor with the advice and consent of the Senate. One member of the commission, who must be a licensed Missouri attorney, represents the public. The other two members represent employers and employees, respectively. The governor designates one member as chair. The commission hears appeals from administrative decisions in workers' compensation, unemployment compensation, and tort victims' compensation cases. The commission also hears and decides prevailing wage disputes. In addition, the commission approves or disapproves all rules or regulations proposed by the divisions within the department.

DIVISION OF EMPLOYMENT SECURITY

The Division of Employment Security (division), operating under the authority of Chapter 288, RSMo, administers the unemployment insurance program in Missouri. The division collects contributions from employers and pays unemployment benefits to individuals who are eligible under the law. Through four claims centers located in Jefferson City, St. Louis, Kansas City and Springfield, unemployed Missouri workers file initial and weekly claims for unemployment compensation by telephone or Internet. A person must have worked in employment covered under the Missouri Employment Security Law and earned enough qualifying wages in order to establish a claim for unemployment benefits. The division also pays federal Emergency Unemployment Compensation to eligible claimants who have exhausted all regular unemployment insurance benefits; pays Trade Readjustment Allowance benefits for those eligible workers who are unemployed as a result of imports or other trade conditions; and pays Disaster Unemployment Assistance benefits to eligible workers who are unemployed as a result of natural disasters as designated by the federal government. This program also audits claims for potential fraud, and establishes and collects overpaid unemployment insurance benefits.

APPENDIX C — DEPARTMENTAL PLANS

Detailed wage records are kept on every worker reported by employers on the quarterly contribution and wage report in order to calculate benefits. The division establishes employers' unemployment insurance tax accounts; processes the quarterly contribution and wage reports; makes all accounting transactions in regard to employers' accounts, including benefit charges; conducts federally mandated audits; makes determinations in regard to the proper reporting of workers and workers' wages; collects delinquent contributions (taxes) and contribution and wage reports; and calculates employers' annual tax rates.

DIVISION OF WORKERS' COMPENSATION

The Division of Workers' Compensation (division), operating under the authority of Chapter 287, RSMo, administers Missouri's Workers' Compensation Law. The division's primary function is to provide prompt and equitable resolutions of all cases involving work-related injuries and occupational diseases. The program also provides mediation services to resolve disputed issues between an employee and an employer or insurer. It oversees payments of rehabilitation of seriously injured workers, resolves disputes concerning the reasonableness of medical fees and charges, reviews and approves applications by employers or group trusts for self-insurance authority, investigates allegations of workers' compensation fraud and noncompliance, evaluates and certifies the safety programs of insurance carriers that write workers' compensation insurance policies, individual self-insureds, self-insured trusts and Second Injury Fund –approved physical therapy clinics; and collects surcharge payments to and processes benefit payments from the Second Injury Fund.

The program also administers the Tort Victims' Compensation program and the Line of Duty Compensation Fund (due to passage of HB 580 in 2009), which provides a \$25,000 benefit to the estate of any public safety officer killed in the line of duty.

STATE BOARD OF MEDIATION

The State Board of Mediation is a quasi-judicial board created by the General Assembly in 1947. This five-member board is appointed by the governor. Two members are employers or selected from an association representing employers. The other two members hold membership in a bona fide trade or labor union. The fifth member is a neutral party who serves as full-time chair and executive director of the agency.

The Board of Mediation regulates the labor relations of public utilities and determines appropriate bargaining units of public employees, based on the respective community of interests. The Board of Mediation also conducts elections to determine the representation status of petitioning bargaining units.

APPENDIX C — DEPARTMENTAL PLANS

DIVISION OF LABOR STANDARDS

The Division of Labor Standards, operating under the authority of Chapters 290, 291, 293, and 294 RSMo, consists of four sections: Wage and Hour, On-Site Safety and Health Consultation, Workers' Safety Program and Mine and Cave Safety and Health. The division's responsibilities include issuing child labor work permits, assisting the public with issues relating to wage, hours and dismissal rights, investigating child labor, prevailing wage and minimum wage complaints and ensuring safe and healthy workplaces through inspections and consultations.

COMMISSION ON HUMAN RIGHTS

The Missouri Commission on Human Rights (MCHR), operating under the authority of Chapter 213 RSMo, provides equitable and timely resolution of discrimination claims through the enforcement of the Missouri Human Rights Act. The commission also advises, recommends and implements ways to prevent and eliminate discrimination.

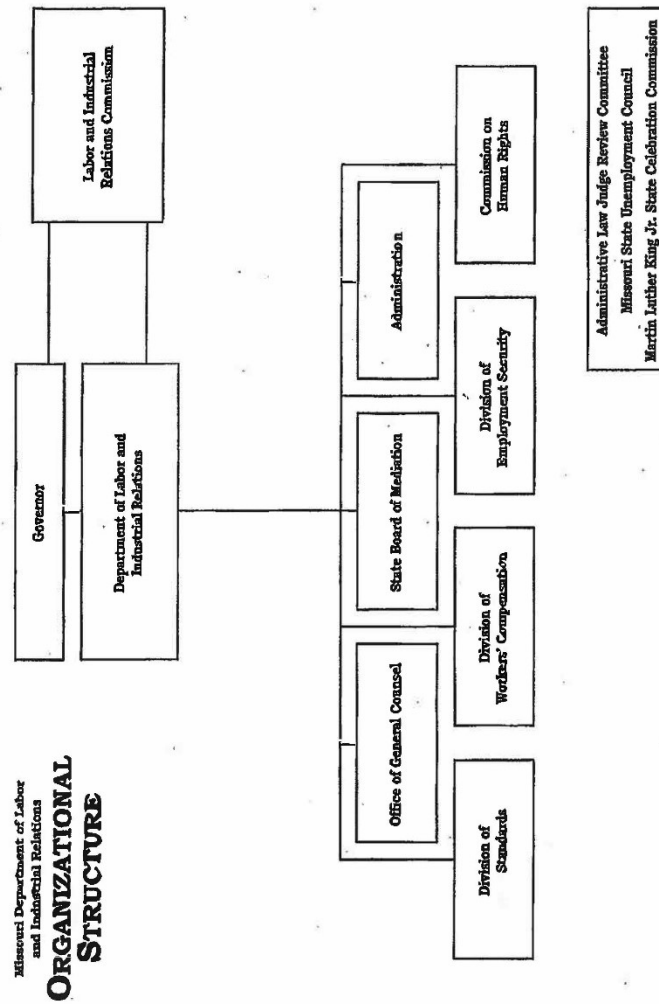

The MCHR oversees the Martin Luther King, Jr. State Celebration Commission. The commission was established by Executive Order 85-19 to consider and recommend to individuals and organizations appropriate activities for the recognition and celebration of MLK, Jr. Day in Missouri.

APPENDIX C — DEPARTMENTAL PLANS

Department of Mental Health

Though its functions date back to 1847, the Missouri Department of Mental Health was first established as a cabinet-level State agency by the Omnibus State Government Reorganization Act effective July 1, 1974.

State law provides three principal missions for the department: (1) prevention of mental disorders, developmental disabilities, substance use disorders, and compulsive gambling; (2) treatment, habilitation, and rehabilitation of Missourians who have those conditions; and (3) improvement of public understanding and attitudes about mental disorders, developmental disabilities, and addictive disorders.

The Department of Mental Health (DMH) is comprised of three divisions that serve more than 170,000 Missourians annually: Division of Behavioral Health, Division of Developmental Disabilities and Division of Administrative Services. DMH makes services available through state-operated facilities and contracts with private organizations and individuals. The state-operated facilities include one children's psychiatric facility and six adult psychiatric hospitals, including the program for court appointed offenders to Sex Offender Rehabilitation and Treatment Services. In addition, four habilitation centers, three community support agencies, one crisis community support agency, six regional offices and six satellite offices serve individuals with developmental disabilities. The department also purchases services from a variety of privately operated programs statewide through approximately 1,300 contracts.

Mental Health Commission

The Mental Health Commission, composed of seven members, appoints the director of the Department of Mental Health with confirmation of the State Senate. The Commissioners are appointed to four-year terms by the Governor, again with the confirmation of the Senate. Commissioners serve as principal policy advisers to the department director. The Commission, by law, must include individuals who represent Missourians with mental illness, developmental disabilities, and substance use disorders and who have expertise in general business matters.

Division of Administrative Services

The Division of Administrative Services oversees the Department of Mental Health budget. In addition, the Division coordinates more than \$322 million in reimbursements from Medicaid, Medicare, Disproportionate Share Hospitals (DSH) and other third parties. The Division is responsible for processing accounts payable for Central Office, Financial Management, Reporting and Control, Budget Development and Budget Control, Central Office General Services, Fleet Management, Procurement and Contract Management, Revenue Maximization, MO HealthNet, Medicare, and other revenue billings and collections.

APPENDIX C — DEPARTMENTAL PLANS

Division of Behavioral Health

The Division of Behavioral Health (DBH) manages programs and services for people who need help for mental illness or substance use disorders. Services available are evaluation, intervention, treatment, rehabilitation, recovery support, family support, prevention, education, and mental health promotion.

Most prevention and treatment services are provided by community programs that have contracts with the Division. These programs must meet federal and state requirements in order to provide mental health and substance use disorder services. The cost of services is based on an individual's ability to pay.

Those who have priority for mental health services are: people with serious mental illness, individuals and families in crisis, people with mental illness who are homeless, individuals committed for treatment by the court system, and children with severe emotional disturbances. For substance use disorder treatment, priority is given to: pregnant women, intravenous (IV) drug users, and specific referrals from other state agencies.

Alcohol and drug misuse, tobacco use, and compulsive gambling affect more than two million Missourians. The Division funds prevention, treatment and rehabilitation programs for substance use disorders - a problem that costs the State's economy an estimated \$7.7 billion a year in lost productivity, healthcare expenditures, property damage, and crime. In Fiscal Year 2017, programs funded by the Division of Behavioral Health provided treatment or intervention to nearly 60,725 people.

Division of Developmental Disabilities

The Division of Developmental Disabilities' philosophy is based on principles emphasizing that families are the most important support network for all people, including individuals with developmental disabilities. One of the best ways to support individuals with intellectual/developmental disabilities is to support and empower their families – to work with them to identify their most important needs and find the most cost-effective way to meet those needs. At the same time, we must support and empower youth and adults with developmental disabilities to begin making their own decisions so they will be able to direct their own services and supports at the appropriate time in their lives.

The service system is a partnership of consumers, families, community members and organizations, the Division, Senate Bill 40 Boards, the Division's contracted service providers, and advocacy entities. Through case management and based on individual needs, individuals are referred to a variety of services and supports administered by other state agencies. These agencies include but are not limited to: Division of Behavioral Health, MO HealthNet, Family Support Division, Children's Services Division, Bureau of Special Health Care Needs, Division of Senior Services, and Division of Vocational Rehabilitation.

APPENDIX C — DEPARTMENTAL PLANS

The Division contracts for services and supports for people with disabilities and their families which include early childhood intervention, therapies, skills training, vocational training, and recreational and residential supports. These services meet lifetime needs of people with disabilities.

Of the 36,782 people receiving services through the Division in FY2017, approximately 36,446 live in the community. They may live with their family, with relatives who receive family support services, or in their own homes, either alone or with one or two others who receive Individualized Supported Living (ISL) services. Other types of community residential living arrangements include foster homes, group homes, residential care centers, and community-based Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID). The Division receives about \$1.047 billion for community programs (including Federal authority for Medicaid payments).

Assigned Boards and Commissions

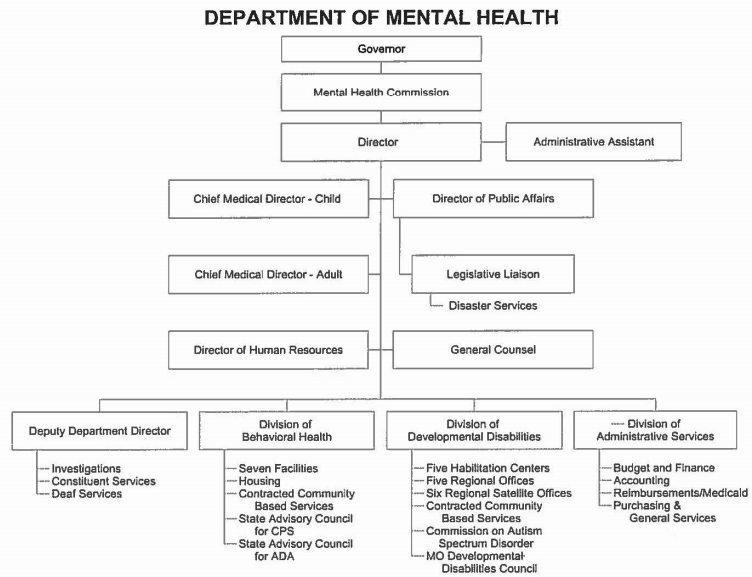

The **Commission on Autism Spectrum Disorders** was established in August 2009 per RSMo 633.200. The Commission receives oversight from the Division of Developmental Disabilities. The Commission advises and makes recommendations regarding matters all state levels of autism spectrum disorder services, including health care, education and other adult and adolescent services. The Commission is comprised of 24 members and consist of a broad representation of Missouri citizens, both urban and rural, who are concerned with the health and quality of life for individuals with autism spectrum disorder.

The **State Advisory Council on Alcohol and Drug Abuse** was established in state statute in 1980 to serve as an advisory body of substance use disorder policy, prevention, and treatment activities in the state of Missouri. The Council is comprised of up to 25 members. Members have professional, research, and/or personal interest in the delivery of substance use disorder prevention, treatment and recovery services.

The **State Advisory Council for Comprehensive Psychiatric Services** was established in 1977 by Governor's Executive Order. The Council is comprised of up to 25 members who advise and make recommendations to improve the system of care in mental health. Through public education and advocacy efforts, consumers and family members have become an integral part of defining priorities for the Division of Behavioral Health on issues surrounding housing, employment, recovery-oriented community services, crisis intervention, and children's system of care.

The Council membership is required by federal law to have a majority of mental health consumers, including parents of children receiving services and family members. In addition, representation is required from the following state agencies: Social Services, Medicaid, Corrections, Vocational Rehabilitation, Education, Housing and Mental Health. The remainder of the council consists of private and state-contracted providers, Missouri Protection and advocacy, and other advocacy groups.

APPENDIX C — DEPARTMENTAL PLANS

DEPARTMENT OF NATURAL RESOURCES Organizational Plan

The goal of the Department of Natural Resources is to provide a unified organizational structure for the management of Missouri's natural resources.

The Director, appointed by the Governor and confirmed by the Senate, is the chief executive officer and appointing authority of the Department of Natural Resources. The Director is empowered to allocate and reallocate duties and functions to create an organization which promotes the economical and efficient administration of the agency's duties.

Councils and Commissions assigned to the Department of Natural Resources by Type II transfers retain certain of their policy-making authorities. Those assigned are the Air Conservation Commission, the Clean Water Commission, the Missouri Mining Commission, the Soil and Water Districts Commission and the State Oil and Gas Council. The Department of Natural Resources is composed of the Office of Director, Administrative Support, and programmatic divisions. These programmatic divisions are Environmental Quality, Missouri State Parks, and Missouri Geological Survey.

OFFICE OF THE DIRECTOR

The Office of Director is the central management unit within the Department of Natural Resources. It is responsible for implementing statewide environmental and natural resource policies resulting in environmentally-sound decisions that protect our air, land, and water while fostering economic development; managing the organizational units within the Department; and promoting efficient administration and operations.

ADMINISTRATIVE SUPPORT

The Division of Administrative Support includes the functions of budget development, financial resource allocations, internal audit, accounting, human resources, employee relations, procurement, grants management, general services, and employee payroll.

ENVIRONMENTAL QUALITY

The Division of Environmental Quality oversees the state's environmental management for water pollution and drinking water, air pollution control, hazardous waste management, solid waste management, and soil and water conservation. The division promotes environmentally-sound operations of business, agriculture, and industry. The division also includes environmental services and regional office functions and activities.

Water Protection promotes clean and safe water for all Missourians including drinking water, surface water, and groundwater for recreational, agricultural, and industrial uses. To accomplish this goal, the program provides financial and technical assistance, issues permits, conducts compliance assistance, and classifies water bodies to protect their uses.

The Department operates several grant and loan programs to assist political subdivisions to construct adequate wastewater, storm water, and drinking water treatment facilities. The construction of the public drinking water and wastewater treatment facilities is expensive and many Missouri communities need financial assistance to meet these costs.

APPENDIX C — DEPARTMENTAL PLANS

Water quality studies provide funding to help protect the integrity of public water systems and the quality of groundwater, streams, and lakes. The Department administers projects, subgrants, and contracts to protect water quality. Routine testing of public water systems is conducted for possible contamination, ensuring that the drinking water supplied by public water systems is safe and the health of Missourians is protected. Information is gathered through studies to assist communities in assessing the technical, managerial, and financial capability of public water systems and determine the most appropriate course of action for a small public water system to protect and maintain the quality of the source of its water and to ensure citizens are consistently provided with clean water that is safe to drink.

The Concentrated Animal Feeding Operation Indemnity Fund provides monies to close certain lagoon structures placed under state control due to bankruptcy, failure to pay property taxes, or abandonment.

Air Pollution Control (air program) strives to maintain and improve the quality of Missouri's air to protect public health, general welfare, and the environment. The air program operates according to the Clean Air Act, Missouri Air Conservation Law and State Implementation Plans and Rules.

The program issues construction and operating permits to help ensure facilities are built in compliance with the laws and rules designed to protect public health. The program, working with the Department's regional offices, identifies facilities that are not in compliance and works with them to reach compliance. The air program also provides financial assistance to entities through grants or contracts to carry out activities aimed at reducing air pollution.

By collecting air monitoring and emission inventory information, the program provides benchmark data for the state's air-quality planning efforts. Air monitoring data can be measured against that benchmark to provide an indicator of whether air pollution control in Missouri is successful. In the St. Louis area, the Department and the Missouri State Highway Patrol oversee the joint vehicle emissions and safety inspection programs. When EPA promulgates an air quality standard for a pollutant, it triggers a process to evaluate each county in the state and determine what areas of the state violate the new standard. EPA then designates those areas found to "cause or contribute" to the violation as "nonattainment" areas. All other areas are designated as attainment areas. In 2017, 66 percent of Missourians live in designated attainment areas. Based upon current monitoring data, the program is working on redesignation requests for several of the areas currently designated nonattainment, to increase Missourians living in designated attainment areas to 72 percent. The ultimate goal is for 100 percent of the population to live in areas of attainment.

Solid Waste Management operates a federally-authorized regulatory program pursuant to 40 CFR Part 258, Subpart D that permits, enforces, and oversees sanitary landfills. These same types of activities are performed by the program for construction and demolition, special waste and utility waste landfills, solid waste processing facilities, such as transfer stations, infectious waste, and material recovery facilities; as set forth in the Solid Waste Management Law. Program staff conduct civil investigations of illegal dumping; investigate possible migration of methane gas from solid waste disposal areas and seepage of leachate and methane gas into groundwater; and offer landfill operator certification and re-certification training. The Scrap Tire Unit plans and oversees scrap tire dump cleanup activities; awards scrap tire material resurfacing

APPENDIX C — DEPARTMENTAL PLANS

and market development grants; reviews scrap tire hauler, processor, and site permits; and provides technical assistance for beneficial use determinations. The program, working with a statewide network of partners, strives to protect the environment and public health by minimizing solid waste generated by Missouri citizens, businesses, and institutions through effective and efficient materials management through Department oversight of the 20 solid waste management districts and the district grant program.

The Solid Waste Management PSD program provides approximately \$6.5 million annually to the solid waste management districts for administration and funding of community-based reduce, reuse, and recycle grants. This grant program builds solid waste management infrastructure to better use materials that otherwise would have been disposed of in landfills or illegally dumped. Through projects funded by the district grant program, opportunities are provided to communities throughout Missouri to create and/or retain “green jobs” in the recycling sector of the Missouri economy. These grants encourage waste reduction, reuse, recycling, energy recovery, and efficient processing of Missouri’s solid wastes. Local governments, small and large businesses, schools, sheltered workshops and individuals seek and receive grants to support activities to remove materials from the waste stream and return the materials for beneficial reuse or energy recovery. The program also supports the removal of illegally-dumped scrap tires from the environment by providing funds for tire dump cleanup activities, as well as funding scrap tire material surfacing grants.

Financial Assurance Instruments (FAIs) are provided collateral to the state by landfill and scrap tire site owners/operators to properly implement closure and/or post-closure activities should the owner/operator fail to do so or is no longer capable of doing so. Sufficient financial assurance is needed to ensure closure and/or post closure activities for solid waste facilities are conducted when needed to protect public health and the environment. This involves activities required to ensure closed landfills have adequate funding and controls in place to ensure environmental protection for at least 30 years after the landfill closes. Such activities include: maintenance or replacement of the landfill cover, which costs several thousands of dollars per acre; an adequate soil/vegetative cap to prevent water infiltration; methane gas monitoring to protect public safety; monitoring for potential groundwater and surface water impacts; erosion control; and groundskeeping (i.e., mowing and removal of trees).

The **Hazardous Waste** (program) major functions are:

Pollution Prevention

- Prevent environmental damages and impact to public health
- Promote safe operation and handling of waste by businesses that generate, transport, treat, store, and dispose of hazardous wastes through registration, certification, permitting, compliance assistance, inspecting sites, and taking appropriate enforcement actions
- Promote safe operation of approximately 3,395 underground storage tank sites by registering tanks, maintaining data, providing compliance assistance, conducting inspections, and taking appropriate inspection actions
- Provide training and equipment to first responders along radioactive material transportation routes

APPENDIX C — DEPARTMENTAL PLANS

Remediation – The program addresses environmental contamination through investigation, remediation of contaminated sites, and restoration of land to productive use; implements laws that require responsible parties to be accountable for contamination; facilitates environmental remediation when parties seek to voluntarily clean up contaminated sites; and provides oversight of parties conducting remediation.

Stewardship – The program implements long-term stewardship measures, performs operation and maintenance activities, conducts inspections, and maintains a registry and on-line mapper, providing information to the public on appropriate and productive reuse of properties.

Environmental Restoration – The program assesses, restores, or rehabilitates injured natural resources and procures, develops, and/or restores a similar resource to replace the injured resources.

Soil and Water Conservation (SWCP) provides guidance and support to the Soil and Water Districts Commission and the 114 local Soil and Water Conservation Districts (SWCDs) throughout the state. SWCP administers the Cost-Share, Conservation Monitoring and District Grant programs, as well as various research and planning projects. Staff administers the conservation programs through the SWCDs for the control and reduction of soil erosion on agricultural land, and protection of water resources. Through these activities, nearly \$56 million is available for the installation of soil and water conservation practices on agricultural land, and to support the operation of each district. Encompassed in the SWCP is the Nonpoint Source (NPS) Management Program which provides federal Clean Water Act Section 319 implementation grants to accomplish significant results in the control and mitigation of NPS pollution.

Environmental Services (ESP) provides field support and monitoring functions throughout Missouri. The Environmental Emergency Response Section maintains a 24-hour per day support and response capability for hazardous substance releases, radiological incidents, homeland security events, and natural disasters. Local fire departments, haz-mat teams, law enforcement, and first responders rely upon these services. Many of these incidents require an on-scene response to assess the situation, provide technical assistance to on-site responders, and ensure that the hazardous substance release was properly cleaned up. ESP includes the state's environmental laboratory, which is certified by the U. S. Environmental Protection Agency (EPA). The program performs chemical analysis of public drinking water supplies, and also collects and analyzes air, water, and soil samples. In cases where a responsible party cannot be located or fails to take timely action, ESP may hire a contractor to address threats to public health or the environment.

The **Regional Offices** are located throughout the state of Missouri and work in partnership with the DEQ environmental programs to protect the state's air, land, and water resources, which are important for Missouri citizen's quality of life and the economy. The program provides consistent, efficient delivery of services closer to where Missourians live and work. This is accomplished through timely compliance assistance, inspection, on-site visits to permitted facilities, wastewater and air burn permit issuance, and investigating reported environmental concerns. Regional offices are located throughout the state to provide more local access to those the Department serves.

APPENDIX C — DEPARTMENTAL PLANS

MISSOURI STATE PARKS

Missouri State Parks operates and maintains 91 state parks and historic sites plus the trails of Roger Pryor Pioneer Backcountry. The mission of the division is to preserve and interpret the state's most outstanding natural features and cultural landmarks, and to provide appropriate recreational opportunities in these areas. The park system also includes five district offices and six support functions.

MISSOURI GEOLOGICAL SURVEY

The Missouri Geological Survey (MGS) includes the Geological Survey Program, Land Reclamation Program, Dam and Reservoir Safety Program, and Water Resources Center.

The **Geological Survey Program** investigates the state's geology and provides geologic and hydrologic information to assist with decisions relating to economic development, site remediation, contaminant migration, subsurface investigations, and geologic hazards. The program also determines the character and availability of the state's energy and mineral resources. Staff implements the Water Well Drillers Act by establishing standards for domestic water wells, monitoring wells, and geothermal ground source heat pump wells.

The **Land Reclamation Program** regulates surface mining of coal and industrial minerals, regulates and administers reclamation of coal mine and industrial mine lands on which bonds were forfeited, regulates and administers reclamation of coal mine lands abandoned prior to 1977, and regulates the metallic-mineral waste disposal areas of mining operations.

The **Dam and Reservoir Safety Program** administers the provisions of the Missouri Dam and Reservoir Safety Law. The Missouri Department of Natural Resources regulates nonfederal, nonagricultural dams 35 feet and higher through inspections, registration, and issuance of construction permits. Dams are a critical part of the state's infrastructure, providing many benefits including water supply, flood protection, hydropower, irrigation, and recreation. There are over 690 regulated dams. The program works with citizens, dam owners, engineers, and emergency managers to ensure dams in Missouri are constructed, maintained, and operated in a safe manner.

Water Resources provides information for Missouri's comprehensive water needs by examining both surface and groundwater use and availability. Staff investigate water supply issues; maintain a Missouri's Public Water Supply database for groundwater wells; collect, analyze, and distribute groundwater-level data from a statewide network of observation wells; evaluate public water supply wells; and provide casing and total depth specifications. Water Resources Center staff provides guidance and technical expertise for planning and development of regional water supply projects throughout Missouri. Staff defend the State's vital water resources interests, including those related to navigation, flood control, and other uses of the Missouri and Mississippi rivers before numerous interstate and interagency river basin associations. The Water Resources program administers the Multipurpose Water Resource Program Fund through the provision of grants or other financial assistance and allows for the state to participate with a sponsor in the development, construction, or renovation of a water resource project providing a long-term solution to water supply needs. The Oil and Gas Remedial Fund is also administered to plug abandoned oil and gas wells with the potential to impact surface and groundwater resources which may pose a threat to human health. The fund also handles emergency situations, such as a leaking gas well.

APPENDIX C — DEPARTMENTAL PLANS

The Abandoned Mine Land unit oversees the reclamation of abandoned mine sites in Missouri including sites abandoned prior to the Surface Mining Control and Reclamation Act of 1977. For coal sites abandoned prior to 1977, the program uses federal funds to directly contract for the reclamation activities at these sites.

The Mined Land Reclamation Fund and Metallic Minerals Waste Management Fund have pass-through appropriation authority for reclamation of sites where bonds have been forfeited on permit-revoked mine sites. Reclamation involves work to restore mined lands to productive uses such as agricultural, wildlife habitat, water impoundment, or development. The program may collect reclamation bonds and directly contract for the reclamation activities, or the program may allow the surety bond-holder to perform the reclamation in place of the original permit holder.

Organizations Administratively Attached to the Department

The following organizations are administratively attached to the Department:

ENVIRONMENTAL IMPROVEMENT AND ENERGY RESOURCES AUTHORITY

The Environmental Improvement and Energy Resources Authority (EI ERA), under Chapter 260, RSMo, is an independent, self-supporting, quasi-governmental agency assigned to the Missouri Department of Natural Resources.

EI ERA provides financing, research, and technical assistance for environment and energy projects. The authority:

- Issues municipal bonds to capitalize the State Revolving Fund (SRF) programs which provide low-interest financing for water and wastewater infrastructure.
- Provides financial assistance through the Market Development Program to small businesses that divert waste from landfills to create products with recycled materials.
- Issues municipal bonds on behalf of private and investor-owned utilities to finance pollution-prevention infrastructure projects.
- Provides low-cost financing and technical assistance to communities and businesses to assist with the cleanup of contaminated properties.
- Provides paying agent services to investor-owned utilities that fund low-income weatherization services.
- Provides paying agent services and technical and administrative assistance for environmental restoration efforts.

PETROLEUM STORAGE TANK INSURANCE FUND

Missourians who store/sell petroleum are required to have a financial responsibility mechanism to pay for costs of cleanup and third party damages if the tank or piping leaks. Private insurance is unavailable or prohibitively expensive for many small businesses that own tanks. The Petroleum Storage Tank Insurance Fund (PSTIF) provides an economical way for tank owners/operators to comply with this requirement. In addition, thousands of tanks sites in the state were contaminated with petroleum before environmental laws were enacted and are not economically viable due to environmental liability. The PSTIF also pays for cleanup of these sites, subject to statutory criteria, which stimulates redevelopment of these properties.

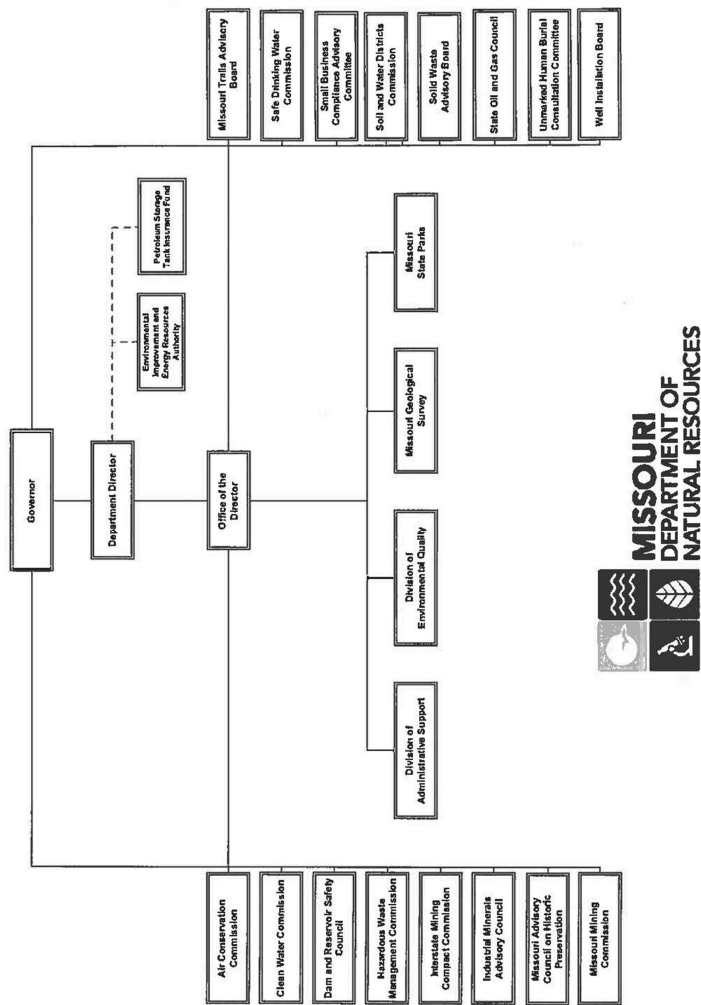

APPENDIX C — DEPARTMENTAL PLANS

The PSTIF is funded by a fee on all petroleum coming into the state and nominal premiums; the trust fund is managed by an 11-member board of Trustees. The PSTIF pays for 80 percent of compliance inspections required by the EPA. EPA also requires the state to impose a training requirement on underground tank operators. After authorization by the General Assembly, PSTIF implemented this requirement and provides free training via its website.

APPENDIX C — DEPARTMENTAL PLANS

MISSOURI DEPARTMENT OF PUBLIC SAFETY DEPARTMENTAL PLAN

NOVEMBER 2017

MISSION

Established in 1974, the Department of Public Safety is responsible for coordinating statewide law enforcement and criminal justice efforts for the purpose of ensuring a safe environment for Missouri citizens. The Department's statutory mission (Section 650.005, RSMo) is "to provide overall coordination in the state's public safety and law enforcement program, to provide channels of coordination with local and federal agencies in regard to public safety, law enforcement and with all correctional and judicial agencies in regard to matters pertaining to its responsibilities as they may interrelate with the other agencies or offices of state, local, or federal governments".

Jefferson City, MO 65101

Dear Ms. Steelman:

In compliance with the Omnibus State Reorganization Act of 1974, Section 1.6(2), I submit the Missouri Department of Revenue's reorganization plan for Governor Greitens approval.

The Missouri Department of Revenue assists the citizens of Missouri to meet their obligations and serves as the central collection agency for all state and non-state revenues. In addition to collecting taxes, the Department titles and registers vehicles, and license drivers.

The Department's Executive Leadership Team consists of the Director of Revenue, the Chief Operating Officer (formally the Deputy Director position), the Director of Strategy and Communications, the General Counsel, and the Legislative Director. The Department also renamed our Legal Services Division to the General Counsel's Office. The Division Directors of the Motor Vehicle and Driver License Division, Taxation Division, and the Administration Division report to the Chief Operating Officer. These changes did not significantly change our existing organization structure.

The narrative description has been updated to include these changes.

If you have any questions or need additional information, please contact me at 751-5671.

Sincerely,

Missouri Department of Transportation

Departmental Plan

Article IV, section 29 of the Missouri Constitution provides that there is a department of transportation which is administered by a highways and transportation commission which shall have authority over the administration of the state highway system and all other state transportation programs and facilities as provided by law, including, but not limited to, aviation, ports, waterborne commerce, railroads, and mass transportation. Article IV, section 29 was originally adopted in 1945 and subsequently amended in 1979 by voter approval of Constitutional Amendment No. 2, which merged the previously separate State Highway Department with the State Transportation Department and the State Highway Commission with the State Transportation Commission. Then, in 1996, Truly Agreed to and Finally Passed House Bill 991 amended Section 226.005 of the Revised Statutes of Missouri (RSMo) to give the Missouri Highways and Transportation Department the legal alias, "department of transportation," which became the Missouri Department of Transportation (hereinafter, "Department"). This statutory name change to the Department was later incorporated into Article IV, Section 29 by voter approval of Constitutional Amendment No. 3 in 2004.

Also, Section 226.040 RSMo provides that the Missouri Highways and Transportation Commission (hereinafter, "Commission") is to appoint a chief executive officer with the title of Director, Department of Transportation (hereinafter, "Director"). Under the direction of the Commission, the Director is to have general charge of, and be responsible for, the overall operations and performance of the Department. The Director is also responsible for the appointment of a chief engineer, chief financial officer, and other department heads and employees as the Commission deems necessary. The Department's mission is to provide a world-class transportation experience that delights our customers and promotes a prosperous Missouri.

The Department pursues its mission through the following divisions/offices and district operations:

Chief Counsel's Office advises and represents the commission and the director in all actions and proceedings to which either may be a party or in proceedings under Chapters 226 and 227, RSMo, or with respect to any law administered by the commission or any order or proceeding of

WHEREAS, Dr. Satcher released a report that deems youth violence as a threat to public health and calls for federal, state, local, and private entities to invest in research on youth violence and for the use of the knowledge gained to inform intervention programs; and

WHEREAS, the report states that the public health approach to youth violence involves identifying risk and protective factors, determining how they work, making the public aware of these findings, and designing programs to prevent or stop the violence; and

WHEREAS, the 2000 public health report calls for national resolve to confront the problem of youth violence systematically; to facilitate entry of youth into effective intervention programs rather than incarceration; to improve public awareness of effective interventions; to convene youth, families, researchers, and public and private organizations for a periodic youth violence summit; to develop new collaborative multidisciplinary partnerships; and to hold periodic, highly visible national summits; and

WHEREAS, an individual's characteristics, experiences, and environmental conditions during childhood and adolescence are an indicator of future violent behavior; and

WHEREAS, ages 15 through 18, the ages that students spend in high school, are the peak years of offending; and

WHEREAS, there is concern about high school dropout rates, academic performance, and violence in schools across this state; and

WHEREAS, according to the Yale School of Medicine Child Study Center, the Comer School Development Program offers low-achieving schools assistance in creating a conducive learning environment while providing a solid foundation for students; and

WHEREAS, the work of the Yale School of Medicine Child Study Center has demonstrated that, "When teachers, administrators, parents, and mature adults interact with students in a supportive school environment and culture and provide adequate instruction in a way that mediates physical, social-interactive, psycho-emotional, moral-ethical, linguistic and cognitive-intellectual development, acceptable academic achievement will take place."; and

APPENDIX H

Concurrent Resolutions Having Force and Effect of Law

WHEREAS, the Comer School Development Program is an operating system comprised of three teams: the School Planning and Management Team, the Student and Staff Support Team, and the Parent Team, which work together to create a comprehensive school plan; and

WHEREAS, the Comer School Development Program model is guided by three principles: decision-making by consensus, no-fault problem solving, and collaboration; and

WHEREAS, due to the violence epidemic, youth suffer from either primary or secondary trauma. Primary trauma is trauma associated with the violent death of a loved one. Secondary trauma results from exposure to violence present within their community; and

WHEREAS, exposure to violence in families and communities, as well as exposure to homicidal death, can lead to youth-specific post-traumatic stress disorder with complex effects as well as homicidal grief; and

WHEREAS, trauma is not easily visible within youth because it requires proper assessment and, due to the amount of violence youth are currently exposed to, measures should be taken to properly assess the issue; and

WHEREAS, the experience of trauma impacts children of all situations and conditions across this state; and

WHEREAS, in August 2007, the CDC deemed schools as providing “a critical opportunity for changing societal behavior because almost the entire population is engaged in this institution for many years, starting at an early and formative period” and “Universal school based violence prevention programs represent an important means of reducing violent and aggressive behavior in the United States.”;

NOW THEREFORE BE IT RESOLVED that the members of the Missouri House of Representatives, Ninety-ninth General Assembly, Second Regular Session, the Senate concurring therein, hereby declare youth violence as a public health epidemic and support the establishment of statewide trauma-informed education; and

BE IT FURTHER RESOLVED that June seventh of each year shall be known and is designated as “Christopher Harris Day” in Missouri to remember children in St. Louis and throughout the state of Missouri lost to violence; and

BE IT FURTHER RESOLVED that this resolution be sent to the Governor for his approval or rejection pursuant to the Missouri Constitution.

Concurrent Resolutions Having Force and Effect of Law

2018 — SCR 36. Relating to Shingles Awareness and Prevention Month in Missouri.

Whereas, herpes zoster (shingles) is a disease caused by the same virus (zoster) that causes chickenpox; therefore, any individual who has contracted chickenpox is at risk for shingles, corresponding to approximately ninety-eight percent of U.S. adults; and

Whereas, nearly one in three people in the United States will contract shingles in their lifetime, corresponding to an estimated one million people annually; and

Whereas, the risk of shingles increases with age, with nearly half of those affected being over sixty years old and half of people living until eighty-five years old developing shingles; and

Whereas, shingles is a viral infection that causes a painful rash that can be severe, along with other symptoms, including long-term nerve pain, fever, headache, chills, upset stomach, muscle weakness, skin infection, scarring, and a decrease or loss of vision or hearing; and

Whereas, as many as twenty percent of adults who have contracted shingles will develop postherpetic neuralgia, a debilitating complication of shingles that causes severe pain and that may interfere with sleep and recreational activities and be associated with clinical depression; and

Whereas, vaccines have reduced the burden of widespread and often fatal diseases, enabling individuals to lead longer and healthier lives while reducing health care costs; and

Whereas, much attention has been paid to the importance of childhood vaccinations, but there is a general lack of awareness of adult-recommended vaccines and a misperception that immunizations are unnecessary for healthy adults; and

Whereas, the United States Centers for Disease Control and Prevention (CDC) and the Advisory Committee on Immunization Practices (ACIP) recommend that healthy adults fifty years and older be vaccinated against shingles to prevent shingles and shingles-related complications; and

Whereas, despite the recommendations of CDC officials and other experts that all healthy adults be vaccinated against shingles, as of 2015 only thirty percent of eligible adults had received the shingles vaccine; and

Whereas, the annual economic burden of shingles in American adults is estimated to be between \$782 million and \$5 billion; and

Whereas, the Institute of Medicine has stated that one of the six causes of excess costs in the U.S. health care system is missed prevention opportunities; and

APPENDIX H

Concurrent Resolutions Having Force and Effect of Law

Whereas, millions of American adults go without routine and recommended vaccinations because medical systems are not designed to ensure that adults receive regular preventive health care; and

Whereas, as the month of August is observed as National Immunization Awareness Month, residents of Missouri should be encouraged to speak with their health care provider to ensure that they have been properly vaccinated against shingles according to current CDC and ACIP recommendations:

Now, Therefore, Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, Second Regular Session, the House of Representatives concurring therein, hereby designate August as “Shingles Awareness and Prevention Month” in Missouri to increase public awareness of the importance of adults receiving vaccines against shingles and to promote outreach and education efforts concerning adult vaccinations; and

Be It Further Resolved that the Department of Health and Senior Services shall take appropriate action to promote Shingles Awareness and Prevention Month, including urging health care practitioners to discuss vaccines for shingles with adult patients and adopting appropriate programs and initiatives to raise public awareness of the importance of adult vaccinations; and

Be It Further Resolved that the Department of Health and Senior Services shall create and disseminate educational resources on shingles and shingles vaccinations to educate the residents of Missouri on vaccine-preventable diseases, including shingles; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to send a properly inscribed copy of this resolution to the Governor for his approval or rejection pursuant to the Missouri Constitution.

2018 — SCR 40. Relating to an application to Congress for the calling of an Article V convention of states to propose an amendment to the United States Constitution regarding term limits for members of Congress.

Whereas, Article V of the Constitution of the United States requires a Convention to be called by the Congress of the United States for the purpose of proposing an amendment to the Constitution upon application of two-thirds of the Legislatures of the several states; and

Whereas, the Legislature of the State of Missouri favors a proposal and ratification of an amendment to said Constitution, which shall set a limit on the number of terms that a person may be elected as a member of the United States House of Representatives and as a member of the United States Senate:

APPENDIX H

Concurrent Resolutions Having Force and Effect of Law

Now, Therefore, Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, Second Regular Session, the House of Representatives concurring therein, hereby make an application to Congress, as provided by Article V of the Constitution of the United States of America, to call a convention limited to proposing an amendment to the Constitution of the United States of America to set a limit on the number of terms that a person may be elected as a member of the United States House of Representatives and to set a limit on the number of terms that a person may be elected as a member of the United States Senate; and

Be It Further Resolved that this application shall be considered as covering the same subject matter as the applications from other states to Congress to call a convention to set a limit on the number of terms that a person may be elected to the House of Representatives of the Congress of the United States and the Senate of the United States; and this application shall be aggregated with same for the purpose of attaining the two-thirds of states necessary to require Congress to call a limited convention on this subject, but shall not be aggregated with any other applications on any other subject; and

Be It Further Resolved that this application shall expire five (5) years after the passage of this resolution; and

Be It Further Resolved that the Secretary of the Senate be instructed to prepare a properly inscribed copy of this resolution for the President and Secretary of the Senate of the United States and to the Speaker, Clerk, and Judiciary Committee Chairman of the House of Representatives of the Congress of the United States, and copies to each member of the Missouri Congressional delegation, and the presiding officers of each of the legislative houses in the several states, requesting their cooperation.

2018 — SCR 49. Relating to the election date for the referendum on Senate Substitute #2 for Senate Bill 19 as enacted by the Ninety-ninth General Assembly, First Regular Session.

Whereas, the voters of Missouri through the referendum process have ordered an election on the enactment of Senate Substitute #2 for Senate Bill 19; and

Whereas, Senate Substitute #2 for Senate Bill 19 provides that no person shall be required to pay dues to a union without his or her affirmative consent; and

Whereas, there is substantial need for the protection of a person's right to support or refrain from supporting a union; and

Whereas, the Constitution of Missouri provides in Article III, Section 52(b) in part "...all elections on measures referred to the people shall be had at the general state elections, except when the General Assembly shall order a special election...":

APPENDIX H

Concurrent Resolutions Having Force and Effect of Law

Now Therefore Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, Second Regular Session, the House of Representatives concurring therein, that the referendum on Senate Substitute #2 for Senate Bill 19 of the Ninety-ninth General Assembly, First Regular Session, officially entitled on the ballot as an act "which prohibits as a condition of employment the forced membership in a labor organization (union) or forced payments of dues in full or pro-rata (fair-share); makes any activity which violates employees' rights illegal and ineffective; allows legal remedies for anyone injured as a result of another person violating or threatening to violate employees' rights; and which shall not apply to union agreements entered into before the effective date of Senate Bill 19" be submitted to the voters of Missouri at a statewide election to be held on August 7, 2018; and

Be It Further Resolved that this resolution be sent to the Governor for his approval or rejection pursuant to the Missouri Constitution.

* Sections marked with an asterisk were sections with multiple versions. In 2010, SB 844 amended these sections. In 2012, SB 844 was declared unconstitutional (see *Legends Bank v. State*, 361 S.W.3d 383 (Mo. banc)), creating the multiple versions. In 2018, SB 975 & 1024 Revision repealed the SB 844 version of each of these sections appearing in this table.

† This section was a section with multiple versions. In 2015, SB 366 amended the 2008 SB 863 version of this section to include a contingent effective date, creating the multiple versions. In 2018, both HB 1744 and SB 882 amended the SB 366 version to repeal the contingent effective date, and both HB 1744 and SB 882 repealed the SB 863 version of this section appearing in this table.

EXPLANATORY NOTES

- (1) This section was contained in SB 718 and SB 951 in 2018. SB 718 contained an emergency clause for sections 9.192, 195.070, 195.265, 334.036, 374.426, and 630.875, and was signed by the Governor and became effective on 7-06-18. SB 951 did not contain an emergency clause; it became effective on 8-28-18. The printed version of this section contains the language of SB 718 merged with SB 951.
- (2) Merged (two bills).
- (3) Merged (three bills).
- (4) Merged (four bills).
- (5) Merged (five bills).
- (6) Section 67.3000 was amended by both HB 1388 and SB 773 in 2018. The language in subsection 8 dealing with support contracts differed with the year "2024" appearing in original rolls of SB 773, and "2025" appearing in original rolls of HB 1388.
- (7) Section 67.3005 was amended by both HB 1388 and SB 773 in 2018. The language in subdivision (1) of subsection 5 dealing with the sunset date provision contained the year "2018" in the original rolls of SB 773, and "2019" appearing in the original rolls of HB 1388.
- (8) This section previously contained 2 versions. In 2010, SB 844 amended this section. In 2012, SB 844 was declared unconstitutional (see *Legends Bank v. State*, 361 S.W.3d 383 (Mo. banc)), creating the multiple versions. In 2018, SB 975 & 1024 Revision repealed the SB 844 version of each of the following sections appearing in this table: 105.456, 105.473, 105.485, 105.957, 105.959, 105.961, 105.963, 105.966, 130.011, 130.021, 130.026, 130.041, 130.044, 130.046, 130.057, and 130.071.
- (9) This section was amended by SB 708 in 2018, with a delayed effective date of 7-01-19 for these sections: 105.1073, 303.020, 303.030, 303.120, 303.190, and 303.240.
- (10) This section was repealed by both SB 592 and SB 975 & 1024 Revision in 2018. SB 592 contained a delayed effective date of 11-07-18 for the repeal of the following sections: 115.001, 115.002, and 115.009. SB 975 & 1024 Revision contained no effective date provision. The repeal of these sections became effective 11-07-18 because the Revision bill falls pursuant to section 3.065.
- (11) This section was contained in both SB 592 and SB 975 & 1024 Revision in 2018. SB 592 contained a delayed effective date of 11-07-18 for the following sections: 115.003, 115.005, 115.007, 115.023, 115.049, 115.155, 115.177, 115.227, 115.243, 115.247, 115.287, 115.421, 115.429, 115.453, 115.507, 115.515, 115.629, 115.631, and 115.641. SB 975 & 1024 Revision contained no effective date provision. These sections became effective 11-07-18 because the Revision bill falls pursuant to section 3.065.
- (12) Section 115.013 appeared in three bills in 2018, HB 1469, HB 1503, and SB 592. HB 1469 and HB 1503 were identical and became effective 8-28-18. SB 592 contained different changes, was merged with HB 1469 and HB 1503, and became effective 11-07-18.

EXPLANATORY NOTES (CONT.)

- (13) Section 143.011 was contained in both SB 884 and HB 2540 in 2018. HB 2540 contained a delayed effective date of 1-01-19 for this section. SB 884 contained no effective date provision. The SB 884 version became effective 8-28-18 until 1-01-19, and the HB 2540 version merged with the SB 884 version became effective 1-01-19.
- (14) Section 143.811 was contained in both HB 1858 and SB 975 & 1024 Revision in 2018. The HB 1858 version contained a delayed effective date of 7-01-19 for this section. SB 975 & 1024 Revision contained no effective date provision. The SB 975 & 1024 Revision version became effective 8-28-18 until 7-01-19, and the HB 1858 version merged with the SB 975 & 1024 Revision version becomes effective 7-01-19.
- (15) Section 144.030 was contained in both SB 768 and SB 975 & 1024 Revision in 2018. Subsection .2(45) of this section was omitted in SB 975 & 1024 Revision. The HB 1858 version that included subsection .2(45), merged with all other additional changes in the SB 975 & 1024 Revision version, became the effective version of this section because the omission of .2(45) in S.B. 975 & 1024 Revision is not given effect pursuant to section 3.065.
- (16) Section 160.545 was contained in HB 1744 and SB 807 & 577 in 2018. HB 1744 contained an emergency clause for this section, and was signed by the Governor and became effective on 6-01-18. SB 807 & 577 did not contain an emergency clause; it became effective on 8-28-18. The printed version of this section contains the language of HB 1744 merged with SB 807 & 577.
- (17) Section 161.026 has two versions because of a possible conflict. This section was contained in both SB 743 and HB 1606 in 2018. Subsection 8 of this section contains an expiration date of 8-28-25 in SB 743, and an expiration date of 8-28-26 in HB 1606.
- (18) Section 166.435 was a section with multiple versions. In 2015, SB 366 amended the 2008 SB 863 version of this section to include a contingent effective date, creating the multiple versions. In 2018, both HB 1744 and SB 882 amended the SB 366 version to repeal the contingent effective date, and both HB 1744 and SB 882 repealed the SB 863 version of this section.
- (19) Section 167.121 was contained in both HB 1606 and SB 603, et al., in 2018. The HB 1606 version contained a delayed effective date of 7-01-19 for this section. SB 603, et al., contained no effective date provision. The SB 603, et al., version became effective 8-28-18 until 7-01-19, and the HB 1606 version merged with the SB 603, et al., version becomes effective 7-01-19.
- (20) Section 167.910 has two versions because of a possible conflict. This section was contained in both HB 1606 and HB 1415 in 2018. The changes to this section in each bill were myriad, creating differences throughout that could not be merged intelligibly under section 3.065.
- (21) Section 171.029 was repealed by both HB 1606 and SB 743 in 2018. Both HB 1606 and SB 743 contained a delayed effective date of 7-01-19 for the repeal of the section.
- (22) Section 178.930 was contained in three bills in 2018, HB 1415, SB 743, and SB 975 & 1024 Revision. Both HB 1415 and SB 743 repealed the section. SB 975 & 1024 Revision amended the section, but in accordance with subsection 2 of section 3.065, the amendments in S.B. 975 & 1024 Revision are not given effect and this section is repealed by H.B. 1415 and S.B. 743. HB 1415 contained an emergency clause, and the repeal of the section became effective 7-01-18. SB 743 became effective 8-28-18.
- (23) Section 178.931 was contained in both HB 1415 and SB 743 in 2018. HB 1415 contained an emergency clause, and the enactment of the section became effective 7-01-18. SB 743 became effective 8-28-18.
- (24) Section 190.147 was contained in both HB 1355 and SB 870 in 2018. Subsection 1 of this section contains the language from both bills; however, the order of the language in SB 870 differs from HB 1355.
- (25) SB 843 transferred section 196.1129 to section 191.756 in 2018.
- (26) Sections 195.070 and 195.265 were contained in three bills in 2018, SB 718, SB 826, and SB 951. Both SB 718 and SB 826 contained an emergency clause for sections 195.070 and 195.265, and were signed by the Governor and became effective on 7-06-18. SB 951 did not contain an emergency clause; it became effective on 8-28-18. The printed version of this section contains the merged language from all three bills.

EXPLANATORY NOTES (CONT.)

- (27) This section was contained in both SB 793 and SB 800. Both bills contained a contingency in section 211.438, as well as an effective date of 1-01-21 in section 211.439. Both the contingency and the delayed effective date applied to the following sections: 211.021, 211.031, 211.032, 211.033, 211.041, 211.061, 211.071, 211.073, 211.081, 211.091, 211.101, 211.161, 211.181, 211.321, 211.421, 211.425, 211.431, and 221.044.
- (28) Section 260.242 was contained in three bills in 2018, SB 659, SB 782, and SB 917; however, the order of the language in subsections 3 to 10 of this section in SB 659 and SB 782 differs from SB 917.
- (29) Section 313.040 was amended by HB 1484 in 2018, but contained a contingent effective date. Therefore, 2 versions of this section are printed. The language in the 2014 SB 491 version of this section is the effective language until the contingency in the 2018 HB 1484 version occurs.
- (30) Section 329.032 was contained in both HB 1500 and HB 1719 in 2018. The words appearing between the asterisks in the section do not appear in HB 1500.
- (31) This section was contained in both HB 1719 and SB 660 in 2018. Both bills contained a contingent effective date in section 337.170 for the following sections: 337.100, 337.105, 337.110, 337.115, 337.120, 337.125, 337.130, 337.135, 337.140, 337.145, 337.150, 337.155, 337.160, and 337.165.
- (32) Section 337.712 was amended in 2018 by SB 975 & 1024 Revision. The section number “337.712” appears in HB 1719, 2018. However, the text that appears in HB 1719 is not the text in the official Revised Statutes of Missouri, but is the text for section 337.662 as it appears in RSMo. The official text of section 337.712 was only amended by SB 975 & 1024 Revision and not by HB 1719; therefore, section 3.060 is applicable instead of section 3.065.
- (33) Section 589.400 was contained in SB 655 and SB 793 in 2018. The changes to this section were vastly different in each bill. Since the different changes could be reconciled, section 3.065 gave the Revisor the authority to merge these bills.
- (34) SB 975 & 1024 Revision transferred section 640.150 to 620.035 in 2018.
- (35) Sections designated in bills as generic sections (“Section 1”, “Section B”, etc.) may be classified as RSMo sections by the Revisor of Statutes. Consult the Disposition of Sections table for a definitive listing.
