4. The director of the department of revenue shall have authority to produce or allow others to produce a weather resistant, non-tearing temporary permit authorizing the operation of a motor vehicle or trailer by a buyer for not more than thirty days, or no more than ninety days if issued by a dealer selling the motor vehicle under the provisions of section 301.213, from the date of purchase. The temporary permit authorized under this section may be purchased by the purchaser of a motor vehicle or trailer from the central office of the department of revenue or from an authorized agent of the department of revenue upon proof of purchase of a motor vehicle or trailer for which the buyer has no registration plate available for transfer and upon proof of financial responsibility, or from a motor vehicle dealer upon purchase of a motor vehicle or trailer for which the buyer has no registration plate available for transfer, or from a motor vehicle dealer upon purchase of a motor vehicle or trailer for which the buyer has registered and is awaiting receipt of registration plates. The director of the department of revenue or a producer authorized by the director of the department of revenue may make temporary permits available to registered dealers in this state, authorized agents of the department of revenue or the department of revenue. The price paid by a motor vehicle dealer, an authorized agent of the department of revenue or the department of revenue for a temporary permit shall not exceed five dollars for each permit. The director of the department of revenue or a producer authorized by the director of the department of revenue shall direct motor vehicle dealers and authorized agents to obtain temporary permits from an authorized producer. Amounts received by the director of the department of revenue for temporary permits shall constitute state revenue; however, amounts received by an authorized producer other than the director of the department of revenue shall not constitute state revenue and any amounts received by motor vehicle dealers or authorized agents for temporary permits purchased from a producer other than the director of the department of revenue shall not constitute state revenue. In no event shall revenues from the general revenue fund or any other state fund be utilized to compensate motor vehicle dealers or other producers for their role in producing temporary permits as authorized under this section. Amounts that do not constitute state revenue under this section shall also not constitute fees for registration or certificates of title to be collected by the director of the department of revenue under section 301.190. No motor vehicle dealer, authorized agent or the department of revenue shall charge more than five dollars for each permit issued. The permit shall be valid for a period of thirty days, or no more than ninety days if issued by a dealer selling the motor vehicle under the provisions of section 301.213, from the date of purchase of a motor vehicle or trailer, or from the date of sale of the motor vehicle or trailer by a motor vehicle dealer for which the purchaser obtains a permit as set out above. No permit shall be issued for a vehicle under this section unless the buyer shows proof of financial responsibility. Each temporary permit issued shall be securely fastened to the back or rear of the motor vehicle in a manner and place on the motor vehicle consistent with registration plates so that all parts and qualities of the temporary permit thereof shall be plainly and clearly visible, reasonably clean and are not impaired in any way.

5. The permit shall be issued on a form prescribed by the director of the department of revenue and issued only for the applicant's temporary operation of the motor vehicle or trailer purchased to enable the applicant to temporarily operate the motor vehicle while proper title and registration plates are being obtained, or while awaiting receipt of registration plates, and shall be displayed on no other
motor vehicle. Temporary permits issued pursuant to this section shall not be transferable or renewable, and shall not be valid upon issuance of proper registration plates for the motor vehicle or trailer, and shall be returned to the department or to the department's agent upon the issuance of such proper registration plates. Any temporary permit returned to the department or to the department's agent shall be immediately destroyed. The provisions of this subsection shall not apply to temporary permits issued for commercial motor vehicles licensed in excess of twenty-four thousand pounds gross weight. The director of the department of revenue shall determine the size, material, design, numbering configuration, construction, and color of the permit. The director of the department of revenue, at his or her discretion, shall have the authority to reissue, and thereby extend the use of, a temporary permit previously and legally issued for a motor vehicle or trailer while proper title and registration are being obtained.

6. Every motor vehicle dealer that issues temporary permits shall keep, for inspection by proper officers, an accurate record of each permit issued by recording the permit number, the motor vehicle dealer's number, buyer's name and address, the motor vehicle's year, make, and manufacturer's vehicle identification number, and the permit's date of issuance and expiration date. Upon the issuance of a temporary permit by either the central office of the department of revenue, a motor vehicle dealer or an authorized agent of the department of revenue, the director of the department of revenue shall make the information associated with the issued temporary permit immediately available to the law enforcement community of the state of Missouri.

7. Upon the transfer of ownership of any currently registered motor vehicle wherein the owner cannot transfer the license plates due to a change of motor vehicle category, the owner may surrender the license plates issued to the motor vehicle and receive credit for any unused portion of the original registration fee against the registration fee of another motor vehicle. Such credit shall be granted based upon the date the license plates are surrendered. No refunds shall be made on the unused portion of any license plates surrendered for such credit.

8. The provisions of subsections 4, 5, and 6 of this section shall expire July 1, 2019.

9. An additional temporary license plate produced in a manner and of materials determined by the director to be the most cost-effective means of production with a configuration that matches an existing or newly issued plate may be purchased by a motor vehicle owner to be placed in the interior of the vehicle's rear window such that the driver's view out of the rear window is not obstructed and the plate configuration is clearly visible from the outside of the vehicle to serve as the visible plate when a bicycle rack or other item obstructs the view of the actual plate. Such temporary plate is only authorized for use when the matching actual plate is affixed to the vehicle in the manner prescribed in subsection 5 of section 301.130. The fee charged for the temporary plate shall be equal to the fee charged for a temporary permit issued under subsection 4 of this section. Replacement temporary plates authorized in this subsection may be issued as needed upon the payment of a fee equal to the fee charged for a temporary permit under subsection 4 of this section. The newly produced third plate may only be used on the vehicle with the matching plate, and the additional plate shall be clearly recognizable as a third plate and only used for the purpose specified in this subsection.

10. Notwithstanding the provisions of section 301.217, the director may issue a temporary permit to an individual who possesses a salvage motor vehicle which requires an inspection under subsection 9 of section 301.190. The operation of a salvage motor vehicle for which the permit has been issued shall be limited to the most direct route from the residence, maintenance, or storage facility of the individual in possession of such motor vehicle to the nearest authorized inspection facility and return to the originating location. Notwithstanding any other requirements for the issuance of a temporary permit under this section, an individual obtaining a temporary permit for the purpose of operating a motor vehicle to and from an examination facility as prescribed in this subsection shall also
purchase the required motor vehicle examination form which is required to be completed for an examination under subsection 9 of section 301.190 and provide satisfactory evidence that such vehicle has passed a motor vehicle safety inspection for such vehicle as required in section 307.350.

[11.] 10. The director of the department of revenue may promulgate all necessary rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2012, shall be invalid and void.

[12.] 11. The repeal and reenactment of this section shall become effective on the date the department of revenue or a producer authorized by the director of the department of revenue begins producing temporary permits described in subsection 4 of such section, or on July 1, 2013, whichever occurs first. If the director of revenue or a producer authorized by the director of the department of revenue begins producing temporary permits prior to July 1, 2013, the director of the department of revenue shall notify the revisor of statutes of such fact.

3. A physician's statement shall:

Such owners, upon application, accompanied by the documents and fees provided for in this section, a current physician's statement which has been issued within ninety days proceeding the date the application is made and proof of compliance with the state motor vehicle laws relating to registration and licensing of motor vehicles, shall be issued motor vehicle license plates for vehicles, other than commercial vehicles with a gross weight in excess of twenty-four thousand pounds, upon which shall be inscribed the international wheelchair accessibility symbol and the word "DISABLED" in addition to a combination of letters and numbers. Such license plates shall be made with fully reflective material with a common color

If at any time an individual who obtained disabled license plates issued under this subsection no longer occupies a residence with a physically disabled person, or no longer owns a vehicle that is operated at least fifty percent of the time by a physically disabled person, such individual shall surrender the disabled license plates to the department within thirty days of becoming ineligible for their use.

8. The director shall further issue, upon request, to such applicant one, and for good cause shown, as the director may define by rule and regulations, not more than two, removable disabled windshield hanging placards for use when the disabled person is occupying a vehicle or when a vehicle not bearing the permanent handicap plate is being used to pick up, deliver, or collect the physically disabled person issued the disabled motor vehicle license plate or disabled windshield hanging placard.

9. No additional fee shall be paid to the director for the issuance of the special license plates provided in this section, except for special personalized license plates and other license plates described in this subsection. Priority for any specific set of special license plates shall be given to the applicant who received the number in the immediately preceding license period subject to the applicant's compliance with the provisions of this section and any applicable rules or regulations issued by the director. If determined feasible by the advisory committee established in section 301.129, any special license plate issued pursuant to this section may be adapted to also include the international wheelchair accessibility symbol and the word "DISABLED" as prescribed in this section and such plate may be issued to any applicant who meets the requirements of this section and the other appropriate provision of this chapter, subject to the requirements and fees of the appropriate provision of this chapter.

10. Any physically disabled person, or the parent or guardian of any such person, or any not-for-profit group, organization, or other entity which transports more than one physically disabled person, may apply to the director of revenue for a removable windshield placard. The placard may be used in motor vehicles which do not bear the permanent handicap symbol on the license plate. Such placards must be hung from the front, middle rearview mirror of a parked motor vehicle and may not be hung from the mirror during operation. These placards may only be used during the period of time when the vehicle is being used by a disabled person, or when the vehicle is being used to pick up, deliver, or collect a disabled person, and shall be surrendered to the department, within thirty days, if a group, organization, or entity that obtained the removable windshield placard due to the transportation of more than one physically disabled person no longer transports more than one disabled person. When there is no rearview mirror, the placard shall be displayed on the dashboard on the driver's side.

11. The removable windshield placard shall conform to the specifications, in respect to size, color, and content, as set forth in federal regulations published by the Department of Transportation. The removable windshield placard shall be renewed every four years. The director may stagger the expiration dates to equalize workload. Only one removable placard may be issued to an applicant who has been issued disabled person license plates. Upon request, one additional windshield placard may be issued to an applicant who has not been issued disabled person license plates.

12. A temporary windshield placard shall be issued to any physically disabled person, or the parent or guardian of any such person who otherwise qualifies except that the physical disability, in the opinion of the physician, is not expected to exceed a period of one hundred eighty days. The temporary windshield placard shall conform to the specifications, in respect to size, color, and content, as set forth in federal regulations published by the Department of Transportation. The fee for the temporary windshield placard shall be two dollars. Upon request, and for good cause shown, one additional temporary windshield placard may be issued to an applicant. Temporary
windshield placards shall be issued upon presentation of the physician's statement provided by this section and shall be displayed in the same manner as removable windshield placards. A person or entity shall be qualified to possess and display a temporary removable windshield placard for six months and the placard may be renewed once for an additional six months if a physician's statement pursuant to this section is supplied to the director of revenue at the time of renewal.

13. Application for license plates or windshield placards issued pursuant to this section shall be made to the director of revenue and shall be accompanied by a statement signed by a licensed physician or other authorized health care practitioner which certifies that the applicant, user, or member of the applicant's household is a physically disabled person as defined by this section.

14. The placard shall be renewable only by the person or entity to which the placard was originally issued. Any placard pursuant to this section shall only be used when the physically disabled occupant for whom the disabled plate or placard was issued is in the motor vehicle at the time of parking or when a physically disabled person is being delivered or collected. A disabled license plate and/or a removable windshield hanging placard are not transferable and may not be used by any other person whether disabled or not.

15. At the time the disabled plates or windshield hanging placards are issued, the director shall issue a registration certificate which shall include the applicant's name, address, and other identifying information as prescribed by the director, or if issued to an agency, such agency's name and address. This certificate shall further contain the disabled license plate number or, for windshield hanging placards, the registration or identifying number stamped on the placard. The validated registration receipt given to the applicant shall serve as the registration certificate.

16. The director shall, upon issuing any disabled registration certificate for license plates and/or windshield hanging placards, provide information which explains that such plates or windshield hanging placards are nontransferable, and the restrictions explaining who and when a person or vehicle which bears or has the disabled plates or windshield hanging placards may be used or be parked in a disabled reserved parking space, and the penalties prescribed for violations of the provisions of this act.

17. Every new applicant for a disabled license plate or placard shall be required to present a new physician's statement dated no more than ninety days prior to such application. Renewal applicants will be required to submit a physician's statement dated no more than ninety days prior to such application upon their first renewal occurring on or after August 1, 2005. Upon completing subsequent renewal applications, a physician's statement dated no more than ninety days prior to such application shall be required every fourth year. Such physician's statement shall state the expiration date for the temporary windshield placard. If the physician fails to record an expiration date on the physician's statement, the director shall issue the temporary windshield placard for a period of thirty days. The director may stagger the requirement of a physician's statement on all renewals for the initial implementation of a four-year period.

18. The director of revenue upon receiving a physician's statement pursuant to this subsection shall check with the state board of registration for the healing arts created in section 334.120, or the Missouri state board of nursing established in section 335.021, with respect to physician's statements signed by advanced practice registered nurses, or the Missouri state board of chiropractic examiners established in section 331.090, with respect to physician's statements signed by licensed chiropractors, or with the board of optometry established in section 336.130, with respect to physician's statements signed by licensed optometrists, or the state board of podiatric medicine created in section 330.100, with respect to physician's statements signed by physicians of the foot or podiatrists to determine whether the physician is duly licensed and registered pursuant to law. If such applicant obtaining a disabled license plate or placard presents
proof of disability in the form of a statement from the United States Veterans' Administration verifying that the person is permanently disabled, the applicant shall be exempt from the [four-year] **eight-year** certification requirement of this subsection for renewal of the plate or placard. Initial applications shall be accompanied by the physician's statement required by this section. Notwithstanding the provisions of paragraph (f) of subdivision (4) of subsection 1 of this section, any person seventy-five years of age or older who provided the physician's statement with the original application shall not be required to provide a physician's statement for the purpose of renewal of disabled persons license plates or windshield placards.

19. The boards shall cooperate with the director and shall supply information requested pursuant to this subsection. The director shall, in cooperation with the boards which shall assist the director, establish a list of all Missouri physicians and other authorized health care practitioners and of any other information necessary to administer this section.

20. Where the owner's application is based on the fact that the vehicle is used at least fifty percent of the time by a physically disabled person, the applicant shall submit a statement stating this fact, in addition to the physician's statement. The statement shall be signed by both the owner of the vehicle and the physically disabled person. The applicant shall be required to submit this statement with each application for license plates. No person shall willingly or knowingly submit a false statement and any such false statement shall be considered perjury and may be punishable pursuant to section 301.420.

21. The director of revenue shall retain all physicians' statements and all other documents received in connection with a person's application for disabled license plates and/or disabled windshield placards.

22. The director of revenue shall enter into reciprocity agreements with other states or the federal government for the purpose of recognizing disabled person license plates or windshield placards issued to physically disabled persons.

23. When a person to whom disabled person license plates or a removable or temporary windshield placard or both have been issued dies, the personal representative of the decedent or such other person who may come into or otherwise take possession of the disabled license plates or disabled windshield placard shall return the same to the director of revenue under penalty of law. Failure to return such plates or placards shall constitute a class B misdemeanor.

24. The director of revenue may order any person issued disabled person license plates or windshield placards to submit to an examination by a chiropractor, osteopath, or physician, or to such other investigation as will determine whether such person qualifies for the special plates or placards.

25. If such person refuses to submit or is found to no longer qualify for special plates or placards provided for in this section, the director of revenue shall collect the special plates or placards, and shall furnish license plates to replace the ones collected as provided by this chapter.

26. In the event a removable or temporary windshield placard is lost, stolen, or mutilated, the lawful holder thereof shall, within five days, file with the director of revenue an application and an affidavit stating such fact, in order to purchase a new placard. The fee for the replacement windshield placard shall be four dollars.

27. Fraudulent application, renewal, issuance, procurement or use of disabled person license plates or windshield placards shall be a class A misdemeanor. It is a class B misdemeanor for a physician, chiropractor, podiatrist or optometrist to certify that an individual or family member is qualified for a license plate or windshield placard based on a disability, the diagnosis of which is outside their scope of practice or if there is no basis for the diagnosis.

   c. Any other information the department deems necessary to inform the applicant about the driver's license or identification card.

5. The department of revenue shall not use, collect, obtain, share, or retain biometric data nor shall the department use biometric technology to produce a driver's license or nondriver's license or to uniquely identify licensees or license applicants. This subsection shall not apply to digital images nor licensee signatures required for the issuance of driver's licenses and nondriver's licenses or to biometric data collected from employees of the department of revenue, employees of the office of administration who provide information technology support to the department of revenue, contracted license offices, and contracted manufacturers engaged in the production, processing, or manufacture of driver's licenses or identification cards in positions which require a background check in order to be compliant with the federal REAL ID Act or any rules or regulations promulgated under the authority of such Act. Except as otherwise provided by law, applicants' source documents and Social Security numbers shall not be stored in any database accessible by any other state or the federal government. Such database shall contain only the data fields included on driver's licenses and nondriver identification cards compliant with the federal REAL ID Act, and the driving records of the individuals holding such driver's licenses and nondriver identification cards.

6. Notwithstanding any provision of this chapter that requires an applicant to provide reasonable proof of lawful presence for issuance or renewal of a noncommercial driver's license, noncommercial instruction permit, or a nondriver's license, an applicant shall not have his or her

privacy rights violated in order to obtain or renew a Missouri noncommercial driver's license, noncommercial instruction permit, or a nondriver's license.

7. No citizen of this state shall have his or her privacy compromised by the state or agents of the state. The state shall within reason protect the sovereignty of the citizens the state is entrusted to protect. Any data derived from a person's application shall not be sold for commercial purposes to any other organization or any other state without the express permission of the applicant without a court order; except such information may be shared with a law enforcement agency, judge, prosecuting attorney, or officer of the court, or with another state for the limited purposes set out in section 302.600, or for the purposes set forth in section 32.091, or for conducting driver history checks in compliance with the Motor Carrier Safety Improvement Act, 49 U.S.C. Section 31309. The state of Missouri shall protect the privacy of its citizens when handling any written, digital, or electronic data, and shall not participate in any standardized identification system using driver's and nondriver's license records except as provided in this section.

8. Other than to process a request by a license or card holder or applicant, no person shall access, distribute, or allow access to or distribution of any written, digital, or electronic data collected or retained under this section without the express permission of the applicant or a court order, except that such information may be shared with a law enforcement agency, judge, prosecuting attorney, or officer of the court, or with another state for the limited purposes set out in section 302.600 or for conducting driver history checks in compliance with the Motor Carrier Safety Improvement Act, 49 U.S.C. Section 31309. A first violation of this subsection shall be a class A misdemeanor. A second violation of this subsection shall be a class E felony. A third or subsequent violation of this subsection shall be a class D felony.

9. Any person harmed or damaged by any violation of this section may bring a civil action for damages, including noneconomic and punitive damages, as well as injunctive relief, in the circuit court where that person resided at the time of the violation or in the circuit court of Cole County to recover such damages from the department of revenue and any persons participating in such violation. Sovereign immunity shall not be available as a defense for the department of revenue in such an action. In the event the plaintiff prevails on any count of his or her claim, the plaintiff shall be entitled to recover reasonable attorney fees from the defendants.

10. The department of revenue may promulgate rules necessary to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2017, shall be invalid and void.

11. Biometric data, digital images, source documents, and licensee signatures, or any copies of the same, required to be collected or retained to comply with the requirements of the federal REAL ID Act of 2005 shall be digitally retained for no longer than the minimum duration required to maintain compliance, and immediately thereafter shall be securely destroyed so as to make them irretrievable.

12. No agency, department, or official of this state or of any political subdivision thereof shall use, collect, obtain, share, or retain radio frequency identification data from a REAL ID compliant driver's license or identification card issued by a state, nor use the same to uniquely identify any individual.

13. Notwithstanding any provision of law to the contrary, the department of revenue shall not amend procedures for applying for a driver's license or identification card, nor promulgate any rule or regulation, for purposes of complying with modifications made to the federal REAL ID Act of 2005

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
after August 28, 2017, imposing additional requirements on applications, document retention, or issuance of compliant licenses or cards, including any rules or regulations promulgated under the authority granted under the federal REAL ID Act of 2005, as amended, or any requirements adopted by the American Association of Motor Vehicle Administrators for furtherance thereof.

14. If the federal REAL ID Act of 2005 is modified or repealed such that driver's licenses and identification cards issued by this state that are not compliant with the federal REAL ID Act of 2005 are once again sufficient for federal identification purposes, the department shall not issue a driver's license or identification card that complies with the federal REAL ID Act of 2005 and shall securely destroy, within thirty days, any source documents retained by the department for the purpose of compliance with such Act.

15. The provisions of this section shall expire five years after August 28, 2017.

302.173. DRIVER'S EXAMINATION REQUIRED, WHEN — EXCEPTIONS — PROCEDURE — MILITARY MOTORCYCLE RIDER TRAINING, NO FURTHER DRIVING TEST REQUIRED. — 1. Any applicant for a license, who does not possess a valid license issued pursuant to the laws of this state, another state, or a country which has a reciprocal agreement with the state of Missouri regarding the exchange of licenses pursuant to section 302.172 shall be examined as herein provided. Any person who has failed to renew such person's license on or before the date of its expiration or within six months thereafter must take the complete examination. Any active member of the Armed Forces, their adult dependents or any active member of the Peace Corps may apply for a renewal license without examination of any kind, unless otherwise required by sections 302.700 to 302.780, provided the renewal application shows that the previous license had not been suspended or revoked. Any person honorably discharged from the Armed Forces of the United States who held a valid license prior to being inducted may apply for a renewal license within sixty days after such person's honorable discharge without submitting to any examination of such person's ability to safely operate a motor vehicle over the highways of this state unless otherwise required by sections 302.700 to 302.780, other than the vision test provided in section 302.175, unless the facts set out in the renewal application or record of convictions on the expiring license, or the records of the director show that there is good cause to authorize the director to require the applicant to submit to the complete examination. No applicant for a renewal license shall be required to submit to any examination of his or her ability to safely operate a motor vehicle over the highways of this state unless otherwise required by sections 302.700 to 302.780 or regulations promulgated thereunder, other than a test of the applicant's ability to understand highway signs regulating, warning or directing traffic and the vision test provided in section 302.175, unless the facts set out in the renewal application or record of convictions on the expiring license, or the records of the director show that there is good cause to authorize the director to require the applicant to submit to the complete examination. The examination shall be made available in each county. Reasonable notice of the time and place of the examination shall be given the applicant by the person or officer designated to conduct it. The complete examination shall include a test of the applicant's natural or corrected vision as prescribed in section 302.175, the applicant's ability to understand highway signs regulating, warning or directing traffic, the applicant's practical knowledge of the traffic laws of this state, and an actual demonstration of ability to exercise due care in the operation of a motor vehicle of the classification for which the license is sought. When an applicant for a license has a license from a state which has requirements for issuance of a license comparable to the Missouri requirements or a license from a country which has a reciprocal agreement with the state of Missouri regarding the exchange of licenses pursuant to section 302.172 and such license has not expired more than six months prior to the date
of application for the Missouri license, the director may waive the test of the applicant's practical knowledge of the traffic laws of this state, and the requirement of actual demonstration of ability to exercise due care in the operation of a motor vehicle. If the director has reasonable grounds to believe that an applicant is suffering from some known physical or mental ailment which ordinarily would interfere with the applicant's fitness to operate a motor vehicle safely upon the highways, the director may require that the examination include a physical or mental examination by a licensed physician of the applicant's choice, at the applicant's expense, to determine the fact. The director shall prescribe regulations to ensure uniformity in the examinations and in the grading thereof and shall prescribe and furnish all forms to the members of the highway patrol and to other persons authorized to conduct examinations as may be necessary to enable the officer or person to properly conduct the examination. The records of the examination shall be forwarded to the director who shall not issue any license hereunder if in the director's opinion the applicant is not qualified to operate a motor vehicle safely upon the highways of this state.

2. Beginning July 1, 2005, when the examiner has reasonable grounds to believe that an individual has committed fraud or deception during the examination process, the license examiner shall immediately forward to the director all information relevant to any fraud or deception, including, but not limited to, a statement of the examiner's grounds for belief that the person committed or attempted to commit fraud or deception in the written, skills, or vision examination.

3. The director of revenue shall delegate the power to conduct the examinations required for a license or permit to any member of the highway patrol or any person employed by the highway patrol. The powers delegated to any examiner may be revoked at any time by the director of revenue upon notice.

4. Notwithstanding the requirements of subsections 1 and 3 of this section, the successful completion of a motorcycle rider training course approved pursuant to sections 302.133 to 302.137 shall constitute an actual demonstration of the person's ability to exercise due care in the operation of a motorcycle or motortricyle, and no further practical knowledge or driving test shall be required to obtain a motorcycle or motortricyle license or endorsement. The motorcycle rider training course completion shall be accepted for purposes of motorcycle license or endorsement issuance for one year from the date of course completion.

5. Notwithstanding the requirements of subsections 1 and 3 of this section, the successful completion of a military motorcycle rider training course that meets or exceeds the Motorcycle Safety Foundation curriculum standards by an applicant who is an active member of the United States Armed Forces, shall constitute an actual demonstration of the person's ability to exercise due care in the operation of a motorcycle or motortricyle, and no further practical knowledge or driving test shall be required to obtain a motorcycle or motortricyle license or endorsement. The military motorcycle rider training course completion shall be accepted for purposes of motorcycle license or endorsement issuance for one year from the date of course completion. The director of revenue is authorized to promulgate rules and regulations for the administration and implementation of this subsection including rules governing the presentment of motorcycle training course completion cards from a military motorcycle rider training course or other documentation showing that the applicant has successfully completed a course in basic motorcycle safety instruction that meets or exceeds curriculum standards established by the Motorcycle Safety Foundation or other national organization whose purpose is to improve the safety of motorcyclists on the nation's streets and highways. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers

The school district may notify students of the option to use district contracted transportation services.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
Notwithstanding the above table, two consecutive sets of tandem axles may carry a gross load of thirty-four thousand pounds each if the overall distance between the first and last axles of such consecutive sets of tandem axles is thirty-six feet or more.

4. Whenever the state highways and transportation commission finds that any state highway bridge in the state is in such a condition that use of such bridge by vehicles of the weights specified in subsection 3 of this section will endanger the bridge, or the users of the bridge, the commission may establish maximum weight limits and speed limits for vehicles using such bridge. The governing body of any city or county may grant authority by act or ordinance to the commission to enact the limitations established in this section on those roadways within the purview of such city or county. Notice of the weight limits and speed limits established by the commission shall be given by posting signs at a conspicuous place at each end of any such bridge.

6. Notwithstanding the weight limitations contained in this section, any vehicle or combination of vehicles operating on highways other than the interstate highway system may exceed single axle, tandem axle and gross weight limitations in an amount not to exceed two thousand pounds. However, total gross weight shall not exceed eighty thousand pounds, except as provided in subsections 9, 10, 12, and 13 of this section.

7. Notwithstanding any provision of this section to the contrary, the commission shall issue a single-use special permit, or upon request of the owner of the truck or equipment, shall issue an annual permit, for the transporting of any crane or concrete pump truck or well-drillers' equipment. The commission shall set fees for the issuance of permits and parameters for the transport of cranes pursuant to this subsection. Notwithstanding the provisions of section 301.133, cranes, concrete pump trucks or well-drillers' equipment may be operated on state-maintained roads and highways at any time on any day.

8. Notwithstanding the provision of this section to the contrary, the maximum gross vehicle limit and axle weight limit for any vehicle or combination of vehicles equipped with an idle reduction technology may be increased by a quantity necessary to compensate for the additional weight of the idle reduction system as provided for in 23 U.S.C. Section 127, as amended. In no case shall the additional weight increase allowed by this subsection be greater than five hundred pounds. No contribution shall be made to an ABLE account for a designated beneficiary if it would cause the balance of the ABLE account of the designated beneficiary to exceed the total contribution limit established by the board. The board may establish other requirements that it deems appropriate to provide adequate safeguards to prevent contributions on behalf of a designated beneficiary from exceeding what is necessary to provide for the qualified disability expenses of the designated beneficiary.

4. The board shall establish the minimum length of time that contributions and earnings must be held by the ABLE program to qualify as tax exempt pursuant to section 209.625. Each party state and subdivision thereof may make the same election available to taxpayers additional to those specified in this paragraph.

3. Nothing in this article relates to the reporting or payment of any tax other than an income tax.

Article IV

1. As used in this article, unless the context otherwise requires:
   (1) "Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.
   (2) "Commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.
   (3) "Compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services.

      (b) whose rates of charges for goods or services have been established or approved by a federal, state or local government or governmental agency.
   (7) "Sales" means all gross receipts of the taxpayer not allocated under paragraphs of this article.

2. Any taxpayer having income from business activity which is taxable both within and without this state, other than activity as a financial organization or public utility or the rendering of purely personal services by an individual, shall allocate and apportion his net income as provided in this article. If a taxpayer has income from business activity as a public utility but derives the greater percentage of his income from activities subject to this article, the taxpayer may elect to allocate and apportion his entire net income as provided in this article.

3. For purposes of allocation and apportionment of income under this article, a taxpayer is taxable in another state if
(1) in that state he is subject to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or
(2) that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.

4. Rents and royalties from real or tangible personal property, capital gains, interest, dividends or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in paragraphs 5 through 8 of this article.

5. (1) Net rents and royalties from real property located in this state are allocable to this state.
(2) Net rents and royalties from tangible personal property are allocable to this state:
(a) if and to the extent that the property is utilized in this state; or
(b) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(3) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

6. (1) Capital gains and losses from sales of real property located in this state are allocable to this state.
(2) Capital gains and losses from sales of tangible personal property are allocable to this state if

(b) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.
(3) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

7. Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

8. (1) Patent and copyright royalties are allocable to this state:
(a) if and to the extent that the patent or copyright is utilized by the payer in this state; or
(b) if and to the extent that the patent copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.
(2) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.
(3) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

9. All business income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor, and the denominator of which is three.
10. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.

11. Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

12. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

13. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period.

14. Compensation is paid in this state if:
   (1) the individual's service is performed entirely within the state;
   (2) the individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or
   (3) some of the service is performed in the state; and
   (a) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state; or
   (b) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

15. The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period.

16. Sales of tangible personal property are in this state if:
   (1) the property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or
   (2) the property is shipped from an office, store, warehouse, factory, or other place of storage in this state; and
   (a) the purchaser is the United States government; or
   (b) the taxpayer is not taxable in the state of the purchaser.

17. Sales, other than sales of tangible personal property, are in this state if:
   (1) the income-producing activity is performed in this state; or
   (2) the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

18. If the allocation and apportionment provisions of this article do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:
   (1) separate accounting;
   (2) the exclusion of any one or more of the factors;
   (3) the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.
(4) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

Article V

1. Each purchaser liable for a use tax on tangible personal property shall be entitled to full credit for the combined amount or amounts of legally imposed sales or use taxes paid by him with respect to the same property to another state and any subdivision thereof. The credit shall be applied first against the amount of any use tax due the state, and any unused portion of the credit shall then be applied against the amount of any use tax due a subdivision.

2. Whenever a vendor receives and accepts in good faith from a purchaser a resale or other exemption certificate or other written evidence of exemption authorized by the appropriate state or subdivision taxing authority, the vendor shall be relieved of liability for a sales or use tax with respect to the transaction.

Article VI

1. (a) The multistate tax commission is hereby established. It shall be composed of one "member" from each party state who shall be the head of the state agency charged with the administration of the types of taxes to which this compact applies. If there is more than one such agency the state shall provide by law for the selection of the commission member from the heads of the relevant agencies. State law may provide that a member of the commission be represented by an alternate but only if there is on file with the commission written notification of the designation and identity of the alternate. The attorney general of each party state or his designee, or other counsel if the laws of the party state specifically provide, shall be entitled to attend the meetings of the commission, but shall not vote. Such attorneys general, designees, or other counsel shall receive all notices of meetings required under paragraph 1 (e) of this article.

(b) Each party state shall provide by law for the selection of representatives from its subdivisions affected by this compact to consult with the commission member from that state.

(c) Each member shall be entitled to one vote. The commission shall not act unless a majority of the members are present, and no action shall be binding unless approved by a majority of the total number of members.

(d) The commission shall adopt an official seal to be used as it may provide.

(e) The commission shall hold an annual meeting and such other regular meetings as its bylaws may provide and such special meetings as its executive committee may determine. The commission bylaws shall specify the dates of the annual and any other regular meetings, and shall provide for the giving of notice of annual, regular and special meetings. Notices of special meetings shall include the reasons therefor and an agenda of the items to be considered.

(f) The commission shall elect annually, from among its members, a chairman, a vice chairman and a treasurer. The commission shall appoint an executive director who shall serve at its pleasure, and it shall fix his duties and compensation. The executive director shall be secretary of the commission. The commission shall make provision for the bonding of such of its officers and employees as it may deem appropriate.

(g) Irrespective of the civil service, personnel or other merit system laws of any party state, the executive director shall appoint or discharge such personnel as may be necessary for the performance of the functions of the commission and shall fix their duties and compensation. The commission bylaws shall provide for personnel policies and programs.

(h) The commission may borrow, accept or contract for the services of personnel from any state, the United States, or any other governmental entity.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.
(i) The commission may accept for any of its purposes and functions any and all donations and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any governmental entity, and may utilize and dispose of the same.

(j) The commission may establish one or more offices for the transacting of its business.

(k) The commission shall adopt bylaws for the conduct of its business. The commission shall publish its bylaws in convenient form, and shall file a copy of the bylaws and any amendments thereto with the appropriate agency or officer in each of the party states.

(l) The commission annually shall make to the governor and legislature of each party state a report covering its activities for the preceding year. Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission, and shall include the nature, amount and conditions, if any, of the donation, gift, grant or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

2. (a) To assist in the conduct of its business when the full commission is not meeting, the commission shall have an executive committee of seven members, including the chairman, vice chairman, treasurer and four other members elected annually by the commission. The executive committee, subject to the provisions of this compact and consistent with the policies of the commission, shall function as provided in the bylaws of the commission.

(b) The commission may establish advisory and technical committees, membership on which may include private persons and public officials, in furthering any of its activities. Such committees may consider any matter of concern to the commission, including problems of special interest to any party state and problems dealing with particular types of taxes.

(c) The commission may establish such additional committees as its bylaws may provide.

3. In addition to powers conferred elsewhere in this compact, the commission shall have power to:

(a) Study state and local tax systems and particular types of state and local taxes.

(b) Develop and recommend proposals for an increase in uniformity or compatibility of state and local tax laws with a view toward encouraging the simplification and improvement of state and local tax law and administration.

(c) Compile and publish information as in its judgment would assist the party states in implementation of the compact and taxpayers in complying with state and local tax laws.

(d) Do all things necessary and incidental to the administration of its functions pursuant to this compact.

4. (a) The commission shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof.

(b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amounts to be appropriated by each of the party states. The total amount of appropriations requested under any such budget shall be apportioned among the party states as follows: one-tenth in equal shares; and the remainder in proportion to the amount of revenue collected by each party state and its subdivisions from income taxes, capital stock taxes, gross receipts taxes, sales and use taxes. In determining such amounts, the commission shall employ such available public sources of information as, in its judgment, present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the sources used in obtaining information employed in applying the formula contained in this paragraph.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under paragraph 1 (i) of this
article; provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under paragraph 1 (i), the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained in this article shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VII

1. Whenever any two or more party states, or subdivisions of party states, have uniform or similar provisions of law relating to an income tax, capital stock tax, gross receipts tax, sales or use tax, the commission may adopt uniform regulations for any phase of the administration of such law, including assertion of jurisdiction to tax, or prescribing uniform tax forms. The commission may also act with respect to the provisions of article IV of this compact.

2. Prior to the adoption of any regulation, the commission shall:

(a) As provided in its bylaws, hold at least one public hearing on due notice to all affected party states and subdivisions thereof and to all taxpayers and other persons who have made timely request of the commission for advance notice of its regulation-making proceedings.

(b) Afford all affected party states and subdivisions and interested persons an opportunity to submit relevant written data and views, which shall be considered fully by the commission.

3. The commission shall submit any regulations adopted by it to the appropriate officials of all party states and subdivisions to which they might apply. Each such state and subdivision shall consider any such regulation for adoption in accordance with its own laws and procedures.

Article VIII

1. This article shall be in force only in those party states that specifically provide therefor by statute.

2. Any party state or subdivision thereof desiring to make or participate in an audit of any accounts, books, papers, records or other documents may request the commission to perform the audit on its behalf. In responding to the request, the commission shall have access to and may examine, at any reasonable time, such accounts, books, papers, records, and other documents and any relevant property or stock of merchandise. The commission may enter into agreements with party states or their subdivisions for assistance in performance of the audit. The commission shall make charges, to be paid by the state or local government or governments for which it performs the service, for any audits performed by it in order to reimburse itself for the actual costs incurred in making the audit.

3. The commission may require the attendance of any person within the state where it is conducting an audit or part thereof at a time and place fixed by it within such state for the purpose of giving testimony with respect to any account, book, paper, document, other record, property or stock of merchandise being examined in connection with the audit. If the person is not within the jurisdiction, he may be required to attend for such purpose at any time and place fixed by the commission:

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.
commission within the state of which he is a resident; provided that such state has adopted this article.

4. The commission may apply to any court having power to issue compulsory process for orders in aid of its powers and responsibilities pursuant to this article and any and all such courts shall have jurisdiction to issue such orders. Failure of any person to obey any such order shall be punishable as contempt of the issuing court. If the party or subject matter on account of which the commission seeks an order is within the jurisdiction of the court to which application is made, such application may be to a court in the state or subdivision on behalf of which the audit is being made or a court in the state in which the object of the order being sought is situated. The provisions of this paragraph apply only to courts in a state that has adopted this article.

5. The commission may decline to perform any audit requested if it finds that its available personnel or other resources are insufficient for the purpose or that, in the terms requested, the audit is impracticable of satisfactory performance. If the commission, on the basis of its experience, has reason to believe that an audit of a particular taxpayer, either at a particular time or on a particular schedule, would be of interest to a number of party states or their subdivisions, it may offer to make the audit or audits, the offer to be contingent on sufficient participation therein as determined by the commission.

6. Information obtained by any audit pursuant to this article shall be confidential and available only for tax purposes to party states, their subdivisions or the United States. Availability of information shall be in accordance with the laws of the states or subdivisions on whose account the commission performs the audit, and only through the appropriate agencies or officers of such states or subdivisions. Nothing in this article shall be construed to require any taxpayer to keep records for any period not otherwise required by law.

7. Other arrangements made or authorized pursuant to law for cooperative audit by or on behalf of the party states or any of their subdivisions are not superseded or invalidated by this article.

8. In no event shall the commission make any charge against a taxpayer for an audit.

9. As used in this article, "tax" in addition to the meaning ascribed to it in article II, means any tax or license fee imposed in whole or in part for revenue purposes.

Article IX

1. Whenever the commission finds a need for settling disputes concerning apportionments and allocations by arbitration, it may adopt a regulation placing this article in effect, notwithstanding the provisions of article VII.

2. The commission shall select and maintain an arbitration panel composed of officers and employees of state and local governments and private persons who shall be knowledgeable and experienced in matters of tax law and administration.

3. Whenever a taxpayer who has elected to employ article IV, or whenever the laws of the party state or subdivision thereof are substantially identical with the relevant provisions of article IV, the taxpayer, by written notice to the commission and to each party state or subdivision thereof that would be affected, may secure arbitration of an apportionment or allocation, if he is dissatisfied with the final administrative determination of the tax agency of the state or subdivision with respect thereto on the ground that it would subject him to double or multiple taxation by two or more party states or subdivisions thereof. Each party state and subdivision thereof hereby consents to the arbitration as provided herein, and agrees to be bound thereby.

4. The arbitration board shall be composed of one person selected by the taxpayer, one by the agency or agencies involved, and one member of the commission’s arbitration panel. If the agencies involved are unable to agree on the person to be selected by them, such person shall be
selected by lot from the total membership of the arbitration panel. The two persons selected for
the board in the manner provided by the foregoing provisions of this paragraph shall jointly select
the third member of the board. If they are unable to agree on the selection, the third member shall
be selected by lot from among the total membership of the arbitration panel. No member of a
board selected by lot shall be qualified to serve if he is an officer or employee or is otherwise
affiliated with any party to the arbitration proceeding. Residence within the jurisdiction of a party
to the arbitration proceeding shall not constitute affiliation within the meaning of this paragraph.

5. The board may sit in any state or subdivision party to the proceeding, in the state of the
taxpayer's incorporation, residence or domicile, in any state where the taxpayer does business, or
in any place that it finds most appropriate for gaining access to evidence relevant to the matter
before it.

6. The board shall give due notice of the times and places of its hearings. The parties shall be
entitled to be heard, to present evidence, and to examine and cross-examine witnesses. The board
shall act by majority vote.

7. The board shall have power to administer oaths, take testimony, subpoena and require the
attendance of witnesses and the production of accounts, books, papers, records, and other
documents, and issue commissions to take testimony. Subpoenas may be signed by any member
of the board. In case of failure to obey a subpoena, and upon application by the board, any judge
of a court of competent jurisdiction of the state in which the board is sitting or in which the person
to whom the subpoena is directed may be found may make an order requiring compliance with the
subpoena, and the court may punish failure to obey the order as a contempt. The provisions of this
paragraph apply only in states that have adopted this article.

8. Unless the parties otherwise agree the expenses and other costs of the arbitration shall be
assessed and allocated among the parties by the board in such manner as it may determine. The
commission shall fix a schedule of compensation for members of arbitration boards and of other
allowable expenses and costs. No officer or employee of a state or local government who serves
as a member of a board shall be entitled to compensation therefor unless he is required on account
of his service to forego the regular compensation attaching to his public employment, but any such
board member shall be entitled to expenses.

9. The board shall determine the disputed apportionment or allocation and any matters
necessary thereto. The determinations of the board shall be final for purposes of making the
apportionment or allocation, but for no other purpose.

10. The board shall file with the commission and with each tax agency represented in the
proceeding: the determination of the board; the board's written statement of its reasons therefor;
the record of the board's proceedings; and any other documents required by the arbitration rules of
the commission to be filed.

11. The commission shall publish the determinations of boards together with the statements
of the reasons therefor.

12. The commission shall adopt and publish rules of procedure and practice and shall file a
copy of such rules and of any amendment thereto with the appropriate agency or officer in each of
the party states.

13. Nothing contained herein shall prevent at any time a written compromise of any matter or
matters in dispute, if otherwise lawful, by the parties to the arbitration proceeding.

Article X

1. This compact shall enter into force when enacted into law by any seven states. Thereafter,
this compact shall become effective as to any other state upon its enactment thereof. The

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

commission shall arrange for notification of all party states whenever there is a new enactment of the compact.

2. Any party state may withdraw from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

3. No proceeding commenced before an arbitration board prior to the withdrawal of a state and to which the withdrawing state or any subdivision thereof is a party shall be discontinued or terminated by the withdrawal, nor shall the board thereby lose jurisdiction over any of the parties to the proceeding necessary to make a binding determination therein.

Article XI

Nothing in this compact shall be construed to:

(a) Affect the power of any state or subdivision thereof to fix rates of taxation, except that a party state shall be obligated to implement article III 2 of this compact.

(b) Apply to any tax or fixed fee imposed for the registration of a motor vehicle or any tax on motor fuel, other than a sales tax; provided that the definition of "tax" in article VIII 9 may apply for the purposes of that article and the commission's powers of study and recommendation pursuant to article VI 3 may apply.

(c) Withdraw or limit the jurisdiction of any state or local court or administrative officer or body with respect to any person, corporation or other entity or subject matter, except to the extent that such jurisdiction is expressly conferred by or pursuant to this compact upon another agency or body.

(d) Supersede or limit the jurisdiction of any court of the United States.

Article XII

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

143.011. RESIDENT INDIVIDUALS — TAX RATES. — 1. A tax is hereby imposed for every taxable year on the Missouri taxable income of every resident. The tax shall be determined by applying the tax table or the rate provided in section 143.021, which is based upon the following rates:

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
2. (1) Beginning with the 2017 calendar year, the top rate of tax under subsection 1 of this section may be reduced over a period of years. Each reduction in the top rate of tax shall be by one-tenth of a percent and no more than one reduction shall occur in a calendar year. The top rate of tax shall not be reduced below five and one-half percent. Reductions in the rate of tax shall take effect on January first of a calendar year and such reduced rates shall continue in effect until the next reduction occurs.

(2) A reduction in the rate of tax shall only occur if the amount of net general revenue collected in the previous fiscal year exceeds the highest amount of net general revenue collected in any of the three fiscal years prior to such fiscal year by at least one hundred fifty million dollars.

(3) Any modification of tax rates under this subsection shall only apply to tax years that begin on or after a modification takes effect.

(4) The director of the department of revenue shall, by rule, adjust the tax tables under subsection 1 of this section to effectuate the provisions of this subsection. The bracket for income subject to the top rate of tax shall be eliminated once the top rate of tax has been reduced to five and one-half percent, and the top remaining rate of tax shall apply to all income in excess of the income in the second highest remaining income bracket.

3. Beginning with the 2017 calendar year, the brackets of Missouri taxable income identified in subsection 1 of this section shall be adjusted annually by the percent increase in inflation. The director shall publish such brackets annually beginning on or after October 1, 2016. Modifications to the brackets shall take effect on January first of each calendar year and shall apply to tax years beginning on or after the effective date of the new brackets.

4. As used in this section, the following terms mean:
   (1) "CPI", the Consumer Price Index for All Urban Consumers for the United States as reported by the Bureau of Labor Statistics, or its successor index;
   (2) "CPI for the preceding calendar year", the average of the CPI as of the close of the twelve month period ending on August thirty-first of such calendar year;
   (3) "Net general revenue collected", all revenue deposited into the general revenue fund, less refunds and revenues originally deposited into the general revenue fund but designated by law for a specific distribution or transfer to another state fund;
   (4) "Percent increase in inflation", the percentage, if any, by which the CPI for the preceding calendar year exceeds the CPI for the year beginning September 1, 2014, and ending August 31, 2015.

143.071. CORPORATIONS — INAPPLICABLE TO OUT-OF-STATE BUSINESSES, WHEN. — 1. For all tax years beginning before September 1, 1993, a tax is hereby imposed upon the Missouri taxable income of corporations in an amount equal to five percent of Missouri taxable income.

2. For all tax years beginning on or after September 1, 1993, and ending on or before December 31, 2019, a tax is hereby imposed upon the Missouri taxable income of corporations in an amount equal to six and one-fourth percent of Missouri taxable income.

3. For all tax years beginning on or after January 1, 2020, a tax is hereby imposed upon the Missouri taxable income of corporations in an amount equal to four percent of Missouri taxable income.

4. The provisions of this section shall not apply to out-of-state businesses operating under sections 190.270 to 190.285.

143.431. MISSOURI TAXABLE INCOME AND TAX. — 1. The Missouri taxable income of a corporation taxable under sections 143.011 to 143.996 shall be so much of its federal taxable income for the taxable year, with the modifications specified in subsections 2 to 4 of this section,
as is derived from sources within Missouri as provided in section 143.451. The tax of a corporation shall be computed on its Missouri taxable income at the rates provided in section 143.071.

2. There shall be added to or subtracted from federal taxable income the modifications to adjusted gross income provided in section 143.121, with the exception of subdivision (5) of subsection 2 of section 143.121, and the applicable modifications to itemized deductions provided in section 143.141. There shall be subtracted the federal income tax deduction provided in section 143.171. There shall be subtracted, to the extent included in federal taxable income, corporate dividends from sources within Missouri.

3. (1) If an affiliated group of corporations files a consolidated income tax return for the taxable year for federal income tax purposes [and fifty percent or more of its income is derived from sources within this state as determined in accordance with section 143.451], then it may elect to file a Missouri consolidated income tax return. The federal consolidated taxable income of the electing affiliated group for the taxable year shall be its federal taxable income. All transactions between affiliated members of the affiliated group shall be eliminated on the Missouri consolidated income tax return.

(2) So long as a federal consolidated income tax return is filed, an election made by an affiliated group of corporations to file a Missouri consolidated income tax return may be withdrawn or revoked only upon substantial change in the law or regulations adversely changing tax liability under this chapter, or with permission of the director of revenue upon the showing of good cause for such action. After such a withdrawal or revocation with respect to an affiliated group, it may not file a Missouri consolidated income tax return for five years thereafter, except with the approval of the director of revenue, and subject to such terms and conditions as he may prescribe.

(3) No corporation which is part of an affiliated group of corporations filing a Missouri consolidated income tax return shall be required to file a separate Missouri corporate income tax return for the taxable year.

(4) For each taxable year an affiliated group of corporations filing a federal consolidated income tax return does not file a Missouri consolidated income tax return, for purposes of computing the Missouri income tax, the federal taxable income of each member of the affiliated group shall be determined as if a separate federal income tax return had been filed by each such member.

(5) The director of revenue may prescribe such regulations not inconsistent with the provisions of this chapter as he may deem necessary in order that the tax liability of any affiliated group of corporations making a Missouri consolidated income tax return, and of each corporation in the group, before, during, and after the period of affiliation, may be returned, determined, computed, assessed, collected, and adjusted, in such manner as clearly to reflect the Missouri taxable income derived from sources within this state and in order to prevent avoidance of such tax liability.

4. If a net operating loss deduction is allowed for the taxable year, there shall be added to federal taxable income the amount of the net operating loss modification for each loss year as to which a portion of the net operating loss deduction is attributable. As used in this subsection, the following terms mean:

(1) "Loss year", the taxable year in which there occurs a federal net operating loss that is carried back or carried forward in whole or in part to another taxable year;

(2) "Net addition modification", for any taxable year, the amount by which the sum of all required additions to federal taxable income provided in this chapter, except for the net operating loss modification, exceeds the combined sum of the amount of all required subtractions from federal taxable income provided in this chapter;
(3) "Net operating loss deduction", a net operating loss deduction allowed for federal income tax purposes under Section 172 of the Internal Revenue Code of 1986, as amended, or a net operating loss deduction allowed for Missouri income tax purposes under paragraph (d) of subsection 2 of section 143.121, but not including any net operating loss deduction that is allowed for federal income tax purposes but disallowed for Missouri income tax purposes under paragraph (d) of subsection 2 of section 143.121;

(4) "Net operating loss modification", an amount equal to the lesser of the amount of the net operating loss deduction attributable to that loss year or the amount by which the total net operating loss in the loss year is less than the sum of:

(a) The net addition modification for that loss year; and

(b) The cumulative net operating loss deductions attributable to that loss year allowed for the taxable year and all prior taxable years.

5. For all tax years ending on or after July 1, 2002, federal taxable income may be a positive or negative amount. Subsection 4 of this section shall be effective for all tax years with a net operating loss deduction attributable to a loss year ending on or after July 1, 2002, and the net operating loss modification shall only apply to loss years ending on or after July 1, 2002.

143.451. TAXABLE INCOME TO INCLUDE ALL INCOME WITHIN THIS STATE — DEFINITIONS — INTRASTATE BUSINESS, REPORT OF INCOME, WHEN — DEDUCTIONS, HOW APPORTIONED.

1. Missouri taxable income of a corporation shall include all income derived from sources within this state.

2. For all tax years ending on or before December 31, 2019, a corporation described in subdivision (1) of subsection 1 of section 143.441 shall include in its Missouri taxable income all income from sources within this state, including that from the transaction of business in this state and that from the transaction of business partly done in this state and partly done in another state or states. However:

(1) Where income results from a transaction partially in this state and partially in another state or states, and income and deductions of the portion in the state cannot be segregated, then such portions of income and deductions shall be allocated in this state and the other state or states as will distribute to this state a portion based upon the portion of the transaction in this state and the portion in such other state or states.

(2) The taxpayer may elect to compute the portion of income from all sources in this state in the following manner, or the manner set forth in subdivision (3) of this subsection:

(a) The income from all sources shall be determined as provided, excluding therefrom the figures for the operation of any bridge connecting this state with another state.

(b) The amount of sales which are transactions wholly in this state shall be added to one-half of the amount of sales which are transactions partly within this state and partly without this state, and the amount thus obtained shall be divided by the total sales or in cases where sales do not express the volume of business, the amount of business transacted wholly in this state shall be added to one-half of the amount of business transacted partly in this state and partly outside this state and the amount thus obtained shall be divided by the total amount of business transacted, and the net income shall be multiplied by the fraction thus obtained, to determine the proportion of income to be used to arrive at the amount of Missouri taxable income. The investment or reinvestment of its own funds, or sale of any such investment or reinvestment, shall not be considered as sales or other business transacted for the determination of said fraction.

(c) For the purposes of this subdivision, a transaction involving the sale of tangible property is:

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.
a. "Wholly in this state" if both the seller's shipping point and the purchaser's destination point are in this state;
b. "Partly within this state and partly without this state" if the seller's shipping point is in this state and the purchaser's destination point is outside this state, or the seller's shipping point is outside this state and the purchaser's destination point is in this state;
c. Not "wholly in this state" or not "partly within this state and partly without this state" only if both the seller's shipping point and the purchaser's destination point are outside this state.

(d) For purposes of this subdivision:
   a. The purchaser's destination point shall be determined without regard to the FOB point or other conditions of the sale; and
   b. The seller's shipping point is determined without regard to the location of the seller's principle office or place of business.

(3) The taxpayer may elect to compute the portion of income from all sources in this state in the following manner:
   (a) The income from all sources shall be determined as provided, excluding therefrom the figures for the operation of any bridge connecting this state with another state;
   (b) The amount of sales which are transactions in this state shall be divided by the total sales, and the net income shall be multiplied by the fraction thus obtained, to determine the proportion of income to be used to arrive at the amount of Missouri taxable income. The investment or reinvestment of its own funds, or sale of any such investment or reinvestment, shall not be considered as sales or other business transacted for the determination of said fraction;
   (c) For the purposes of this subdivision, a transaction involving the sale of tangible property is:
      a. "In this state" if the purchaser's destination point is in this state;
      b. Not "in this state" if the purchaser's destination point is outside this state;
   (d) For purposes of this subdivision, the purchaser's destination point shall be determined without regard to the FOB point or other conditions of the sale and shall not be in this state if the purchaser received the tangible personal property from the seller in this state for delivery to the purchaser's location outside this state;
   (e) For the purposes of this subdivision, a transaction involving the sale other than the sale of tangible property is "in this state" if the taxpayer's market for the sales is in this state. The taxpayer's market for sales is in this state:
      a. In the case of sale, rental, lease, or license of real property, if and to the extent the property is located in this state;
      b. In the case of rental, lease, or license of tangible personal property, if and to the extent the property is located in this state;
      c. In the case of sale of a service, if and to the extent the ultimate beneficiary of the service is located in this state and shall not be in this state if the ultimate beneficiary of the service rendered by the taxpayer or the taxpayer's designee is located outside this state; and
      d. In the case of intangible property:

Franchise fees or royalties received for the rent, lease, license, or use of a trade name, trademark, service mark, or franchise system or provides a right to conduct business activity in a specific geographic area are "used in this state" to the extent the franchise location is in this state; and

(c) "Distribution services" include, but are not limited to, the services of advertising, servicing, marketing, underwriting or selling shares of an investment company, but, in the case of advertising, servicing or marketing shares, only where such service is performed by a person who is, or in the case of a closed end company, was, either engaged in the services of underwriting or selling investment company shares or affiliated with a person that is engaged in the service of underwriting or selling investment company shares. In the case of an open end company, such service of underwriting or selling shares must be performed pursuant to a contract entered into pursuant to 15 U.S.C. Section 80a-15(b), as from time to time amended;

(d) "Investment company", any person registered under the federal Investment Company Act of 1940, as amended from time to time, (the act) or a company which would be required to register as an investment company under the act except that such person is exempt to such registration pursuant to Section 80a-3(c)(1) of the act;

(e) "Investment funds service corporation" includes any corporation or S corporation doing business in the state which derives more than fifty percent of its gross income in the ordinary course of business from the provision directly or indirectly of management, distribution or administration services to or on behalf of an investment company or from trustees, sponsors and participants of employee benefit plans which have accounts in an investment company. An investment funds service corporation shall include any corporation or S corporation providing management services as an investment advisory firm registered under Section 203 of the Investment Advisors Act of 1940, as amended from time to time, regardless of the percentage of gross revenues consisting of fees from management services provided to or on behalf of an investment company;

For purposes of this section, "gross income" is defined as that amount of income earned from qualifying sources without deduction of expenses related to the generation of such income;

(h) "Residence", presumptively the fund shareholder's mailing address on the records of the investment company. If, however, the investment company or the investment funds service corporation has actual knowledge that the fund shareholder's primary residence or principal place of business is different than the fund shareholder's mailing address such presumption shall not control. To the extent an investment funds service corporation does not have access to the records of the investment company, the investment funds service corporation may employ reasonable methods to determine the investment company fund shareholder's residence.

(5) Notwithstanding other provisions of law to the contrary, qualifying sales of an investment funds service corporation, or S corporation, shall be considered wholly in this state only to the extent that the fund shareholders of the investment companies, to which the investment funds service corporation, or S corporation, provide services, are resided in this state. Wholly in this state qualifying sales of an investment funds service corporation, or S corporation, shall be determined as follows:

(a) By multiplying the investment funds service corporation's total dollar amount of qualifying sales from services provided to each investment company by a fraction, the numerator of which shall be the average of the number of shares owned by the investment company's fund shareholders resided in this state at the beginning of and at the end of the investment company's taxable year that ends with or within the investment funds service corporation's taxable year, and the denominator of which shall be the average of the number of shares owned by the investment company's fund shareholders everywhere at the beginning of and at the end of the investment company's taxable year that ends with or within the investment funds service corporation's taxable year;

(b) A separate computation shall be made to determine the wholly in this state qualifying sales from each investment company. The qualifying sales for each investment company shall be multiplied by the respective percentage of each fund, as calculated pursuant to paragraph (a) of this subdivision. The product of this equation shall result in the wholly in this state qualifying sales. The qualifying sales for each investment company which are not wholly in this state will be considered wholly without this state;

(c) To the extent an investment funds service corporation has sales which are not qualifying sales, those nonqualified sales shall be apportioned to this state based on the methodology utilized by the investment funds service corporation without regard to this subdivision.

3. Any corporation described in subdivision (1) of subsection 1 of section 143.441 organized in this state or granted a permit to operate in this state for the transportation or care of passengers shall report its gross earnings within the state on intrastate business and shall also report its gross earnings on all interstate business done in this state which report shall be subject to inquiry for the
4. A corporation described in subdivision (2) of subsection 1 of section 143.441 shall include in its Missouri taxable income all income arising from all sources in this state and all income from each transportation service wholly within this state, from each service where the only lines of such corporation used are those in this state, and such proportion of revenue from each service where the facilities of such corporation in this state and in another state or states are used, as the mileage used over the lines of such corporation in the state shall bear to the total mileage used over the lines of such corporation. The taxpayer may elect to compute the portion of income from all sources within this state in the following manner:

(1) The income from all sources shall be determined as provided;

(2) The amount of investment of such corporation on December thirty-first of each year in this state in fixed transportation facilities, real estate and improvements, plus the value on December thirty-first of each year of any fixed transportation facilities, real estate and improvements in this state leased from any other railroad shall be divided by the sum of the total amount of investment of such corporation on December thirty-first of each year in fixed transportation facilities, real estate and improvements, plus the value on December thirty-first of each year, of any fixed transportation facilities, real estate and improvements leased from any other railroad. Where any fixed transportation facilities, real estate or improvements are leased by more than one railroad, such portion of the value shall be used by each railroad as the rental paid by each shall bear to the rental paid by all lessees. The income shall be multiplied by the fraction thus obtained to determine the proportion to be used to arrive at the amount of Missouri taxable income.

5. A corporation described in subdivision (3) of subsection 1 of section 143.441 shall include in its Missouri taxable income one-half of the net income from the operation of a bridge between this and another state. If any such bridge is owned or operated by a railroad corporation or corporations, or by a corporation owning a railroad corporation using such bridge, then the figures for operation of such bridge may be included in the return of such railroad or railroads; or if such bridge is owned or operated by any other corporation which may now or hereafter be required to file an income tax return, one-half of the income or loss to such corporation from such bridge may be included in such return by adding or subtracting same to or from another net income or loss shown by the return.

6. A corporation described in subdivision (4) of subsection 1 of section 143.441 shall include in its Missouri taxable income all income arising from all sources within this state. Income shall include revenue from each telephonic or telegraphic service rendered wholly within this state; from each service rendered for which the only facilities of such corporation used are those in this state; and from each service rendered over the facilities of such corporation in this state and in other state or states, such proportion of such revenue as the mileage involved in this state shall bear to the total mileage involved over the lines of said company in all states. The taxpayer may elect to compute the portion of income from all sources within this state in the following manner:

(1) The income from all sources shall be determined as provided;

(2) The amount of investment of such corporation on December thirty-first of each year in this state in telephonic or telegraphic facilities, real estate and improvements thereon, shall be divided by the amount of the total investment of such corporation on December thirty-first of each year in telephonic or telegraphic facilities, real estate and improvements. The income of the taxpayer shall be multiplied by fraction thus obtained to determine the proportion to be used to arrive at the amount of Missouri taxable income.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
7. From the income determined in subsections 2, 3, 4, 5 and 6 of this section to be from all sources within this state shall be deducted such of the deductions for expenses in determining Missouri taxable income as were incurred in this state to produce such income and all losses actually sustained in this state in the business of the corporation.

8. If a corporation derives only part of its income from sources within Missouri, its Missouri taxable income shall only reflect the effect of the following listed deductions to the extent applicable to Missouri. The deductions are: (a) its deduction for federal income taxes pursuant to section 143.171, and (b) the effect on Missouri taxable income of the deduction for net operating loss allowed by Section 172 of the Internal Revenue Code. The extent applicable to Missouri shall be determined by multiplying the amount that would otherwise affect Missouri taxable income by the ratio for the year of the Missouri taxable income of the corporation for the year divided by the Missouri taxable income for the year as though the corporation had derived all of its income from sources within Missouri. For the purpose of the preceding sentence, Missouri taxable income shall not reflect the listed deductions.

9. Any investment funds service corporation organized as a corporation or S corporation which has any shareholders resided in this state shall be subject to Missouri income tax as provided in this chapter.

10. The provisions of this section do not impact any other apportionment election available to a taxpayer under Missouri statutes.

143.455. TAXABLE INCOME, WHAT CONSTITUTES — DEFINITIONS — TAXABLE IN ANOTHER STATE, WHEN — RENTS AND ROYALTIES — SALE OF TANGIBLE PERSONAL PROPERTY — TRANSPORTATION SERVICES — DEDUCTIONS — S CORPORATIONS. — 1. Missouri taxable income of a corporation shall include all income derived from sources within this state.

2. For all tax years beginning on or after January 1, 2020, a corporation described in subdivision (1) of subsection 1 of section 143.441 shall determine its income derived from sources within this state by allocating and apportioning its net income as provided in this section.

3. As used in this section, unless the context otherwise requires, the following terms mean:

   (1) "Apportionable income":
      a. Income arising from transactions and activity in the regular course of the corporation's trade or business; and
      b. Income arising from tangible and intangible property if the acquisition, management, employment, development, or disposition of the property is or was related to the operation of the corporation's trade or business; and
   (b) Any income that would be allocable to this state under the Constitution of the United States, but that is apportioned rather than allocated pursuant to the laws of this state;
   (2) "Commercial domicile", the principal place from which the trade or business of the corporation is directed or managed;
   (3) "Financial organization", any bank, trust company, savings bank, industrial bank, land bank, safe deposit company, private banker, savings and loan association, credit union, cooperative bank, small loan company, sales finance company, investment company, or any type of insurance company;
   (4) "Non-apportionable income", all income other than apportionable income;
   (5) "Public utility", any business entity:
(a) Which owns or operates any plant, equipment, property, franchise, or license for the
transmission of communications, transportation of goods or persons, except by pipeline, or
the production, transmission, sale, delivery, or furnishing of electricity, water or steam; and
(b) Whose rates of charges for goods or services have been established or approved by
a federal, state, or local government or governmental agency;

(6) "Receipts", all gross receipts of the corporation that are not allocated under the
provisions of this section, and that are received from transactions and activity in the regular
course of the corporation's trade or business; except that receipts of a corporation from
hedging transactions and from the maturity, redemption, sale, exchange, loan or other
disposition of cash or securities, shall be excluded.

4. For purposes of allocation and apportionment of income under this section, a
corporation is taxable in another state if:

(1) In that state it is subject to a net income tax, a franchise tax measured by net income,
a franchise tax for the privilege of doing business, or a corporate stock tax; or
(2) That state has jurisdiction to subject the corporation to a net income tax regardless
of whether, in fact, the state does or does not do so.

5. Rents and royalties from real or tangible personal property, capital gains, interest,
dividends or patent or copyright royalties, to the extent that they constitute
nonapportionable income, shall be allocated as provided in subsections 6 to 9 of this section.

6. (1) Net rents and royalties from real property located in this state are allocable to this
state.

(2) Net rents and royalties from tangible personal property are allocable to this state:

(a) If and to the extent the property is utilized in this state; or
(b) In their entirety if the corporation's commercial domicile is in this state and the
corporation is not organized under the laws of or taxable in the state in which the property
is utilized.

(3) The extent of utilization of tangible personal property in a state is determined by
multiplying the rents and royalties by a fraction, the numerator of which is the number of
days of physical location of the property in the state during the rental or royalty period in
the taxable year and the denominator of which is the number of days of physical location of
the property everywhere during all rental or royalty periods in the taxable year. If the
physical location of the property during the rental or royalty period is unknown or
unascertainable by the corporation, tangible personal property is utilized in the state in
which the property was located at the time the rental or royalty payer obtained possession.

7. (1) Capital gains and losses from sales of real property located in this state are
allocable to this state.

(2) Capital gains and losses from sales of tangible personal property are allocable to this
state if:

(a) The property had a situs in this state at the time of the sale; or
(b) The corporation's commercial domicile is in this state and the corporation is not
taxable in the state in which the property had a situs.

(3) Capital gains and losses from sales of intangible personal property are allocable to
this state if the corporation's commercial domicile is in this state.

8. Interest and dividends are allocable to this state if the corporation's commercial
domicile is in this state.

9. (1) Patent and copyright royalties are allocable to this state:

(a) If and to the extent that the patent or copyright is utilized by the payer in this state; or
(b) If and to the extent that the patent or copyright is utilized by the payer in a state in which the corporation is not taxable and the corporation's commercial domicile is in this state.

(2) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the corporation's commercial domicile is located.

(3) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the corporation's commercial domicile is located.

10. All apportionable income shall be apportioned to this state by multiplying the net income by a fraction, the numerator of which is the total receipts of the corporation in this state during the tax period and the denominator of which is the total receipts of the corporation everywhere during the tax period.

11. Receipts from the sale of tangible personal property are in this state if the property is received in this state by the purchaser. In the case of the delivery of goods by common carrier or by other means of transportation, including transportation by the purchaser, the place at which the goods are ultimately received after all transportation has been completed shall be considered as the place at which the goods are received by the purchaser. Direct delivery into this state by the taxpayer to a person or firm designated by a purchaser from within or without the state shall constitute delivery to the purchaser in this state.

12. (1) Receipts, other than receipts described in subsection 11 of this section, are in this state if the corporation's market for the sales is in this state. The corporation's market for sales is in this state:

(a) In the case of sale, rental, lease, or license of real property, if and to the extent the property is located in this state;

(b) In the case of rental, lease, or license of tangible personal property, if and to the extent the property is located in this state;

(c) In the case of sale of a service, if and to the extent the ultimate beneficiary of the service is located in this state and shall not be in this state if the ultimate beneficiary of the service rendered by the corporation or the corporation's designee is located outside this state; and

(d) In the case of intangible property:

a. That is rented, leased, or licensed, if and to the extent the property is used in this state, provided that intangible property utilized in marketing a good or service to a consumer is "used in this state" if that good or service is purchased by a consumer who is in this state. Franchise fees or royalties received for the rent, lease, license, or use of a trade name, trademark, service mark, or franchise system or provides a right to conduct business activity in a specific geographic area "are used in this state" to the extent the franchise is located in this state; and

b. That is sold, if and to the extent the property is used in this state, provided that:

(i) A contract right, government license, or similar intangible property that authorizes the holder to conduct a business activity in a specific geographic area is "used in this state" if the geographic area includes all or part of this state;
(ii) Receipts from intangible property sales that are contingent on the productivity, use, or disposition of the intangible property shall be treated as receipts from the rental, lease, or licensing of such intangible property under subparagraph a. of this paragraph; and

(iii) All other receipts from a sale of intangible property shall be excluded from the numerator and denominator of the receipts factor.

(2) If the state or states of assignment under subdivision (1) of this subsection cannot be determined, the state or states of assignment shall be reasonably approximated.

(3) The director may prescribe regulations as necessary or appropriate to carry out the purposes of this section.

13. (1) In the case of certain industries where unusual factual situations produce inequitable results under the apportionment and allocation provisions of this section, the director shall promulgate rules for determining the apportionment and allocation factors for each such industry, but such rules shall be applied uniformly.

(2) If the allocation and apportionment provisions of this section do not fairly represent the extent of the corporation's income applicable to this state, the corporation may petition for or the director may require:

(a) Separate accounting;

(b) The inclusion of one or more additional factors which will fairly represent the corporation's income applicable to this state; or

(c) The employment of any other method to effectuate an equitable allocation and apportionment of the corporation's income.

(3) The party petitioning for, or the director requiring, the use of any method to effectuate an equitable allocation and apportionment of the corporation's income pursuant to subdivision (2) of this subsection shall prove by a preponderance of evidence:

(a) That the allocation and apportionment provisions of this section do not fairly represent the extent of the corporation's income applicable to this state; and

(b) That the alternative to such provisions is reasonable.

The same burden of proof shall apply whether the corporation is petitioning for, or the director is requiring, the use of any reasonable method to effectuate an equitable allocation and apportionment of the corporation's income. Notwithstanding the previous sentence, if the director can show that in any two of the prior five tax years, the corporation had used an allocation or apportionment method at variance with its allocation or apportionment method or methods used for such other tax years, then the director shall not bear the burden of proof in imposing a different method pursuant to subdivision (2) of this subsection.

(4) If the director requires any method to effectuate an equitable allocation and apportionment of the corporation's income, the director cannot impose any civil or criminal penalty with reference to the tax due that is attributable to the corporation's reasonable reliance solely on the allocation and apportionment provisions of this section.

(5) A corporation that has received written permission from the director to use a reasonable method to effectuate an equitable allocation and apportionment of the corporation's income shall not have that permission revoked with respect to transactions and activities that have already occurred unless there has been a material change in, or a material misrepresentation of, the facts provided by the corporation upon which the director reasonably relied.

14. Any corporation described in subdivision (1) of subsection 1 of section 143.441 organized in this state or granted a permit to operate in this state for the transportation or care of passengers shall report its gross earnings within the state on intrastate business and

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.
shall also report its gross earnings on all interstate business done in this state. Such report shall be subject to inquiry for the purpose of determining the amount of income to be included in Missouri taxable income. This subsection shall not apply to a railroad.

15. A corporation described in subdivision (2) of subsection 1 of section 143.441 shall include in its Missouri taxable income all income arising from all sources in this state and all income from each transportation service wholly within this state, from each service where the only rails and lines of such corporation used are those in this state, and such proportion of revenue from each service where the facilities of such corporation in this state and in another state or states are used, as the mileage used over the rails and lines of such corporation in the state shall bear to the total mileage used over the rails and lines of such corporation. The corporation may elect to compute the portion of income from all sources within this state in the following manner:

(1) The income from all sources shall be determined as provided;

(2) The amount of investment of such corporation on December thirty-first of each year in this state in fixed transportation facilities, real estate and improvements, plus the value on December thirty-first of each year of any fixed transportation facilities, real estate and improvements in this state leased from any other railroad shall be divided by the sum of the total amount of investment of such corporation on December thirty-first of each year in fixed transportation facilities, real estate and improvements, plus the value on December thirty-first of each year, of any fixed transportation facilities, real estate and improvements leased from any other railroad. Where any fixed transportation facilities, real estate or improvements are leased by more than one railroad, such portion of the value shall be used by each railroad as the rental paid by each shall bear to the rental paid by all lessees. The income shall be multiplied by the fraction thus obtained to determine the proportion to be used to arrive at the amount of Missouri taxable income.

16. A corporation described in subdivision (3) of subsection 1 of section 143.441 shall include in its Missouri taxable income one-half of the net income from the operation of a bridge between this and another state. If any such bridge is owned or operated by a railroad corporation or corporations, or by a corporation owning a railroad corporation using such bridge, then the figures for operation of such bridge may be included in the return of such railroad or railroads; or if such bridge is owned or operated by any other corporation which may now or hereafter be required to file an income tax return, one-half of the income or loss to such corporation from such bridge may be included in such return by adding or subtracting the same to or from another net income or loss shown by the return.

17. A corporation described in subdivision (4) of subsection 1 of section 143.441 shall include in its Missouri taxable income all income arising from all sources within this state. Income shall include revenue from each telephonic or telegraphic service rendered wholly within this state; from each service rendered for which the only facilities of such corporation used are those in this state; and from each service rendered over the facilities of such corporation in this state and in other state or states, such proportion of such revenue as the mileage involved in this state shall bear to the total mileage involved over the lines of said company in all states. The corporation may elect to compute the portion of income from all sources within this state in the following manner:

(1) The income from all sources shall be determined as provided;

(2) The amount of investment of such corporation on December thirty-first of each year in this state in telephonic or telegraphic facilities, real estate and improvements thereon, shall be divided by the amount of the total investment of such corporation on December thirty-first of each year in such facilities, real estate and improvements, and the income shall be multiplied by the fraction thus obtained to determine the proportion to be used to arrive at the amount of Missouri taxable income.
18. From the income determined in this section to be from all sources within this state shall be deducted such of the deductions for expenses in determining Missouri taxable income as were incurred in this state to produce such income and all losses actually sustained in this state in the business of the corporation.

19. If a corporation derives only part of its income from sources within Missouri, its Missouri taxable income shall only reflect the effect on Missouri taxable income of the deduction for net operating loss allowed by Section 172 of the Internal Revenue Code. The extent applicable to Missouri shall be determined by multiplying the amount that would otherwise affect Missouri taxable income by the ratio for the year of the Missouri taxable income of the corporation for the year divided by the Missouri taxable income for the year as though the corporation had derived all of its income from sources within Missouri. For the purpose of the preceding sentence, Missouri taxable income shall not reflect the deduction.

20. Any investment funds service corporation organized as a corporation or S corporation which has any shareholders resided in this state shall be subject to Missouri income tax as provided in this chapter.

143.461. ELECTIVE DIVISION OF INCOME. — 1. A corporation shall elect to determine income applicable to this state by multiplying the total income from all sources by the fraction determined in the manner in section 143.451 for all tax years ending on or before December 31, 2019, and for all tax years beginning on or before January 1, 2020, in the manner set forth in section 143.455; first, by filing written notice with the director of revenue on or before the due date of the return (including extensions of time) of the taxpayer's election, or, second, by failing to keep its books and records in such manner as to show the income applicable to this state, including gross income and deductions applicable thereto.

2. If the corporation shall keep its books and records so as to show the income applicable to this state by any other method of allocation between this state and other states involved of income from transactions partially within and partially without this state, including gross income and deductions applicable thereto, and such method shows the income applicable to this state, including gross income and deductions applicable thereto, then it may, on or before sixty days before the end of any taxable year, petition the director of revenue, in writing, to be permitted in its return required to be filed to apportion to this state according to the method shown by such books or records. If the director of revenue finds that such method does show the income applicable to this state including gross income and deductions applicable thereto, he or she shall notify the corporation, at least thirty days prior to the last day on which such corporation's return for that taxable year is to be filed, that it may use that method for the shorter of five years or as long as such method shows the income applicable to this state, including gross income and deductions applicable thereto.

3. The corporation shall cease using such method after the shorter of five years or whenever the director of revenue finds and notifies such corporation on or before ninety days before the end of the taxable year, that such method does not so show. Upon and after such expiration or revocation the corporation shall be permitted to petition to use the same or another method of allocation that will show such income including gross income and deductions applicable thereto as though no petition had ever been filed.
4. Failure, after a method has expired or been revoked by the director of revenue, to submit a method which the director of revenue finds will show such income applicable to this state including gross income and deductions applicable thereto, on or before sixty days before the end of any taxable year, or failure to make a return on the basis, which has been approved by the director of revenue on petition of the corporation and which stands unrevoked or unexpired, shall constitute an election to accept the determination of income applicable to this state by multiplying the total income from all sources by the fraction determined in the manner set forth in section 143.451 for all tax years ending on or before December 31, 2019, and for all tax years beginning on or before January 1, 2020, in the manner set forth in section 143.455.

143.471. S CORPORATIONS, SHAREHOLDERS — COMPOSITE RETURNS — WITHHOLDING REQUIRED, WHEN, HOW DETERMINED — PRO RATA SHARE OF CERTAIN TAX CREDITS FOR BANKING S CORPORATIONS, S CORPORATIONS THAT ARE ASSOCIATIONS, OR CREDIT INSTITUTIONS. — 1. An S corporation, as defined by Section 1361 (a)(1) of the Internal Revenue Code, shall not be subject to the taxes imposed by section 143.071, or other sections imposing income tax on corporations.

2. A shareholder of an S corporation shall determine such shareholder's S corporation modification and pro rata share, including its character, by applying the following:

   (1) Any modification described in sections 143.121 and 143.141 which relates to an item of S corporation income, gain, loss, or deduction shall be made in accordance with the shareholder's pro rata share, for federal income tax purposes, of the item to which the modification relates. Where a shareholder's pro rata share of any such item is not required to be taken into account separately for federal income tax purposes, the shareholder's pro rata share of such item shall be determined in accordance with his pro rata share, for federal income tax purposes, of S corporation taxable income or loss generally;

   (2) Each item of S corporation income, gain, loss, or deduction shall have the same character for a shareholder pursuant to sections 143.005 to 143.998 as it has for federal income tax purposes. Where an item is not characterized for federal income tax purposes, it shall have the same character for a shareholder as if realized directly from the source from which realized by the S corporation or incurred in the same manner as incurred by the S corporation.

3. A nonresident shareholder of an S corporation shall determine such shareholder's Missouri nonresident adjusted gross income and his or her nonresident shareholder modification by applying the provisions of this subsection. Items shall be determined to be from sources within this state pursuant to regulations of the director of revenue in a manner consistent with the division of income provisions of section 143.451, section 143.461, or section 32.200 (Multistate Tax Compact). If a majority of the voters voting on the proposition vote in favor of making the county prosecutor a full-time position, it shall become effective upon the date that the prosecutor who is elected at the next election subsequent to the passage of such proposal is sworn into office. **The position shall then qualify for the retirement benefits available to a full-time prosecutor of a county of the first classification.** Any county that elects to make the position of prosecuting attorney full-time shall pay into the Missouri prosecuting attorneys and circuit attorneys’ retirement fund at the same contribution amount as paid by counties of the first classification.

(4) The tenth trustee shall be one retirant of the retirement system elected for a term of four years beginning the first day of January immediately following August 13, 1986, by the retirants of the retirement system;

(5) The eleventh trustee shall be appointed for a term of four years beginning the first day of January immediately following August 13, 1990, by the board of trustees described in subdivision (3) of section 182.701;

No vacancy or vacancies on the board of trustees shall impair the power of the remaining trustees to administer the retirement system pending the filling of such vacancy or vacancies.

3. In the event of a lapse of the school district's corporate organization as described in subsections 1 and 4 of section 162.081, the general administration and responsibility for the proper operation of the retirement system shall continue to be vested in a twelve-person board of trustees, all of whom shall be resident taxpayers of a city, other than a city not within a county, of four hundred thousand or more. In such event, if vacancies occur in the offices of the four trustees appointed, prior to the lapse, by the board of education, or in the offices of the four trustees elected, prior to the lapse, by the members of the retirement system, or in the office of trustee held, prior to the lapse, by the superintendent of schools in the school district, as provided in subdivisions (1), (2) and (3) of subsection 1 of this section, the board of trustees shall appoint a qualified person to fill each vacancy and subsequent vacancies in the office of trustee for terms of up to four years, as determined by the board of trustees.

4. Each trustee shall, before assuming the duties of a trustee, take the oath of office before the court of the judicial circuit or one of the courts of the judicial circuit in which the school district is located that so far as it devolves upon the trustee, such trustee shall diligently and honestly administer the affairs of the board of trustees and that the trustee will not knowingly violate or willingly permit to be violated any of the provisions of the law applicable to the retirement system. Such oath shall be subscribed to by the trustee making it and filed in the office of the clerk of the circuit court.

5. Each trustee shall be entitled to one vote in the board of trustees. Seven trustees shall constitute a quorum at any meeting of the board of trustees. At any meeting of the board of trustees where a quorum is present, the vote of at least seven of the trustees in support of a motion, resolution or other matter is necessary to be the decision of the board; provided, however, that in the event of a lapse in the school district's corporate organization as described in subsections 1 and 4 of section 162.081, a majority of the trustees then in office shall constitute a quorum at any meeting of the board of trustees, and the vote of a majority of the trustees then in office in support of a motion, resolution or other matter shall be necessary to be the decision of the board.

6. The board of trustees shall have exclusive original jurisdiction in all matters relating to or affecting the funds herein provided for, including, in addition to all other matters, all claims for benefits or refunds, and its action, decision or determination in any matter shall be reviewable in accordance with chapter 536 or chapter 621. Subject to the limitations of sections 169.270 to 169.400, the board of trustees shall, from time to time, establish rules and regulations for the

7. The trustees shall serve without compensation. The board of trustees shall elect from its membership a chairman and a vice chairman. The board of trustees shall appoint an executive director who shall serve as the administrative officer of the retirement system and as secretary to the board of trustees. It shall employ one or more persons, firms or corporations experienced in the investment of moneys to serve as investment counsel to the board of trustees. The compensation of all persons engaged by the board of trustees and all other expenses of the board necessary for the operation of the retirement system shall be paid at such rates and in such amounts as the board of trustees shall approve, and shall be paid from the investment income.

8. The board of trustees shall keep in convenient form such data as shall be necessary for actuarial valuations of the various funds of the retirement system and for checking the experience of the system.

9. The board of trustees shall keep a record of all its proceedings which shall be open to public inspection. It shall prepare annually and furnish to the board of education and to each member of the retirement system who so requests a report showing the fiscal transactions of the retirement system for the preceding fiscal year, the amount of accumulated cash and securities of the system, and the last balance sheet showing the financial condition of the system by means of an actuarial valuation of the assets and liabilities of the retirement system.

10. The board of trustees shall have, in its own name, power to sue and to be sued, to enter into contracts, to own property, real and personal, and to convey the same; but the members of such board of trustees shall not be personally liable for obligations or liabilities of the board of trustees or of the retirement system.

11. The board of trustees shall arrange for necessary legal advice for the operation of the retirement system.

12. The board of trustees shall designate a medical board to be composed of three or more physicians who shall not be eligible for membership in the system and who shall pass upon all medical examinations required under the provisions of sections 169.270 to 169.400, shall investigate all essential statements and certificates made by or on behalf of a member in connection with an application for disability retirement and shall report in writing to the board of trustees its conclusions and recommendations upon all matters referred to it.

Such person shall be qualified as an actuary by membership as a Fellow of the Society of Actuaries or by similar objective standards.

14. At least once in each five-year period the actuary shall make an investigation into the actuarial experience of the members, retirants and beneficiaries of the retirement system and, taking into account the results of such investigation, the board of trustees shall adopt for the retirement system such actuarial assumptions as the board of trustees deems necessary for the financial soundness of the retirement system.

15. On the basis of such actuarial assumptions as the board of trustees adopts, the actuary shall make annual valuations of the assets and liabilities of the funds of the retirement system.

16. The rate of contribution payable by the employers shall equal one and ninety-nine one-hundredths percent, effective July 1, 1993; three and ninety-nine one-hundredths percent, effective July 1, 1995; five and ninety-nine one-hundredths percent, effective July 1, 1996; seven and one-half percent effective January 1, 1999, and for subsequent calendar years through 2013. For calendar year 2014 and each subsequent year, the rate of contribution payable by the employers

for each year shall be determined [by the actuary for the retirement system in the manner] as provided in subsections 4 and 6 of section 169.350 and shall be certified by the board of trustees to the employers at least six months prior to the date such rate is to be effective.

17. In the event of a lapse of a school district's corporate organization as described in subsections 1 and 4 of section 162.081, no retirement system, nor any of the assets of any retirement system, shall be transferred to or merged with another retirement system without prior approval of such transfer or merge by the board of trustees of the retirement system.

169.324. Retirement allowances, amounts — Retirants may substitute without affecting allowance, limitation — Annual determination of ability to provide benefits, standards — Action plan for use of minority and women money managers, brokers and investment counselors. — 1. The annual service retirement allowance payable pursuant to section 169.320 shall be the retirant's number of years of creditable service multiplied by a percentage of the retirant's average final compensation, determined as follows:

(1) A retirant whose last employment as a regular employee ended prior to June 30, 1999, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service multiplied by one and three-fourths percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation;

(2) A retirant whose number of years of creditable service is greater than thirty-four and one-quarter on August 28, 1993, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service as of August 28, 1993, multiplied by one and three-fourths percent of the person's average final compensation but shall not receive a greater annual service retirement allowance based on additional years of creditable service after August 28, 1993;

(3) A retirant who was an active member of the retirement system at any time on or after June 30, 1999, and who either retires before January 1, 2014, or is a member of the retirement system on December 31, 2013, and remains a member continuously to retirement shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service multiplied by two percent of the person's average final compensation, subject to a maximum of sixty percent of the person's final compensation;

(4) A retirant who becomes a member of the retirement system on or after January 1, 2014, including any retirant who was a member of the retirement system before January 1, 2014, but ceased to be a member for any reason other than retirement, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service multiplied by one and three-fourths percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation;

(5) Notwithstanding the provisions of subdivisions (1) to (4) of this subsection, effective January 1, 1996, any retirant who retired on, before or after January 1, 1996, with at least twenty years of creditable service shall receive at least three hundred dollars each month as a retirement allowance, or the actuarial equivalent thereof if the retirant elected any of the options available under section 169.326. Any retirant who retired with at least ten years of creditable service shall receive at least one hundred fifty dollars each month as a retirement allowance, plus fifteen dollars for each additional full year of creditable service greater than ten years but less than twenty years (or the actuarial equivalent thereof if the retirant elected any of the options available under section 169.326). Any beneficiary of a deceased retirant who retired with at least ten years of creditable

service and elected one of the options available under section 169.326 shall also be entitled to the actuarial equivalent of the minimum benefit provided by this subsection, determined from the option chosen.

2. Except as otherwise provided in sections 169.331 and 169.585, payment of a retirant's retirement allowance will be suspended for any month for which such person receives remuneration from the person's employer or from any other employer in the retirement system established by section 169.280 for the performance of services except any such person other than a person receiving a disability retirement allowance under section 169.322 may serve as a nonregular substitute, part-time or temporary employee for not more than six hundred hours in any school year without becoming a member and without having the person's retirement allowance discontinued, provided that through such substitute, part-time, or temporary employment, the person may earn no more than fifty percent of the annual salary or wages the person was last paid by the employer before the person retired and commenced receiving a retirement allowance, adjusted for inflation. If a person exceeds such hours limit or such compensation limit, payment of the person's retirement allowance shall be suspended for the month in which such limit was exceeded and each subsequent month in the school year for which the person receives remuneration from any employer in the retirement system. In addition to the conditions set forth above, the restrictions of this subsection shall also apply to any person retired and currently receiving a retirement allowance under sections 169.270 to 169.400, other than for disability, who is employed by a third party or is performing work as an independent contractor if the services performed by such person are provided to or for the benefit of any employer in the retirement system established under section 169.280. The retirement system may require the employer receiving such services, the third-party employer, the independent contractor, and the retirant subject to this subsection to provide documentation showing compliance with this subsection. If such documentation is not provided, the retirement system may deem the retirant to have exceeded the limitations provided for in this subsection. If a retirant is reemployed by any employer in any capacity, whether pursuant to this section, or section 169.331 or 169.585, or as a regular employee, the amount of such person's retirement allowance attributable to service prior to the person's first retirement date shall not be changed by the reemployment. If the person again becomes an active member and earns additional creditable service, upon the person's second retirement the person's retirement allowance shall be the sum of:

(1) The retirement allowance the person was receiving at the time the person's retirement allowance was suspended, pursuant to the payment option elected as of the first retirement date, plus the amount of any increase in such retirement allowance the person would have received pursuant to subsection 3 of this section had payments not been suspended during the person's reemployment; and

(2) An additional retirement allowance computed using the benefit formula in effect on the person's second retirement date, the person's creditable service following reemployment, and the person's average final annual compensation as of the second retirement date. The sum calculated pursuant to this subsection shall not exceed the greater of sixty percent of the person's average final compensation as of the second retirement date or the amount determined pursuant to subdivision (1) of this subsection. Compensation earned prior to the person's first retirement date shall be considered in determining the person's average final compensation as of the second retirement date if such compensation would otherwise be included in determining the person's average final compensation.

3. The board of trustees shall determine annually whether the investment return on funds of the system can provide for an increase in benefits for retirants eligible for such increase. A retirant

shall and will be eligible for an increase awarded pursuant to this section as of the second January following the date the retirant commenced receiving retirement benefits. Any such increase shall also apply to any monthly joint and survivor retirement allowance payable to such retirant's beneficiaries, regardless of age. The board shall make such determination as follows:

(1) After determination by the actuary of the investment return for the preceding year as of December thirty-first (the "valuation year"), the actuary shall recommend to the board of trustees what portion of the investment return is available to provide such benefits increase, if any, and shall recommend the amount of such benefits increase, if any, to be implemented as of the first day of the thirteenth month following the end of the valuation year, and first payable on or about the first day of the fourteenth month following the end of the valuation year. The actuary shall make such recommendations so as not to affect the financial soundness of the retirement system, recognizing the following safeguards:

(a) The retirement system's funded ratio as of January first of the year preceding the year of a proposed increase shall be at least one hundred percent [after] before adjusting for the effect of the proposed increase. The funded ratio is the ratio of assets to the pension benefit obligation;

(b) The actuarially required contribution rate, [after] before adjusting for the effect of the proposed increase, may not exceed the then applicable employer and member contribution rate as determined under [subsection] subsections 4, 5, and 6 of section 169.350;

(c) The actuary shall certify to the board of trustees that the proposed increase will not impair the actuarial soundness of the retirement system;

(d) A benefit increase, under this section, once awarded, cannot be reduced in succeeding years;

(2) The board of trustees shall review the actuary's recommendation and report and shall, in their discretion, determine if any increase is prudent and, if so, shall determine the amount of increase to be awarded.

4. This section does not guarantee an annual increase to any retirant.

5. If an inactive member becomes an active member after June 30, 2001, and after a break in service, unless the person earns at least four additional years of creditable service without another break in service, upon retirement the person's retirement allowance shall be calculated separately for each separate period of service ending in a break in service. The retirement allowance shall be the sum of the separate retirement allowances computed for each such period of service using the benefit formula in effect, the person's average final compensation as of the last day of such period of service and the creditable service the person earned during such period of service; provided, however, if the person earns at least four additional years of creditable service without another break in service, all of the person's creditable service prior to and including such service shall be aggregated and, upon retirement, the retirement allowance shall be computed using the benefit formula in effect and the person's average final compensation as of the last day of such period of four or more years and all of the creditable service the person earned prior to and during such period.

6. Notwithstanding anything contained in this section to the contrary, the amount of the annual service retirement allowance payable to any retirant pursuant to the provisions of sections 169.270 to 169.400, including any adjustments made pursuant to subsection 3 of this section, shall at all times comply with the provisions and limitations of Section 415 of the Internal Revenue Code of 1986, as amended, and the regulations thereunder, the terms of which are specifically incorporated herein by reference.

7. All retirement systems established by the laws of the state of Missouri shall develop a procurement action plan for utilization of minority and women money managers, brokers and investment counselors. Such retirement systems shall report their progress annually to the joint committee on public employee retirement and the governor's minority advocacy commission.
169.350. Assets held in two funds — Source and disbursement — Deductions — Contributions, employer may elect to pay part or all of employee's contribution, procedure — Rate of contributions to be calculated. — 1. All of the assets of the retirement system (other than tangible real or personal property owned by the retirement system for use in carrying out its duties, such as office supplies and furniture) shall be credited, according to the purpose for which they are held, in either the employees' contribution fund or the general reserve fund.

1. All of the assets of the retirement system (other than tangible real or personal property owned by the retirement system for use in carrying out its duties, such as office supplies and furniture) shall be credited, according to the purpose for which they are held, in either the employees' contribution fund or the general reserve fund. The employer shall, except as provided in subdivision (5) of this subsection, cause to be deducted from the compensation of each member on each and every payroll, for each and every payroll period, the pro rata portion of five and nine-tenths percent of his annualized compensation. Effective January 1, 1999, through December 31, 2013, the employer shall deduct an additional one and six-tenths percent of the member's annualized compensation. For 2014 and for each subsequent year, the employer shall deduct from each member's annualized compensation the rate of contribution determined for such year by the actuary for the retirement system in the manner as provided in subsections 4, 5, and 6 of this section.

2. The employer shall pay all such deductions and any amount it may elect to pay pursuant to subdivision (5) of this subsection to the retirement system at once. The retirement system shall credit such deductions and such amounts to the individual account of each member from whose compensation the deduction was made or with respect to whose compensation the amount was paid pursuant to subdivision (5) of this subsection. In determining the deduction for a member in any payroll period, the board of trustees may consider the rate of compensation payable to such member on the first day of the payroll period as continuing throughout such period.

3. The deductions provided for herein are declared to be a part of the compensation of the member and the making of such deductions shall constitute payments by the member out of the person's compensation and such deductions shall be made notwithstanding that the amount actually paid to the member after such deductions is less than the minimum compensation provided by law for any member. Every member shall be deemed to consent to the deductions made and provided for herein, and shall receipt for the person's full compensation, and the making of the deduction and the payment of compensation less the deduction shall be a full and complete discharge and acquittance of all claims and demands whatsoever for services rendered during the period covered by the payment except as to benefits provided by sections 169.270 to 169.400.

4. The accumulated contributions with interest of a member withdrawn by the person or paid to the person's estate or designated beneficiary in the event of the person's death before retirement shall be paid from the employees' contribution fund. Upon retirement of a member the member's accumulated contributions with interest shall be transferred from the employees' contribution fund to the general reserve fund.

5. The employer may elect to pay on behalf of all members all or part of the amount that the members would otherwise be required to contribute to the employees' contribution fund pursuant to subdivision (1) of this subsection. Such amounts paid by the employer shall be in lieu of members' contributions and shall be treated for all purposes of sections 169.270 to 169.400 as contributions made by members. Notwithstanding any other provision of this chapter to the contrary, no member shall be entitled to receive such amounts directly. The election shall be made by a duly adopted resolution of the employer's board and shall remain in effect for at least one year from the effective date thereof. The election may be thereafter terminated only by an affirmative act of the employer's board notwithstanding any limitation in the term thereof in the adopting

resolution. Any such termination resolution shall be adopted at least sixty days prior to the effective date thereof, and the effective date thereof shall coincide with a fiscal year-end of the employer. In the absence of such a termination resolution, the election shall remain in effect from fiscal year to fiscal year.

2. The general reserve fund shall be the fund in which shall be accumulated all reserves for the payment of all benefit expenses and other demands whatsoever upon the retirement system except those items heretofore allocated to the employees' contribution fund.

   (1) All contributions by the employer, except those the employer elects to make on behalf of the members pursuant to subdivision (5) of subsection 1 of this section, shall be credited to the general reserve fund.

   (2) Should a retiree be restored to active service and again become a member of the retirement system, the excess, if any, of the person's accumulated contributions over benefits received by the retiree shall be transferred from the general reserve fund to the employees' contribution fund and credited to the person's account.

3. Gifts, devises, bequests and legacies may be accepted by the board of trustees and deposited in the general reserve fund to be held, invested and used at its discretion for the benefit of the retirement system except where specific direction for the use of a gift is made by a donor.

4. Beginning in 2013, the actuary for the retirement system shall annually calculate the rate of employer contributions and member contributions for 2014 and for each subsequent calendar year through 2018, expressed as a level percentage of the annualized compensation of the members, subject to the following:

   (1) The rate of contribution for any calendar year shall be determined based on an actuarial valuation of the retirement system as of the first day of the prior calendar year. Such actuarial valuation shall be performed using the actuarial cost method and actuarial assumptions adopted by the board of trustees and in accordance with accepted actuarial standards of practice in effect at the time the valuation is performed, as promulgated by the actuarial standards board or its successor.

   (2) The target combined employer and member contribution rate shall be the amount actuarially required to cover the normal cost and amortize any unfunded accrued actuarial liability over a period that shall not exceed thirty years from the date of the valuation.

   (3) The target combined rate as so determined shall be allocated equally between the employer contribution rate and the member contribution rate, provided, however, that the level rate of contributions to be paid by the employers and the level rate of contributions to be deducted from the compensation of members for any calendar year shall each be limited as follows:

      (a) The contribution rate shall not be less than seven and one-half percent;

      (b) The contribution rate shall not exceed nine percent; and

      (c) Changes in the contribution rate from year to year shall be in increments of one-half percent such that the contribution rate for any year shall not be greater than or less than the rate in effect for the prior year by more than one-half percent;

   (4) The board of trustees shall certify to the employers the contribution rate for the following calendar year no later than six months prior to the date such rate is to be effective.

5. The member contribution rate for 2019 and subsequent periods shall be nine percent of compensation unless a lower member contribution rate applies for any period beginning on or after July 1, 2021, in accordance with the provisions of subdivision (4) of subsection 6 of this section.

6. The employer contribution rate for calendar year 2019 shall be ten and one-half percent. The employer contribution rate for the eighteen-month period beginning January 1, 2020, through June 30, 2021, shall be twelve percent. For the twelve-month period...
beginning July 1, 2021, and for each subsequent twelve-month period beginning July first each year, the employer contribution rate shall be determined as follows:

(1) The actuary shall determine the total actuarially required contribution based on an actuarial valuation of the retirement system as of the first day of the preceding calendar year. Such actuarial valuation shall be performed using the actuarial cost method and actuarial assumptions adopted by the board of trustees and in accordance with actuarial standards of practice applicable as of the valuation date. The total actuarially required contribution rate, including both employer and member contributions, shall be an amount determined in accordance with the board's current funding policy, expressed as a level percentage of the annualized compensation of the members;

(2) If the retirement system's funded ratio as of the first day of the preceding calendar year is below one hundred percent, the employer contribution rate shall be the greater of twelve percent or the difference between the total actuarially required contribution rate and the nine percent member contribution rate, subject to the limits on annual adjustments stated in subdivision (6) of this subsection;

(3) If the retirement system's funded ratio as of the first day of the preceding calendar year equals or exceeds one hundred percent and the total actuarially required contribution rate exceeds eighteen percent, the employer contribution rate shall be the difference between the total actuarially required contribution rate and the nine percent member contribution rate, subject to the limits on annual adjustments stated in subdivision (6) of this subsection;

(4) If the retirement system's funded ratio as of the first day of the preceding calendar year equals or exceeds one hundred percent and the total actuarially required contribution rate does not exceed eighteen percent, the total actuarially required contribution rate shall be allocated equally between the employer contribution rate and the member contribution rate. If the total actuarially required contribution rate falls below eighteen percent after being above eighteen percent for the preceding twelve-month period, the member contribution rate and the employer contribution rate shall be adjusted to one-half of the total actuarially required contribution rate for such period, regardless of the magnitude of the decrease from the rate in effect for the prior period, in order to equalize the employer and member contribution rates. Otherwise, adjustments in the contribution rates shall be limited by the annual adjustment limits stated in subdivision (6) of this subsection;

(5) If the retirement system's funded ratio as of the first day of the preceding calendar year again falls below one hundred percent, or if the total actuarially required contribution rate rises above eighteen percent, the provisions of subdivision (2) or (3) of this subsection shall apply, as applicable, subject to the limits on annual adjustments stated in subdivision (6) of this subsection;

(6) Except as stated in subdivision (4) of this subsection, in transitioning to the contribution rates prescribed in this subsection for periods beginning on or after July 1, 2021, the employer contribution rate and the member contribution rate, respectively, shall not increase by more than one percent or decrease by more than one-half percent for any period from the corresponding rate in effect immediately before such increase or decrease; and

(7) The board of trustees shall certify to the employers the contribution rate to be effective for July 1, 2021, and for each following July first, no later than six months prior to the date such rate is to be effective.

AN ACT to repeal section 260.242, RSMo, and to enact in lieu thereof one new section relating to coal ash.

SECTION

A. Enacting clause.

260.242 Coal combustion residual units — rules for closure and groundwater criteria — state CCR program — fees, deposit in subaccount — rulemaking authority.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.
Be it enacted by the General Assembly of the State of Missouri, as follows:

SECTION A. ENACTING CLAUSE.—Section 260.242, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 260.242, to read as follows:

260.242. COAL COMBUSTION RESIDUAL UNITS — RULES FOR CLOSURE AND GROUNDWATER CRITERIA — STATE CCR PROGRAM — FEES, DEPOSIT IN SUBACCOUNT — RULEMAKING AUTHORITY.—[All fly ash produced by coal combustion generating facilities shall be exempt from all solid waste permitting requirements of this chapter, if such ash is constructively reused or disposed of by a grout technique in any active or inactive noncoal, non-open-pit mining operation located in a city having a population of at least three hundred fifty thousand located in more than one county and is also located in a county of the first class without a charter form of government with a population of greater than one hundred fifty thousand and less than one hundred sixty thousand, provided said ash is not considered hazardous waste under the Missouri hazardous waste law.] 1. The department shall have the authority to promulgate rules for the management, closure, and post-closure of coal combustion residual (CCR) units in accordance with Sections 1008(a)(3) and 4004(a) of the Resource Conservation and Recovery Act (RCRA) and to approve site-specific groundwater criteria. At the discretion of the department, the Missouri risk-based corrective action (MRBCA) rules, 10 CSR 25-18.010, and accompanying guidance may be used to establish site-specific targets for soil and groundwater impacted by CCR constituents. As used in this section, a "coal combustion residual (CCR) unit" means a surface impoundment, utility waste landfill, or a CCR landfill. To the extent there is a conflict between this section and section 644.026 or 644.143, this section shall prevail.

2. Prior to federal approval of a state CCR program under 4004(a) of the RCRA, nothing in this section shall prohibit the department from issuing guidance or entering into enforceable agreements with CCR unit owners or operators to establish risk-based target levels, using all or part of the MRBCA rules and guidance, for closure and corrective action at CCR units. Nothing in this section shall prohibit the department, owners, or operators of CCR units not otherwise covered by 40 CFR 257 from utilizing the MRBCA rules and guidance.

3. Effective January 1, 2019, and in order to implement the state CCR program, the department shall have the authority to assess one-time enrollment and annual fees on each owner, operator, or permittee of a CCR unit subject to 40 CFR 257, only as follows:

(1) For units that have not closed, an enrollment fee in the amount of sixty-two thousand dollars per CCR unit, except no fee shall apply to CCR units permitted as a utility waste landfill;

(2) For CCR units that have completed closure in place under 40 CFR 257 prior to December 31, 2018, an enrollment fee of forty-eight thousand dollars per CCR unit;

(3) An annual fee of fifteen thousand dollars per CCR unit. Annual fees shall not be assessed on CCR units that have closed prior to December 31, 2018. The obligation to pay annual fees under this section shall terminate at the end of the CCR unit's post-closure period, so long as the CCR unit is not under a requirement to complete a corrective action, or sooner, if authorized by the department.

4. No later than December 31, 2018, the department shall propose for promulgation a state CCR program, including procedures regarding payment, submission of fees, reimbursement of excess fee collection, inspection, and record keeping.

5. All fees under this section shall be paid by check or money order made payable to the department and, unless otherwise required by this section, shall be due on January first of each calendar year and be accompanied by a form provided by the department.

EXPLANATION—Matter enclosed in bold-faced brackets [this] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.
6. All fees received under this section shall be deposited into the "Coal Combustion Residuals Subaccount" of the solid waste management fund created under section 260.330. Fees collected under this section are dedicated, upon appropriation, to the department for conducting activities required by this section and rules adopted under this section. Fees established by this section shall not yield revenue greater than the cost of administering this section and the rules adopted under this section, but shall be adequate to ensure sustained operation of the state CCR program. The department shall prepare an annual report detailing costs incurred in connection with the management and closure of CCR units.

7. The provisions of section 33.080 to the contrary notwithstanding, moneys and interest earned on moneys in the subaccount shall not revert to the general revenue fund at the end of each biennium.

8. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

9. Interest shall be imposed on the moneys due to the department at the rate of ten percent per annum from the prescribed due date until payment is actually made. These interest amounts shall be deposited to the credit of the applicable subaccount of the solid waste management fund.

10. The department may pursue penalties under section 260.240 for failure to timely submit the fees imposed in this section.

11. The department shall not apply standards to any existing landfill or new landfills constructed contiguous to existing power station facilities located on municipally owned land that was purchased by the municipality prior to December 31, 2018, that are in conflict with 40 CFR 257, unless sound and reasonably proven scientific data confirm an imminent threat to human health and the environment.

The board may make such information available to the public. The board shall track the reported information and may routinely conduct random reviews of such arrangements to ensure that arrangements are carried out for compliance under this chapter.

No contract or other agreement shall limit the collaborating physician's ultimate authority over any protocols or standing orders or in the delegation of the physician's authority to any assistant physician, but such requirement shall not authorize a physician in implementing such protocols, standing orders, or delegation to violate applicable standards for safe medical practice established by a hospital's medical staff.

10. No contract or other agreement shall require any assistant physician to serve as a collaborating assistant physician for any collaborating physician against the assistant physician's will. Any rules relating to dispensing or distribution of medications or devices by prescription or prescription drug orders under this section shall be subject to the approval of the state board of pharmacy. Any rules relating to dispensing or distribution of controlled substances by prescription or prescription drug orders under this section shall be subject to the approval of the department of health and senior services and the state board of pharmacy. In order to take effect, such rules shall be approved by a majority vote of a quorum of each board. Neither the state board of registration for the healing arts nor the board of nursing may separately promulgate rules relating to collaborative practice arrangements. Such jointly promulgated rules shall be consistent with guidelines for federally funded clinics. Upon the written request of a physician subject to a disciplinary action imposed as a result of an agreement between a physician and a registered professional nurse or registered physician assistant, whether written or not, prior to August 28, 1993, all records of such disciplinary licensure action and all records pertaining to the filing, investigation or review of an alleged violation of this chapter incurred as a result of such an agreement shall be removed from the records of the state board of registration for the healing arts and the division of professional registration and shall not be disclosed to any public or private entity seeking such information from the board or the division. 6. Within thirty days of any change and on each renewal, the state board of registration for the healing arts shall require every physician to identify whether the physician is engaged in any collaborative practice agreement, including collaborative practice agreements delegating the
authority to prescribe controlled substances, or physician assistant agreement and also report to the board the name of each licensed professional with whom the physician has entered into such agreement. The board may make this information available to the public. The board shall track the reported information and may routinely conduct random reviews of such agreements to ensure that agreements are carried out for compliance under this chapter.

7. Notwithstanding any law to the contrary, a certified registered nurse anesthetist as defined in subdivision (8) of section 335.016 shall be permitted to provide anesthesia services without a collaborative practice arrangement provided that he or she is under the supervision of an anesthesiologist or other physician, dentist, or podiatrist who is immediately available if needed. Nothing in this subsection shall be construed to prohibit or prevent a certified registered nurse anesthetist as defined in subdivision (8) of section 335.016 from entering into a collaborative practice arrangement under this section, except that the collaborative practice arrangement may not delegate the authority to prescribe any controlled substances listed in Schedules III, IV, and V of section 195.017, or Schedule II - hydrocodone.

9. It is the responsibility of the collaborating physician to determine and document the completion of at least a one-month period of time during which the advanced practice registered nurse shall practice with the collaborating physician continuously present before practicing in a setting where the collaborating physician is not continuously present. This limitation shall not apply to collaborative arrangements of providers of population-based public health services as defined by 20 CSR 2150-5.100 as of April 30, 2008.

10. No agreement made under this section shall supersede current hospital licensing regulations governing hospital medication orders under protocols or standing orders for the purpose of delivering inpatient or emergency care within a hospital as defined in section 197.020 if such protocols or standing orders have been approved by the hospital's medical staff and pharmaceutical therapeutics committee.

11. No contract or other agreement shall require a physician to act as a collaborating physician for an advanced practice registered nurse against the physician's will. A physician shall have the right to refuse to act as a collaborating physician, without penalty, for a particular advanced practice registered nurse. No contract or other agreement shall limit the collaborating physician's ultimate authority over any protocols or standing orders or in the delegation of the physician's authority to any advanced practice registered nurse, but this requirement shall not authorize a physician in implementing such protocols, standing orders, or delegation to violate applicable standards for safe medical practice established by hospital's medical staff.

12. No contract or other agreement shall require any advanced practice registered nurse to serve as a collaborating advanced practice registered nurse for any collaborating physician against the advanced practice registered nurse's will.    (1) A health benefit plan shall provide coverage for treatment of a mental health condition and shall not establish any rate, term, or condition that places a greater financial burden on an insured for access to treatment for a mental health condition than for access to treatment for a physical health condition. Any deductible or out-of-pocket limits required by a health carrier or health benefit plan shall be comprehensive for coverage of all health conditions, whether mental or physical;

   (2) The coverages set forth in this subsection:

(3) A health benefit plan that does not otherwise provide for management of care under the plan or that does not provide for the same degree of management of care for all health conditions may provide coverage for treatment of mental health conditions through a managed care organization; provided that the managed care organization is in compliance with rules adopted by the department of insurance, financial institutions and professional registration that assure that the system for delivery of treatment for mental health conditions does not diminish or negate the purpose of this section. The rules adopted by the director shall assure that:

(a) Timely and appropriate access to care is available;
(b) The quantity, location, and specialty distribution of health care providers is adequate; and
(c) Administrative or clinical protocols do not serve to reduce access to medically necessary treatment for any insured;

(4) Coverage for treatment for chemical dependency shall comply with sections 376.779, 376.810 to 376.814, and 376.825 to 376.836 and for the purposes of this subdivision the term "health insurance policy" as used in sections 376.779, 376.810 to 376.814, and 376.825 to 376.836, the term "health insurance policy" shall include group coverage.

610.140. Expungement of Certain Criminal Records, Petition, Contents, Procedure. — Effect of Expungement on Employer Inquiry — Lifetime Limits. — 1. Notwithstanding any other provision of law and subject to the provisions of this section, any person may apply to any court in which such person was charged or found guilty of any offenses, violations, or infractions for an order to expunge records of such arrest, plea, trial, or conviction. Subject to the limitations of subsection 12 of this section, a person may apply to have one or more offenses, violations, or infractions expunged if such offense, violation, or infraction occurred within the state of Missouri and was prosecuted under the jurisdiction of a Missouri municipal, associate circuit, or circuit court, so long as such person lists all the offenses, violations, and infractions he or she is seeking to have expunged in the petition and so long as all such offenses, violations, and infractions are not excluded under subsection 2 of this section. If the offenses, violations, or infractions were charged as counts in the same indictment or information or were committed as part of the same course of criminal conduct, the person may include all the related offenses, violations, and infractions in the petition, regardless of the limits of subsection 12 of this section, and the petition shall only count as a petition for expungement of the highest level violation or offense contained in the petition for the purpose of determining future eligibility for expungement.

2. The following offenses, violations, and infractions shall not be eligible for expungement under this section:

(1) Any class A felony offense;
(2) Any dangerous felony as that term is defined in section 556.061;

(9) Any ordinance violation that is the substantial equivalent of any offense that is not eligible for expungement under this section; and
(10) Any violations of any state law or county or municipal ordinance regulating the operation of motor vehicles when committed by an individual who has been issued a commercial driver's license or is required to possess a commercial driver's license issued by this state or any other state; and

Explanations—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
(11) Any offense of section 571.030, except any offense under subdivision (1) of subsection 1 of section 571.030 where the person was convicted or found guilty prior to January 1, 2017.

3. The petition shall name as defendants all law enforcement agencies, courts, prosecuting or circuit attorneys, municipal prosecuting attorneys, central state repositories of criminal records, or others who the petitioner has reason to believe may possess the records subject to expungement for each of the offenses, violations, and infractions listed in the petition. The court's order of expungement shall not affect any person or entity not named as a defendant in the action.

4. The petition shall include the following information:
   (1) The petitioner's:
      (a) Full name;
      (b) Sex;
      (c) Race;
      (d) Driver's license number, if applicable; and
      (e) Current address;
   (2) Each offense, violation, or infraction for which the petitioner is requesting expungement;
   (3) The approximate date the petitioner was charged for each offense, violation, or infraction; and
   (4) The name of the county where the petitioner was charged for each offense, violation, or infraction and if any of the offenses, violations, or infractions occurred in a municipality, the name of the municipality for each offense, violation, or infraction; and
   (5) The case number and name of the court for each offense.

5. The clerk of the court shall give notice of the filing of the petition to the office of the prosecuting attorney, circuit attorney, or municipal prosecuting attorney that prosecuted the offenses, violations, or infractions listed in the petition. If the prosecuting attorney, circuit attorney, or municipal prosecuting attorney objects to the petition for expungement, he or she shall do so in writing within thirty days after receipt of service. Unless otherwise agreed upon by the parties, the court shall hold a hearing within sixty days after any written objection is filed, giving reasonable notice of the hearing to the petitioner. If no objection has been filed within thirty days after receipt of service, the court may set a hearing on the matter and shall give reasonable notice of the hearing to each entity named in the petition. At any hearing, the court may accept evidence and hear testimony on, and may consider, the following criteria for each of the offenses, violations, or infractions listed in the petition for expungement:
   (1) It has been at least seven years if the offense is a felony, or at least three years if the offense is a misdemeanor, municipal offense, or infraction, from the date the petitioner completed any authorized disposition imposed under section 557.011 for each offense, violation, or infraction listed in the petition;
   (2) The person has not been found guilty of any other misdemeanor or felony, not including violations of the traffic regulations provided under chapters 304 and 307, during the time period specified for the underlying offense, violation, or infraction in subdivision (1) of this subsection;
   (3) The person has satisfied all obligations relating to any such disposition, including the payment of any fines or restitution;
   (4) The person does not have charges pending;
   (5) The petitioner's habits and conduct demonstrate that the petitioner is not a threat to the public safety of the state; and
   (6) The expungement is consistent with the public welfare and the interests of justice warrant the expungement.

A pleading by the petitioner that such petitioner meets the requirements of subdivisions (5) and (6) of this subsection shall create a rebuttable presumption that the expungement is warranted so long

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
as the criteria contained in subdivisions (1) to (4) of this subsection are otherwise satisfied. The burden shall shift to the prosecuting attorney, circuit attorney, or municipal prosecuting attorney to rebut the presumption. A victim of an offense, violation, or infraction listed in the petition shall have an opportunity to be heard at any hearing held under this section, and the court may make a determination based solely on such victim's testimony.

6. A petition to expunge records related to an arrest for an eligible offense, violation, or infraction may be made in accordance with the provisions of this section to a court of competent jurisdiction in the county where the petitioner was arrested no earlier than three years from the date of arrest; provided that, during such time, the petitioner has not been charged and the petitioner has not been found guilty of any misdemeanor or felony offense.

7. If the court determines that such person meets all the criteria set forth in subsection 5 of this section for each of the offenses, violations, or infractions listed in the petition for expungement, the court shall enter an order of expungement. In all cases under this section, the court shall issue an order of expungement or dismissal within six months of the filing of the petition. A copy of the order of expungement shall be provided to the petitioner and each entity possessing records subject to the order, and, upon receipt of the order, each entity shall close any record in its possession relating to any offense, violation, or infraction listed in the petition, in the manner established by section 610.120. The records and files maintained in any administrative or court proceeding in a municipal, associate, or circuit court for any offense, violation, or infraction expunged under this section shall be confidential and only available to the parties or by order of the court for good cause shown. The central repository shall request the Federal Bureau of Investigation to expunge the records from its files.

8. The order shall not limit any of the petitioner's rights that were restricted as a collateral consequence of such person's criminal record, and such rights shall be restored upon issuance of the order of expungement. Except as otherwise provided under this section, the effect of such order shall be to restore such person to the status he or she occupied prior to such arrests, pleas, trials, or convictions as if such events had never taken place. No person as to whom such order has been entered shall be held thereafter under any provision of law to be guilty of perjury or otherwise giving a false statement by reason of his or her failure to recite or acknowledge such arrests, pleas, trials, convictions, or expungement in response to an inquiry made of him or her and no such inquiry shall be made for information relating to an expungement, except the petitioner shall disclose the expunged offense, violation, or infraction to any court when asked or upon being charged with any subsequent offense, violation, or infraction. The expunged offense, violation, or infraction may be considered a prior offense in determining a sentence to be imposed for any subsequent offense that the person is found guilty of committing.

9. Notwithstanding the provisions of subsection 8 of this section to the contrary, a person granted an expungement shall disclose any expunged offense, violation, or infraction when the disclosure of such information is necessary to complete any application for:

(1) A license, certificate, or permit issued by this state to practice such individual's profession;
(2) Any license issued under chapter 313 or permit issued under chapter 571;
(3) Paid or unpaid employment with an entity licensed under chapter 313, any state-operated lottery, or any emergency services provider, including any law enforcement agency;
(4) Employment with any federally insured bank or savings institution or credit union or an affiliate of such institution or credit union for the purposes of compliance with 12 U.S.C. Section 1829 and 12 U.S.C. Section 1785;
(5) Employment with any entity engaged in the business of insurance or any insurer for the purpose of complying with 18 U.S.C. Section 1033, 18 U.S.C. Section 1034, or other similar law which requires an employer engaged in the business of insurance to exclude applicants with certain criminal convictions from employment; or

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
(6) Employment with any employer that is required to exclude applicants with certain criminal convictions from employment due to federal or state law, including corresponding rules and regulations.

An employer shall notify an applicant of the requirements under subdivisions (4) to (6) of this subsection. Notwithstanding any provision of law to the contrary, an expunged offense, violation, or infraction shall not be grounds for automatic disqualification of an applicant, but may be a factor for denying employment, or a professional license, certificate, or permit; except that, an offense, violation, or infraction expunged under the provisions of this section may be grounds for automatic disqualification if the application is for employment under subdivisions (4) to (6) of this subsection.

10. A person who has been granted an expungement of records pertaining to a misdemeanor or felony offense, an ordinance violation, or an infraction may answer "no" to an employer's inquiry into whether the person has ever been convicted of a crime if, after the granting of the expungement, the person has no public record of a misdemeanor or felony offense, an ordinance violation, or an infraction. The person, however, shall answer such an inquiry affirmatively and disclose his or her criminal convictions, including any offense or violation expunged under this section or similar law, if the employer is required to exclude applicants with certain criminal convictions from employment due to federal or state law, including corresponding rules and regulations.

11. If the court determines that the petitioner has not met the criteria for any of the offenses, violations, or infractions listed in the petition for expungement or the petitioner has knowingly provided false information in the petition, the court shall enter an order dismissing the petition. Any person whose petition for expungement has been dismissed by the court for failure to meet the criteria set forth in subsection 5 of this section may not refile another petition until a year has passed since the date of filing for the previous petition.

12. A person may be granted more than one expungement under this section provided that during his or her lifetime, the total number of offenses, violations, or infractions for which orders of expungement are granted to the person shall not exceed the following limits:

(1) Not more than two misdemeanor offenses or ordinance violations that have an authorized term of imprisonment; and

(2) Not more than one felony offense.

A person may be granted expungement under this section for any number of infractions. Nothing in this section shall prevent the court from maintaining records to ensure that an individual has not exceeded the limitations of this subsection. Nothing in this section shall be construed to limit or impair in any way the subsequent use of any record expunged under this section of any arrests or findings of guilt by a law enforcement agency, criminal justice agency, prosecuting attorney, circuit attorney, or municipal prosecuting attorney, including its use as a prior offense, violation, or infraction.

13. The court shall make available a form for pro se petitioners seeking expungement, which shall include the following statement: "I declare under penalty of perjury that the statements made herein are true and correct to the best of my knowledge, information, and belief."

14. Nothing in this section shall be construed to limit or restrict the availability of expungement to any person under any other law.

Effective January 1, 1990, and only after an affirmative referendum provided for in subsection 4 of this section, all newly employed persons in the positions described in subsection 4 of this section shall become members of the Missouri state employees' retirement system.

6. Any employee actively employed on June 14, 1989, who, because of employment in a position described in subsection 1, 3 or 4 of this section, has creditable service in this system for such employment which at the time the service was rendered was not covered by the federal Social Security Act, shall remain in this system and be entitled to the benefits provided under subdivision
(1) of subsection 7 of this section; except that any such employee who has creditable service in this system because of employment in a position described in subsection 4 of this section which is not covered by the federal Social Security Act on January 1, 1990, shall not be entitled to the benefits provided under subdivision (1) of subsection 7 of this section for such creditable service.

7. Any person entitled to make the election provided by subsection 3 or 4 of this section, who does not make such election, in writing, on or before December 31, 1989, shall be deemed to have elected to be governed by subdivision (1) of this subsection:

(1) Those persons described in subsections 3 and 4 of this section who elect or have elected by written request filed with the board to be members of this system, shall be entitled to creditable prior service for service rendered in any of the positions described in subsections 1, 3 and 4 of this section. Any person who so elects shall be eligible, upon written request filed with the board on or before March 31, 1990, with the retirement system established under sections 169.010 to 169.140 or sections 169.410 to 169.540, to receive a refund of the member's accumulated contributions for the creditable service in any of the positions described in subsections 1, 3 and 4 of this section, plus interest at an annual rate of six percent computed on the refundable balance, if any, in the member's account in that retirement system as of June 30, 1989. Such refunds shall be made prior to June 1, 1990. If any creditable prior service transferred under subsection 1, 3 or 4 of this section, or subsection 3 of section 104.372, includes periods of service not covered by the federal Social Security Act, as provided in sections 105.300 to [105.445] 105.430, then, in calculating the benefit amount payable to such member, the normal annuity shall be an amount equal to two and one-tenth percent of the average compensation of the member multiplied by the number of years of such creditable service for the positions described in subsections 1, 3 and 4 of this section not covered by the federal Social Security Act in addition to an amount payable under section 104.374 for all service covered by the federal Social Security Act. The normal annuity as described in this subdivision shall be adjusted for early retirement, if applicable;

(2) Any person described in subsections 3 and 4 of this section, who elects to remain in one of the retirement systems established under sections 169.010 to 169.140 or sections 169.410 to 169.540, shall, notwithstanding any provision of chapter 169 to the contrary, be a noncontributing member of such system and shall receive a refund of the member's accumulated contributions for the creditable service in any of the positions described in subsection 1, 3 or 4 of this section, plus interest at an annual rate of six percent computed on the refundable balance, if any, in the member's account in that retirement system as of June 30, 1989. Such refunds shall be made prior to June 1, 1990. At the time of retirement under the provisions of sections 169.010 to 169.140 or sections 169.410 to 169.540, such person shall receive a retirement benefit computed under the then existing law of that retirement system; except that, for any person employed in a position described in subsection 4 of this section, the benefit shall be the amount computed as though the position were not covered by the federal Social Security Act, reduced by the amount of any federal Social Security benefit the person may receive which is attributable to service rendered in the positions described in subsection 4 of this section after December 31, 1989.

8. Upon payment of the refunds provided in subdivision (1) of subsection 7 of this section, each refunding retirement system shall pay to the state employees' retirement system, by December 31, 1990, an amount actuarially determined to equal the liability transferred from such retirement systems. At least ninety days before each regular session of the general assembly the board of trustees of the affected public school retirement system shall certify to the division of budget an actuarially determined estimate of the amount which will be necessary during the next appropriation period to pay all liabilities, including costs of administration, which shall exist or accrue under subsections 1 through 7 of this section during such period. The estimate shall be
computed as a level percentage of payroll compensation to cover the normal cost and to amortize the accrued liability over a period not to exceed forty years. The commissioner of administration shall request appropriation of the amount calculated under the provisions of this subsection. The commissioner of administration monthly shall requisition and certify the payment to the executive secretary of the appropriate school retirement system.

9. Notwithstanding any provisions of chapter 169 to the contrary, any member who becomes a member under the provisions of subsection 2, 5, or 7 of this section and who has creditable service with a public school retirement system under that chapter because of employment with any employer other than those defined in subsection 1, 3, or 4 of this section shall immediately vest in that public school retirement system and upon attainment of the minimum retirement age of that system shall be entitled to a monthly benefit based on such creditable service and the law in effect at that time, provided the person does not elect to withdraw the member's accumulated contributions for such creditable service from that public school retirement system.

10. Effective July 1, 1988, the Lincoln University board of curators shall terminate the Lincoln University retirement, disability and death benefit plan and shall purchase through competitive bids annuities adequate to cover the liability for all benefits presently being paid from such plan to former employees or their surviving beneficiaries upon the death of the employee as provided by such plan at the time of the commencement of benefits to such former employees or beneficiaries. Lincoln University shall pay to the Missouri state employees' retirement system on or before July 1, 1988, an amount equal to all funds and securities thereon contained in the Lincoln University retirement, disability and death benefit plan less the amount needed to purchase annuities for retiree and survivor benefits.

(b) An amount which shall not be less than zero and which shall equal the actuarial accrued liability of the St. Louis public school retirement system for the prior service, determined as of the transfer date as if the member were still in active service covered by the St. Louis public school retirement system, less the amount stipulated in paragraph (a) of this subdivision;

(c) If the member had received a refund of contributions related to service covered by the St. Louis public school retirement system, the amount stipulated in paragraph (a) of this subdivision shall be paid to the Missouri state employees' retirement system by the member, otherwise, such amount shall be paid to the Missouri state employees' retirement system by the St. Louis public school retirement system;

(3) Any amount payable to the Missouri state employees' retirement system by the member may be paid in a lump sum or in monthly installments. which a member is entitled to receive, but shall be paid in full out of appropriate funds pursuant to
appropriations for this purpose.

2. In the event any accumulated contributions standing to a [member of the Missouri state
employees' retirement system's] member's credit remains unclaimed by such member for a period
of four years or more, such accumulated contributions shall automatically revert to the credit of
the fund [for the Missouri state employees' retirement system]. If an application is made, after
such reversion, for such accumulated contributions, the board shall pay such contributions from
the fund [for the Missouri state employees' retirement system]; except that, no interest shall be paid
on such funds after the date of the reversion to the fund [for the Missouri state employees'
retirement system].

3. In the event any amount is due a deceased member, survivor, or beneficiary who dies after
September 1, 2002, and the member's survivor's or beneficiary's financial institution is unable to
accept the final payments due to the member, survivor, or beneficiary, such amount shall be paid
to the person or entity designated in writing as beneficiary to receive such amount by such member,
survivor, or beneficiary. The member, survivor, or beneficiary may designate in writing a
beneficiary to receive any final payment due after the death of a member, survivor, or beneficiary
pursuant to this chapter. If no living person or entity so designated as beneficiary exists at the
time of death, such amount shall be paid to the surviving spouse married to the deceased member,

surviving brothers or sisters exist, payment may be made as otherwise permitted by law.
Notwithstanding this subsection, any amount due to a deceased member as payment of all or part
of a lump sum pursuant to section 104.625 shall be paid to the member's surviving spouse married
to the member at the time of death, and otherwise payment may be made as provided in this
subsection. In the event any amount that is due to a person from either system remains unclaimed
for a period of four years or more, such amount shall automatically revert to the credit of the fund
of the member's system. If an application is made after such reversion for such amount, the board
shall pay such amount to the person from the board's fund, except that no interest shall be paid on
such funds after the date of the reversion to the fund.

4. The beneficiary of any member who purchased creditable service [in the Missouri state
employees' retirement system] shall receive a refund upon the member's death equal to the amount
of any purchase less any retirement benefits received by the member unless an annuity is payable
to a survivor or beneficiary as a result of the member's death. In that event, the beneficiary of
the survivor or beneficiary who received the annuity shall receive a refund upon the survivor's or
beneficiary's death equal to the amount of the member's purchase of service less any annuity
amounts received by the member and the survivor or beneficiary.

104.1024. Retirement, application — annuity payments, how paid, amount —
election to receive annuity or lump sum payment for certain employees,
determination of amount. — 1. Any member who terminates employment may retire on or
after attaining normal retirement eligibility by making application in written form and manner
approved by the appropriate board. The written application shall set forth the annuity starting date which shall not be earlier than the first day of the second month following the month of the execution and filing of the member's application for retirement nor later than the first day of the fourth month following the month of the execution and filing of the member's application for retirement. The payment of the annuity shall be made the last working day of each month, providing all documentation required under section 104.1027 for the calculation and payment of the benefits is received by the board.

2. A member's annuity shall be paid in the form of a life annuity, except as provided in section 104.1027, and shall be an amount for life equal to one and seven-tenths percent of the final average pay of the member multiplied by the member's years of credited service.

3. The life annuity defined in subsection 2 of this section shall not be less than a monthly amount equal to fifteen dollars multiplied by the member's full years of credited service.

4. If as of the annuity starting date of a member who has attained normal retirement eligibility the sum of the member's years of age and years of credited service equals eighty or more years and if the member's age is at least forty-eight years but less than sixty-two years, or, in the case of a member of the highway patrol who shall be subject to the mandatory retirement provision of section 104.080, the mandatory retirement age and completion of five years of credited service, then in addition to the life annuity described in subsection 2 of this section, the member shall receive a temporary annuity equal to eight-tenths of one percent of the member's final average pay multiplied by the member's years of credited service. The temporary annuity and any cost-of-living adjustments attributable to the temporary annuity pursuant to section 104.1045 shall terminate at the end of the calendar month in which the earlier of the following events occurs: the member's death or the member's attainment of the earliest age of eligibility for reduced Social Security retirement benefits, but no later than age sixty-two.

5. The annuity described in subsection 2 of this section for any person who has credited service not covered by the federal Social Security Act, as provided in sections 105.300 to 105.445, shall be calculated as follows: the life annuity shall be an amount equal to two and five-tenths percent of the final average pay of the member multiplied by the number of years of service not covered by the federal Social Security Act in addition to one and seven-tenths percent of the final average pay of the member multiplied by the member's years of credited service covered by the federal Social Security Act.

6. Effective July 1, 2002, any member, except an elected official or a member of the general assembly, who has not been paid retirement benefits and continues employment for at least two years beyond the date of normal retirement eligibility, may elect to receive an annuity and lump sum payment or payments, determined as follows:

(1) A retroactive starting date shall be established which shall be a date selected by the member; provided, however, that the retroactive starting date selected by the member shall not be a date which is earlier than the date when a normal annuity would have first been payable. In addition, the retroactive starting date shall not be more than five years prior to the annuity starting date. The member's selection of a retroactive starting date shall be done in twelve-month increments, except this restriction shall not apply when the member selects the total available time between the retroactive starting date and the annuity starting date;

(2) The prospective annuity payable as of the annuity starting date shall be determined pursuant to the provisions of this section, with the exception that it shall be the amount which would have been payable at the annuity starting date had the member actually retired on the retroactive starting date under the retirement plan selected by the member. Other than for the lump...
sum payment or payments specified in subdivision (3) of this subsection, no other amount shall be
due for the period between the retroactive starting date and the annuity starting date;

(3) The lump sum payable shall be ninety percent of the annuity amounts which would have
been paid to the member from the retroactive starting date to the annuity starting date had the
member actually retired on the retroactive starting date and received a life annuity. The member
shall elect to receive the lump sum amount either in its entirety at the same time as the initial
annuity payment is made or in three equal annual installments with the first payment made at the
same time as the initial annuity payment;

(4) Any annuity payable pursuant to this section that is subject to a division of benefit order
pursuant to section 104.1051 shall be calculated as follows:
(a) Any service of a member between the retroactive starting date and the annuity starting date
shall not be considered credited service except for purposes of calculating the division of benefit; and
(b) The lump sum payment described in subdivision (3) of this section shall not be subject to
any division of benefit order; and

(5) For purposes of determining annual benefit increases payable as part of the lump sum and
annuity provided pursuant to this section, the retroactive starting date shall be considered the
member's date of retirement.

[who is in the Missouri state employees' retirement system] pursuant to the year 2000 plan created
by sections 104.1003 to 104.1093 and who becomes disabled and qualifies for long-term disability
benefits and retires after August 28, 1999, or who becomes disabled and qualifies for long-term
disability benefits under a program provided by the member's employing department and retires
after August 28, 1999, shall continue to accrue credited service and such member's rate of pay for
purposes of calculating an annuity pursuant to the year 2000 plan created by sections 104.1003 to
104.1093 shall be the member's regular monthly pay received at the time of disablement, increased
thereafter for any increases in the consumer price index. Such increases in the member's monthly
pay shall be made annually beginning twelve months after disablement and shall be equal to eighty
percent of the increase in the consumer price index during the calendar year prior to the adjustment,
but not more than five percent of the member's monthly pay immediately before the increase. Such
accruals shall continue until the earliest of receipt of an early retirement annuity, attainment of
normal retirement eligibility, or termination of disability benefits.

2. A member described in subsection 1 of this section who continues to be disabled until
normal retirement eligibility may elect an annuity starting date upon termination of disability
payments and shall receive a normal retirement annuity provided for in section 104.1024.

3. If the member's disability terminates, disability accruals described in subsection 1 of this
section shall terminate.

4. Upon termination of disability payments and not returning to a position in which the
member is an employee, the member's rights to plan benefits shall be determined as if the member
had terminated employment at time of termination of disability payments.

5. Any member who was disabled under the closed plan prior to July 1, 2000, and who returns
to a position in which the member is an employee after July 1, 2000, shall be covered under the
closed plan and shall be eligible to elect coverage under the new plan as provided by subsection 5
of section 104.1015.

104.1054. BENEFITS ARE OBLIGATIONS OF THE STATE — BENEFITS NOT SUBJECT TO EXECUTION, GARNISHMENT, ATTACHMENT, WRIT OF SEQUESTRATION — BENEFITS UNASSIGNABLE — REVERSION OF BENEFITS, WHEN — REFUND RECEIVED, WHEN. — 1. The benefits provided to each member and each member's spouse, beneficiary, or former spouse under the year 2000 plan are hereby made obligations of the state of Missouri and are an incident of every member's continued employment with the state. No alteration, amendment, or repeal of the year 2000 plan shall affect the then-existing rights of members, or their spouses, beneficiaries or former spouses, but shall be effective only as to rights which would otherwise accrue hereunder as a result of services rendered by a member after such alteration, amendment, or repeal.

2. Except as otherwise provided in section 104.1051, any annuity, benefit, funds, property, or rights created by, or accruing or paid to, any person covered under the year 2000 plan shall not be subject to execution, garnishment, attachment, writ of sequestration, or any other process or claim whatsoever, and shall be unassignable, except with regard to the collection of child support and maintenance, and except that a beneficiary may assign life insurance proceeds. Any retiree may request the executive director, in writing, to withhold and pay on his behalf to the proper person, from each of his monthly annuity payments, if the payment is large enough, the contribution due from the retiree to any group providing state-sponsored life or medical insurance and to the Missouri state employees charitable campaign.

3. The executive director shall, when requested in writing by a retiree, withhold and pay over the funds authorized in subsection 2 of this section until such time as the request to do so is revoked by the death or written revocation of the retiree.

4. In the event any amount is due a deceased member, survivor, or beneficiary who dies after September 1, 2002, and the member's, survivor's, or beneficiary's financial institution is unable to accept the final payments due to the member, survivor, or beneficiary, such amount shall be paid to the person or entity designated in writing as beneficiary to receive such amount by such member, survivor, or beneficiary. The member, survivor, or beneficiary may designate in writing a beneficiary to receive any final payment due after the death of a member, survivor, or beneficiary pursuant to this chapter. If no living person or entity so designated as beneficiary exists at the time of death, such amount shall be paid to the surviving spouse married to the deceased member, survivor, or beneficiary at the time of death. If no surviving spouse exists, such amount shall be paid to the surviving children of such member, survivor, or beneficiary in equal parts. If no surviving children exist, such amount shall be paid to the surviving parents of such member, survivor, or beneficiary in equal parts. If no surviving parents exist, such amount shall be paid to the surviving brothers or sisters of such member, survivor, or beneficiary in equal parts. If no surviving brothers or sisters exist, payment may be made as otherwise permitted by law. Notwithstanding this subsection, any amount due to a deceased member as payment of all or part of a lump sum pursuant to subsection 6 of section 104.1024 shall be paid to the member's surviving spouse married to the member at the time of death, and otherwise payment may be made as provided in this subsection. In the event any amount that is due to a person from either system remains unclaimed for a period of four years or more, such amount shall automatically revert to the credit of the fund of the member's system. If an application is made for such amount after such reversion, the board shall pay such amount to the person from the board's fund, except that no interest shall be paid on such amounts after the date of the reversion to the fund.

In such event, the beneficiary of the survivor or beneficiary who received the annuity shall receive a refund upon the survivor's or beneficiary's death equal to the amount of the member's purchase of services less any annuity amounts received by the member and the survivor or beneficiary.

hearing for the purpose of obtaining the opinion and suggestions of those persons who will be
affected by such designation. The governing authority shall notify the director of such hearing at
least thirty days prior thereto and shall publish notice of such hearing in a newspaper of general
circulation in the area to be affected by such designation at least twenty days prior to the date of the
hearing but not more than thirty days prior to such hearing. Such notice shall state the time, location,

equipping within five years of the date the new facility became operational shall be entitled to
request the department undertake an additional analysis to determine the projected net fiscal benefit
of the expansion to the state over a period of ten years as determined by the department using the
Regional Economic Modeling, Inc., data set or comparable data and shall be entitled to an
exemption under this section not to exceed such fiscal benefit to the state for a period of not to
exceed fifteen years.

pursuant to this section shall be eligible for benefits under any business recruitment tax credit, as

provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are
nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536

Any person authorized under section 208.153 to provide services for which benefit payments are authorized under section 208.152 and who is entitled to a hearing as provided for in the preceding sections shall have thirty days from the date of mailing or delivery of a decision of the department of social services or its designated division in which to file his petition for review with the administrative hearing commission except that claims of less than five hundred dollars may be accumulated until they total that sum and at which time the provider shall have ninety days to file his petition.

9. When a person entitled to a hearing as provided for in this section applies to the administrative hearing commission for a stay order staying the actions of the department of social services or its divisions, the administrative hearing commission shall not grant such stay order until after a full hearing on such application. The application shall be advanced on the docket for immediate hearing and determination. The person applying for such stay order shall not be granted such stay order unless that person shall show that immediate and irreparable injury, loss, or damage will result if such stay order is denied, or that such person has a reasonable likelihood of success upon the merits of his claim; and provided further that no stay order shall be issued without the person seeking such order posting a bond in such sum as the administrative hearing commission finds sufficient to protect and preserve the interest of the department of social services or its divisions. In no event may the administrative hearing commission grant such stay order where the claim arises under a program or programs funded by federal funds or by any combination of state and federal funds, unless it is specified in writing by the financial section of the appropriate federal agency that federal financial participation will be continued under the stay order.

10. The other provisions of this section notwithstanding, a person receiving or providing benefits shall have the right to bring an action in appealing from the administrative hearing commission in the circuit court of Cole County, Missouri, or the county of his residence pursuant to section 536.050.

210.027. Direct payment recipients, child care providers — department's
duties. — 1. For child-care providers who receive state or federal funds for providing child-care
services, either by direct payment or through reimbursement to a child-care beneficiary, the department of social services shall:

   (1) Establish publicly available website access to provider-specific information about any
       health and safety licensing or regulatory requirements for the providers, and including dates of
       inspections, history of violations, and compliance actions taken, as well as the consumer education
       information required under subdivision (12) of this section;

   (5) Establish minimum requirements for building and physical premises to include:

(a) Compliance with state and local fire, health, and building codes, which shall include the
ability to evacuate children in the case of an emergency; and
(b) Emergency preparedness and response planning.

Child care providers shall meet these minimum requirements prior to receiving federal assistance.
Where there are no local ordinances or regulations regarding smoke detectors, the department shall
require providers, by rule, to install and maintain an adequate number of smoke detectors in the
residence or other building where child care is provided;

(8) Make providers aware of local opportunities for training in first aid and child care;
(9) Promulgate rules and regulations to define preservice training requirements for child care providers and employees pursuant to applicable federal laws and regulations;

(12) With input from statewide stakeholders such as parents, child care providers or administrators, and system advocate [group] groups, establish a transparent system of quality indicators appropriate to the provider setting that shall provide parents with a way to differentiate between child care providers available in their communities as required by federal rules. The system shall describe the standards used to assess the quality of child care providers. The system shall indicate whether the provider meets Missouri's registration or licensing standards, is in compliance with applicable health and safety requirements, and the nature of any violations related to registration or licensing requirements. The system shall also indicate if the provider utilizes curricula and if the provider is in compliance with staff educational requirements. Such system of quality indicators established under this subdivision with the input from stakeholders shall be promulgated by rules. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2014, shall be invalid and void. This subdivision shall not be construed as authorizing the operation, establishment, maintenance, or mandating or offering of incentives to participate in a quality rating system under section 161.216.

210.114. QUALIFIED IMMUNITY FOR PRIVATE CONTRACTOR, WHEN — EXCEPTIONS. — 1. Except as otherwise provided in section 207.085, [a private contractor, as defined in subdivision (4) of section 210.110, with the children's division that receives] private contractors who in their capacities as children's services providers and agencies, as defined in section 210.110, receive state moneys from the division or the department for providing services to children and their families under section 210.112 shall have qualified immunity from civil liability for providing such services when the child is not in the physical care of such private contractor to the same extent that the children's division has qualified immunity from civil liability when the division or department directly provides such services.

2. This section shall not apply if a private contractor described above knowingly violates a stated or written policy of the division, any rule promulgated by the division, or any state law directly related to child abuse and neglect, or any state law directly related to the child abuse and neglect activities of the division or any local ordinance relating to the safety condition of the property.

211.447. JUVENILE OFFICER PRELIMINARY INQUIRY, WHEN — PETITION TO TERMINATE
PARENTAL RIGHTS FILED, WHEN — JUVENILE COURT MAY TERMINATE PARENTAL RIGHTS,
WHEN — INVESTIGATION TO BE MADE — GROUNDS FOR TERMINATION. — 1. Any information
that could justify the filing of a petition to terminate parental rights may be referred to the juvenile
officer by any person. The juvenile officer shall make a preliminary inquiry and if it appears that
the information could justify the filing of a petition, the juvenile officer may take further action,
including filing a petition. If it does not appear to the juvenile officer that a petition should be filed,
such officer shall so notify the informant in writing within thirty days of the referral. Such
notification shall include the reasons that the petition will not be filed.
2. Except as provided for in subsection 4 of this section, a petition to terminate the parental
rights of the child’s parent or parents shall be filed by the juvenile officer or the division, or if such
a petition has been filed by another party, the juvenile officer or the division shall seek to be joined
as a party to the petition, when:
   (1) Information available to the juvenile officer or the division establishes that the child has
been in foster care for at least fifteen of the most recent twenty-two months; or
   (2) A court of competent jurisdiction has determined the child to be an abandoned infant. For
purposes of this subdivision, an “infant” means any child one year of age or under at the time
of filing of the petition. The court may find that an infant has been abandoned if:
      (a) The parent has left the child under circumstances that the identity of the child was unknown
and could not be ascertained, despite diligent searching, and the parent has not come forward to
claim the child; or
      (b) The parent has, without good cause, left the child without any provision for parental
support and without making arrangements to visit or communicate with the child, although able to
do so; or
      (c) The parent has voluntarily relinquished a child under section 210.950; or
      (3) A court of competent jurisdiction has determined that the parent has:
         (a) Committed murder of another child of the parent; or
         (b) Committed voluntary manslaughter of another child of the parent; or
         (c) Aided or abetted, attempted, conspired or solicited to commit such a murder or voluntary
manslaughter; or
         (d) Committed a felony assault that resulted in serious bodily injury to the child or to another
child of the parent.
3. A termination of parental rights petition shall be filed by the juvenile officer or the division,
or if such a petition has been filed by another party, the juvenile officer or the division shall seek
to be joined as a party to the petition, within sixty days of the judicial determinations required in
subsection 2 of this section, except as provided in subsection 4 of this section. Failure to comply
with this requirement shall not deprive the court of jurisdiction to adjudicate a petition for
termination of parental rights which is filed outside of sixty days.
4. If grounds exist for termination of parental rights pursuant to subsection 2 of this section,
the juvenile officer or the division may, but is not required to, file a petition to terminate the parental
rights of the child’s parent or parents if:
   (1) The child is being cared for by a relative; or
(2) There exists a compelling reason for determining that filing such a petition would not be in the best interest of the child, as documented in the permanency plan which shall be made available for court review; or

(3) The family of the child has not been provided such services as provided for in section 211.183.

5. The juvenile officer or the division may file a petition to terminate the parental rights of the child's parent when it appears that one or more of the following grounds for termination exist:

(1) The child has been abandoned. For purposes of this subdivision a "child" means any child over one year of age at the time of filing of the petition. The court shall find that the child has been abandoned if, for a period of six months or longer:

(a) The parent has left the child under such circumstances that the identity of the child was unknown and could not be ascertained, despite diligent searching, and the parent has not come forward to claim the child; or

(b) The parent has, without good cause, left the child without any provision for parental support and without making arrangements to visit or communicate with the child, although able to do so;

(2) The child has been abused or neglected. In determining whether to terminate parental rights pursuant to this subdivision, the court shall consider and make findings on the following conditions or acts of the parent:

(a) A mental condition which is shown by competent evidence either to be permanent or such that there is no reasonable likelihood that the condition can be reversed and which renders the parent unable to knowingly provide the child the necessary care, custody and control;

(b) Chemical dependency which prevents the parent from consistently providing the necessary care, custody and control of the child and which cannot be treated so as to enable the parent to consistently provide such care, custody and control;

(c) A severe act or recurrent acts of physical, emotional or sexual abuse toward the child or any child in the family by the parent, including an act of incest, or by another under circumstances that indicate that the parent knew or should have known that such acts were being committed toward the child or any child in the family; or

(d) Repeated or continuous failure by the parent, although physically or financially able, to provide the child with adequate food, clothing, shelter, or education as defined by law, or other care and control necessary for the child's physical, mental, or emotional health and development. Nothing in this subdivision shall be construed to permit discrimination on the basis of disability or disease;

(3) The child has been under the jurisdiction of the juvenile court for a period of one year, and the court finds that the conditions which led to the assumption of jurisdiction still persist, or conditions of a potentially harmful nature continue to exist, that there is little likelihood that those conditions will be remedied at an early date so that the child can be returned to the parent in the near future, or the continuation of the parent-child relationship greatly diminishes the child's prospects for early integration into a stable and permanent home. In determining whether to terminate parental rights under this subdivision, the court shall consider and make findings on the following:

(a) The terms of a social service plan entered into by the parent and the division and the extent to which the parties have made progress in complying with those terms;

(b) The success or failure of the efforts of the juvenile officer, the division or other agency to aid the parent on a continuing basis in adjusting his circumstances or conduct to provide a proper home for the child;

(c) A mental condition which is shown by competent evidence either to be permanent or such that there is no reasonable likelihood that the condition can be reversed and which renders the parent unable to knowingly provide the child the necessary care, custody and control;

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.
(d) Chemical dependency which prevents the parent from consistently providing the necessary care, custody and control over the child and which cannot be treated so as to enable the parent to consistently provide such care, custody and control; or

(4) The parent has been found guilty or pled guilty to a felony violation of chapter 566 when the child or any child in the family was a victim, or a violation of section 568.020 when the child or any child in the family was a victim. As used in this subdivision, a "child" means any person who was under eighteen years of age at the time of the crime and who resided with such parent or was related within the third degree of consanguinity or affinity to such parent; or

(5) The child was conceived and born as a result of an act of forcible rape or rape in the first degree. When the biological father has pled guilty to, or is convicted of, the forcible rape or rape in the first degree of the birth mother, such a plea or conviction shall be conclusive evidence supporting the termination of the biological father's parental rights; or

(6) (a) The parent is unfit to be a party to the parent and child relationship because of a consistent pattern of committing a specific abuse including, but not limited to, specific conditions directly relating to the parent and child relationship which are determined by the court to be of a duration or nature that renders the parent unable for the reasonably foreseeable future to care appropriately for the ongoing physical, mental, or emotional needs of the child.

(b) It is presumed that a parent is unfit to be a party to the parent and child relationship upon a showing that:

a. Within a three-year period immediately prior to the termination adjudication, the parent's parental rights to one or more other children were involuntarily terminated pursuant to subsection 2 or 4 of this section or subdivision (1), (2), (3), or (4) of this subsection or similar laws of other states;

b. If the parent is the birth mother and within eight hours after the child's birth, the child's birth mother tested positive and over [0.08] eight-hundredths of one percent blood alcohol content pursuant to testing under section 577.020 for alcohol, or tested positive for cocaine, heroin, methamphetamine, a controlled substance as defined in section 195.010, or a prescription drug as defined in section 196.973, excepting those controlled substances or prescription drugs present in the mother's body as a result of medical treatment administered to the mother, and the birth mother is the biological mother of at least one other child who was adjudicated an abused or neglected minor by the mother or the mother has previously failed to complete recommended treatment services by the children's division through a family-centered services case;

c. If the parent is the birth mother and at the time of the child's birth or within eight hours after a child's birth the child tested positive for alcohol, cocaine, heroin, methamphetamine, a controlled substance as defined in section 195.010, or a prescription drug as defined in section 196.973, excepting those controlled substances or prescription drugs present in the mother's body as a result of medical treatment administered to the mother, and the birth mother is the biological mother of at least one other child who was adjudicated an abused or neglected minor by the mother or the mother has previously failed to complete recommended treatment services by the children's division through a family-centered services case;

d. Within a three-year period immediately prior to the termination adjudication, the parent has pled guilty to or has been convicted of a felony involving the possession, distribution, or manufacture of cocaine, heroin, or methamphetamine, and the parent is the biological parent of at least one other child who was adjudicated an abused or neglected minor by such parent or such parent has previously failed to complete recommended treatment services by the children's division through a family-centered services case.

6. The juvenile court may terminate the rights of a parent to a child upon a petition filed by the juvenile officer or the division, or in adoption cases, by a prospective parent, if the court finds that

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
the termination is in the best interest of the child and when it appears by clear, cogent and convincing
evidence that grounds exist for termination pursuant to subsection 2, 4 or 5 of this section.

7. When considering whether to terminate the parent-child relationship pursuant to subsection
2 or 4 of this section or subdivision (1), (2), (3) or (4) of subsection 5 of this section, the court shall
evaluate and make findings on the following factors, when appropriate and applicable to the case:

(1) The emotional ties to the birth parent;
(2) The extent to which the parent has maintained regular visitation or other contact with the child;
(3) The extent of payment by the parent for the cost of care and maintenance of the child when
financially able to do so including the time that the child is in the custody of the division or other
child-placing agency;
(4) Whether additional services would be likely to bring about lasting parental adjustment enabling
a return of the child to the parent within an ascertainable period of time;
(5) The parent's disinterest in or lack of commitment to the child;
(6) The conviction of the parent of a felony offense that the court finds is of such a nature that
the child will be deprived of a stable home for a period of years; provided, however, that
incarceration in and of itself shall not be grounds for termination of parental rights;
(7) Deliberate acts of the parent or acts of another of which the parent knew or should have
known that subjects the child to a substantial risk of physical or mental harm.

8. The court may attach little or no weight to infrequent visitations, communications, or
contributions. It is irrelevant in a termination proceeding that the maintenance of the parent-child
relationship may serve as an inducement for the parent's rehabilitation.

9. In actions for adoption pursuant to chapter 453, the court may hear and determine the issues
raised in a petition for adoption containing a prayer for termination of parental rights filed with the
same effect as a petition permitted pursuant to subsection 2, 4, or 5 of this section.

10. The disability or disease of a parent shall not constitute a basis for a determination that a
child is a child in need of care, for the removal of custody of a child from the parent, or for the
termination of parental rights without a specific showing that there is a causal relation between the
disability or disease and harm to the child.

Rate increased when average balance in fund is less than certain amount, how — rate calculations for certain years. — [1.] On October first of each calendar year, if the average balance, less any federal advances, of the unemployment compensation trust fund of the four preceding quarters (September thirtieth, June thirtieth, March thirty-first and December thirty-first of the preceding calendar year) is less than four hundred fifty million dollars, then each employer's contribution rate calculated for the four calendar quarters of the succeeding calendar year shall be increased by the percentage determined from the following table:

```
Balance in Trust Fund       Percentage

For calendar years 2005, 2006, and 2007, the contribution rate of any employer who is paying the maximum contribution rate shall be increased by forty percent, instead of thirty percent as previously indicated in the table in this section.

[2. For calendar year 2007 and each year thereafter, an employer's total contribution rate shall equal the employer's contribution rate plus a temporary debt indebtedness assessment equal to the amount to be determined in subdivision (6) of subsection 2 of section 288.330 added to the contribution rate plus the increase authorized under subsection 1 of this section. Any moneys overcollected beyond the actual administrative, interest and principal repayment costs for the credit instruments used shall be deposited into the state unemployment insurance trust fund and credited to the employer's experience account.]

EXPLANATION: ADDS THE LANGUAGE REMOVED FROM SECTION 288.121 TO PLACE IT IN THE APPROPRIATE STATUTORY SECTION:

288.128. Additional assessment for interest on federal advancements and proceeds of credit instruments, procedure — excess collections, use of — credit instrument and financing agreement repayment surcharge. — 1. If the fund is utilizing moneys advanced by the federal government under the provisions of 42 U.S.C.A., Section 1321, pursuant to section 288.330, each employer may be assessed an amount solely for the payment of interest due on such federal advancements. The rate shall be determined by dividing the interest due on federal advancements by ninety-five percent of the total taxable wages paid by all Missouri employers in the preceding calendar year. Each employer's proportionate share shall be the product obtained by multiplying such employer's total taxable wages for the preceding calendar year by the rate specified in this section. Each employer shall be notified of the amount due under this section by June thirtieth of each year and such amount shall be considered delinquent thirty days thereafter. The moneys collected from each employer for the payment of interest due on federal advances shall be deposited in the special employment security fund.

2. If on December thirty-first of any year the money collected under subsection 1 of this section exceeds the amount of interest due on federal advancements by one hundred thousand dollars or more, then each employer's experience rating account shall be credited with an amount which bears the same ratio to the excess moneys collected under this section as that employer's

3. If the fund is utilizing moneys from the proceeds of credit instruments issued under section 288.330, or from the moneys advanced under financial agreements under subdivision (17) of subsection 2 of section 288.330, or a combination of credit instrument proceeds and moneys advanced under financial agreements each employer may be assessed a credit instrument and financing agreement repayment surcharge. The total of such surcharge shall be calculated as an amount up to one hundred fifty percent of the amount required in the twelve-month period following the due date for the payment of such surcharge for the payment of the principal, interest, and administrative expenses related to such credit instruments, or in the case of financial agreements for the payment of principal, interest, and administrative expenses related to such financial agreements, or in the case of a combination of credit instruments and financial agreements for the payment of principal, interest, and administrative expenses for both. The total annual surcharge to be collected shall be calculated by the division as a percentage of the total statewide contributions collected during the previous calendar year. Each employer's proportionate share shall be the product obtained by multiplying the percentage calculated under this subsection by each employer's contributions due under this chapter for each filing period during the preceding calendar year. Each employer shall be notified by the division of the amount due under this section by April thirtieth of each year and such amount shall be considered delinquent thirty days thereafter. Any moneys overcollected in excess of the actual administrative, interest, and principal repayments costs for the credit instruments or financial agreements used shall be deposited into the state unemployment insurance trust fund and credited to the employer's experience account.

327.451. CHARGES OF IMPROPER CONDUCT, HOW FILED, CONTENTS — ADMINISTRATIVE HEARING COMMISSION TO HEAR. — 1. Any person who believes that an architect or a professional engineer or a professional land surveyor or a professional landscape architect has acted or failed to act so that his or her license or certificate of authority should, pursuant to the provisions of this chapter, be suspended or revoked, or who believes that any applicant for a license or certificate of authority pursuant to the provisions of this chapter is not entitled to a license or a certificate of authority, may file a written affidavit with the executive director of the board which the affiant shall sign and swear to and in which the affiant shall clearly set forth the reasons for the affiant's charge or charges that the license or certificate of an architect or professional engineer or professional land surveyor or professional landscape architect should be suspended or revoked or not renewed or that a license or certificate should not be issued to an applicant.

2. If the affidavit so filed does not contain statements of fact which if true would authorize, pursuant to the provisions of this chapter, suspension or revocation of the accused's license or certificate, or does not contain statements of fact which if true would authorize, pursuant to the provisions of this chapter, the refusal of the renewal of an existing license or certificate or the refusal of a license or certificate to an applicant, the board shall either dismiss the charge or charges or, within its discretion, cause an investigation to be made of the charges contained in the affidavit, after which investigation the board shall either dismiss the charge or charges or proceed against the accused by written complaint as provided in subsection 3 of this section.

3. If the affidavit contains statements of fact which if true would authorize pursuant to the provisions of this chapter the revocation or suspension of an accused's license or certificate, the board shall cause an investigation to be made of the charge or charges contained in the affidavit and unless the investigation discloses the falsity of the facts upon which the charge or charges in the affidavit are based, the board shall file with and in the administrative hearing commission a written complaint against the accused setting forth the cause or causes for which the accused's license or certificate of authority should be suspended or revoked. Thereafter, the board shall be governed by and shall proceed in accordance with the provisions of chapter 621.

4. If the charges contained in the affidavit filed with the board would constitute a cause or causes for which pursuant to the provisions of this chapter an accused's license or certificate of authority should not be renewed or a cause or causes for which pursuant to the provisions of this chapter a certificate should not be issued, the board shall cause an investigation to be made of the charge or charges and unless the investigation discloses the falsity of the facts upon which the charge or charges contained in the affidavit are based, the board shall refuse to permit an applicant to be examined upon the applicant's qualifications for licensure or shall refuse to issue or renew a license or certificate of authority, as the case may require.

5. The provisions of this section shall not be so construed as to prevent the board on its own initiative from instituting and conducting investigations and based thereon to make written complaints in and to the administrative hearing commission.

6. If for any reason the provisions of chapter 621 become inapplicable to the board, then, and in that event, the board shall proceed to charge, adjudicate and otherwise act in accordance with the provisions of chapter 536.

ensuing licensing period. The application shall be made under oath on a form furnished to the applicant by the board. The application shall include, but not be limited to, disclosure of the following:

1. The applicant's full name;
2. The applicant's office address or addresses and telephone number or numbers;
3. The applicant's home address and telephone number;
4. The date and number of the applicant's license;
5. All final disciplinary actions taken against the applicant by any professional association or society, licensed hospital or medical staff of a hospital, physical therapy facility, state, territory, federal agency or county; and
6. Information concerning the applicant's current physical and mental fitness to practice his or her profession.

The applicant may be required to successfully complete a test administered by the board on the laws and rules related to the practice of physical therapy. The test process, dates, and passing scores shall be established by the board by rule.

2. A notice for application for registration shall be made available to each person licensed in this state. The failure to receive the notice does not, however, relieve any person of the duty to register and pay the fee required by sections 334.500 to 334.620 nor exempt such person from the penalties provided by sections 334.500 to 334.620 for failure to register.

3. If a physical therapist does not renew such license for two consecutive renewal periods, such license shall be deemed void.

4. Each applicant for registration shall accompany the application for registration with a registration fee to be paid to the director of revenue for the licensing period for which registration is sought.

5. If the application is filed and the fee paid after the registration renewal date, a delinquent fee shall be paid; except that, whenever in the opinion of the board the applicant's failure to register is caused by extenuating circumstances including illness of the applicant, as defined by rule, the delinquent fee may be waived by the board.

6. Upon application and submission by such person of evidence satisfactory to the board that such person is licensed to practice in this state and upon the payment of fees required to be paid by this chapter, the board shall issue to such person a certificate of registration. The certificate of registration shall contain the name of the person to whom it is issued and his or her office address, the expiration date, and the number of the license to practice.

7. Upon receiving such certificate, every person shall cause the certificate to be readily available or conspicuously displayed at all times in every practice location maintained by such person in the state. If the licensee maintains more than one practice location in this state, the board shall, without additional fee, issue to such licensee duplicate certificates of registration for each practice location so maintained. If any licensee changes practice locations during the period for which any certificate of registration has been issued, the licensee shall, within fifteen days thereafter, notify the board of such change and the board shall issue to the licensee, without additional fee, a new registration certificate showing the new location.

8. Whenever any new license is granted to any physical therapist or physical therapist assistant under the provisions of this chapter, the board shall, upon application therefor, issue to such physical therapist or physical therapist assistant a certificate of registration covering a period from the date of the issuance of the license to the next renewal date without the payment of any registration fee.
334.610. License to practice required, exceptions — unauthorized use of titles prohibited. — Any person who holds himself or herself out to be a physical therapist or a licensed physical therapist within this state or any person who advertises as a physical therapist or claims that the person can render physical therapy services and who, in fact, does not hold a valid physical therapist license is guilty of a class B misdemeanor and, upon conviction, shall be punished as provided by law. Any person who, in any manner, represents himself or herself as a physical therapist, or who uses in connection with such person's name the words or letters "physical therapist", "physiotherapist", "registered physical therapist", "doctor of physical therapy", "P.T.", "Ph.T.", "P.T.T.", "R.P.T.", "D.P.T.", "M.P.T.", or any other letters, words, abbreviations or insignia, indicating or implying that the person is a physical therapist without a valid existing license as a physical therapist issued to such person pursuant to the provisions of sections 334.500 to 334.620, is guilty of a class B misdemeanor. Nothing in sections 334.500 to 334.620 shall prohibit any person licensed in this state under chapter 331 from carrying out the practice for which the person is duly licensed, or from advertising the use of physiologic and rehabilitative modalities; nor shall it prohibit any person licensed or registered in this state under section 334.735 or any other law from carrying out the practice for which the person is duly licensed or registered; nor shall it prevent professional and semiprofessional teams, schools, YMCA clubs, athletic clubs and similar organizations from furnishing treatment to their players and members. This section, also, shall not be construed so as to prohibit masseurs and masseuses from engaging in their practice not otherwise prohibited by law and provided they do not represent themselves as physical therapists. This section shall not apply to physicians and surgeons licensed under this chapter or to a person in an entry level of a professional education program approved by the [commission for accreditation of physical therapists and physical therapist assistant education] Commission on Accreditation in Physical Therapy Education (CAPTE) who is satisfying supervised clinical education requirements related to the person's physical therapist or physical therapist assistant education while under on-site supervision of a physical therapist; or to a physical therapist who is practicing in the United States Armed Forces, United States Public Health Service, or Veterans Administration under federal regulations for state licensure for health care providers.

EXPLANATION: This section contains an inaccurate reference in subdivision (16) of subsection 2:

334.613. Refusal to issue or renew a license, procedure — complaint may be filed, when, requirements for proceedings on — disciplinary action authorized. — 1. The board may refuse to issue or renew a license to practice as a physical therapist or physical therapist assistant for one or any combination of causes stated in subsection 2 of this section. The board shall notify the applicant in writing of the reasons for the refusal and shall advise the applicant of the applicant's right to file a complaint with the administrative hearing commission as provided by chapter 621. As an alternative to a refusal to issue or renew a license to practice as a physical therapist or physical therapist assistant, the board may, at its discretion, issue a license which is subject to probation, restriction, or limitation to an applicant for licensure for any one or any combination of causes stated in subsection 2 of this section. The board's order of probation, limitation, or restriction shall contain a statement of the discipline imposed, the basis therefor, the date such action shall become effective, and a statement that the applicant has thirty days to request
in writing a hearing before the administrative hearing commission. If the board issues a probationary, limited, or restricted license to an applicant for licensure, either party may file a written petition with the administrative hearing commission within thirty days of the effective date of the probationary, limited, or restricted license seeking review of the board's determination. If no written request for a hearing is received by the administrative hearing commission within the thirty-day period, the right to seek review of the board's decision shall be considered as waived.

2. The board may cause a complaint to be filed with the administrative hearing commission as provided by chapter 621 against any holder of a license to practice as a physical therapist or physical therapist assistant who has failed to renew or has surrendered his or her license for any one or any combination of the following causes:

   (1) Use of any controlled substance, as defined in chapter 195, or alcoholic beverage to an extent that such use impairs a person's ability to perform the work of a physical therapist or physical therapist assistant;

   (2) The person has been finally adjudicated and found guilty, or entered a plea of guilty or nolo contendere, in a criminal prosecution under the laws of any state or of the United States, for any offense reasonably related to the qualifications, functions, or duties of a physical therapist or physical therapist assistant, for any offense an essential element of which is fraud, dishonesty, or an act of violence, or for any offense involving moral turpitude, whether or not sentence is imposed;

4. The committee shall set the amount of the fees which sections 337.650 to 337.689 authorize and require by rules and regulations promulgated pursuant to chapter 536. The fees shall be set at a level to produce revenue which shall not substantially exceed the cost and expense of administering the provisions of sections 337.650 to 337.689. All fees provided for in sections 337.650 to 337.689 shall be collected by the director who shall deposit the same with the state treasurer in the clinical social workers fund established in section 337.612.

337.712. LICENSES, APPLICATION, OATH, FEE — LOST CERTIFICATES — FUND. — 1. Applications for licensure as a marital and family therapist shall be in writing, submitted to the committee on forms prescribed by the committee and furnished to the applicant. The application shall contain the applicant's statements showing the applicant's education, experience and such other information as the committee may require. Each application shall contain a statement that it is made under oath or affirmation and that the information contained therein is true and correct to the best knowledge and belief of the applicant, subject to the penalties provided for the making of a false affidavit or declaration. Each application shall be accompanied by the fees required by the division.

2. The division shall mail a renewal notice to the last known address of each licensee prior to the licensure renewal date. Failure to provide the division with the information required for [license] licensure, or to pay the licensure fee after such notice shall [effect a revocation of the license after a period of sixty days from the license renewal date] result in the expiration of the license. The license shall be restored if, within two years of the licensure date, the applicant provides written application and the payment of the licensure fee and a delinquency fee.

3. A new certificate to replace any certificate lost, destroyed or mutilated may be issued subject to the rules of the division upon payment of a fee.

4. The committee shall set the amount of the fees authorized. The fees shall be set at a level to produce revenue which shall not substantially exceed the cost and expense of administering the provisions of sections 337.700 to 337.739. All fees provided for in sections 337.700 to 337.739 shall be collected by the director who shall deposit the same with the state treasurer to a fund to be known as the "Marital and Family Therapists' Fund".

5. The provisions of section 33.080 to the contrary notwithstanding, money in this fund shall not be transferred and placed to the credit of general revenue until the amount in the fund at the end of the biennium exceeds two times the amount of the appropriations from the marital and family therapists' fund for the preceding fiscal year or, if the division requires by rule renewal less frequently than yearly then three times the appropriation from the fund for the preceding fiscal year. The amount, if any, in the fund which shall lapse is that amount in the fund which exceeds the appropriate multiple of the appropriations from the marital and family therapists' fund for the preceding fiscal year.

All members, including public members, shall be chosen from lists submitted by the director of the division of professional registration. The duties of the public member shall not include the determination of the technical requirements to be met for licensure or whether any person meets such technical requirements or of the technical competence or technical judgment of a licensee or a candidate for licensure.

3. The commission shall employ such board personnel, as defined in subdivision (4) of subsection [10] [11] of section 324.001, as it shall deem necessary to discharge the duties imposed by the provisions of sections 339.010 to 339.180 and sections 339.710 to 339.860. All rulemaking authority delegated prior to August 28, 1999, is of no force and effect and repealed. Nothing in this section shall be interpreted to repeal or affect the validity of any rule filed or adopted prior to August 28, 1999, if it fully complied with all applicable provisions of law. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to

386.890. CITATION OF LAW — DEFINITIONS — RETAIL ELECTRIC SUPPLIERS, DUTIES — METERING EQUIPMENT REQUIREMENTS — ELECTRICAL ENERGY GENERATION UNITS, CALCULATION, REQUIREMENTS — REPORT — RULES — LIABILITY FOR DAMAGES. — 1. This section shall be known and may be cited as the "Net Metering and Easy Connection Act".

2. As used in this section, the following terms shall mean:

(1) "Avoided fuel cost", the current average cost of fuel for the entity generating electricity, as defined by the governing body with jurisdiction over any municipal electric utility, rural electric cooperative as provided in chapter 394, or electrical corporation as provided in this chapter;

(2) "Commission", the public service commission of the state of Missouri;

(3) "Customer-generator", the owner or operator of a qualified electric energy generation unit which:

(a) Is powered by a renewable energy resource;

(b) Has an electrical generating system with a capacity of not more than one hundred kilowatts;

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
(c) Is located on a premises owned, operated, leased, or otherwise controlled by the customer-generator;
(d) Is interconnected and operates in parallel phase and synchronization with a retail electric supplier and has been approved by said retail electric supplier;
(e) Is intended primarily to offset part or all of the customer-generator's own electrical energy requirements;
(f) Meets all applicable safety, performance, interconnection, and reliability standards established by the National Electrical Code, the National Electrical Safety Code, the Institute of Electrical and Electronics Engineers, Underwriters Laboratories, the Federal Energy Regulatory Commission, and any local governing authorities; and
(g) Contains a mechanism that automatically disables the unit and interrupts the flow of electricity back onto the supplier's electricity lines in the event that service to the customer-generator is interrupted;

(4) "Department", the department of [natural resources] economic development;
(5) "Net metering", using metering equipment sufficient to measure the difference between the electrical energy supplied to a customer-generator by a retail electric supplier and the electrical energy supplied by the customer-generator to the retail electric supplier over the applicable billing period;
(6) "Renewable energy resources", electrical energy produced from wind, solar thermal sources, hydroelectric sources, photovoltaic cells and panels, fuel cells using hydrogen produced by one of the above-named electrical energy sources, and other sources of energy that become available after August 28, 2007, and are certified as renewable by the department;
(7) "Retail electric supplier" or "supplier", any municipal utility, electrical corporation regulated under this chapter, or rural electric cooperative under chapter 394 that provides retail electric service in this state.

3. A retail electric supplier shall:
   (1) Make net metering available to customer-generators on a first-come, first-served basis until the total rated generating capacity of net metering systems equals five percent of the utility's single-hour peak load during the previous year, after which the commission for a public utility or the governing body for other electric utilities may increase the total rated generating capacity of net metering systems to an amount above five percent. However, in a given calendar year, no retail electric supplier shall be required to approve any application for interconnection if the total rated generating capacity of all applications for interconnection already approved to date by said supplier in said calendar year equals or exceeds one percent of said supplier's single-hour peak load for the previous calendar year;
   (2) Offer to the customer-generator a tariff or contract that is identical in electrical energy rates, rate structure, and monthly charges to the contract or tariff that the customer would be assigned if the customer were not an eligible customer-generator but shall not charge the customer-generator any additional standby, capacity, interconnection, or other fee or charge that would not otherwise be charged if the customer were not an eligible customer-generator; and
   (3) Disclose annually the availability of the net metering program to each of its customers with the method and manner of disclosure being at the discretion of the supplier.

4. A customer-generator's facility shall be equipped with sufficient metering equipment that can measure the net amount of electrical energy produced or consumed by the customer-generator. If the customer-generator's existing meter equipment does not meet these requirements or if it is necessary for the electric supplier to install additional distribution equipment to accommodate the customer-generator's facility, the customer-generator shall reimburse the retail electric supplier for the costs to purchase and install the necessary additional equipment. At the request of the customer-generator, such costs may be initially paid for by the retail electric supplier, and any amount up to the total costs and a reasonable interest charge may be recovered from the customer-generator.

generator over the course of up to twelve billing cycles. Any subsequent meter testing, maintenance or meter equipment change necessitated by the customer-generator shall be paid for by the customer-generator.

5. Consistent with the provisions in this section, the net electrical energy measurement shall be calculated in the following manner:

(1) For a customer-generator, a retail electric supplier shall measure the net electrical energy produced or consumed during the billing period in accordance with normal metering practices for customers in the same rate class, either by employing a single, bidirectional meter that measures the amount of electrical energy produced and consumed, or by employing multiple meters that separately measure the customer-generator's consumption and production of electricity;

(2) If the electricity supplied by the supplier exceeds the electricity generated by the customer-generator during a billing period, the customer-generator shall be billed for the net electricity supplied by the supplier in accordance with normal practices for customers in the same rate class;

(3) If the electricity generated by the customer-generator exceeds the electricity supplied by the supplier during a billing period, the customer-generator shall be billed for the appropriate customer charges for that billing period in accordance with subsection 3 of this section and shall be credited an amount at least equal to the avoided fuel cost of the excess kilowatt-hours generated during the billing period, with this credit applied to the following billing period;

(4) Any credits granted by this subsection shall expire without any compensation at the earlier of either twelve months after their issuance or when the customer-generator disconnects service or terminates the net metering relationship with the supplier;

(5) For any rural electric cooperative under chapter 394, or municipal utility, upon agreement of the wholesale generator supplying electric energy to the retail electric supplier, at the option of the retail electric supplier, the credit to the customer-generator may be provided by the wholesale generator.

6. (1) Each qualified electric energy generation unit used by a customer-generator shall meet all applicable safety, performance, interconnection, and reliability standards established by any local code authorities, the National Electrical Code, the National Electrical Safety Code, the Institute of Electrical and Electronics Engineers, and Underwriters Laboratories for distributed generation. No supplier shall impose any fee, charge, or other requirement not specifically authorized by this section or the rules promulgated under subsection 9 of this section unless the fee, charge, or other requirement would apply to similarly situated customers who are not customer-generators, except that a retail electric supplier may require that a customer-generator's system contain a switch, circuit breaker, fuse, or other easily accessible device or feature located in immediate proximity to the customer-generator's metering equipment that would allow a utility worker the ability to manually and instantly disconnect the unit from the utility's electric distribution system;

(2) For systems of ten kilowatts or less, a customer-generator whose system meets the standards and rules under subdivision (1) of this subsection shall not be required to install additional controls, perform or pay for additional tests or distribution equipment, or purchase additional liability insurance beyond what is required under subdivision (1) of this subsection and subsection 4 of this section;

(3) For customer-generator systems of greater than ten kilowatts, the commission for public utilities and the governing body for other utilities shall, by rule or equivalent formal action by each respective governing body:
   (a) Set forth safety, performance, and reliability standards and requirements; and
   (b) Establish the qualifications for exemption from a requirement to install additional controls, perform or pay for additional tests or distribution equipment, or purchase additional liability insurance.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.
7. (1) Applications by a customer-generator for interconnection of a qualified electric energy
generation unit meeting the requirements of subdivision (3) of subsection 2 of this section to the
distribution system shall be accompanied by the plan for the customer-generator's electrical
generating system, including but not limited to a wiring diagram and specifications for the
generating unit, and shall be reviewed and responded to by the retail electric supplier within thirty
days of receipt for systems ten kilowatts or less and within ninety days of receipt for all other
systems. Prior to the interconnection of the qualified generation unit to the supplier's system, the
customer-generator will furnish the retail electric supplier a certification from a qualified
professional electrician or engineer that the installation meets the requirements of subdivision (1)
of subsection 6 of this section. If the application for interconnection is approved by the retail
electric supplier and the customer-generator does not complete the interconnection within one year
after receipt of notice of the approval, the approval shall expire and the customer-generator shall
be responsible for filing a new application.

   (2) Upon the change in ownership of a qualified electric energy generation unit, the new customer-
generator shall be responsible for filing a new application under subdivision (1) of this subsection.

8. Each commission-regulated supplier shall submit an annual net metering report to the
commission, and all other nonregulated suppliers shall submit the same report to their respective
governing body and make said report available to a consumer of the supplier upon request,
including the following information for the previous calendar year:

   (1) The total number of customer-generator facilities;
   (2) The total estimated generating capacity of its net-metered customer-generators; and
   (3) The total estimated net kilowatt-hours received from customer-generators.

9. The commission shall, within nine months of January 1, 2008, promulgate initial rules
necessary for the administration of this section for public utilities, which shall include regulations
ensuring that simple contracts will be used for interconnection and net metering. For systems of
ten kilowatts or less, the application process shall use an all-in-one document that includes a simple
interconnection request, simple procedures, and a brief set of terms and conditions. Any rule or
portion of a rule, as that term is defined in section 536.010, that is created under the authority
delegated in this section shall become effective only if it complies with and is subject to all of the
provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are
nonseverable and if any of the powers vested with the general assembly under chapter 536 to
review, to delay the effective date, or to disapprove and annul a rule are subsequently held
unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after
August 28, 2007, shall be invalid and void.

10. The governing body of a rural electric cooperative or municipal utility shall, within nine
months of January 1, 2008, adopt policies establishing a simple contract to be used for
interconnection and net metering. For systems of ten kilowatts or less, the application process shall
use an all-in-one document that includes a simple interconnection request, simple procedures, and
a brief set of terms and conditions.

11. For any cause of action relating to any damages to property or person caused by the
generation unit of a customer-generator or the interconnection thereof, the retail electric supplier
shall have no liability absent clear and convincing evidence of fault on the part of the supplier.

12. The estimated generating capacity of all net metering systems operating under the
provisions of this section shall count towards the respective retail electric supplier's accomplishment
of any renewable energy portfolio target or mandate adopted by the Missouri general assembly.

13. The sale of qualified electric generation units to any customer-generator shall be subject
to the provisions of sections 407.700 to 407.720. The attorney general shall have the authority to
EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.
promulgate in accordance with the provisions of chapter 536 rules regarding mandatory
disclosures of information by sellers of qualified electric generation units. Any interested person
who believes that the seller of any electric generation unit is misrepresenting the safety or
performance standards of any such systems, or who believes that any electric generation unit poses
a danger to any property or person, may report the same to the attorney general, who shall be
authorized to investigate such claims and take any necessary and appropriate actions.

14. Any costs incurred under this act by a retail electric supplier shall be recoverable in that
utility's rate structure.

15. No consumer shall connect or operate an electric generation unit in parallel phase and
synchronization with any retail electric supplier without written approval by said supplier that all
of the requirements under subdivision (1) of subsection 7 of this section have been met. For a
consumer who violates this provision, a supplier may immediately and without notice disconnect
the electric facilities of said consumer and terminate said consumer's electric service.

16. The manufacturer of any electric generation unit used by a customer-generator may be
held liable for any damages to property or person caused by a defect in the electric generation unit
of a customer-generator.

17. The seller, installer, or manufacturer of any electric generation unit who knowingly
misrepresents the safety aspects of an electric generation unit may be held liable for any damages
to property or person caused by the electric generation unit of a customer-generator.

393.1025. DEFINITIONS. — As used in sections 393.1020 to 393.1030, the following terms mean:
(1) "Commission", the public service commission;
(2) "Department", the department of [natural resources] economic development;
(3) "Electric utility", any electrical corporation as defined by section 386.020;
(4) "Renewable energy credit" or "REC", a tradeable certificate of proof that one megawatt-
hour of electricity has been generated from renewable energy sources; and
(5) "Renewable energy resources", electric energy produced from wind, solar thermal sources,

require a new diversion or impoundment of water and that has a nameplate rating of ten megawatts
or less, fuel cells using hydrogen produced by one of the above-named renewable energy sources,
and other sources of energy not including nuclear that become available after November 4, 2008,
and are certified as renewable by rule by the department.

393.1030. ELECTRIC UTILITIES, PORTFOLIO REQUIREMENTS — TRACKING REQUIREMENTS
— REBATE OFFERS — CERTIFICATION OF ELECTRICITY GENERATED — RULEMAKING
AUTHORITY. — 1. The commission shall, in consultation with the department, prescribe by rule a
portfolio requirement for all electric utilities to generate or purchase electricity generated from
renewable energy resources. Such portfolio requirement shall provide that electricity from renewable
energy resources shall constitute the following portions of each electric utility's sales:

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.
(1) No less than two percent for calendar years 2011 through 2013;
(2) No less than five percent for calendar years 2014 through 2017;
(3) No less than ten percent for calendar years 2018 through 2020; and
(4) No less than fifteen percent in each calendar year beginning in 2021.

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. A utility may comply with the standard in whole or in part by purchasing RECs. Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. The commission, in consultation with the department and within one year of November 4, 2008, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may not use a credit derived from a green pricing program. Certificates from net-metered sources shall initially be owned by the customer-generator. The commission, except where the department is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the [department's energy center division of energy] solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
3. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail rate increase provided for in subdivision (1) of subsection 2 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection 2 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

4. The department shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. 414.400. Definitions — Program for State Fuel Consumption Reduction, Fleet Management and Promotion of Alternative Fuels, University of Missouri, Included Duties — Exceptions for Certain Vehicles. — 1. As used in sections 414.400 to 414.417, the following terms mean:
   (1) "Alternative fuel", any fuel, including any alcohol fuel containing eighty-five percent or more by volume of such alcohol or other such percentage not less than seventy percent if determined by the United States Department of Energy by rule to be necessary to provide for the requirements of cold start, safety, or vehicle functions, natural gas, liquefied petroleum gas, any fuel other than alcohol derived from biological materials when designated by the United States Department of Energy as an alternative fuel, and hydrogen, or any power source, including electricity, and any other fuel that the United States Department of Energy determines by final rule is substantially not petroleum and would yield substantial energy security and environmental benefits, used in a vehicle that complies with the standards and requirements applicable to such vehicle pursuant to sections 414.400 to 414.417 when using such fuel or power source;
   (2) "CAFE standard", the federal Corporate Average Fuel Economy standard, 15 U.S.C. 2002 or 40 CFR Parts 86 and 600 or 49 CFR Part 538 or proposed rule 49 CFR Part 538 until such rule is finalized;
   (3) "Department", the department of [natural resources] economic development;
   (4) "Director", the director of the department of [natural resources] economic development;
   (5) "State agency", the same meaning as such term is defined in section 536.010;
   (6) "Vehicle fleet", any fleet comprised of vehicles with a manufacturer's gross vehicle weight rating of not more than eight thousand five hundred pounds registered for operation on the highways of this state pursuant to chapter 301.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
2. The department in consultation with the commissioner of administration shall develop and implement a program to manage and progressively reduce state agency vehicle fleet fuel consumption and promote the use of alternative fuels. The program shall require state agencies to meet minimum guidelines for efficient fleet management. Such guidelines shall be updated and revised every two years and shall require the overall vehicle fleet fuel efficiency for each agency to meet or exceed the fuel efficiency that would be achieved if each vehicle in the agency's fleet met the CAFE standard. The department may promulgate rules necessary to implement such guidelines. Further, provided that suppliers or state agencies have or can reasonably be expected to have established alternative fuel refueling stations as needed, the program shall require that at least thirty percent of all motor fuel purchased annually for use in alternative fuel vehicles, calculated in gasoline gallon equivalents, to be alternative fuel by July 1, 2001. Any alternative fuel purchased by a state agency for use in vehicles not included in their vehicle fleet as defined in subsection 1 of this section, calculated in gasoline gallon equivalents, may be credited toward the annual alternative fuel purchase goal. The program shall systematically replace existing state-owned vehicles and vehicles paid for with any state money, including vehicles purchased by the university system, with vehicles manufactured, assembled or produced in the United States, as required by sections 34.350 to 34.359.

3. The commissioner of administration shall identify specific vehicle models within each vehicle procurement class that meet or exceed the CAFE standard. State agencies shall identify specific vehicle models within each vehicle procurement class that have a life cycle cost which is less than or equal to the average life cycle cost of those vehicles in the class which are manufactured, assembled or produced in the United States. Life cycle costs shall include but are not limited to the original cost of the vehicle, conversion cost if applicable, costs associated with vehicle emissions to the extent that such statistics are available, and projected cost of operation, including fuel cost and maintenance and salvage value to the extent that reliable maintenance and salvage value statistics are available. Unless a state agency submits to the department a fleet efficiency plan that complies with the minimum guidelines for energy efficiency established pursuant to subsection 2 of this section, or unless otherwise approved by the office of administration pursuant to subsection 4 of this section, all purchases of vehicles for state agency vehicle fleets shall meet the above standards.

4. The commissioner of administration may waive the CAFE standard requirements of subsection 3 of this section, for only those vehicles which satisfy one or more of the following conditions, for any state agency upon receipt of documentation that has been certified by the director of the state agency as satisfying one or more of the following conditions:

   (1) Such vehicles are used primarily in off-road, construction, or road maintenance applications;
   (2) Such vehicles are regularly used in the movement of maintenance or construction equipment;
   (3) Such vehicles are trucks or utility vehicles as defined by the office of administration that are regularly used to transport trailers for the purpose of moving state equipment; or
   (4) Such vehicles are vehicles with manufacturer-stated seating capacity exceeding that for six persons and the director of the agency has certified that the vehicle will be used to transport its rated capacity in persons and/or cargo. Agencies which are granted such waivers shall comply with the planning requirements of section 414.403.

5. The purchase of all class III vehicles, as defined by the office of administration, shall be approved through the appropriations process for all departments except the highway patrol. The provisions of this subsection shall not apply to the purchase of used vehicles from the highway patrol.

414.406. VEHICLE FLEET PLAN REVIEWED — OFFICE OF ADMINISTRATION TO PURCHASE ONLY VEHICLES CONFORMING TO PLAN — ANNUAL REPORT, CONTENT. — 1. The director of
the department of [natural resources] economic development shall review each agency's vehicle fleet plan and the vehicular demands of the agency by vehicle class. The office of administration shall only purchase for an agency those vehicles which conform to the agency's plan as outlined in sections 414.400 and 414.403.

2. Each state agency shall annually file a report with the director of the department of [natural resources] economic development on forms provided by the department showing its progress in achieving the requirements and goals of sections 414.400 to 414.417. The director of the department of [natural resources] economic development shall compile such information into an annual report and submit such report to the commissioner of administration, the secretary of the senate, the clerk of the house of representatives and the chairman of each committee of jurisdiction of the general assembly.

3. The director's report shall document progress in achieving the requirements and goals of sections 414.400 to 414.417 and shall include, but not be limited to, annual fuel consumption, number of vehicles, vehicle miles traveled, average fleet fuel economy, estimated cost savings and state use of alternative fuels.

EXPLANATION: THIS SECTION CONTAINS AN INACCURATE INTERSECTIONAL REFERENCE IN SUBSECTION 3:

414.412. ALTERNATIVE USE OF FUEL, WAIVED OR PERCENTAGE REDUCED BY DIRECTOR, CERTIFIED EVIDENCE REQUIRED — OTHER VEHICLES, ETHANOL USE REQUIRED, EXCEPTIONS. — 1. The director may reduce any percentage specified or waive the requirement of subsection 3 of section 414.410 for any state agency upon receipt of certification supported by evidence acceptable to the director that:

(1) The agency's vehicles will be operating primarily in an area in which neither the agency nor a supplier has or can reasonably be expected to have a central refueling station for alternative fuels; or
(2) The agency is unable to acquire or operate vehicles within the cost limitations of section 414.400 or section 414.415; or
(3) The use of alternative fuels would not meet the energy conservation and exhaust emissions reduction criteria of subsection 2 of section 414.410.

2. State agencies shall submit information describing the acquisition and use of vehicles capable of using alternative fuels to the department in a format prescribed by the department. The report shall include for each vehicle model capable of using alternative fuel:

(1) The types of alternative fuels used;
(2) The number of miles traveled using alternative fuels and the ratios to the total numbers of miles traveled;
(3) The number of vehicles owned which are capable of using alternative fuels;
(4) Maintenance costs.

3. Each state-owned vehicle equipped to operate on gasoline, other than vehicles using alternative fuel, shall use a fuel ethanol blend as defined in section 142.027 when available at a competitive price, as its motor fuel, unless the United States Environmental Protection Agency, or the governor by executive order, promulgates rules which prohibit, limit or otherwise regulate the use of ethanol-blended fuels in ozone nonattainment areas, as defined by Section 107 of the federal Clean Air Act, as amended, or in an area designated as a maintenance area for ozone under Section 175A of the federal Clean Air Act, as amended, state-owned vehicles shall not be required to use a fuel ethanol blend.

[105.959. REVIEW OF REPORTS AND STATEMENTS, NOTICE — AUDITS AND INVESTIGATIONS — FORMAL INVESTIGATIONS — REPORT — REFERRAL OF REPORT. — 1. The executive director of the commission, under the supervision of the commission, shall review reports and statements filed with the commission or other appropriate officers pursuant to sections 105.470, 105.483 to 105.492, and chapter 130 for completeness, accuracy and timeliness of filing of the reports or statements and any records relating to the reports or statements, and upon review, if there are reasonable grounds to believe that a violation has occurred, shall conduct an investigation of such reports, statements, and records and assign a special investigator following the provisions of subsection 1 of section 105.961.

2. (1) If there are reasonable grounds to believe that a violation has occurred and after the commission unanimously votes to proceed with all six members voting, the executive director shall, without receipt of a complaint, conduct an independent investigation of any potential violations of the provisions of:

(a) The requirements imposed on lobbyists by sections 105.470 to 105.478;

(f) The provisions of the constitution or state statute or order, ordinance, or resolution of any political subdivision relating to the official conduct of officials or employees of the state and political subdivisions.

(2) If an investigation conducted under this subsection fails to establish reasonable grounds to believe that a violation has occurred, the investigation shall be terminated and the person who had been under investigation shall be notified of the reasons for the disposition of the complaint.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
3. Upon findings of the appropriate filing officer which are reported to the commission in accordance with the provisions of section 130.056, the executive director shall investigate disclosure reports, statements and records pertaining to such findings within a reasonable time after receipt of the reports from the appropriate filing officer.

4. The commission may make such investigations and inspections within or outside of this state as are necessary to determine compliance.

5. The commission shall notify the person under investigation under this section, by registered mail, within five days of the decision to conduct such investigation and assign a special investigator following the provisions of subsection 1 of section 105.961.

6. After completion of an investigation, the executive director shall provide a detailed report of such investigation to the commission. Upon determination that there are reasonable grounds to believe that a person has violated the requirements of sections 105.470, 105.483 to 105.492, or chapter 130, by a vote of four members of the commission, the commission may refer the report with the recommendations of the commission to the appropriate prosecuting authority together with the details of the investigation by the commission as is provided in subsection 2 of section 105.961.

7. All investigations by the executive director of an alleged violation shall be strictly confidential with the exception of notification of the commission and the complainant and the person under investigation. Revealing any such confidential investigation information shall be cause for removal or dismissal of the executive director or a commission member or employee.

[105.961. SPECIAL INVESTIGATOR — REPORT — COMMISSION REVIEW, DETERMINATION — SPECIAL PROSECUTOR — HEARINGS — ACTION OF COMMISSION — FORMAL PROCEEDINGS — APPROPRIATE DISCIPLINARY AUTHORITIES — POWERS OF INVESTIGATORS — FEES AND EXPENSES — CONFIDENTIALITY, PENALTY — COMPENSATION. — 1. Upon receipt of a complaint as described by section 105.957 or upon notification by the commission of an investigation under subsection 5 of section 105.959, the commission shall assign the complaint or investigation to a special investigator, who may be a commission employee, who shall investigate and determine the merits of the complaint or investigation. Within ten days of such assignment, the special investigator shall review such complaint and disclose, in writing, to the commission any conflict of interest which the special investigator has or might have with respect to the investigation and subject thereof. Within ninety days of receipt of the complaint from the commission, the special investigator shall submit the special investigator's report to the commission. The commission, after review of such report, shall determine:

(1) That there is reasonable grounds for belief that a violation has occurred; or

(2) That there are no reasonable grounds for belief that a violation exists and the complaint or investigation shall be dismissed; or

(3) That additional time is necessary to complete the investigation, and the status and progress of the investigation to date. The commission, in its discretion, may allow the investigation to proceed for no more than two additional successive periods of ninety days each, pending reports regarding the status and progress of the investigation at the end of each such period.

2. When the commission concludes, based on the report from the special investigator, or based on an investigation conducted pursuant to section 105.959, that there are reasonable grounds to believe that a violation of any criminal law has occurred, and if the commission believes that criminal prosecution would be appropriate upon a vote of four members of the commission, the commission shall refer the report to the Missouri office of prosecution services, prosecutors coordinators training council established in section 56.760, which shall submit a panel of five attorneys for recommendation to the court having criminal jurisdiction, for appointment of an

attorney to serve as a special prosecutor; except that, the attorney general of Missouri or any assistant attorney general shall not act as such special prosecutor. The court shall then appoint from such panel a special prosecutor pursuant to section 56.110 who shall have all the powers provided by section 56.130. The court shall allow a reasonable and necessary attorney's fee for the services of the special prosecutor. Such fee shall be assessed as costs if a case is filed, or ordered by the court if no case is filed, and paid together with all other costs in the proceeding by the state, in accordance with rules and regulations promulgated by the state courts administrator, subject to funds appropriated to the office of administration for such purposes. If the commission does not have sufficient funds to pay a special prosecutor, the commission shall refer the case to the prosecutor or prosecutors having criminal jurisdiction. If the prosecutor having criminal jurisdiction is not able to prosecute the case due to a conflict of interest, the court may appoint a special prosecutor, paid from county funds, upon appropriation by the county or the attorney general to investigate and, if appropriate, prosecute the case. The special prosecutor or prosecutor shall commence an action based on the report by the filing of an information or seeking an indictment within sixty days of the date of such prosecutor's appointment, or shall file a written statement with the commission explaining why criminal charges should not be sought. If the special prosecutor or prosecutor fails to take either action required by this subsection, upon request of the commission, a new special prosecutor, who may be the attorney general, shall be appointed. The report may also be referred to the appropriate disciplinary authority over the person who is the subject of the report.

3. When the commission concludes, based on the report from the special investigator or based on an investigation conducted pursuant to section 105.959, that there are reasonable grounds to believe that a violation of any law has occurred which is not a violation of criminal law or that criminal prosecution is not appropriate, the commission shall conduct a hearing which shall be a closed meeting and not open to the public. The hearing shall be conducted pursuant to the procedures provided by sections 536.063 to 536.090 and shall be considered to be a contested case for purposes of such sections. The commission shall determine, in its discretion, whether or not that there is probable cause that a violation has occurred. If the commission determines, by a vote of at least four members of the commission, that probable cause exists that a violation has occurred, the commission may refer its findings and conclusions to the appropriate disciplinary authority over the person who is the subject of the report.

4. If the appropriate disciplinary authority receiving a report from the commission pursuant to subsection 3 of this section fails to follow, within sixty days of the receipt of the report, the recommendations contained in the report, or if the commission determines, by a vote of at least four members of the commission that some action other than referral for criminal prosecution or for action by the appropriate disciplinary authority would be appropriate, the commission shall take any one or more of the following actions:

(1) Notify the person to cease and desist violation of any provision of law which the report concludes was violated and that the commission may seek judicial enforcement of its decision pursuant to subsection 5 of this section;

(2) Notify the person of the requirement to file, amend or correct any report, statement, or other document or information required by sections 105.473, 105.483 to 105.492, or chapter 130 and that the commission may seek judicial enforcement of its decision pursuant to subsection 5 of this section; and

(3) File the report with the executive director to be maintained as a public document; or

(4) Issue a letter of concern or letter of reprimand to the person, which would be maintained as a public document; or

Matter in bold-face type is proposed language.
(5) Issue a letter that no further action shall be taken, which would be maintained as a public
document; or

(6) Through reconciliation agreements or action of the commission, the power to seek fees for violations
in an amount not greater than one thousand dollars or double the amount involved in the violation.

5. Upon vote of at least four members, the commission may initiate formal judicial
proceedings in the circuit court of Cole County seeking to obtain any of the following orders:

(1) Cease and desist violation of any provision of sections 105.450 to 105.496, or chapter 130,
or sections 105.955 to 105.963;

(2) Pay any civil penalties required by sections 105.450 to 105.496 or chapter 130;

(3) File any reports, statements, or other documents or information required by sections
105.450 to 105.496, or chapter 130; or

(4) Pay restitution for any unjust enrichment the violator obtained as a result of any violation
of any criminal statute as described in subsection 7 of this section.

6. After the commission determines by a vote of at least four members of the commission that
a violation has occurred, other than a referral for criminal prosecution, and the commission has
referred the findings and conclusions to the appropriate disciplinary authority over the person who
is the subject of the report, or has taken an action under subsection 4 of this section, the subject of
the report may appeal the determination of the commission to the circuit court of Cole County.
The court shall conduct a de novo review of the determination of the commission. Such appeal
shall stay the action of the Missouri ethics commission. Such appeal shall be filed not later than
the fourteenth day after the subject of the commission's action receives actual notice of the
commission's action. If a petition for judicial review of a final order is not filed as provided in this
section or when an order for fees under subsection 4 of this section becomes final following an
appeal to the circuit court of Cole County, the commission may file a certified copy of the final
order with the circuit court of Cole County. When any order for fees under subsection 4 of this
section becomes final, the commission may file a certified copy of the final order with the circuit
court of Cole County. The order so filed shall have the same effect as a judgment of the court and
may be recorded, enforced, or satisfied in the same manner as a judgment of the court.

7. In the proceeding in the circuit court of Cole County, the commission may seek restitution
against any person who has obtained unjust enrichment as a result of violation of any provision of
sections 105.450 to 105.496, or chapter 130 and may recover on behalf of the state or political
subdivision with which the alleged violator is associated, damages in the amount of any unjust
enrichment obtained and costs and attorney's fees as ordered by the court.

8. The appropriate disciplinary authority to whom a report shall be sent pursuant to subsection
2 or 3 of this section shall include, but not be limited to, the following:

(1) In the case of a member of the general assembly, the ethics committee of the house of
which the subject of the report is a member;

(2) In the case of a person holding an elective office or an appointive office of the state, if the
alleged violation is an impeachable offense, the report shall be referred to the ethics committee of
the house of representatives;

(3) In the case of a person holding an elective office of a political subdivision, the report shall
be referred to the governing body of the political subdivision;

(4) In the case of any officer or employee of the state or of a political subdivision, the report
shall be referred to the person who has immediate supervisory authority over the employment by
the state or by the political subdivision of the subject of the report;
(5) In the case of a judge of a court of law, the report shall be referred to the commission on retirement, removal and discipline, or if the inquiry involves an employee of the judiciary to the applicable presiding judge;

(6) In the case of a person holding an appointive office of the state, if the alleged violation is not an impeachable offense, the report shall be referred to the governor;

(7) In the case of a statewide elected official, the report shall be referred to the attorney general;

(8) In a case involving the attorney general, the report shall be referred to the prosecuting attorney of Cole County.

9. The special investigator having a complaint referred to the special investigator by the commission shall have the following powers:

(1) To request and shall be given access to information in the possession of any person or agency which the special investigator deems necessary for the discharge of the special investigator's responsibilities;

(2) To examine the records and documents of any person or agency, unless such examination would violate state or federal law providing for confidentiality;

(3) To administer oaths and affirmations;

(4) Upon refusal by any person to comply with a request for information relevant to an investigation, an investigator may issue a subpoena for any person to appear and give testimony, or for a subpoena duces tecum to produce documentary or other evidence which the investigator deems relevant to a matter under the investigator's inquiry. The subpoenas and subpoenas duces tecum may be enforced by applying to a judge of the circuit court of Cole County or any county where the person or entity that has been subpoenaed resides or may be found, for an order to show cause why the subpoena or subpoena duces tecum should not be enforced. The order and a copy of the application therefor shall be served in the same manner as a summons in a civil action, and if, after hearing, the court determines that the subpoena or subpoena duces tecum should be sustained and enforced, the court shall enforce the subpoena or subpoena duces tecum in the same manner as if it had been issued by the court in a civil action; and

Nothing in this chapter shall prevent a candidate from appointing himself or herself as a committee of one and serving as the person's own treasurer, maintaining the candidate's own records and filing all the reports and statements required to be filed by the treasurer of a candidate committee.

3. A candidate who has more than one candidate committee supporting the person's candidacy shall designate one of those candidate committees as the committee responsible for consolidating the aggregate contributions to all such committees under the candidate's control and direction as required by section 130.041. Any contributions received or expenditures made which are not reported because this statement is filed in lieu of a disclosure report shall be included in the next disclosure report filed by the committee. This statement shall not be filed in lieu of the report for two or more consecutive disclosure periods if either the contributions received or expenditures made in the aggregate during those reporting periods exceed five hundred dollars. This statement shall not be filed, in lieu of the report, later than the thirtieth day after an election if that report would show a deficit of more than one thousand dollars.

6. (1) If the disclosure report required to be filed by a committee not later than the thirtieth day after an election shows a deficit of unpaid loans and other outstanding obligations in excess of five thousand dollars, semiannual supplemental disclosure reports shall be filed with the appropriate officer for each succeeding semiannual period until the deficit is reported in a disclosure report as being reduced to five thousand dollars or less; except that, a supplemental semiannual report shall not be required for any semiannual period which includes the closing date for the reporting period covered in any regular disclosure report which the committee is required to file in connection with an election. The reporting dates and periods covered for semiannual reports shall be not later than the fifteenth day of January and July for periods closing on the thirty-first day of December and the thirtieth day of June.

   (2) Committees required to file reports pursuant to subsection 2 or 3 of this section which are not otherwise required to file disclosure reports for an election shall file semiannual reports as

8. Disclosure reports shall be filed with the appropriate officer not later than 5:00 p.m. prevailing local time of the day designated for the filing of the report and a report postmarked not later than midnight of the day previous to the day designated for filing the report shall be deemed to have been filed in a timely manner. The appropriate officer may establish a policy whereby disclosure reports may be filed by facsimile transmission.

9. Each candidate for the office of state representative, state senator, and for statewide elected office shall file all disclosure reports described in section 130.041 electronically with the Missouri ethics commission. The Missouri ethics commission shall promulgate rules establishing the standard for electronic filings with the commission and shall propose such rules for the importation of files to the reporting program.

10. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2006, shall be invalid and void.

2. The ethics commission may establish for elections in 1996 and shall establish for elections and all required reporting beginning in 1998 and maintain thereafter a state campaign finance and financial interest disclosure electronic reporting system pursuant to this section for all candidates required to file. The system may be used for the collection, filing and dissemination of all reports, including monthly lobbying reports filed by law, and all reports filed with the commission pursuant to this chapter and chapter 105. The system may be established and used for all reports required to be filed for the primary and general elections in 1996 and all elections thereafter, except that the system may require maintenance of a paper backup system for the primary and general elections in 1996. The reports shall be maintained and secured in the electronic format by the commission.

3. When the commission determines that the electronic reporting system has been properly implemented, the commission shall certify to all candidates and committees required to file pursuant to this chapter that such electronic reporting system has been established and

electronic format prescribed by the commission or paper forms provided by the commission for
that purpose. Political action committees shall file reports by electronic format prescribed by the

by the commission for that purpose or by electronic format prescribed by the commission,
whichever reporting method the political action committee chooses. The commission shall supply
a computer program which shall be used for filing by modem or by a common magnetic media

shall file a signed original written copy within five working days; except that, if a means becomes
available which will allow a verifiable electronic signature, the commission may also accept this
in lieu of a written statement.

4. Beginning January 1, 2000, or on the date the commission makes the certification pursuant
to subsection 3 of this section, whichever is later, all reports filed with the commission by any
candidate for a statewide office, or such candidate's committee, shall be filed in electronic format
as prescribed by the commission; provided however, that if a candidate for statewide office, or
such candidate's committee receives or spends five thousand dollars or less for any reporting
period, the report for that reporting period shall not be required to be filed electronically.

5. A copy of all reports filed in the state campaign finance electronic reporting system shall
be placed on a public electronic access system so that the general public may have open access to
the reports filed pursuant to this section. The access system shall be organized and maintained in
such a manner to allow an individual to obtain information concerning all contributions made to
or on behalf of, and all expenditures made on behalf of, any public official described in subsection
2 of this section in formats that will include both written and electronically readable formats.

6. All records that are in electronic format, not otherwise closed by law, shall be available in
electronic format to the public. The commission shall maintain and provide for public inspection,

If any individual with an ownership interest in the property fails to satisfy the eligibility requirements of an individual eligible owner or if the combined income of all individuals with interest in the property exceeds the maximum upper limit, then all individuals with an ownership interest in such property shall be deemed ineligible owners regardless of such other individual's ability to individually meet the eligibility requirements; or

For applications filed between April 1, 2005, and September 30, 2006, an eligible owner, who otherwise satisfied the requirements of this section, shall not apply for the homestead exemption credit more than once during such period. For purposes of this subdivision, the term "base year" means the year prior to the first year in which the eligible owner's application was approved, or 2006, whichever is later;

(7) "Income", federal adjusted gross income, and in the case of ownership of the homestead by trust, the income of the settlor applicant shall be imputed to the income of the trust for purposes of determining eligibility with regards to the maximum upper limit;

Pursuant to article X, section 6(a) of the Constitution of Missouri, if in the prior tax year, the property tax liability on any parcel of subclass (1) real property increased by more than the homestead exemption limit, without regard for any prior credit received due to the provisions of this section, then any eligible owner of the property shall receive a homestead exemption credit to be applied in the current tax year property tax liability to offset the prior year increase to tax liability that exceeds the homestead exemption limit, except as eligibility for the credit is limited by the provisions of this section. The amount of the credit shall be listed separately on each taxpayer's tax bill for the current tax year, or on a document enclosed with the taxpayer's bill. The homestead exemption credit shall not affect the process of setting the tax rate as required pursuant to article X, section 22 of the Constitution of Missouri and section 137.073 in any prior, current, or subsequent tax year.

4. If application is made in 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application through their local assessor's office. Applications may be completed between April first and September thirtieth of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
5. If application is made in 2005, the assessor, upon request for an application, shall:
   (1) Certify the parcel number and owner of record as of January first of the homestead,
       including verification of the acreage classified as residential on the assessor’s property record card;
   (2) Obtain appropriate prior tax year levy codes for each homestead from the county clerks
       for inclusion on the form;
   (3) Record on the application the assessed valuation of the homestead for the current tax year,
       and any new construction or improvements for the current tax year; and
   (4) Sign the application, certifying the accuracy of the assessor’s entries.
6. If application is made after 2005, any potential eligible owner may apply for the homestead
   exemption credit by completing an application. Applications may be completed between April
   first and October fifteenth of any tax year in order for the taxpayer to be eligible for the homestead
   exemption credit in the tax year next following the calendar year in which the homestead
   exemption application was completed. The application shall be on forms provided by the
   department. Forms also shall be made available on the department’s internet site and at all
   permanent branch offices and all full-time, temporary, or fee offices maintained by the department
   of revenue. The applicant shall attest under penalty of perjury:
      (1) To the applicant's age;
      (2) That the applicant's prior year income was less than the maximum upper limit;
      (3) To the address of the homestead property;
      (4) That any improvements made to the homestead, not made to accommodate a disabled
          person, did not total more than five percent of the prior year appraised value; and
      (5) The applicant shall also include with the application copies of receipts indicating payment
          of property tax by the applicant for the homestead property for the three prior tax years.
7. Each applicant shall send the application to the department by October fifteenth of each
   year for the taxpayer to be eligible for the homestead exemption credit in the tax year next
   following the calendar year in which the application was completed.
8. If application is made in 2005, upon receipt of the applications, the department shall
   calculate the tax liability, adjusted to exclude new construction or improvements verify compliance
   with the maximum income limit, verify the age of the applicants, and make adjustments to these
   numbers as necessary on the applications. The department also shall disallow any application
   where the applicant has also filed a valid application for the senior citizens property tax credit,
   pursuant to sections 135.010 to 135.035. Once adjusted tax liability, age, and income are verified,
   the director shall determine eligibility for the credit, and provide a list of all verified eligible owners
   to the county collectors or county clerks in counties with a township form of government by
   December fifteenth of each year. By January fifteenth, the county collectors or county clerks in
   counties with a township form of government shall provide a list to the department of any verified
   eligible owners who failed to pay the property tax due for the tax year that ended immediately
   prior. Such eligible owners shall be disqualified from receiving the credit in the current tax year.
9. If application is made after 2005, upon receipt of the applications, the department shall
   calculate the tax liability, verify compliance with the maximum income limit, verify the age of the
   applicants, and make adjustments to these numbers as necessary on the applications. The
   department also shall disallow any application where the applicant has also filed a valid application
   for the senior citizens property tax credit under sections 135.010 to 135.035. Once adjusted tax
   liability, age, and income are verified, the director shall determine eligibility for the credit and
   provide a list of all verified eligible owners to the county assessors or county clerks in counties
   with a township form of government by December fifteenth of each year. By January fifteenth,
   the county assessors shall provide a list to the department of any verified eligible owners who made
improvements not for accommodation of a disability to the homestead and the dollar amount of the assessed value of such improvements. If the dollar amount of the assessed value of such improvements totaled more than five percent of the prior year appraised value, such eligible owners shall be disqualified from receiving the credit in the current tax year.

10. The director shall calculate the level of appropriation necessary to set the homestead exemption limit at five percent when based on a year of general reassessment or at two and one-half percent when based on a year without general reassessment for the homesteads of all verified eligible owners, and provide such calculation to the speaker of the house of representatives, the president pro tempore of the senate, and the director of the office of budget and planning in the office of administration by January thirty-first of each year.

11. For applications made in 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all but one-quarter of one percent of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. The remaining one-quarter of one percent shall be distributed to the county assessment funds of each county on a proportional basis, based on the number of eligible owners in each county; such one-quarter percent distribution shall be delineated in any such appropriation as a separate line item in the total appropriation. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

12. After setting the homestead exemption limit for applications made in 2005, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation and assessment fund allocation to the county collector's funds of each county or the treasurer ex officio collector's fund in counties with a township form of government where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued, plus the one-quarter of one percent distribution for the county assessment funds. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section plus the one-quarter of one percent distribution for the county assessment funds. Funds, at the direction of the county collector or the treasurer ex officio collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or the treasurer ex officio collector's fund or may be sent by mail to the collector of a county, or the treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued. In counties with a township form of government, the county clerk shall provide the treasurer ex officio collector a summary of the homestead exemption credit for each township for
the purpose of distributing the total homestead exemption credit to each township collector in a
particular county.

13. If, in any given year after 2005, the general assembly shall make an appropriation for the
funding of the homestead exemption credit that is signed by the governor, then the director shall
determine the apportionment percentage by equally apportioning the appropriation among all
eligible applicants on a percentage basis. If no appropriation is made by the general assembly
during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then
no homestead preservation credit shall apply in such year.

14. After determining the apportionment percentage, the director shall calculate the credit to
be associated with each verified eligible owner's homestead, if any. The director shall send a list
of those eligible owners who are to receive the homestead exemption credit, including the amount
of each credit, the certified parcel number of the homestead, and the address of the homestead
property, to the county collectors or county clerks in counties with a township form of government
by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as
to how to distribute the appropriation to the county collector's fund of each county where recipients
of the homestead exemption credit are located, so as to exactly offset each homestead exemption
credit being issued. As a result of the appropriation, in no case shall a political subdivision receive
more money than it would have received absent the provisions of this section. Funds, at the
direction of the director, shall be deposited in the county collector's fund of a county or may be sent
by mail to the collector of a county, or treasurer ex officio collector in counties with a township
form of government, not later than October first in any year a homestead exemption credit is
appropriated as a result of this section and shall be distributed as moneys in such funds are
commonly distributed from other property tax revenues by the collector of the county or the
treasurer ex officio collector of the county in counties with a township form of government, so as
to exactly offset each homestead exemption credit being issued.

15. The department shall promulgate rules for implementation of this section. Any rule or
portion of a rule, as that term is defined in section 536.010, that is created under the authority
delegated in this section shall become effective only if it complies with and is subject to all of the
provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are
nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536
to review, to delay the effective date, or to disapprove and annul a rule are subsequently held
unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after
August 28, 2004, shall be invalid and void. Any rule promulgated by the department shall in no
way impact, affect, interrupt, or interfere with the performance of the required statutory duties of
any county elected official, more particularly including the county collector when performing such
duties as deemed necessary for the distribution of any homestead appropriation and the distribution
of all other real and personal property taxes.

16. In the event that an eligible owner dies or transfers ownership of the property after the
homestead exemption limit has been set in any given year, but prior to January first of the year in
which the credit would otherwise be applied, the credit shall be void and any corresponding
moneys, pursuant to subsection 12 of this section, shall lapse to the state to be credited to the
general revenue fund. In the event the collector of the county or the treasurer ex officio collector
of the county in counties with a township form of government determines prior to issuing the credit
that the individual is not an eligible owner because the individual did not pay the prior three years'
property tax liability in full, the credit shall be void and any corresponding moneys, under
subsection 11 of this section, shall lapse to the state to be credited to the general revenue fund.

Matter in bold-face type is proposed language.
17. This section shall apply to all tax years beginning on or after January 1, 2005. This subsection shall become effective June 28, 2004.

18. In accordance with the provisions of sections 23.250 to 23.298 and unless otherwise authorized pursuant to section 23.253:
   (1) Any new program authorized under the provisions of this section shall automatically sunset six years after the effective date of this section; and
   (2) This section shall terminate on September first of the year following the year in which any new program authorized under this section is sunset, and the revisor of statutes shall designate such sections and this section in a revision bill for repeal.]

[160.459. PROGRAM ESTABLISHED — DEFINITIONS — FUNDING FOR SCHOOLS, ELIGIBILITY — PROCEDURES ESTABLISHED — RULEMAKING AUTHORITY — FUND CREATED — SUNSET PROVISION. — 1. There is hereby established the "Rebuild Missouri Schools Program" under which the state board of education shall distribute no-interest funding to eligible school districts from moneys appropriated by the general assembly to the rebuild Missouri schools program fund for the purposes of this section to assist in paying the costs of emergency projects.

2. As used in this section, the following terms mean:
(1) "Eligible school district", any public school district that has one or more school facilities that have experienced severe damage or destruction due to an act of God or extreme weather events, including but not limited to tornado, flood, or hail;
(2) "Emergency project", reconstruction, replacement or renovation of, or repair to, any school facilities located in an area that has been declared a disaster area by the governor or President of the United States because of severe damage;
(3) "Fund", the rebuild Missouri schools fund created by this section and funded by appropriations of the general assembly;
(4) "Severe damage", such level of damage as to render all or a substantial portion of a facility within a school district unusable for the purpose for which it was being used immediately prior to the event that caused the damage.

3. Under rules and procedures established by the state board of education, eligible school districts may receive moneys from the fund to pay for the costs of one or more emergency projects.

4. Each eligible school district applying for such funding shall enter into an agreement with the state board of education which shall provide for all of the following:
(1) The funding shall be used only to pay the costs of an emergency project;
(2) The eligible school district shall pay no interest for the funding;
(3) The eligible school district shall, subject to annual appropriation as provided in this section, repay the amount of the funding to the fund in annual installments, which may or may not be equal in amount, not more than twenty years from the date the funding is received by the eligible school district. 5. The amount of funding awarded by the state board of education for any emergency project shall not exceed the cost of that emergency project less the amount of any insurance proceeds or other moneys received by the eligible school district as a result of the severe damage. If the eligible school district receives such insurance proceeds or other moneys after it receives funding under the rebuild Missouri schools program, it shall pay to the state board of education the amount by which the sum of the funding under the rebuild Missouri schools program plus the insurance proceeds and other moneys exceeds the cost of the emergency project. 8. The state board of education shall establish procedures, criteria, and deadlines for eligible school districts to follow in applying for assistance under this section. The state board of education shall promulgate rules and regulations necessary to implement this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. 9. There is hereby created in the state treasury the "Rebuild Missouri Schools Fund", which shall consist of money appropriated or collected under this section. The state treasurer shall be custodian of the fund and may approve disbursements from the fund in accordance with sections 30.170 and 30.180. fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state
treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any

The notice shall include:

(1) That the employer is operating under and subject to the provisions of the Missouri workers' compensation law;

(2) That employees must report all injuries immediately to the employer by advising the employer personally, the employer's designated individual or the employee's immediate boss, supervisor or foreman and that the employee may lose the right to receive compensation if the injury or illness is not reported within thirty days or in the case of occupational illness or disease, within thirty days of the time he or she is reasonably aware of work relatedness of the injury or illness; employees who fail to notify their employer within thirty days may jeopardize their ability to receive compensation, and any other benefits under this chapter;

Beginning October 31, 1993, and every year thereafter, the director of the division of workers' compensation shall estimate the amount of revenue required to administer this chapter and the director shall determine the rate of tax to be paid in the following calendar year pursuant to this section commencing with the calendar year beginning on January 1, 1994. If the balance of the fund estimated to be on hand on December thirty-first of the year each tax rate determination is made is less than one hundred ten percent of the previous year's expenses plus any additional revenue required due to new statutory requirements given to the division by the general assembly, then the director shall impose a tax not to exceed two percent in lieu of all other taxes on net deposits, net premiums or net assessments, rounded up to the nearest one-half of a percentage point, which amount of taxes shall be assessed and collected as herein provided. The net premium equivalent for individual self-insured employers and any group of political subdivisions of this state qualified to self-insure their liability pursuant to this chapter, shall be based on average rate classifications calculated by the department of insurance, financial institutions and professional registration as taken from premium rates filed by the twenty insurance companies providing the greatest volume of workers' compensation insurance coverage in this state. Every entity required to pay the tax imposed pursuant to this section and section 287.730 shall be notified by the division of workers' compensation within ten calendar days of the date of the determination of the rate of tax to be imposed for the following year.

premiums, net deposits or net assessments are defined as gross premiums, gross deposits or gross assessments less cancelled or returned premiums, premium deposits or assessments and less dividends or savings, actually paid or credited.

2. After January 1, 1994, the director of the division shall make one or more loans to the Missouri employers mutual insurance company in an amount not to exceed an aggregate amount of five million dollars from the fund maintained to administer this chapter for start-up funding and initial capitalization of the company. The board of the company shall make application to the director for the loans, stating the amount to be loaned to the company. The loans shall be for a term of five years and, at the time the application for such loans is approved by the director, shall bear interest at the annual rate based on the rate for linked deposit loans as calculated by the state treasurer pursuant to section 30.758.

287.715. ANNUAL SURCHARGE REQUIRED FOR SECOND INJURY FUND, AMOUNT, HOW COMPUTED, COLLECTION — VIOLATION, PENALTY — SUPPLEMENTAL SURCHARGE, AMOUNT. — 1. For the purpose of providing for revenue for the second injury fund, every authorized self-insurer, and every workers' compensation policyholder insured pursuant to the provisions of this chapter, shall be liable for payment of an annual surcharge in accordance with the provisions of this section. The annual surcharge imposed under this section shall apply to all workers' compensation insurance policies and self-insurance coverages which are written or renewed on or after April 26, 1988, including the state of Missouri, including any of its departments, divisions, agencies, commissions, and boards or any political subdivisions of the state who self-insure or hold themselves out to be any part self-insured. Notwithstanding any law to the contrary, the surcharge imposed pursuant to this section shall not apply to any reinsurance or retrocessional transaction.

2. Beginning October 31, 2005, and each year thereafter, the director of the division of workers' compensation shall estimate the amount of benefits payable from the second injury fund during the following calendar year and shall calculate the total amount of the annual surcharge to be imposed during the following calendar year upon all workers' compensation policyholders and authorized self-insurers. The amount of the annual surcharge percentage to be imposed upon each policyholder and self-insured for the following calendar year commencing with the calendar year beginning on January 1, 2006, shall be set at and calculated against a percentage, not to exceed three percent, of the policyholder's or self-insured's workers' compensation net deposits, net premiums, or net assessments for the previous policy year, rounded up to the nearest one-half of a percentage point, that shall generate, as nearly as possible, one hundred ten percent of the moneys to be paid from the second injury fund in the following calendar year, less any moneys contained in the fund at the end of the previous calendar year. All policyholders and self-insurers shall be notified by the division of workers' compensation within ten calendar days of the determination of the surcharge percent to be imposed for, and paid in, the following calendar year. The net premium equivalent for individual self-insured employers [and any group of political subdivisions of this state qualified to self-insure their liability pursuant to this chapter as authorized by section 537.620] shall be based on average rate classifications calculated by the department of insurance, financial institutions and professional registration as taken from premium rates filed by the twenty insurance companies providing the greatest volume of workers' compensation insurance coverage in this state. For employers qualified to self-insure their liability pursuant to this chapter, the rates filed by such group of employers in accordance with subsection 4 of section 287.280 shall be the net premium equivalent. Any group of political subdivisions of this state qualified to self-insure their liability pursuant to this chapter as authorized by section 537.620 may choose either the average rate classification

method or the filed rate method, provided that the method used may only be changed once without receiving the consent of the director of the division of workers' compensation. The director may advance funds from the workers' compensation fund to the second injury fund if surcharge collections prove to be insufficient. Any funds advanced from the workers' compensation fund to the second injury fund must be reimbursed by the second injury fund no later than December thirty-first of the year following the advance. The surcharge shall be collected from policyholders by each insurer at the same time and in the same manner that the premium is collected, but no insurer or its agent shall be entitled to any portion of the surcharge as a fee or commission for its collection. The surcharge is not subject to any taxes, licenses or fees.

3. All surcharge amounts imposed by this section shall be deposited to the credit of the second injury fund.

4. Such surcharge amounts shall be paid quarterly by insurers and self-insurers, and insurers shall pay the amounts not later than the thirtieth day of the month following the end of the quarter in which the amount is received from policyholders. If the director of the division of workers' compensation fails to calculate the surcharge by the thirty-first day of October of any year for the following year, any increase in the surcharge ultimately set by the director shall not be effective for any calendar quarter beginning less than sixty days from the date the director makes such determination.

5. If a policyholder or self-insured fails to make payment of the surcharge or an insurer fails to make timely transfer to the division of surcharges actually collected from policyholders, as required by this section, a penalty of one-half of one percent of the surcharge unpaid, or untransferred, shall be assessed against the liable policyholder, self-insured or insurer. Penalties assessed under this subsection shall be collected in a civil action by a summary proceeding brought by the director of the division of workers' compensation.

6. Notwithstanding subsection 2 of this section to the contrary, the director of the division of workers' compensation shall collect a supplemental surcharge not to exceed three percent for calendar years 2014 to 2021 of the policyholder's or self-insured's workers' compensation net deposits, net premiums, or net assessments for the previous policy year, rounded up to the nearest one-half of a percentage point. All policyholders and self-insurers shall be notified by the division of the supplemental surcharge percentage to be imposed for such period of time as part of the notice provided in subsection 2 of this section. The provisions of this subsection shall expire on December 31, 2021.

7. Funds collected under the provisions of this chapter shall be the sole funding source of the second injury fund.

354.603. SUFFICIENCY OF HEALTH CARRIER NETWORK, REQUIREMENTS, CRITERIA — ACCESS PLAN FILED WITH THE DEPARTMENT, WHEN. — 1. A health carrier shall maintain a network that is sufficient in number and types of providers to assure that all services to enrollees shall be accessible without unreasonable delay. In the case of emergency services, enrollees shall have access twenty-four hours per day, seven days per week. The health carrier's medical director shall be responsible for the sufficiency and supervision of the health carrier's network. Sufficiency shall be determined by the director in accordance with the requirements of this section and by reference to any reasonable criteria, including but not limited to provider-enrollee ratios by specialty, primary care provider-enrollee ratios, geographic accessibility, reasonable distance accessibility criteria for pharmacy and other services, waiting times for appointments with participating providers, hours of operation, and the volume of technological and specialty services available to serve the needs of enrollees requiring technologically advanced or specialty care.

(1) In any case where the health carrier has an insufficient number or type of participating providers to provide a covered benefit, the health carrier shall ensure that the enrollee obtains the covered benefit at no greater cost than if the benefit was obtained from a participating provider, or shall make other arrangements acceptable to the director.

(2) The health carrier shall establish and maintain adequate arrangements to ensure reasonable proximity of participating providers, including local pharmacists, to the business or personal residence of enrollees. In determining whether a health carrier has complied with this provision, the director shall give due consideration to the relative availability of health care providers in the service area under, especially rural areas, consideration.

(3) A health carrier shall monitor, on an ongoing basis, the ability, clinical capacity, and legal authority of its providers to furnish all contracted benefits to enrollees. (4) A health carrier shall make its entire network available to all enrollees unless a contract holder has agreed in writing to a different or reduced network.

The health carrier may request the director to deem sections of the access plan as proprietary or competitive information that shall not be made public. For the purposes of this section, information is proprietary or competitive if revealing the information will cause the
health carrier's competitors to obtain valuable business information. The health carrier shall provide such plans, absent any information deemed by the director to be proprietary, to any interested party upon request. The health carrier shall prepare an access plan prior to offering a new managed care plan, and shall update an existing access plan whenever it makes any change as defined by the director to an existing managed care plan. The director shall approve or disapprove the access plan, or any subsequent alterations to the access plan, within sixty days of filing. The access plan shall describe or contain at a minimum the following:

1. The health carrier's network;

3. The health carrier's process for monitoring and assuring on an ongoing basis the sufficiency of the network to meet the health care needs of enrollees of the managed care plan;
4. The health carrier's methods for assessing the health care needs of enrollees and their satisfaction with services;
5. The health carrier's method of informing enrollees of the plan's services and features, including but not limited to the plan's grievance procedures, its process for choosing and changing providers, and its procedures for providing and approving emergency and specialty care;
6. The health carrier's system for ensuring the coordination and continuity of care for enrollees referred to specialty physicians, for enrollees using ancillary services, including social services and other community resources, and for ensuring appropriate discharge planning;
7. The health carrier's process for enabling enrollees to change primary care professionals;
8. The health carrier's proposed plan for providing continuity of care in the event of contract termination between the health carrier and any of its participating providers, in the event of a reduction in service area or in the event of the health carrier's insolvency or other inability to continue operations. The description shall explain how enrollees shall be notified of the contract termination, reduction in service area or the health carrier's insolvency or other modification or cessation of operations, and transferred to other health care professionals in a timely manner; and
9. Any other information required by the director to determine compliance with the provisions of sections 354.600 to 354.636.

3. In reviewing an access plan filed pursuant to subsection 2 of this section, the director shall deem a managed care plan's network to be adequate if it meets one or more of the following criteria:

2. The managed care plan is being offered by a health carrier that has been accredited by the National Committee for Quality Assurance at a level of "accredited" or better, and such accreditation is in effect at the time the access plan is filed;
3. The managed care plan's network has been accredited by the Joint Commission on the Accreditation of Health Organizations for Network Adequacy, and such accreditation is in effect at the time the access plan is filed. If the accreditation applies to only a portion of the managed care plan's network, only the accredited portion will be deemed adequate; or
4. The managed care plan is being offered by a health carrier that has been accredited by the Utilization Review Accreditation Commission at a level of "accredited" or better, and such accreditation is in effect at the time the access plan is filed; or

2.    (1) Within forty-five processing days, as defined in 376.383, of receiving the health care professional's claim, the health carrier shall offer to pay the health care professional a reasonable reimbursement for unanticipated out-of-network care based on the health care professional's services. If the health care professional participates in one or more of the carrier's commercial networks, the offer of reimbursement for unanticipated out-of-network care shall be the amount from the network which has the highest reimbursement.

   (2) If the health care professional declines the health carrier's initial offer of reimbursement, the health carrier and health care professional shall have sixty days from the date of the initial offer of reimbursement to negotiate in good faith to attempt to determine the reimbursement for the unanticipated out-of-network care.

A claim for unanticipated out of network care may be resolved between the parties at any point prior to the commencement of the arbitration proceedings. Claims may be combined for purposes of arbitration, but only to the extent the claims represent similar circumstances and services provided by the same health care professional, and the parties attempted to resolve the dispute in accordance with subdivisions (2) through (4) of this subsection.

   (5) No health care professional who sends a claim to a health carrier under subsection 2 of this section shall send a bill to the patient for any difference between the reimbursement rate as determined under this subsection and the health care professional's billed charge.

3. When unanticipated out-of-network care is provided, the health care professional who sends a claim to a health carrier under subsection 2 of this section may bill a patient for no more than the cost-sharing requirements described under this section.

   (1) Cost-sharing requirements shall be based on the reimbursement amount as determined under subsection 2 of this section.

   (2) The patient's health carrier shall inform the health care professional of its enrollee's cost-sharing requirements within forty-five processing days of receiving a claim from the health care professional for services provided.

   (3) The in-network deductible and out-of-pocket maximum cost-sharing requirements shall apply to the claim for the unanticipated out-of-network care.

The arbitrator shall provide a copy of the final decision to the director. The initial request for arbitration, all correspondence and documents received by the Department and the final arbitration decision shall be considered a closed record under section 374.071. However, the director may release aggregated summary data regarding the arbitration process. The decision of the arbitrator shall not be considered an agency decision nor shall it be considered a contested case within the meaning of 536.010.

6. The arbitrator shall determine a dollar amount due under subsection 2 of this section between one hundred twenty percent of the Medicare allowed amount and the seventieth percentile of the usual and customary rate for the unanticipated out-of-network care, as determined by benchmarks from independent nonprofit organizations that are not affiliated with insurance carriers or provider organizations.

7. When determining a reasonable reimbursement rate, the arbitrator shall consider the following factors if the health care professional believes the payment offered for the unanticipated out-of-network care does not properly recognize:
   (1) The health care professional's training, education, or experience;
   (2) The nature of the service provided;
   (3) The health care professional's usual charge for comparable services provided;
   (4) The circumstances and complexity of the particular case, including the time and place the services were provided; and
   (5) The average contracted rate for comparable services provided in the same geographic area.

8. The enrollee shall not be required to participate in the arbitration process. The health care professional and health carrier shall execute a nondisclosure agreement prior to engaging in an arbitration under this section.

This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

Declares youth violence as a public health epidemic and declares June 7th as "Christopher Harris Day" in Missouri.

AN ACT relating to youth violence.

Be it enacted by the General Assembly of the state of Missouri, as follows:

WHEREAS, youth across this state are committing acts of violence against one another and throughout their communities; and

WHEREAS, a national survey by the Centers for Disease Control and Prevention (CDC) found that United States adults reported approximately 1.56 million incidents of victimization by perpetrators estimated to be between 12 and 20 years of age; and
WHEREAS, the CDC states, "Violence is a serious public health problem in the United States. From infants to the elderly, it affects people in all stages of life. In 2007, more than 18,000 people were victims of homicide and more than 34,000 took their own life."; and
WHEREAS, the CDC reports that many people survive violence and are left with permanent physical and emotional scars and that violence erodes communities by reducing productivity, decreasing property values, and disrupting social services; and
WHEREAS, a national initiative led by the CDC, Striving to Reduce Youth Violence Everywhere (STRYVE), assists communities in applying a public health perspective to preventing youth violence; and
WHEREAS, in 1985, former United States Surgeon General C. Everett Koop declared violence as a public health issue and called for the application of the science of public health to the treatment and prevention of violence; and
WHEREAS, in 2000, former United States Surgeon General David Satcher declared youth violence as a public health epidemic; and
WHEREAS, Dr. Satcher released a report that deems youth violence as a threat to public health and calls for federal, state, local, and private entities to invest in research on youth violence and for the use of the knowledge gained to inform intervention programs; and
WHEREAS, the report states that the public health approach to youth violence involves identifying risk and protective factors, determining how they work, making the public aware of these findings, and designing programs to prevent or stop the violence; and
WHEREAS, the 2000 public health report calls for national resolve to confront the problem of youth violence systematically; to facilitate entry of youth into effective intervention programs rather than incarceration; to improve public awareness of effective interventions; to convene youth, families, researchers, and public and private organizations for a periodic youth violence summit; to develop new collaborative multidisciplinary partnerships; and to hold periodic, highly visible national summits; and
WHEREAS, an individual’s characteristics, experiences, and environmental conditions during childhood and adolescence are an indicator of future violent behavior; and
WHEREAS, ages 15 through 18, the ages that students spend in high school, are the peak years of offending; and
WHEREAS, there is concern about high school dropout rates, academic performance, and violence in schools across this state; and
WHEREAS, according to the Yale School of Medicine Child Study Center, the Comer School Development Program offers low-achieving schools assistance in creating a conducive learning environment while providing a solid foundation for students; and
WHEREAS, the work of the Yale School of Medicine Child Study Center has demonstrated that, "When teachers, administrators, parents, and mature adults interact with students in a supportive school environment and culture and provide adequate instruction in a way that mediates physical, social-interactive, psycho-emotional, moral-ethical, linguistic and cognitive-intellectual development, acceptable academic achievement will take place."; and
WHEREAS, the Comer School Development Program is an operating system comprised of three teams: the School Planning and Management Team, the Student and Staff Support Team, and the Parent Team, which work together to create a comprehensive school plan; and
WHEREAS, the Comer School Development Program model is guided by three principles: decision-making by consensus, no-fault problem solving, and collaboration; and
WHEREAS, due to the violence epidemic, youth suffer from either primary or secondary trauma. Primary trauma is trauma associated with the violent death of a loved one. Secondary trauma results from exposure to violence present within their community; and
WHEREAS, exposure to violence in families and communities, as well as exposure to homicidal death, can lead to youth-specific post-traumatic stress disorder with complex effects as well as homicidal grief; and
WHEREAS, trauma is not easily visible within youth because it requires proper assessment and, due to the amount of violence youth are currently exposed to, measures should be taken to properly assess the issue; and
WHEREAS, the experience of trauma impacts children of all situations and conditions across this state; and
WHEREAS, in August 2007, the CDC deemed schools as providing "a critical opportunity for changing societal behavior because almost the entire population is engaged in this institution for many years, starting at an early and formative period" and "Universal school-based violence prevention programs represent an important means of reducing violent and aggressive behavior in the United States."

NOW THEREFORE BE IT RESOLVED that the members of the Missouri House of Representatives, Ninety-ninth General Assembly, Second Regular Session, the Senate concurring therein, hereby declare youth violence as a public health epidemic and support the establishment of statewide trauma-informed education; and

BE IT FURTHER RESOLVED that June seventh of each year shall be known and is designated as "Christopher Harris Day" in Missouri to remember children in St. Louis and throughout the state of Missouri lost to violence; and

BE IT FURTHER RESOLVED that this resolution be sent to the Governor for his approval or rejection pursuant to the Missouri Constitution.

SCR 36

Designates the month of August as Shingles Awareness and Prevention Month.

Relating to Shingles Awareness and Prevention Month in Missouri.

Whereas, herpes zoster (shingles) is a disease caused by the same virus (zoster) that causes chickenpox; therefore, any individual who has contracted chickenpox is at risk for shingles, corresponding to approximately ninety-eight percent of U.S. adults; and

Whereas, nearly one in three people in the United States will contract shingles in their lifetime, corresponding to an estimated one million people annually; and

Whereas, the risk of shingles increases with age, with nearly half of those affected being over sixty years old and half of people living until eighty-five years old developing shingles; and

Whereas, shingles is a viral infection that causes a painful rash that can be severe, along with other symptoms, including long-term nerve pain, fever, headache, chills, upset stomach, muscle weakness, skin infection, scarring, and a decrease or loss of vision or hearing; and

Whereas, as many as twenty percent of adults who have contracted shingles will develop postherpetic neuralgia, a debilitating complication of shingles that causes severe pain and that may interfere with sleep and recreational activities and be associated with clinical depression;

Whereas, vaccines have reduced the burden of widespread and often fatal diseases, enabling individuals to lead longer and healthier lives while reducing health care costs; and

Whereas, much attention has been paid to the importance of childhood vaccinations, but there is a general lack of awareness of adult-recommended vaccines and a misperception that immunizations are unnecessary for healthy adults; and

Whereas, the United States Centers for Disease Control and Prevention (CDC) and the Advisory Committee on Immunization Practices (ACIP) recommend that healthy adults fifty years and older be vaccinated against shingles to prevent shingles and shingles-related complications; and

Whereas, despite the recommendations of CDC officials and other experts that all healthy adults be vaccinated against shingles, as of 2015 only thirty percent of eligible adults had received the shingles vaccine; and

Whereas, the annual economic burden of shingles in American adults is estimated to be between $782 million and $5 billion; and

Whereas, the Institute of Medicine has stated that one of the six causes of excess costs in the U.S. health care system is missed prevention opportunities; and

Whereas, millions of American adults go without routine and recommended vaccinations because medical systems are not designed to ensure that adults receive regular preventive health care; and

Whereas, as the month of August is observed as National Immunization Awareness Month, residents of Missouri should be encouraged to speak with their health care provider to ensure that they have been properly vaccinated against shingles according to current CDC and ACIP recommendations:

Now, Therefore, Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, Second Regular Session, the House of Representatives concurring therein, hereby designate August as "Shingles Awareness and Prevention Month" in Missouri to increase public awareness of the importance of adults receiving vaccines against shingles and to promote outreach and education efforts concerning adult vaccinations; and

Be It Further Resolved that the Department of Health and Senior Services shall take appropriate action to promote Shingles Awareness and Prevention Month, including urging health care practitioners to discuss vaccines for shingles with adult patients and adopting appropriate programs and initiatives to raise public awareness of the importance of adult vaccinations; and
Be It Further Resolved that the Department of Health and Senior Services shall create and disseminate educational resources on shingles and shingles vaccinations to educate the residents of Missouri on vaccine-preventable diseases, including shingles; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to send a properly inscribed copy of this resolution to the Governor for his approval or rejection pursuant to the Missouri Constitution.

Whereas, the Bangert Island project initiative shall:

(1) Create 4,000 jobs for Missourians;
(2) Have a $1.5 billion economic impact;
(3) Provide for a riverfront recreational attraction;
(4) Provide for Missouri River aquatic habitat restoration; and

Whereas, the City of St. Charles desires to work with the United States Army Corps of Engineers to advance a Section 1135 Project, which would improve aquatic habitat and restore Bangert Island; and

Whereas, the City of St. Charles will cost share toward construction of the Bangert Island project:

Relating to an application to Congress for the calling of an Article V convention of states to propose an amendment to the United States Constitution regarding term limits for members of Congress.

Whereas, Article V of the Constitution of the United States requires a Convention to be called by the Congress of the United States for the purpose of proposing an amendment to the Constitution upon application of two-thirds of the Legislatures of the several states; and

Whereas, the Legislature of the State of Missouri favors a proposal and ratification of an amendment to said Constitution, which shall set a limit on the number of terms that a person may be elected as a member of the United States House of Representatives and as a member of the United States Senate:

Now, Therefore, Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, Second Regular Session, the House of Representatives concurring therein, hereby make an application to Congress, as provided by Article V of the Constitution of the United States of America, to call a convention limited to proposing an amendment to the Constitution of the United States of America to set a limit on the number of terms that a person may be elected as a member of the United States House of Representatives and to set a limit on the number of terms that a person may be elected as a member of the United States Senate; and

Be It Further Resolved that this application shall be considered as covering the same subject matter as the applications from other states to Congress to call a convention to set a limit on the number of terms that a person may be elected to the House of Representatives of the Congress of the United States and the Senate of the United States; and this application shall be aggregated with same for the purpose of attaining the two-thirds of states necessary to require Congress to call a limited convention on this subject, but shall not be aggregated with any other applications on any other subject; and

Urges the Missouri Public Service Commission to reaffirm state policies relating to natural gas hedging.

Whereas, Missouri statutes and regulations recognize that consumers of electricity benefit when electrical corporations can work in the financial markets and physical commodity markets to manage overall costs and price volatility through the established business practice of hedging; and
Whereas, the Missouri Public Service Commission has overseen electrical corporations serving Missouri for over a decade to ensure that fuels used to generate electricity are hedged appropriately and in consumers' best interest; and 

Whereas, due to numerous factors, including federal environmental policy shifts, consumer preferences for lower emission energy sources, and market dynamics, electric power generation is increasingly dependent on natural gas and will be for decades to come; and 

Whereas, while natural gas commodity prices and futures estimates are relatively low today, market forces outside of Missouri and the United States could cause declines in natural gas supplies, increased global competition for natural gas supplies, and unpredictable price hikes, or extended periods of price volatility; and 

Whereas, both financial investment strategies and ownership of natural gas fuel reserves are viable options for providing insurance against unexpended reductions in available natural gas supplies and unpredictable price rises and volatility: 

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, Second Regular Session, the House of Representatives concurring therein, hereby urge the Missouri Public Service Commission to reaffirm the state's policy of encouraging electrical corporations to act in consumers' best interests through prudent hedging of natural gas and other fuel inputs; and 

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the Chair of the Public Service Commission and each electrical corporation regulated by the Public Service Commission.

Official Ballot Title:

Do the people of the state of Missouri want to adopt Senate Bill 19 ("Right-to-Work") as passed by the general assembly in 2017, which prohibits as a condition of employment the forced membership in a labor organization (union) or forced payments of dues in full or pro-rata (fair-share); make any activity which violates employees' rights illegal and ineffective; allow legal remedies for anyone injured as a result of another person violating or threatening to violate employees' rights; and which shall not apply to union agreements entered into before the effective date of Senate Bill 19?

State and local government entities expect no costs or savings.

Fair Ballot Language:

A "yes" vote will adopt Senate Bill 19 ("right-to-work"), passed by the general assembly in 2017. If adopted, Senate Bill 19 will amend Missouri law to prohibit, as a condition of employment, forced membership in a labor organization (union) or forced payments of dues or fees, in full or pro-rata (fair-share), to a union. Senate Bill 19 will also make any activity which violates employees' rights provided by the bill illegal and ineffective and allow legal remedies for anyone injured as a result of another person violating or threatening to violate employees' rights. Senate Bill 19 will not apply to union agreements entered into before the effective date of Senate Bill 19, unless those agreements are amended or renewed after the effective date of Senate Bill 19.

A "no" vote will reject Senate Bill 19 ("right-to-work"), and will result in Senate Bill 19 not becoming Missouri law.

If passed, this measure will have no impact on taxes.

Adopted Amendments to the Constitution of Missouri 1989

NOVEMBER 6, 2018

CONSTITUTIONAL AMENDMENT NO. 1 — (Proposed by Initiative Petition)

Official Ballot Title:

Shall the Missouri Constitution be amended to:

- change process and criteria for redrawing state legislative districts during reapportionment;
- change limits on campaign contributions that candidates for state legislature can accept from individuals or entities;
- establish a limit on gifts that state legislators, and their employees, can accept from paid lobbyists;
- prohibit state legislators, and their employees, from serving as paid lobbyists for a period of time;
- prohibit political fundraising by candidates for or members of the state legislature on State property; and
- require legislative records and proceedings to be open to the public?

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities expect no fiscal impact.

Fair Ballot Language:

A "yes" vote will amend the Missouri Constitution to change the process and criteria for redrawing state legislative district boundaries during reapportionment (redistricting). Currently, bipartisan house and senate commissions redraw boundaries and those maps are adopted if 70% of the commissioners approve the maps. This amendment has a state demographer chosen from a panel selected by the state auditor redraw the boundaries and submit those maps to the house and senate commissions. This amendment would then allow changes to the demographer's maps only if 70% of the commissioners vote to make changes and do so within two months after receiving the maps from the state demographer. The amendment also reduces the limits on campaign contributions that candidates for state senator or state representative can accept from individuals or entities by $100 per election for a senate candidate and $500 for a house candidate. The amendment creates a $5 limit on gifts that state legislators and their employees can accept from paid lobbyists or the lobbyists' clients, and prohibits state legislators and their employees from serving as paid lobbyists for a period of two years after the end of their last legislative session. The amendment prohibits political fundraising by candidates for or members of the state legislature on State property. The amendment further requires all legislative records and proceedings to be subject to the state open meetings and records law (Missouri Sunshine Law).

A "no" vote will not amend the Missouri Constitution regarding redistricting, campaign contributions, lobbyist gifts, limits on lobbying after political service, fundraising locations, and legislative records and proceedings.

If passed, this measure will have no impact on taxes.
Amendment 1

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

SECTION A. ENACTING CLAUSE. — Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

SECTION 2. PROHIBITED ACTIVITIES BY GENERAL ASSEMBLY MEMBERS AND EMPLOYEES — CAMPAIGN CONTRIBUTION LIMITS AND RESTRICTIONS. — After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and
(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, “base year amount” shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.
(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

SECTION 3. STATE DEMOGRAPHER ESTABLISHED AND SELECTED — ELECTION OF REPRESENTATIVES — LEGISLATIVE DISTRICTS ESTABLISHED — CONGRESSIONAL DISTRICT COMMISSION. — (a) There is hereby established the post of “non-partisan state demographer.” The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant’s qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the non-partisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the non-partisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor’s list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the non-partisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.
1992 Laws of Missouri, 2018

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily, competitiveness. Partisan fairness means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. Competitiveness means that parties’ legislative representation shall be substantially and similarly responsive to shifts in the electorate’s preferences.

To this end, the non-partisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the non-partisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. Wasted votes are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the non-partisan state demographer shall ensure the difference between the two parties’ total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the non-partisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The non-partisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties’ total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), Districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be
Adopted Amendments to the Constitution of Missouri 1993

divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a)–(1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2). Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.
The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

SECTION 5. SENATORS — NUMBER — SENATORIAL DISTRICTS. — (a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

SECTION 7. SENATORIAL DISTRICTS ESTABLISHED — SENATORIAL APPORTIONMENT COMMISSION. — (1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.
(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.
Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

SECTION 19. LEGISLATIVE PRIVILEGES — LEGISLATIVE RECORDS — LEGISLATIVE PROCEEDINGS PUBLIC. — (a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the “Sunshine Law.” Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the “Sunshine Law.” Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

SECTION 20(c). POLITICAL FUNDRAISING PROHIBITED ON STATE PROPERTY. — No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.
SECTION 20(d). SEVERABILITY PROVISION. — If any provision of sections 2, 3, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

CONSTITUTIONAL AMENDMENT NO. 2 — (Proposed by Initiative Petition)

Official Ballot Title:

Shall the Missouri Constitution be amended to:

- allow the use of marijuana for medical purposes, and create regulations and licensing/certification procedures for marijuana and marijuana facilities;
- impose a 4 percent tax on the retail sale of marijuana; and
- use funds from these taxes for health and care services for military veterans by the Missouri Veterans Commission and to administer the program to license/certify and regulate marijuana and marijuana facilities?

This proposal is estimated to generate annual taxes and fees of $18 million for state operating costs and veterans programs, and $6 million for local governments. Annual state operating costs are estimated to be $7 million.

Fair Ballot Language:

A "yes" vote will amend the Missouri Constitution to allow the use of marijuana for medical purposes under state laws. This amendment does not change federal law, which makes marijuana possession, sale and cultivation a federal offense. This amendment creates regulations and licensing procedures for medical marijuana and medical marijuana facilities — dispensary, cultivation, testing and marijuana-infused product manufacturing facilities. This amendment creates licensing fees for such facilities. This amendment will impose a 4 percent tax on the retail sale of marijuana for medical purposes by dispensary facilities. The funds from the license fees and tax will be used by the Missouri Veterans Commission for health and care services for military veterans, and by the Department of Health and Senior Services to administer the program to license/certify and regulate marijuana and marijuana facilities.

A "no" vote will not amend the Missouri Constitution as to the use of marijuana.

If passed, this measure will impose a 4 percent retail sales tax on marijuana for medical purposes.
Amendment 2

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XVI is created by enacting one new section to be known as Section 1 of Article XVI, to read as follows:

**SECTION 1. RIGHT TO ACCESS MEDICAL MARIJUANA — 1. Purposes**

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a Qualifying Patient or Primary Caregiver to ensure that no medical marijuana grown by a Medical Marijuana Cultivation Facility or manufactured by a Medical Marijuana-Infused Products Manufacturing Facility is sold or otherwise transferred except by a Medical Marijuana Dispensary Facility. The Department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of Marijuana and Marijuana-Infused Products. (6) The fees and taxes provided for in this Article XVI, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of

**CONSTITUTIONAL AMENDMENT NO. 4.** — (Proposed by 99th General Assembly, Second Regular Session, HJR 59)

**Official Ballot Title:**

Do you want to amend the Missouri constitution to:

- remove language limiting bingo game advertising that a court ruled unenforceable; and
- allow a member of a licensed organization conducting bingo games to participate in the management of bingo games after being a member of the organization for six months instead of the current two years?

State and local governmental entities estimate no costs or savings from this proposal.
Adopted Amendments to the Constitution of Missouri 2011

Fair Ballot Language:
A "yes" vote will amend the Missouri Constitution to remove language limiting bingo game advertising that a court ruled was unconstitutional and not enforceable. This amendment would also allow a member of a licensed organization conducting bingo games to participate in the management of bingo games after being a member of the organization for six months. Currently, the constitution requires two years of membership.

A "no" vote will not amend the Missouri Constitution regarding bingo games.

If passed, this measure will have no impact on taxes.

Amendment 4
HJR 59

Proposes a constitutional amendment to reduce the amount of time a person is required to be a member of an organization in order to participate in the management of a bingo game.

JOINT RESOLUTION Submitting to the qualified voters of Missouri an amendment repealing section 39(a) of article III of the Constitution of Missouri, and adopting one new section in lieu thereof relating to bingo.

SECTION A. Enacting clause.
39(a). Bingo may be authorized — requirements.

Defeated Amendments to the Constitution of Missouri 2013

November 6, 2018

Constitutional Amendment No. 3 — (Proposed by Initiative Petition)

Official Ballot Title:

Shall the Missouri Constitution be amended to:

- allow the use of marijuana for medical purposes, and create regulations and licensing procedures for marijuana and marijuana facilities;
- impose a 15 percent tax on the retail sale of marijuana, and a tax on the wholesale sale of marijuana flowers and leaves per dry-weight ounce to licensed facilities; and
- use funds from these taxes to establish and fund a state research institute to conduct research with the purpose of developing cures and treatments for cancer and other incurable diseases or medical conditions?

This proposal is estimated to generate annual taxes and fees of $66 million. State governmental entities estimate initial implementation costs of $186,000 and increased annual operating costs of $500,000.

Fair Ballot Language:

A "yes" vote will amend the Missouri Constitution to allow the use of marijuana for medical purposes under state laws. This amendment does not change federal law, which makes marijuana possession, sale and cultivation a federal offense. This amendment makes Brad Bradshaw (the contact person on this initiative petition) the research chairperson of a newly created research institute that is funded by fees and taxes on medical marijuana. Brad Bradshaw will select the members of the board that will govern the research institute, which will issue regulations and licensing procedures for medical marijuana and medical marijuana facilities — dispensary, cultivation, and marijuana-infused product manufacturing facilities. This amendment creates licensing fees for such facilities. The amendment imposes a 15 percent tax on the retail sale of marijuana for medical purposes by dispensary facilities and a tax on the wholesale sale of marijuana flowers and leaves by cultivation facilities. The funds generated by the license fees and taxes will be used by the research institute for licensing and regulating marijuana and marijuana facilities, land acquisition and development, and conducting research with the purpose of developing cures and treatments for cancer and other incurable diseases.

A "no" vote will not amend the Missouri Constitution as to the use of marijuana.

If passed, this measure will impose an 15 percent retail sales tax on marijuana for medical uses and a wholesale sales tax on marijuana sold by medical marijuana cultivation facilities.

Adopted Statutory Initiative Petitions 2039

NOVEMBER 6, 2018

PROPOSITION B—(Proposed by Initiative Petition)

Official Ballot Title:

Do you want to amend Missouri law to:

- increase the state minimum wage to $8.60 per hour with 85 cents per hour increase each year until 2023, when the state minimum wage would be $12.00 per hour;
- exempt government employers from the above increase; and
- increase the penalty for paying employees less than the minimum wage?

State and local governments estimate no direct costs or savings from the proposal, but operating costs could increase by an unknown annual amount that could be significant. State and local government tax revenue could change by an unknown annual amount ranging from a $2.9 million decrease to a $214 million increase depending on business decisions.

Fair Ballot Language:

A "yes" vote will amend Missouri statutes to increase the state minimum wage rate as follows:

- $8.60 per hour beginning January 1, 2019;
- $9.45 per hour beginning January 1, 2020;
- $10.30 per hour beginning January 1, 2021;
- $11.15 per hour beginning January 1, 2022; and
- $12.00 per hour beginning January 1, 2023.

The amendment will exempt government employers from the above increases, and will increase the penalty for paying employees less than the minimum wage.

A "no" vote will not amend Missouri law to make these changes to the state minimum wage law.

If passed, this measure will have no impact on taxes.

Proposition B

Be it enacted by the people of the state of Missouri:

Sections 290.502 and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. MINIMUM WAGE RATE — INCREASE OR DECREASE, WHEN. — 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living.
living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $8.60 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $.85 per hour, effective January 1 of each of the next four years, until it reaches $12.00 per hour, effective January 1, 2023. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2024, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term “public employer” means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.527. ACTION FOR UNDERPAYMENT OF WAGES, EMPLOYEE MAY BRING — LIMITATION. — Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. SEVERABILITY CLAUSE. — Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

Proposition C — (Proposed by Initiative Petition)

Official Ballot Title:

Do you want to amend Missouri law to:

• remove state prohibitions on personal use and possession of medical cannabis (marijuana) with a written certification by a physician who treats a patient diagnosed with a qualifying medical condition;
• remove state prohibitions on growth, possession, production, and sale of medical marijuana by licensed and regulated facilities, and a facility's licensed owners and employees;
• impose a 2% tax on the retail sale of medical marijuana; and
• use funds from this tax for veterans' services, drug treatment, early childhood education, and for public safety in cities with a medical marijuana facility?

State government entities estimate initial and one-time costs of $2.6 million, annual costs of $10 million, and annual revenues of at least $10 million. Local government entities estimate no annual costs and are expected to have at least $152,000 in annual revenues.

Fair Ballot Language:

A "yes" vote will amend Missouri statutes to allow the use of marijuana for medical purposes under state laws. This amendment does not change federal law, which makes marijuana possession, sale and cultivation a federal offense. This amendment creates regulations and licensing procedures for medical marijuana and medical marijuana facilities — dispensary, cultivation and production, and testing facilities. This amendment creates licensing fees for such facilities. This amendment will impose a 2 percent tax on the retail sale of marijuana for medical purposes by dispensary facilities. The funds from the license fees will go to the Division of Liquor Control to administer the program to license/certify and regulate marijuana and marijuana facilities. The funds from the tax will be used for veterans' services, drug treatment, early childhood education, and for public safety in cities with a medical marijuana facility.

A "no" vote will not amend Missouri statutes as to the use of marijuana.

If passed, this measure will impose a 2% retail sales tax on marijuana for medical purposes.

(3) At the time of filing an application for issuance or renewal of a state medical cannabis center license, a medical cannabis cultivation and production facility license, or a medical cannabis testing facility license, an applicant shall submit a set of his or her fingerprints and file personal history information concerning the applicant’s qualifications for a state license on forms prepared by the division. The division shall submit the fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol shall forward the fingerprints to the Federal Bureau of Investigation
for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted in accordance with section 43.543, and fees shall be paid in accordance with section 43.530. The division may acquire a name-based criminal background check for an applicant or a license holder who has twice submitted to a fingerprint-based criminal background check and whose fingerprints are unclassifiable. The division shall use the information resulting from the fingerprint-based criminal history record check to investigate and determine whether an applicant is qualified to hold a state license under sections 195.900 to 195.985. The division may verify any of the information an applicant is required to submit.

195.930. The division or a local licensing authority shall not receive or act upon an application for the issuance of a state or local license under sections 195.900 to 195.985:

(1) If the application for a state or local license concerns a particular location that is the same as or within one thousand feet of a location for which, within the two years immediately preceding the date of the application, the division or a local licensing authority denied an application for the same class of license due to the nature of the use or other concern related to the location;

(2) Until it is established that the applicant is or shall be entitled to possession of the premises for which application is made under a lease, rental agreement, or other arrangement for possession of the premises or by virtue of ownership of the premises;

(3) For a location in an area where the cultivation, manufacture, and sale of medical cannabis as contemplated is not permitted under the applicable local zoning laws of the municipality or county;

The provisions of this subdivision shall not affect the renewal or reissuance of a license once granted nor shall the provisions of this subdivision apply to a license in effect and actively doing business before such school, college, university, playground, housing facility, licensed child care facility, youth center, public swimming pool, or video arcade was constructed.

(b) The distances referred to in this subdivision are to be computed by direct measurement from the nearest property line of the land used for a school, college, university, playground, housing facility, licensed child care facility, youth center, public swimming pool, or video arcade to the nearest portion of the building in which medical cannabis is to be cultivated, produced, or sold.

(c) In addition to the requirements of section 195.909, the local licensing authority shall consider the evidence and make a specific finding of fact as to whether the building in which the medical cannabis is to be cultivated, produced, or sold is located within the distance restrictions established by or under this subdivision.

195.933. 1. A state or local license granted under the provisions of sections 195.900 to 195.985 shall not be transferable except as provided in this section, but this section shall not prevent a change of location as provided in subsection 13 of section 195.936.

2. For a transfer of ownership, a license holder shall apply to the division and the local licensing authority on forms prepared and furnished by the division. In determining whether to permit a transfer of ownership, the division and the local licensing authority shall consider only the requirements of sections 195.900 to 195.985, any rules promulgated by the division, and any other local restrictions. The local licensing authority may hold a hearing on the application for transfer of ownership. The local licensing authority shall not hold a hearing under this subsection until the local licensing authority has posted a notice of hearing in the manner described in section 195.912.
Defeated Statutory Initiative Petitions

Any transfer of ownership hearing by the division shall be held in compliance with the requirements specified in section 195.912.

195.936. 1. Sections 195.900 to 195.985 authorize a county or municipality to enact reasonable regulations or other restrictions applicable to licenses of medical cannabis centers and medical cannabis cultivation and production facilities based on local zoning, health, safety, and public welfare laws for the distribution of medical cannabis that are more restrictive than sections 195.900 to 195.985.

2. A medical cannabis center and a medical cannabis cultivation and production facility shall not operate unless licensed by the local licensing authority and the state licensing authority under sections 195.900 to 195.985. In connection with a license, the applicant shall provide a complete and accurate list of all owners, officers, and employees who work at, manage, own, or are otherwise associated with the operation and shall provide a complete and accurate application as required by the division.

3. The owner, officer, or employee shall surrender his or her identification card to the division on or before the date of the notification.

4. A medical cannabis center and a medical cannabis cultivation and production facility shall notify the division in writing of the name, address, and date of birth of an owner, officer, manager, or employee before the new owner, officer, manager, or employee begins working at, managing, owning, or begins an association with the operation. The owner, officer, manager, or employee shall pass a fingerprint-based criminal background check as required by the division and obtain the required identification prior to being associated with, managing, owning, or working at the operation.

A medical cannabis center and a medical cannabis cultivation and production facility shall not acquire, possess, cultivate, deliver, transfer, transport, supply, or dispense cannabis for any purpose except to assist patients with qualifying medical conditions or to test the product at a medical cannabis testing facility, or as otherwise provided in section 195.900 to 195.985.

6. All owners of a licensed medical cannabis center and a licensed medical cannabis cultivation and production facility shall be authorized to do business in Missouri. A local licensing authority shall not issue a license provided for in sections 195.900 to 195.985 until that share of the license application fee due to the state has been received by the division. All licenses granted under sections 195.900 to 195.985 shall be valid for a period not to exceed one year from the date of issuance unless revoked or suspended under sections 195.900 to 195.985 or the rules promulgated under sections 195.900 to 195.985.

7. Before granting a local or state license, the respective licensing authority may consider, except where sections 195.900 to 195.985 specifically provide otherwise, the requirements of sections 195.900 to 195.985 and any rules promulgated under sections 195.900 to 195.985, and all other reasonable restrictions that are or may be placed upon the licensee by the licensing authority. With respect to a second or additional license for the same licensee or the same owner of another licensed business under sections 195.900 to 195.985, each licensing authority shall consider the effect on competition of granting or denying the additional licenses to such licensee and shall not approve an application for a second or additional license that has the effect of restraining competition.

8. (1) Each license issued under sections 195.900 to 195.985 is separate and distinct. It is unlawful for a person to exercise any of the privileges granted under a license other than the license that the person holds or for a licensee to allow any other person to exercise the privileges granted
under the licensee’s license. A separate license shall be required for each specific business or
business entity and each geographical location.

(2) At all times, a licensee shall possess and maintain possession of the premises for which the
license is issued by ownership, lease, rental, or other arrangement for possession of the premises.

9. (1) The licenses provided under sections 195.900 to 195.985 shall specify the date of
issuance, the period of licensure, the name of the licensee, and the premises licensed. The licensee
shall conspicuously display the license at all times on the licensed premises.

(2) A local licensing authority shall not transfer location of or renew a license to sell medical
cannabis until the applicant for the license produces a license issued and granted by the state
licensing authority covering the whole period for which a license or license renewal is sought.

10. In computing any period of time prescribed by sections 195.900 to 195.985, the day of the
act, event, or default from which the designated period of time begins to run shall not be included.

municipality for which the license was originally granted, or in the same county if the license was
granted for a place outside the corporate limits of a municipality, but it shall be unlawful to
cultivate, manufacture, distribute, possess, or sell medical cannabis at any such place until
permission to do so is granted by the division and the local licensing authority provided for in
sections 195.900 to 195.985.

(2) In permitting a change of location, the division and the local licensing authority shall
consider all reasonable restrictions that are or may be placed upon the new location by the
governing body or local licensing authority of the municipality or county; any such change in
location shall be in accordance with all requirements of sections 195.900 to 195.985 and rules

authority not less than forty-five days and to the division not less than thirty days prior to the date
of expiration. A local licensing authority shall not accept an application for renewal of a license
after the date of expiration, except as provided in subsection 2 of this section. The division may
extend the expiration date of the license and accept a late application for renewal of a license;
provided that, the applicant has filed a timely renewal application with the local licensing authority.
All renewals filed with the local licensing authority and subsequently approved by the local
licensing authority shall next be processed by the division. The division or the local licensing
authority, in its discretion, subject to the requirements of this section and based upon reasonable
grounds, may waive the forty-five-day or thirty-day time requirements set forth in this subsection.
The local licensing authority may hold a hearing on the application for renewal only if the licensee
has had complaints filed against it, has a history of violations, or there are allegations against the
licensee that constitute good cause.
(2) The local licensing authority shall not hold a renewal hearing provided for by this subsection for a medical cannabis center and a medical cannabis cultivation and production facility until it has posted a notice of hearing on the licensed medical cannabis center premises and the medical cannabis cultivation and production facility premises in the manner described in section 195.912 for a period of ten days and provided notice to the applicant at least ten days prior to the hearing. The local licensing authority may refuse to renew any license for good cause, subject to judicial review.

2. (1) Notwithstanding the provisions of subsection 1 of this section, a licensee whose license has been expired for not more than ninety days may file a late renewal application upon the payment of a nonrefundable late application fee of five hundred dollars to the local licensing authority. A licensee who files a late renewal application and pays the requisite fees may continue to operate until both the state and local licensing authorities have taken final action to approve or deny the licensee’s late renewal application.

(2) The state and local licensing authorities shall not accept a late renewal application more than ninety days after the expiration of a licensee’s permanent annual license. A licensee whose permanent annual license has been expired for more than ninety days shall not cultivate, manufacture, distribute, possess, or sell any medical cannabis until all required licenses have been obtained.

195.942. The division or local licensing authority may, in its discretion, revoke or elect not to renew any license if it determines that the licensed premises have been inactive without good cause for at least one year.

195.945. 1. The division, by rule, shall require a complete disclosure of all persons having a direct or indirect financial interest and the extent of such interest in each license issued under sections 195.900 to 195.985.

2. A person shall not have an unreported financial interest in a license under sections 195.900 to 195.985 unless such person has undergone a fingerprint-based criminal background check as provided for by the division in its rules; except that, this subsection shall not apply to banks, savings and loan associations, or industrial banks supervised and regulated by an agency of the state or federal government, or to FHA-approved mortgagees, or to stockholders, directors, or officers thereof.

The department shall develop a form for a patient to use in renewing his or her registry identification card.

(5) If the department grants a patient a waiver to allow a caregiver to transport the patient’s medical cannabis from a medical cannabis center to the patient, the department shall designate the waiver on the patient’s registry identification card.

(6) A homebound patient who receives a waiver from the department to allow a caregiver to transport the patient’s medical cannabis to the patient from a medical cannabis center shall provide the caregiver with the patient’s registry identification card, which the caregiver shall carry when the caregiver is transporting the medical cannabis. A medical cannabis center may provide the
medical cannabis to the caregiver for transport to the patient if the caregiver produces the patient’s registry identification card.

9. (l) The State of Missouri and the medical cannabis centers in this State which hold valid medical cannabis center licenses will recognize a nonresident card under the following circumstances:
   (a) The state or jurisdiction from which the holder or bearer obtained the nonresident card grants an exemption from criminal prosecution for the medical use of cannabis;
   (b) The state or jurisdiction from which the holder or bearer obtained the nonresident card requires, as a prerequisite to the issuance of such a card, that a physician advise the person that the person has a qualifying medical condition recognized by the state of Missouri;
   (c) The nonresident card has an expiration date and has not yet expired;
   (d) The state or jurisdiction from which the holder or bearer obtained the nonresident card maintains a database which preserves such information as may be necessary to verify the authenticity or validity of the nonresident card;
   (f) The division determines that the database described in paragraph (d) is able to provide to medical cannabis centers in this State information that is sufficiently accurate, current and specific as to allow those centers to verify that a person who holds or bears a nonresident card is entitled lawfully to do so; and
   (g) The holder or bearer of the nonresident card agrees to abide by, and does abide by, the legal limits on the possession of cannabis for medical purposes in this State, as set forth in 195.900.3(1).

2 For the purposes of the reciprocity described in this section:
   (a) The amount of medical cannabis that the holder or bearer of a nonresident card is entitled to possess in his or her state or jurisdiction of residence is irrelevant; and
   (b) Under no circumstances, while in this State, may the holder or bearer of a nonresident card possess cannabis for medical purposes in excess of the limits set forth in 195.900.3(1).

3 As used in this section, “nonresident card” means a card or other identification that:
   (a) Is issued by a state or jurisdiction other than Missouri; and
   (b) Is the functional equivalent of a registry identification card or letter of approval, as determined by the division.

10. (1) The use of medical cannabis is allowed under state law to the extent that it is carried out in accordance with sections 195.900 to 195.985 and the rules of the department.

2 A patient or caregiver shall not:
   (a) Engage in the medical use of cannabis in a way that endangers the health and well-being of a person;
   (b) Engage in the medical use of cannabis in plain view or in a place open to the general public;
   (c) Undertake any task while under the influence of medical cannabis, when doing so would constitute negligence or professional malpractice;
   (d) Possess medical cannabis or otherwise engage in the use of medical cannabis in or on the grounds of a school or in a school bus;
   (e) Engage in the use of medical cannabis while:
      a. In a correctional facility;
      b. Subject to a sentence to incarceration; or
      c. In a vehicle, aircraft, or motorboat.
   (f) Operate, navigate, or be in actual physical control of any vehicle, aircraft, or motorboat while under the influence of medical cannabis; or
(g) Use medical cannabis if the person does not have a qualifying medical condition as diagnosed by the person’s physician in the course of a bona fide physician-patient relationship that has been certified to the department.

(3) A person shall not establish a business to permit patients to congregate and smoke medical cannabis.

11. Only licensed medical cannabis cultivation and production facilities may cultivate medical cannabis.

12. If a patient raises an affirmative defense to prosecution under sections 195.900 to 195.985, the patient’s physician shall certify the specific amounts in excess of an adequate supply that are necessary to address the patient’s qualifying medical condition and why such amounts are necessary. A patient who asserts this affirmative defense shall waive confidentiality privileges related to the condition or conditions. If a patient, caregiver, or physician raises an exception to the state criminal laws, the patient, caregiver, or physician waives the confidentiality of his or her records related to the qualifying medical condition or conditions maintained by the department for the medical cannabis program. Upon request of a law enforcement agency for such records, the department shall only provide records pertaining to the individual raising the exception, and shall redact all other patient, caregiver, or physician identifying information.

13. (1) Except as provided in subdivision (2) of this subsection, the department shall establish a basic fee that shall be paid at the time of service of any subpoena upon the department, plus a fee for meals and a fee for mileage at the rate prescribed for state officers and employees, for each mile actually and necessarily traveled in going to and returning from the place named in the subpoena. If the person named in the subpoena is required to attend the place named in the subpoena for more than one day, there shall be paid, in advance, a sum to be established by the department for each day of attendance to cover the expenses of the person named in the subpoena.

(2) The subpoena fee established under subdivision (1) of the subsection shall not be applicable to any federal, state, or local governmental agency.

14. The department may collect fees from patients who apply to the medical cannabis program for a cannabis registry identification card for the purpose of offsetting the department’s direct and indirect costs of administering the program. The amount of such fees shall be set by rule of the department. The amount of the fees set under this section shall reflect the actual direct and indirect costs of the department in the administration and enforcement of this section. All fees collected by the department through the medical cannabis program shall be transferred to the state treasurer who shall credit the same to the medical cannabis program account within the medical cannabis license cash fund created in section 195.963.

195.982. 1. No individual or health care entity organized under the laws of this state shall be subject to any adverse action by the state or any agency, board, or subdivision thereof, including civil or criminal prosecution, denial of any right or privilege, the imposition of a civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission if such individual or employee or agent of the health care facility, in its normal course of business and within its applicable licenses and regulations, certifies a qualifying medical condition for an applicant to the medical cannabis program under sections 195.900 to 195.985.

2. A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

3. A health care provider shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing health care services that involve the medical use of cannabis consistent with this section and legal standards of professional conduct.
4. A testing laboratory shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of cannabis consistent with this section and otherwise meeting legal standards of professional conduct.

5. A caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering cannabis for medical use by a qualifying patient under the provisions of sections 195.900 to 195.985.

6. An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for providing legal assistance to prospective or licensed medical cannabis cultivation and productive facilities, medical cannabis centers, medical cannabis testing facilities, qualifying patients, caregivers, physicians, health care providers, or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

7. Actions and conduct by duly registered or licensed qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, and medical cannabis testing facilities or their employees or agents, as permitted by this section and in compliance with division and department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

8. Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of cannabis.

9. It is the public policy of the state of Missouri that contracts related to cannabis for medical use that are entered into by qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, or medical cannabis testing facilities and those who allow property to be used by those entities, shall be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, medical cannabis testing facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical cannabis may be prohibited by federal law.

10. Real property used in the cultivation, manufacture, testing, distribution, sale, possession and administration of cannabis for medical use shall not be subject to asset forfeiture solely because of that use.

195.984. 1. (1) The division of alcohol and tobacco control may summarily suspend a license issued under sections 195.900 to 195.985 prior to a hearing in order immediately to stop or restrict operations by a licensee to protect the public health, safety, or welfare. The division may rescind or amend a summary suspension.

(2) If, based upon inspection, affidavits, or other evidence, the division determines that a licensee or the products prepared by a licensee pose an immediate or serious threat to the public health, safety, or welfare, the division may summarily suspend a license:

(a) Requiring cessation or restriction of any or all licensee operations and prohibiting the use of medical cannabis produced by such licensee; or

(b) Placing restrictions on a licensee to the extent necessary to avert a continued threat, pending final investigation results.

(3) The requirements of the summary suspension shall remain in effect until the division rescinds or amends such requirements or until such time as the division takes final action on any related pending complaint and issues a final decision.
2. The department of health and senior services may summarily suspend any registration issued under section 195.981, pending further proceedings for denial of renewal or revocation of a registration, whenever the department finds that the continued registration poses an imminent danger to the public health, safety, or welfare.

195.985. 1. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in sections 195.900 to 195.985 shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. Sections 195.900 to 195.985 and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after November 6, 2018, shall be invalid and void.

2. If any provision of sections 195.900 to 195.985 or its application to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of sections 195.900 to 195.985 which can be given full effect without the invalid provision or application, and to this end the provisions of sections 195.900 to 195.985 are severable.

263.250. 1. The plant “marijuana”, botanically known as cannabis sativa, is hereby declared to be a noxious weed and all owners and occupiers of land shall destroy all such plants growing upon their land. Any person who knowingly allows such plants to grow on his land or refuses to destroy such plants after being notified to do so shall allow any sheriff or such other persons as designated by the county commission to enter upon any land in this state and destroy such plants.

2. Entry to such lands shall not be made, by any sheriff or other designated person to destroy such plants, until fifteen days’ notice by certified mail shall be given the owner or occupant to destroy such plants or a search warrant shall be issued on probable cause shown. In all such instances, the county commission shall bear the cost of destruction and notification.

3. The provisions of this section shall not apply to the authorized cultivation and production of cannabis plants for purposes of providing medical cannabis under sections 195.900 to 195.985.

311.610. 1. For the purpose of carrying out the provisions of this chapter [and], the liquor control law, and sections 195.900 to 195.985 the governor, by and with the advice and consent of the senate, shall appoint some suitable person of good moral character over the age of thirty years, who has been a qualified elector in the state of Missouri for at least five years next before the date of his appointment, as supervisor of liquor control. The supervisor of liquor control shall serve at the pleasure and under the supervision and direction of the governor.

2. The supervisor of liquor control shall devote his entire time to the duties of his office and, with the approval of the governor, appoint and employ all agents, assistants, deputies, inspectors and employees necessary for the proper enforcement and administration of the provisions of the liquor control law whose salaries shall be fixed by the governor, but no salary shall be greater than that paid to employees in other state departments for similar work, except that no salary of an agent directly engaged in the enforcement of the liquor control law shall be less than eight thousand dollars a year. In addition to his salary, the supervisor of liquor control and each of the agents, assistants, deputies, inspectors and employees shall be reimbursed for all expenses necessarily incurred in the discharge of their duties. No expenses shall be allowed for sustenance to any supervisor, agent, assistant, deputy, inspector or employee while in the city or town of his residence.

3. 2. No agent, assistant, deputy or inspector so appointed shall hold any other commission or 
office, elective or appointive or accept any other employment compensation while he is an

of this State, and they shall each give bond to be approved by the supervisor of liquor control for 
faithful performance of the duties of their respective offices and to safely keep and account for all 
moneys and property received by them. This bond shall be in the sum of five thousand dollars, and 
the cost of furnishing all such bonds shall be paid by the state.

4. Any agent, assistant, deputy or inspector of the department of liquor control who shall 
violate the provisions of this chapter shall be immediately discharged.

311.630. 1. The supervisor of alcohol and tobacco control and employees to be selected and 
designated as peace officers by the supervisor of alcohol and tobacco control are hereby declared 
to be peace officers of the state of Missouri, with full power and authority to make arrests and 
searches and seizures only for violations of the provisions of this chapter relating to intoxicating 
liquors, [and] sections 407.924 to 407.934 relating to tobacco products, and sections 195.900 to 
195.985 and to serve any process connected with the enforcement of such laws. The peace officers

all times while on duty. The names of the peace officers so designated shall be made a matter of public record in the office of the supervisor of alcohol and tobacco control.

3. All fees for the arrest and transportation of persons arrested and for the service of writs and process shall be the same as provided by law in criminal proceedings and shall be taxed as costs.

311.660. 1. (1) Fix and determine the nature, form and capacity of all packages used for containing intoxicating liquor of any kind, to be kept or sold under this law;

(2) Prescribe an official seal and label and determine the manner in which such seal or label shall be attached to every package of intoxicating liquor so sold under this law; this includes prescribing different official seals or different labels for the different classes, varieties or brands of intoxicating liquor;

(3) Prescribe all forms, applications and licenses and such other forms as are necessary to carry out the provisions of this chapter, except that when a licensee substantially complies with all requirements for the renewal of a license by the date on which the application for renewal is due, such licensee shall be permitted at least an additional ten days from the date notice is sent that the application is deficient, in which to complete the application;

(4) Prescribe the terms and conditions of the licenses issued and granted under this law;

(5) Prescribe the nature of the proof to be furnished and conditions to be observed in the issuance of duplicate licenses, in lieu of those lost or destroyed;

(6) Establish rules and regulations for the conduct of the business carried on by each specific licensee under the license, and such rules and regulations if not obeyed by every licensee shall be grounds for the revocation or suspension of the license;

**PROPOSITION D** — (Proposed by the 99th General Assembly, Second Regular Session, HB 1460)

*Official Ballot Title:*

Shall Missouri law be amended to fund Missouri state law enforcement by increasing the motor fuel tax by two and one half cents per gallon annually for four years beginning July 1, 2019, exempt Special Olympic, Paralympic, and Olympic prizes from state taxes, and to establish the Emergency State Freight Bottleneck Fund?

If passed, this measure will generate at least $288 million annually to the State Road Fund to provide for the funding of Missouri state law enforcement and $123 million annually to local governments for road construction and maintenance.

*Fair Ballot Language:*

A “yes” vote will amend Missouri statutes to fund the Missouri State Highway Patrol’s enforcement and administration of motor vehicle laws and traffic regulations. The source of the funding will be revenue from an increased state tax on motor fuel (including gasoline, diesel fuel, kerosene, and blended fuel). The current state motor fuel tax rate is seventeen (17) cents per gallon. The amendment will increase the rate as follows:

- Nineteen and one-half (19.5) cents per gallon beginning July 1, 2019;
- Twenty-two (22) cents per gallon beginning July 1, 2020;
- Twenty-four and one-half (24.5) cents per gallon beginning July 1, 2021;
- Twenty-seven (27) cents per gallon beginning July 1, 2022.

The amendment will also increase the tax on alternative fuels used for motor vehicles (including compressed natural gas, liquid natural gas, and propane gas). The amendment will increase the rate from seventeen (17) cents to twenty-seven (27) cents per unit equivalent to a gallon of gasoline or diesel beginning January 1, 2026.

The amendment will require the state auditor to audit the state’s use of the revenue generated by these taxes every two years.

Additionally, the amendment will allow a state income tax deduction for the value of any prize or award won in the Olympics, Paralympics, or Special Olympics; and it will create an “Emergency State Freight Bottleneck Fund,” which will be dedicated to financing road improvement projects in the state.

A “no” vote will not amend Missouri statutes to increase the motor fuel tax, exempt certain prizes from state taxes or establish the Emergency State Freight Bottleneck Fund.

If passed, this measure will increase taxes on motor fuel.

(22) By January 1, 1988, the department of social services and the department of health and senior services shall study all significant aspects of presumptive eligibility for pregnant women and submit a joint report on the subject, including projected costs and the time needed for implementation, to the general assembly. Section 1396af(r)(2), shall be used to raise the income limit to one hundred percent of the federal poverty level;

(c) All persons who would be determined to be eligible for permanent and total disability benefits under the eligibility standards in effect December 31, 1973, as authorized by 42 U.S.C. Section 1396af(f); or less restrictive methodologies as contained in the MO HealthNet state plan as of January 1, 2005; except that, on or after July 1, 2005, less restrictive income methodologies, as authorized in 42 U.S.C.
Section 1396a(r)(2), may be used to change the income limit if authorized by annual appropriations. Eligibility standards for permanent and total disability benefits shall not be limited by age:

(25) Persons who have been diagnosed with breast or cervical cancer and who are eligible for coverage pursuant to 42 U.S.C. Section 1396a(a)(10)(A)(ii)(XVIII). Such persons shall be eligible during a period of presumptive eligibility in accordance with 42 U.S.C. Section 1396r-1;

2. Rules and regulations to implement this section shall be promulgated in accordance with chapter 536. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2002, shall be invalid and void.

3. After December 31, 1973, and before April 1, 1990, any family eligible for assistance pursuant to 42 U.S.C. Section 601, et seq., as amended, in at least three of the last six months immediately preceding the month in which such family became ineligible for such assistance because of increased income from employment shall, while a member of such family is employed, remain eligible for MO HealthNet benefits for four calendar months following the month in which such family would otherwise be determined to be ineligible for such assistance because of income and resource limitation. After April 1, 1990, any family receiving aid pursuant to 42 U.S.C. Section 601, et seq., as amended, in at least three of the six months immediately preceding the month in which such family becomes ineligible for such aid, because of hours of employment or income from employment of the caretaker relative, shall remain eligible for MO HealthNet benefits for six calendar months following the month of such ineligibility as long as such family includes a child as provided in 42 U.S.C. Section 1396r-6. Each family which has received such medical assistance during the entire six-month period described in this section and which meets reporting requirements and income tests established by the division and continues to include a child as provided in 42 U.S.C. Section 1396r-6 shall receive MO HealthNet benefits without fee for an additional six months. The MO HealthNet division may provide by rule and as authorized by annual appropriation the scope of MO HealthNet coverage to be granted to such families.

4. When any individual has been determined to be eligible for MO HealthNet benefits, such medical assistance will be made available to him or her for care and services furnished in or after the third month before the month in which he made application for such assistance if such individual was, or upon application would have been, eligible for such assistance at the time such care and services were furnished; provided, further, that such medical expenses remain unpaid.

5. The department of social services may apply to the federal Department of Health and Human Services for a MO HealthNet waiver amendment to the Section 1115 demonstration waiver or for any additional MO HealthNet waivers necessary not to exceed one million dollars in additional costs to the state, unless subject to appropriation or directed by statute, but in no event shall such waiver applications or amendments seek to waive the services of a rural health clinic or a federally qualified health center as defined in 42 U.S.C. Section 1396d(l)(1) and (2) or the payment requirements for such clinics and centers as provided in 42 U.S.C. Section 1396a(bb) unless such waiver application is approved by the oversight committee created in section 208.955. A request for such a waiver so

submitted shall only become effective by executive order not sooner than ninety days after the final adjournment of the session of the general assembly to which it is submitted, unless it is disapproved within sixty days of its submission to a regular session by a senate or house resolution adopted by a majority vote of the respective elected members thereof, unless the request for such a waiver is made subject to appropriation or directed by statute.

6. Notwithstanding any other provision of law to the contrary, in any given fiscal year, any persons made eligible for MO HealthNet benefits under subdivisions (1) to (22) of subsection 1 of this section shall only be eligible if annual appropriations are made for such eligibility. This subsection shall not apply to classes of individuals listed in 42 U.S.C. Section 1396a(a)(10)(A)(I).

217.703. Earned Compliance Credits Awarded, When.—1. The division of probation and parole shall award earned compliance credits to any offender who is:

   (1) Not subject to lifetime supervision under sections 217.735 and 559.106 or otherwise found to be ineligible to earn credits by a court pursuant to subsection 2 of this section;

   (2) On probation, parole, or conditional release for an offense listed in chapter 579, or an offense previously listed in chapter 195, or for a class D or E felony, excluding sections 565.225, 565.252, 566.031, 566.061, 566.083, 566.093, 568.020, 568.060, offenses defined as sexual assault under section 589.015, deviate sexual assault, assault in the second degree under subdivision (2) of subsection 1 of section 565.052, endangering the welfare of a child in the first degree under subdivision (2) of subsection 1 of section 568.045, and any offense of aggravated stalking or assault in the second degree under subdivision (2) of subsection 1 of section 565.060 as such offenses existed prior to January 1, 2017;

   (3) Supervised by the division of probation and parole; and

   (4) In compliance with the conditions of supervision imposed by the sentencing court or board.

2. If an offender was placed on probation, parole, or conditional release for an offense of:

   (1) Involuntary manslaughter in the second degree;

   (2) Assault in the second degree except under subdivision (2) of subsection 1 of section 565.052 or section 565.060 as it existed prior to January 1, 2017;

   (3) Domestic assault in the second degree;

   (4) Assault in the third degree when the victim is a special victim or assault of a law enforcement officer in the second degree as it existed prior to January 1, 2017;

   (5) Statutory rape in the second degree;

   (6) Statutory sodomy in the second degree;

   (7) Endangering the welfare of a child in the first degree under subdivision (1) of subsection 1 of section 568.045; or

   (8) Any case in which the defendant is found guilty of a felony offense under chapter 571, the sentencing court may, upon its own motion or a motion of the prosecuting or circuit attorney, make a finding that the offender is ineligible to earn compliance credits because the nature and circumstances of the offense or the history and character of the offender indicate that a longer term of probation, parole, or conditional release is necessary for the protection of the public or the guidance of the offender. The motion may be made any time prior to the first month in which the person may earn compliance credits under this section or at a hearing under subsection 5 of this section. The offender's ability to earn credits shall be suspended until the court or board makes its finding. If the court or board finds that the offender is eligible for earned compliance credits, the credits shall begin to accrue on the first day of the next calendar month following the issuance of the decision.

3. Earned compliance credits shall reduce the term of probation, parole, or conditional release by thirty days for each full calendar month of compliance with the terms of supervision. Credits shall begin to accrue for eligible offenders after the first full calendar month of supervision or on October 1, 2012, if the offender began a term of probation, parole, or conditional release before September 1, 2012.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
4. For the purposes of this section, the term "compliance" shall mean the absence of an initial violation report or notice of citation submitted by a probation or parole officer during a calendar month, or a motion to revoke or motion to suspend filed by a prosecuting or circuit attorney, against the offender.

5. Credits shall not accrue during any calendar month in which a violation report, which may include a report of absconder status, has been submitted, the offender is in custody, or a motion to revoke or motion to suspend has been filed, and shall be suspended pending the outcome of a hearing, if a hearing is held. If no hearing is held, or if a hearing is held and the offender is continued under supervision, or the court or board finds that the violation did not occur, then the offender shall be deemed to be in compliance and shall begin earning credits on the first day of the next calendar month following the month in which the report was submitted or the motion was filed. If a hearing is held, all earned credits shall be rescinded if:

   (1) The court or board revokes the probation or parole or the court places the offender in a department program under subsection 4 of section 559.036 or under section 217.785; or
   (2) The offender is found by the court or board to be ineligible to earn compliance credits because the nature and circumstances of the violation indicate that a longer term of probation, parole, or conditional release is necessary for the protection of the public or the guidance of the offender.

Earned credits, if not rescinded, shall continue to be suspended for a period of time during which the court or board has suspended the term of probation, parole, or release, and shall begin to accrue on the first day of the next calendar month following the lifting of the suspension.

6. Offenders who are deemed by the division to be absconders shall not earn credits. For purposes of this subsection, "absconder" shall mean an offender under supervision whose whereabouts are unknown and who has left such offender's place of residency without the permission of the offender's supervising officer and without notifying of their whereabouts for the purpose of avoiding supervision. An offender shall no longer be deemed an absconder when such offender is available for active supervision.

7. Notwithstanding subsection 2 of section 217.730 to the contrary, once the combination of time served in custody, if applicable, time served on probation, parole, or conditional release, and earned compliance credits satisfy the total term of probation, parole, or conditional release, the board or sentencing court shall order final discharge of the offender, so long as the offender has completed restitution and at least two years of his or her probation, parole, or conditional release, which shall include any time served in custody under section 217.718 and sections 559.036 and 559.115.

8. The award or rescission of any credits earned under this section shall not be subject to appeal or any motion for postconviction relief.

9. At least twice a year, the division shall calculate the number of months the offender has remaining on his or her term of probation, parole, or conditional release, taking into consideration any earned compliance credits, and notify the offender of the length of the remaining term.

10. No less than sixty days before the date of final discharge, the division shall notify the sentencing court, the board, and, for probation cases, the circuit or prosecuting attorney of the impending discharge. If the sentencing court, the board, or the circuit or prosecuting attorney upon receiving such notice does not take any action under subsection 5 of this section, the offender shall be discharged under subsection 7 of this section.

11. Any offender who was sentenced prior to January 1, 2017, to an offense that was eligible for earned compliance credits under subsection 1 or 2 of this section at the time of sentencing shall continue to remain eligible for earned compliance credits so long as the offender meets all the other requirements provided under this section.

12. The application of earned compliance credits shall be suspended upon entry into a treatment court, as described in sections 478.001 to 478.009, and shall remain suspended until the

Any circuit court, or any county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants with a county municipal court established under section 66.010, may establish a [docket or] DWI court within the treatment court division to provide an alternative for the judicial system to dispose of cases in which a person has pleaded guilty to driving while intoxicated or driving with excessive blood alcohol content and:

In such case, any and all necessary additional costs may be assessed against the participant. No person shall be rejected from participating in DWI court solely for the reason that the person does not reside in the city or county where the applicable DWI court is located but the DWI court can base acceptance into a treatment court program on its ability to adequately provide services for the person or handle the additional caseload.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Chapters 161 and 170, RSMo, are amended by adding thereto two new sections, to be known as sections 161.261 and 170.018, to read as follows:

161.261. STEM CAREER AWARENESS, PROGRAM ESTABLISHED, PURPOSE — ONLINE PROGRAM, CRITERIA — FUND CREATED — RULEMAKING AUTHORITY. — 1. Subject to appropriation, the department of elementary and secondary education shall establish a statewide program to be known as the "STEM Career Awareness Program" to increase STEM career awareness among students in grades six through eight. For purposes of this section, "STEM" means science, technology, engineering, and mathematics.

2. The department of elementary and secondary education shall promote the statewide program beginning in the 2019-20 school year. The program shall introduce students to a wide variety of STEM careers and technology through an online-based STEM curriculum.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.
3. By January 1, 2019, the department of elementary and secondary education shall solicit proposals for the online program. By March 1, 2019, the department of elementary and secondary education shall select a provider for the online program. The program selected shall meet a majority of the following criteria:

   (1) The program introduces students to a wide variety of STEM careers and technologies;
   (2) The curriculum is designed for flexible implementation in a wide variety of classrooms, including science, math, English, and social studies, through lessons that emphasize the application of STEM careers in such contexts;
   (3) The curriculum demonstrates how math and language arts skills appropriate to middle schools are used by STEM careers, making classroom instruction relevant to students interested in STEM careers;
   (4) The program produces analytic reports for individual students and for classes, including an analysis of performance against individual math and language arts skills objectives;
   (5) The curriculum is available in a self-paced online format; and
   (6) The program includes web-based professional development for school staff.

4. Notwithstanding subsections 2 and 3 of this section, the department of elementary and secondary education may choose a third-party nonprofit entity to implement the statewide program, solicit proposals, and select a provider as described under subsection 3 of this section.

5. There is hereby created in the state treasury the "STEM Career Awareness Program Fund". The fund shall consist of any appropriations, gifts, bequests, or public or private donations to such fund. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements of public moneys in accordance with distribution requirements and procedures developed by the department of elementary and secondary education. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of this section. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

6. The department of elementary and secondary education may promulgate all necessary rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after the effective date of this section shall be invalid and void.

170.018. COMPUTER SCIENCE, ACADEMIC CREDIT FOR MATH, SCIENCE, OR PRACTICAL ARTS — WORK GROUP — ENDORSEMENT ON TEACHER CERTIFICATE — FUND, GRANTS — RULEMAKING AUTHORITY. — 1. (1) For purposes of this section, "computer science course" means a course in which students study computers and algorithmic processes, including their principles, hardware and software designs, implementation, and impact on society.

(2) The department of elementary and secondary education shall, before July 1, 2019, develop a high school graduation policy that allows a student to fulfill one unit of academic credit with a district-approved computer science course meeting the standards of subsection 2 of this section for any mathematics, science, or practical arts unit required for high school graduation. The policy shall require that all students have either taken all courses that require end-of-course
examinations for math and science or are on track to take all courses that require end-of-course examinations for math and science under the Missouri school improvement program in order to receive credit toward high school graduation under this subsection.

(3) A school district shall communicate to students electing to use a computer science course for a mathematics unit that some institutions of higher education may require four units of academic credit in mathematics for college admission. The parent, guardian, or legal custodian of each student who chooses to take a computer science course to fulfill a unit of academic credit in mathematics shall sign and submit to the school district a document containing a statement acknowledging that taking a computer science course to fulfill a unit of academic credit in mathematics may have an adverse effect on college admission decisions.

(4) The department of elementary and secondary education and the department of higher education shall cooperate in developing and implementing academic requirements for computer science courses offered in any grade or grades not lower than the ninth nor higher than the twelfth grade.

2. (1) The department of elementary and secondary education shall convene a work group to develop and recommend rigorous academic performance standards relating to computer science for students in kindergarten and in each grade not higher than the twelfth grade. The work group shall include, but not be limited to, educators providing instruction in kindergarten or in any grade not higher than the twelfth grade and representatives from the department of elementary and secondary education, the department of higher education, business and industry, and institutions of higher education. The department of elementary and secondary education shall develop written curriculum frameworks relating to computer science that may be used by school districts. The requirements of section 160.514 shall not apply to this section.

(2) The state board of education shall adopt and implement academic performance standards relating to computer science beginning in the 2019-20 school year.

3. Before July 1, 2019, the department of elementary and secondary education shall develop a procedure by which any teacher who holds a certificate of license to teach under section 168.021 and demonstrates sufficient content knowledge of computer science shall receive a special endorsement on his or her license signifying his or her specialized knowledge in computer science.

4. (1) For purposes of this subsection, "eligible entity" means:

(a) A local educational agency, or a consortium of local educational agencies, in the state, including charter schools that have declared themselves local educational agencies;

(b) An institution of higher education in the state; or

(c) A nonprofit or private provider of nationally recognized and high-quality computer science professional development, as determined by the department of elementary and secondary education.

(2) There is hereby created in the state treasury the "Computer Science Education Fund". The fund shall consist of all moneys that may be appropriated to it by the general assembly and any gifts, contributions, grants, or bequests received from private or other sources for the purpose of providing teacher professional development programs relating to computer science. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of grants to eligible entities as described in this section. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.
(3) The state board of education shall award grants from the computer science education fund to eligible entities for the purpose of providing teacher professional development programs relating to computer science. An eligible entity wishing to receive such a grant shall submit an application to the department of elementary and secondary education addressing how the entity plans to:

(a) Reach new and existing teachers with little computer science background;
(b) Use effective practices for professional development;
(c) Focus the training on the conceptual foundations of computer science;
(d) Reach and support historically underrepresented students in computer science;
(e) Provide teachers with concrete experience with hands-on, inquiry-based practices; and
(f) Accommodate the particular needs of students and teachers in each district and school.

5. The department of elementary and secondary education shall promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after the effective date of this section shall be invalid and void.
